Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
Dover Corporation Retirement Savings Plan

Opinion

We have audited the financial statements of Dover Corporation Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) at December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Respectfully submitted,

1. Description of the Plan

The following description of the Dover Corporation Retirement Savings Plan (the "Plan") provides only general plan-related information. This description reflects the governing terms and conditions which are contained in the written Plan document. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to encourage and facilitate retirement savings and investment by eligible employees of Dover Corporation and its subsidiaries ("Dover"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The assets of the Plan that are invested in Dover common stock are held in a separate fund ("Dover Stock Fund") which constitutes an Employee Stock Ownership Plan (an "ESOP") as described under certain sections of the Internal Revenue Code ("IRC"), as amended. The Plan gives participants the option to receive cash dividends attributable to the portion of respective account balances held in the Dover Stock Fund. This allows Dover to deduct, for Federal income tax purposes, the dividends paid with respect to the Dover common stock in the Dover Stock Fund, regardless of whether participants actually receive the dividends in cash.

Bank of America, N.A. is the trustee for the Plan and has served in that capacity since September 1, 2020. The trustee has authority from Dover's Benefits Committee (the "Plan Administrator") to purchase and sell securities.

Eligibility

Eligible employees of Dover who have elected to participate in the Plan may make pre-tax deferrals or Roth 401(k) contributions to the Plan. Subsidiaries of Dover that participate in the Plan (each, a "Participating Employer") make matching contributions and may make discretionary profit-sharing contributions and automatic base contributions to the Plan. Generally, all employees of such participating companies who have reached age 18 are immediately eligible to participate in the Plan.

Automatic Enrollment and Escalation

The Plan has an automatic enrollment feature for all employees. Eligible employees are enrolled automatically in the Plan at a 3% pre-tax contribution rate unless they formally elect to opt-out of the Plan or affirmatively elect to contribute at an alternative rate within thirty days starting at the date of hire. Participants who are automatically enrolled in the Plan will have their deferral amounts automatically increased by 1% annually (up to a maximum of 6%), unless they otherwise elect to opt-out of the automatic increase feature. Pre-tax contributions of participants who are automatically enrolled in the Plan will be invested in the appropriate Vanguard Target Retirement Fund based on the participant's date of birth unless the participant elects to have contributions invested within any of the other investments permitted under the Plan.

Contributions

Participant

Participant pre-tax deferrals and Roth 401(k) contributions from eligible compensation to the Plan are voluntary. Eligible compensation generally includes salary and wages, commissions and certain bonuses. Generally, participants may elect to defer between 1% to 50% (in whole percentages) of their eligible compensation ("Participant Contribution") to their accounts in the Plan. Participants who have attained the age of 50 by the end of the Plan Year are eligible to make catch-up contributions. The

Dover Corporation Retirement Savings Plan
Notes to Financial Statements
(Amounts in thousands except where otherwise indicated)

pre-tax deferrals promote retirement savings while lowering current taxable income to participants. Roth 401(k) contributions promote retirement savings by allowing participation on an after-tax basis with tax free distribution of qualified withdrawals. The total amounts of participant pre-tax deferrals, Roth 401(k) contributions and catch-up contributions that participants are allowed to make to the Plan on an annual basis are subject to applicable IRC limits. Each participant also has the right to roll over certain distributions into the Plan from other tax-qualified plans or appropriate individual retirement accounts.

Employer

The Plan allows for a fixed per-payroll matching contribution ("Basic Employer Matching Contribution"). The Basic Employer Matching Contribution is generally 100% on the first 1% and 50% on the next 5% of pre-tax deferrals or Roth 401(k) contributions to the Plan. The Basic Employer Matching Contribution formula for employees covered under a collective bargaining agreement may vary between Participating Employers. Basic Employer Matching Contributions may be made in the form of cash or Dover stock.

Generally, in any Plan Year in which a participant does not receive the maximum Basic Employer Matching Contribution to which he or she is entitled (due to periodic payroll-based limitations or changes to individual deferral rates during the Plan Year), the Participating Employers will make an annual true-up matching contribution shortly after the end of the year which allows eligible participants to receive the maximum allowable Basic Employer Matching Contribution to which they are entitled.

In addition to the Basic Employer Matching Contribution, Participating Employers make an annual automatic base contribution equal to the greater of 1% of pay or 750 dollars to employees who are actively employed on the last day of the Plan Year. A Participating Employer may also elect to make a profit sharing contribution based on a stated formula or a combination of both profit sharing and automatic base contributions.

