Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Radiological Society of North America Tax-Deferred Annuity Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Radiological Society of North America Tax-Deferred Annuity Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be

independent of the Radiological Society of North America Tax-Deferred Annuity Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Radiological Society of North America Tax-Deferred Annuity Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Radiological Society of North America Tax-Deferred Annuity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Radiological Society of North America Tax-Deferred Annuity Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following description of the Radiological Society of North America Tax-Deferred Annuity Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Radiological Society of North America (Society). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation. The Plan was adopted on January 1, 1978. The Plan was initially restated effective January 1, 2009, and was subsequently restated on January 1, 2019.

The assets of the Plan are held by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (together, TIAA-CREF).

Eligibility

Employees are eligible to participate in the Plan on the first of the month following their hire date.

Contributions

Each year participants may contribute a percentage of their annual compensation, as defined in the Plan. Eligible compensation for any plan year shall not exceed the maximum provided by the Internal Revenue Code. Contributions cannot exceed \$23,000 and \$22,500 in 2024 and 2023, respectively. Effective January 1, 2019, all employees who are eligible to make pretax salary deferrals can also make Roth deferral contributions. Age 50 and over participants could contribute an additional \$7,500 in 2024 and 2023. A participant's account may include contributions made to another plan and transferred to the Plan as part of a rollover contribution.

The Plan has no provisions for matching contributions by the Society.

Investment Options

The Plan currently offers a pooled separate account, various registered investment companies, variable annuity accounts and a fixed annuity contract as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of plan earnings and charged with an allocation of any fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Payment of Benefits

Distributions will be made upon severance of employment, disability, retirement or to meet a financial hardship. The distribution of a participant's account is payable at his/her option in either a lump sum, installment payment, the purchase of an annuity contract or a rollover into a qualified plan or IRA. A participant may elect to receive a distribution of their rollover contributions at any time.

Plan Loans

Effective January 1, 2022, the Plan discontinued the availability of plan loans and only offers notes receivable from participants allowing participants to borrow from their eligible fund accounts.

Prior to January 1, 2022, participants could pledge a portion of their vested account balance to TIAA-CREF in exchange for a loan. Funds are issued by TIAA-CREF to the participant and collateral of 110% of the outstanding loan principal is held in case of default in the TIAA Traditional fixed annuity contract. At December 31, 2024 and 2023, outstanding loan principal is \$0 and \$7,477, respectively. All plan loans were paid off during 2024.

Notes Receivable From Participants

Beginning in 2021, eligible participants may borrow from their eligible fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, subject to other terms of the plan document. Loan terms may not exceed five years; however, loans made for the purpose of acquiring the principal residence of the participant may be made for a longer period. The loans are secured by the balance in the participant's account, and the interest on the loans is based on prime plus 1%. Loan interest rates ranged from 4.25% to 9.50% at December 31, 2024. Loan repayments can be made through payroll withholdings or directly to TIAA. No more than three outstanding loans are allowed at any time.

Revenue Sharing

The Plan has entered into an agreement with TIAA under which TIAA will share any revenue collected for recordkeeping and administrative services that is in excess of what TIAA has agreed to charge for recordkeeping and administrative services. Amounts deposited in the "revenue credit" account may be used to pay reasonable and necessary plan expenses, and/or to provide participants with a benefit in the form of "revenue credit allocation" to their accounts. The amounts deposited may vary over time, and may, in fact, be zero.

During 2024, revenue sharing credits of \$6,382 were offset against administrative fees of \$2,662 for a net of \$3,720 which is included in additions on the statement of changes in net assets available for benefits. During 2023, revenue sharing credits of \$5,349 were offset against administrative fees of \$1,754 for a net of \$3,595 which is included in additions on the statement of changes in net assets available for benefits. The balance of unused credits from this account at December 31, 2024 and 2023, was \$6,589 and \$2,784, respectively. Credits of approximately \$2,784 and \$8,914 were reallocated to eligible participant accounts during 2024 or 2023, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types are considered fully benefit-responsive and contract value approximates fair value as of December 31, 2024 and 2023.

**Radiological Society of North America
Tax-Deferred Annuity Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Valuation of Investments and Income Recognition

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to the TIAA Traditional Annuity contract, TIAA-CREF Variable Annuity accounts, TIAA-CREF registered investment companies, and the TIAA Real Estate pooled separate account. See Note 4 for discussion of fair value measurements.

The TIAA Real Estate pooled separate account is valued at the net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. The underlying real estate holdings or other real estate related investments are valued principally utilizing external appraisals. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no participant redemption restrictions for these investments, and participant redemptions are allowed daily. There are no unfunded commitments at December 31, 2024 and 2023.

The TIAA Traditional Annuity is a fixed rate annuity contract that is fully and unconditionally guaranteed and backed by TIAA. See Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Society on behalf of the Plan. Fees related to the investment advisory program offered by TIAA are charged directly to the participant's account and are included in administrative expenses. Additionally, certain employees of the Society provide administrative and trustee services to the Plan and are not reimbursed by the Plan for such services.

Note 3. TIAA Traditional Annuity Contract

The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company that is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

The TIAA Traditional Annuity fully benefit-responsive account is recorded at contract value. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus interest at the contract rate, less funds to pay withdrawal benefits and administrative expenses. The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment.

A portion of the TIAA Traditional Annuity has been determined to be fully benefit-responsive. Among other requirements, fully benefit-responsive contracts require all permitted participant-initiated transactions with the Plan to occur at contract value with no restrictions. At December 31, 2024, the value of the nonbenefit-responsive contracts totaled \$43,050 and the benefit-responsive contracts totaled \$2,429,945. At December 31, 2023, the value of the nonbenefit-responsive contracts totaled \$49,058 and the benefit-responsive contracts totaled \$2,460,427.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 4. Fair Value Measurements

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2024 and 2023.

**Radiological Society of North America
Tax-Deferred Annuity Plan
Notes to Financial Statements
December 31, 2024 and 2023**

The registered investment companies are valued at fair value determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The variable annuity accounts in mutual funds, except for the money market account, are recorded at their estimated fair value, which is based upon the underlying value of the assets. Participants purchase accumulation units in the variable annuity contracts, and their value is calculated daily. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a contract rate until maturity. Unit prices are published daily (Level 1 inputs).

The TIAA Traditional Annuity is valued at the accumulated cash contributions, interest credited and transfers, if any, less any withdrawals and transfers (Level 3 input). This nonbenefit-responsive investment contract contains certain liquidity restrictions on the redemption of accumulations, which could impact the value realized upon exiting the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	December 31, 2024

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in fair value of assets measured on a recurring basis using significant unobservable inputs (Level 3) for the years ended December 31, 2024 and 2023, are as follows:

	TIAA Traditional Annuity - Nonbenefit- Responsive

Note 5. Certification of Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF, a qualified institution, has certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023
- Investment income (loss) and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023
- Investment information and notes receivable from participants included in the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2024

The Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified information to the related information included in the financial statements and ERISA-required supplemental schedule.

Note 6. Transactions With Parties-in-Interest

Certain plan investments are units in variable annuity accounts, registered investment companies, a pooled separate account and a fixed annuity contract managed by TIAA-CREF. TIAA-CREF is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred for the investment management services are included in net appreciation in fair value of investments.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Society has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter 403(b) plan sponsored by TIAA and CREF. This volume submitter plan document has obtained an advisory letter dated August 7, 2017, from the Internal Revenue Service stating that the volume submitter satisfies the requirements under Section 403(b) of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the advisory letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$ 13,233,348	\$ 11,599,352
