American Chemical Society Defined Contribution Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of American Chemical Society Defined Contribution Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of American Chemical Society Defined Contribution Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of American Chemical Society Defined Contribution Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about American Chemical Society Defined Contribution Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Plan Administrator
American Chemical Society Defined Contribution Retirement Plan

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the American Chemical Society Defined Contribution Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about American Chemical Society Defined Contribution Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of the year ended December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Plan Administrator
American Chemical Society Defined Contribution Retirement Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

AMERICAN CHEMICAL SOCIETY DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 PLAN DESCRIPTION

The following is a synopsis of the American Chemical Society Defined Contribution Retirement Plan. Participants should refer to the plan document for more information.

General

The American Chemical Society Defined Contribution Retirement Plan (the DC Plan) is a defined contribution plan for regular full-time or regular part-time employees of the American Chemical Society (the Society). The DC Plan was restated and amended effective January 1, 2013. The DC Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Eligibility

On October 31, 2009, benefit accruals under the defined benefit plan sponsored by the Society were frozen and all participants were transitioned to the DC Plan. Employees are eligible to participate in the DC Plan immediately upon hire. Part time employees who are not expected to complete a year of service (1000 hours in 12 months) will not be eligible to participate until they complete a year of service. In order to receive the match component of the DC Plan, the participant must be employed on the last day of the Plan year.

Effective January 1, 2024, a participant who contributes to the American Chemical Society ERISA 403(b) Plan ("403(b) Plan) will receive their DC Plan's match on the first pay date that the participant contributes to the 403(b) Plan. Each participant may make after-tax contributions in the amount equal to any whole percentage of compensation. As of November 1, 2009, all participants are credited with a basic contribution by the Society equal to 6% of compensation and a matching contribution by the Society at a rate of 50% of the participant's contributions not to exceed 6% of the participant's compensation under the DC Plan. Participant's contributions to the DC Plan or the 403(b) Plan are eligible for the matching contribution by the Society.

The Society's basic and matching contributions are recorded as employer contributions on the accompanying statements of changes in net assets available for plan benefits. In addition, the DC Plan provides that participants, with the consent of the plan administrator, may make a rollover contribution from a distribution of another tax qualified plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations. Participant and employer contributions are deposited with Fidelity Management Trust Company (FMTC), trustee, who acts as custodian and record keeper.

Participants may elect to invest in various mutual funds and a collective trust in increments of 10% of their total contribution. Transfers between investment funds are made during the year as directed by participants.

NOTE 1 PLAN DESCRIPTION (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Society's contributions, as well as allocations of (a) Plan earnings (losses) and (b) administrative expenses. Allocations are based on participant's compensation, participant's earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants become vested in the Society's basic and matching contributions upon completion of three years of participation in the DC Plan. Participants who separate for reasons of normal retirement, death, or total disability become fully vested in the Society's basic and matching contributions. Participants who separate for any other reason before completion of three years of participation forfeit the Society's basic and matching contributions.

Payment of Benefits

Upon separation from the Society, a participant will receive the full current value of his contributions, the vested portion of the Society's basic and matching contributions and any rollover contributions in a lump sum payment if less than \$5,000. If the full current value is greater than \$5,000, the participant may choose to be paid in a lump sum or, if elected, in equal monthly installments over a fixed period of 5 to 15 years. Effective January 1, 2024, the limit increased to \$7,000. Payment must commence no later than age 72 (or 73 if you reach age 72 after December 31, 2022). In-service withdrawals are also allowed for participants who are at least 59½ years old.

Forfeitures

Forfeitures may be used to satisfy the Society's basic and matching contributions or Plan expenses. Forfeitures totaling \$641,786 and \$773,895 were used to reduce the Society's contributions in 2024 and 2023, respectively. The forfeiture balance totaled \$44,113 and \$69,298 at December 31, 2024 and 2023, respectively, and is included within the investments balance. Such forfeitures may be returned to the participants' accounts upon the participants' return to active service if the participants have incurred fewer than five consecutive one-year breaks in service.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The DC Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Contributions

Contributions from participants and the Society's basic and matching contributions are recorded in the year in which they are withheld from compensation.

Administrative Expenses

Certain expenses of maintaining the DC Plan are paid directly by the Society and are excluded from the financial statements. Investment related expenses are included in net appreciation of fair value investments. Fees related to process of benefit payments are charged directly to the participant account and are netted against benefits paid to participants and beneficiaries. Participants are charged an annual recordkeeping fee of \$67, paid quarterly from either their DC or 403(b) Plan if they have a combined account balance of \$2,000 or more. The collective trust has advisory and service contract fees which are borne by FMTC as part of the overall trustee-related arrangements with the portfolio's unitholders.

Revenue Sharing

Fidelity established a Revenue Credit Program and contributes excess recordkeeping fees they received from revenue sharing to the account. The DC Plan received \$44,024 and \$29,710 of excess revenue sharing during the years ended December 31, 2024 and 2023, respectively. No excess revenue was used to pay plan expenses for the years ended December 31, 2024 and 2023. The net of this activity has been recorded as administrative expenses on the statements of changes in net assets available for benefits. As of December 31, 2024 and 2023, the revenue sharing account totaled \$87,421 and \$39,979, respectively.

Subsequent Events

The DC Plan has evaluated subsequent events through July 22, 2025, the date the financial statements were available to be issued.

NOTE 3 CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of the investments, interest, and dividends for the year ended December 31, 2024 and 2023, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee of the Plan.

NOTE 4 FAIR VALUE OF FINANCIAL INSTRUMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

NOTE 4 FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund – Valued and traded at a stable \$1.00 NAV which is the value at which the fund is traded and approximates fair value based on the fair value of the underlying investment.

Collective Trust Fund – A collective fund that is composed primarily of fully benefit-responsive investment contracts is valued at the net asset value (NAV) of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

		2024

NOTE 4 FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

* Investments measured at fair value using net assets value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation with the fair value to the investments at fair value line item presented in the statements of net assets.

Common Collective Trust	\$ 16,830,107	\$ -	Daily	Annually

2023

Common Collective Trust	\$ 19,350,855	\$ -	Daily	Annually

NOTE 5 PLAN TERMINATION

Although it has not expressed intent to do so, the Society has the right under the DC Plan to discontinue its contributions at any time and to terminate the DC Plan subject to the provisions of ERISA. In the event of the DC Plan termination, participants will become fully vested in their accounts.

NOTE 6 PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the U.S. Department of Labor as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Certain DC Plan investments are shares of mutual funds managed by Fidelity Investments Institutional Operations Company, Inc (FIIOC) or Fidelity Management and Research Company (FMR). FMTC manages the collective trust and is the trustee of the DC Plan, and, therefore, these transactions qualify as party-in-interest transactions. FIIOC, FMR, and FMTC are affiliated entities. Fees paid to investment management services were included as a reduction of return earned on each fund and also reflect party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Society. No such officer or employee receives compensation from the DC Plan. Certain administrative expenses of the DC Plan are paid directly by the Society.

NOTE 7 TAX STATUS

The DC Plan was restated and amended, effective January 1, 2013, to reflect certain developments in the law, including certain other previously approved design changes and changes required by the Internal Revenue Service as a condition for issuing a favorable determination letter dated October 17, 2014. Accordingly, the DC Plan meets the requirements of Section 401(a) and is exempt from taxation under Section 501(a) of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the DC Plan and recognize a tax liability (or asset) if the DC Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The DC Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 8 RISK AND UNCERTAINTIES

The Plan invests in various investment securities according to the direction of each participant. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets.