Vesting

All participants are fully vested immediately with respect to their own pre-tax deferrals, Roth 401(k) contributions, catch-up contributions and Basic Employer Matching Contributions. Generally, the automatic base contributions vest immediately for employees of Participating Employers.

Except for those Participating Employers whose employees' profit-sharing contribution accounts are immediately vested, a participant's profit-sharing account generally becomes fully vested after five years of service at a rate of 20% per year. A participant's profit-sharing account may also become fully vested upon the participant's attainment of age 65 while he or she is a Dover employee, in the event of his or her death or permanent disability while a Dover employee, or if the Plan is terminated.

Distributions and Forfeitures

A participant's vested account balance in the Plan is distributable following the participant's retirement, death, or other termination of employment. Unvested amounts are forfeited and used to offset future employer contributions, future administrative expenses of the Plan, or in the event that a participant is re-employed with Dover Corporation and fulfills certain requirements, as defined in the Plan document, to restore previously forfeited amounts. As of December 31, 2024 and 2023, accumulated forfeited unvested amounts totaled \$1,306 and \$1,610, respectively. During the 2024 Plan Year, there were \$911 of forfeitures used to offset current year employer contributions.

Hardship withdrawals are permitted for any participants who are actively employed and demonstrate a financial hardship which meets IRC regulations to be considered an "immediate and heavy financial need." The hardship withdrawal amount is limited to the amount "necessary" to satisfy the financial need, but may be increased to cover income taxes that the participant is expected

Dover Corporation Retirement Savings Plan
Notes to Financial Statements
(Amounts in thousands except where otherwise indicated)

to incur on the amount of the withdrawal. In addition to federal tax withholding, hardship withdrawals are generally subject to a 10% excise tax.

Distributions from the Plan are generally made in the form of single lump sum payments, although the Plan allows terminated, fully-vested participants who have reached age 55 the option to receive installment distribution payments. Distributions may be made payable directly to participants with income taxes withheld, or may be rolled over to another qualified retirement plan or individual retirement account. For distributions that include Dover stock, the participant may elect to receive whole shares of Dover stock "in-kind" and the remaining fractional share in cash.

Notes Receivable from Participants

A participant may borrow from his or her vested interest in the Plan, subject to applicable IRC regulations and certain restrictions imposed by the Plan. The minimum amount that can be borrowed is \$1 for each loan. The maximum amount that can be borrowed is the lesser of (i) 50% of the eligible vested account balance, (ii) \$50, reduced by the highest outstanding balance of Plan loans during the previous 12 months or (iii) the combined value of the participant's salary reduction account and rollover account. The notes receivable are secured by the balances in the participant's vested accounts and participants repay the notes receivable in full or via payroll deduction. Each note receivable carries a reasonable rate of interest determined by the Plan Administrator to be commensurate with the prevailing interest rate charged on similar commercial loans made within the same locale and time period. Notes receivable outstanding as of December 31, 2024 bear interest at rates between 3.25% and 9.50%. A participant may have up to two outstanding notes receivable at one time and only one of which can be a primary residence loan. The loan repayment period is limited to 59 months for a general purpose loan and 359 months for a loan used to purchase or build a principal residence and repayments must be made in substantially level installments.

Allocation Provisions

Subject to the Plan's excessive trading restrictions, each participant has the right to direct the entire amount of his or her Plan account to be invested in one or more of the available investment funds in multiples of one percent. Each participant has the right during any business day to transfer all or any portion of the amount in his or her account among the investment funds. Participants who are considered Dover "insiders" may only complete transfers involving Dover stock during designated window periods.

Participants are entitled to vote with respect to any Dover shares in their Plan account in the same manner as other Dover stockholders. The trustee represents those participants who did not exercise voting rights by casting votes on their behalf in the same proportion as the shares of Dover stock in the Plan for which it received voting instructions.

Administrative Expenses

Certain administrative expenses of the Plan related to the trustee, recordkeeping, legal and audit fees are paid by the trust. Fees or commissions associated with each of the investment options and certain other administrative expenses of the Plan are paid primarily by participants on a quarterly basis as a deduction from the amount invested or as an offset to investment earnings.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements were prepared on the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP").

Dover Corporation Retirement Savings Plan
Notes to Financial Statements
(Amounts in thousands except where otherwise indicated)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment securities which are exposed to various risks, including, but not limited to, interest rate, market volatility, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

At December 31, 2024 and 2023, 22.3% and 21.0%, respectively, of the Plan's net assets available for benefits were invested in Dover common stock.

Investment Valuation

The Plan's investments are reported at fair value (see Note 4 — Fair Value Measurements), except for fully benefit-responsive investment contracts, which are reported at contract value (see Note 3 — Investments).

Investment Transactions and Income Recognition

Purchases and sales of investment securities are reflected on a trade-date basis. Due to timing of settlements, there may be pending transactions as of the financial statement date that result in a receivable or payable to the Plan. Gains and losses on sales of investment securities are determined on the average cost method. Funds temporarily awaiting investment are placed in a short-term investment fund of the trustee where they earn the prevailing market rate of interest. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments bought and sold as well as held during the year.

Fair Value of Other Financial Instruments

The carrying amount of the contribution receivables and interest-bearing cash approximates fair value due to their short-term maturities.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest with no allowance for credit losses, as repayments of principal and interest are received through payroll deduction and the notes are collateralized by the participants' vested account balances. Interest income is recorded as earned.

Distributions to Participants

Distributions to participants are recorded in the Plan's financial statements when paid.

Dover Corporation Retirement Savings Plan
Notes to Financial Statements
(Amounts in thousands except where otherwise indicated)

Excess Contributions

Refunds of excess participant pre-tax deferral, Roth 401(k) and catch-up contributions may be required to satisfy the relevant nondiscrimination and compliance provisions of the Plan. Such refunds are accrued as a liability and a reduction in contributions in the Plan year in which the excess deferral was made to the Plan.

Plan Termination

Although it has not expressed any intent to do so, Dover retains the right under the Plan to discontinue all contributions at any time and to terminate the Plan, subject to the provisions of the Plan, ERISA and the IRC. In the event of Plan termination, participants will become 100% vested in their Plan accounts.

Recently Adopted Accounting Pronouncements

There were no recently adopted accounting pronouncements during either Plan year presented.

Subsequent Events

Plan Management has evaluated subsequent events for recognition and disclosure through June 18, 2025, which is the date the financial statements were available to be issued.

3. Investments

The Plan Administrator periodically reviews the investment options available in the Plan to ensure that they continue to help participants reach retirement savings goals.

The Plan offered the following investment fund types during 2024 and 2023:

Dover Stock Fund:

The Dover Stock Fund invests in Dover common stock and contains a nominal balance in money market instruments for liquidity purposes.

Dover Corporation Retirement Savings Plan
Notes to Financial Statements
(Amounts in thousands except where otherwise indicated)

Mutual fund:

The mutual fund is traded in an active market and valued by obtaining quoted prices from nationally recognized securities exchanges and invests in domestic common stock.

Collective funds:

The collective funds are valued at their respective Net Asset Value ("NAV") as reported by such trust. The NAV is used as a practical expedient to estimate fair value based on the underlying assets of the trust. The fair value of the underlying assets is obtained by the Plan's trustee from information provided by each fund manager using their respective audited financial statements of the collective trusts at year end. Generally there are no restrictions on redemption of these investments, however, some investments may require an advance written notice to the trustee prior to redemption of trust units.

Dover Stable Value Fund:

The Dover Stable Value Fund invests in a diversified portfolio of fully benefit-responsive guaranteed investment contracts ("GICs"), including traditional and constant duration synthetic GICs and a money market fund. The money market fund is held at fair value and included in interest-bearing cash. See Note 4 — Fair Value Measurements.

The traditional GICs held by the Plan are guaranteed investment contracts where the contract issuer is contractually obligated to repay the principal on a specified date and interest at a specified interest rate. The crediting rate for traditional GICs is based on a competitive quote by the contract issuer and is fixed until maturity. The constant duration synthetic GICs are wrapper contracts paired with underlying investments which are owned by the Plan. The crediting rate for the constant duration synthetic GICs is based on a formula established by the contract issuer and is variable through maturity. The GICs allow participant-directed transactions to be made at contract value, which represents contributions plus interest earned, less benefits paid and transfers to other funds.

For both traditional and constant duration synthetic GICs, withdrawals and transfers resulting from certain events may limit the ability of the Plan to transact at contract value with the issuer of fully benefit-responsive investment contracts. These events include but are not limited to the following: (1) employer-initiated events which would have a material number of participants leave the Plan; (2) employer communications designed to induce participants to transfer from the fund; (3) a legal regulatory event such as an adverse ruling by a regulatory agency; and (4) changes of tax qualification status of the employer or the Plan. In such circumstances, fair market value would likely be used to determine payouts to participants. In general, the Plan may terminate the contract and settle at other than contract value due to breach of material obligations under the contract and misrepresentation by the contract holder, failure of the underlying portfolio to conform to the pre-established investment guidelines, or a request by the Plan sponsor to terminate or partially terminate the contract at fair market value. At this time, the Plan does not believe that an event limiting the Plan's ability to transact with participants at contract value is probable.

The following table reflects the contract value for each type of fully benefit-responsive investment contract as of December 31, 2024 and 2023:

	As of December 31,	
	2024	2023
Traditional GICs	\$ 4,596	\$ 4,444
Constant duration synthetic GICs	95,581	104,681
Total	\$ 100,177	\$ 109,125

4. Fair Value Measurements

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, defines fair value as the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions and risk of nonperformance.

ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Mutual fund and Dover Stock Fund: These investments are public investment securities valued by obtaining quoted prices from nationally recognized securities exchanges.

Interest-bearing cash: Stated at cost, which approximates fair value.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

There were no Level 2 investments held at fair value as of December 31, 2024 or 2023 or during the year ended December 31, 2024.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities or significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

There were no Level 3 investments held at fair value as of December 31, 2024 or 2023 or during the year ended December 31, 2024.

Below are the Plan's financial instruments carried at fair value by their ASC 820 fair value hierarchy level as of December 31, 2024 and 2023:

* In accordance with Subtopic 820-10, certain investments that are measured using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

5. Related Party and Party-in-Interest Transactions

Certain Plan assets are invested in common stock of Dover. As the Plan sponsor, Dover is also a related party in accordance with Section 3.14 of ERISA. Certain Plan investments are managed by the trustee or companies owned by the trustee that qualify as party-in-interest transactions. Notes receivable from participants held by the Plan are also considered party-in-interest transactions.

Certain administrative functions are performed by employees of Dover and no such employee receives compensation from the Plan. Other expenses relating to the Plan, including certain legal and consulting services, are paid directly by Dover. Fees or commissions associated with each of the investment options and certain administrative expenses of the Plan are paid primarily by participants as a deduction from the amount invested, or as an offset to investment earnings.

At December 31, 2024 and 2023, the Plan held 2,119 and 2,258 shares of Dover stock, respectively. Dividends received by the Plan on these shares totaled \$4,514 for the year ended December 31, 2024. These transactions also qualify as party-in-interest transactions.

6. Income Tax Status

The Plan obtained its latest determination letter on April 28, 2015, in which the Internal Revenue Service stated that the Plan and related trust, as adopted, was designed in accordance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. Dover believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC in all material respects. Therefore, Dover believes that the Plan was qualified and the related Trust was tax-exempt as of the financial statement dates.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2022.

7. Plan Transfers

On January 11, 2024, assets amounting to \$520 were transferred into the Plan from the legal plan merger of the AvaLan Wireless Retirement Plan. Employees of this plan began participating in the Plan effective January 1, 2022.

8. Reconciliation of Financial Statements to Form 5500

The following are reconciliations of net assets available for benefits and changes in net assets available for benefits as presented in these financial statements to the balances per Form 5500:

	As of December 31,	
	2024	2023
Net assets available for plan benefits per the financial statements	\$ 1,865,914	\$ 1,720,640
Adjustment from contract value to fair value for fully benefit-responsive GICs	(4,923)	(5,770)
Net assets available for plan benefits per the Form 5500	<u>\$ 1,860,991</u>	<u>\$ 1,714,870</u>

	For the Year Ended December 31, 2024
Change in net assets available for benefits prior to transfers per the financial statements	\$ 144,754
Change in adjustment from contract value to fair value for fully benefit-responsive GICs	847
Change in net assets available for benefits per the Form 5500	<u>\$ 145,601</u>

9. Subsequent Event

On March 3, 2025, assets amounting to \$6,507 were transferred into the Plan from the legal plan merger of Marshall Excelsior Company Retirement Plan. Employees of this plan began participating in the Plan effective January 1, 2025.
