## Report of Independent Auditors

To the Participants and Administrator of  
Guardian Life Employees Incentive Savings Plan

### ***Opinion***

We have audited the financial statements of Guardian Life Employees Incentive Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for plan benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Supplemental Schedule Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

# Guardian Life Employees Incentive Savings Plan

## Notes to the Financial Statements

Years ended December 31, 2024 and 2023

### **Note 1. Description of Plan**

The following description of the Guardian Life Employees Incentive Savings Plan (the Plan or EISP) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

#### *General*

The Plan is a defined contribution plan for eligible employees, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Board of Trustees of the Guardian Life Employees Incentive Savings Plan (the Plan administrator). The Plan administrator has overall responsibility for the operation and administration of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan document provides for the establishment of a trust into which contributions may be made by eligible employees and The Guardian Life Insurance Company of America (the Company). Contributions to the Plan are invested in any of the mutual funds, separate managed accounts, collective investment funds, and stable value investment fund which are directed by the participant.

Fidelity Management Trust Company (Fidelity) is the custodian of the Plan, the Guardian Cooperative Investment Plan (CIP) and the Guardian Retirement Investment Plan (GRIP), (collectively the Guardian Plans). Fidelity Workplace Services, LLC is the recordkeeper of the Guardian Plans.

#### *Participant Eligibility*

Under EISP, an eligible employee is classified by the Company as a Grandfathered Employee. An employee shall be considered a Grandfathered Employee if hired or rehired prior to January 1, 2018 and as of December 31, 2020, was an active participant who had both attained age 50 and been credited with at least 75 points (which points shall be determined by adding together the employee's age plus years of vesting service).

Under the Guardian Plans, eligible employees exclude leased employees, interns and apprentices.

#### *Participant Accounts*

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution, and Plan earnings. Allocations are based on participant earnings as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

### Notes to the Financial Statements (Continued)

#### **Note 1. Description of Plan (Continued)**

##### *Contributions*

Participants are able to elect to make before-tax and/or after-tax contributions from 1% to 50% of eligible compensation (as defined in the Plan document), subject to the limits set by the Internal Revenue Code (IRC). The maximum employee contribution permitted by the Internal Revenue Service (IRS) for 2024 was \$23,000. The Plan allows eligible participants (those who attain age 50 in the calendar year) to make additional “catch-up” contributions, subject to limits of the IRC, as permitted by the Economic Growth & Tax Relief Reconciliation Act. The maximum catch-up contribution permitted by the IRS for 2024 was \$7,500. Participants who have balances in a previous employer’s qualified plan may be able to roll over the taxable and nontaxable portion of those balances into the Plan.

Contributions, as defined in the Plan document, consist of after-tax 401(a) and employee regular 401(k) contributions. The Company matches employee contributions up to 3% of the employee’s salary and makes special contributions based upon certain operating results of the Company. Special contributions, which are contributions made at the discretion of the Company, are made annually to eligible employees. Certain occurrences, such as receipt of long-term disability benefits for 12 consecutive months, death, retirement at Normal Retirement Age, as defined in the Plan document, and termination of the Plan, result in immediate vesting of Company contributions. Employee and Company contributions are credited to the respective funds in the manner elected by the employee and provided under the Plan.

All eligible employees are able to make after-tax Roth 401(k) contributions to their retirement accounts.

##### *Vesting*

Participants are always 100% vested in employee contributions and earnings thereon. Matching and special contributions are generally subject to a 5-year vesting period. One year of service represents the first 12 month period in which the employee completes 1,000 hours of service. Employer matching contributions are vested according to the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2 years	0%
2 but less than 3 years	25%
3 but less than 4 years	50%
4 but less than 5 years	75%
5 or more years, death, retirement, or after receipt of 12 months of Long Term Disability (LTD) benefits from Guardian's LTD Plan for employees	100%

## Guardian Life Employees Incentive Savings Plan

### Notes to the Financial Statements (Continued)

#### **Note 1. Description of Plan (Continued)**

##### *Notes Receivable from Participants*

Under the terms of the Plan document, participants may borrow from their accounts a minimum of \$1,000 (\$300 for loans issued prior to July 1, 2009) and a maximum of the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate on the second to last business day of the month prior to the month in which the loan request is made. At December 31, 2024, loans outstanding totaled \$2,040,710 with interest rates ranging from 3.25% to 9.50% and maturities through December 17, 2029. At December 31, 2023, loans outstanding totaled \$2,318,114 with interest rates ranging from 3.25% to 9.50% and maturities through March 18, 2029.

##### *Payment of Benefits*

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a ten-year period. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Before-tax contributions may be withdrawn only upon attaining the age of 59 ½, or due to financial hardship, as defined in the Plan document.

##### *Forfeited Accounts*

Forfeitures are not distributed to participants, but rather are used to reduce the Company's contributions, to pay Plan expenses, or are reallocated to participant accounts for employees rehired within five years of termination. As of December 31, 2024 and 2023, forfeited non-vested accounts totaled \$461,907 and \$277,016, respectively. During 2024 and 2023, forfeitures used to reduce the Company's contributions and pay Plan expenses totaled \$341,248 and \$912,403, respectively. During 2024 and 2023, forfeitures reallocated to rehired participants totaled \$5,847 and \$0, respectively.

##### *Plan Transfers*

The Plan is a participant in The Guardian Life Insurance Company of America Master Investment Plan Trust (the Trust) as described in Note 3, along with the CIP and GRIP. The Plan records net transfers from the Plan, which represent participant transfers to the GRIP, as a result of participants who have changed their employment status. Participant balances transferred to GRIP totaled \$625,724 for the year ended December 31, 2024, and are recorded as net transfer in the Statement of Changes in Net Assets Available for Plan Benefits.

#### **Note 2. Significant Accounting Policies**

##### *Basis of Accounting*

The Plan's financial statements are prepared on the accrual basis of accounting.

## Guardian Life Employees Incentive Savings Plan

### Notes to the Financial Statements (Continued)

#### **Note 2. Significant Accounting Policies (Continued)**

##### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

##### *Investment Valuation and Income Recognition*

Investments in the Trust are stated at fair value (except security backed contracts) and are allocated to the Plan in proportion to the fair value of the assets assigned to the Plan. GAAP guidance provides a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques. The inputs are based on assumptions market participants use in pricing investments.

The fair value hierarchy is summarized as follows:

Level 1 – Quoted prices in active markets, that the Trust has ability to access, e.g. NYSE, NASDAQ, for assets identical to the securities to be valued. If a Level 1 input is available it must be used.

Level 2 – Inputs other than quoted prices in active markets that are observable for substantially the entire period for securities, either directly or indirectly. Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation of other means.

Level 3 – Unobservable inputs, which contain assumptions by the party valuing those assets. Examples would include partnership interests, closely held stock, etc.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual funds are valued at the net asset value (NAV) of shares held by the Trust at year end. Units held in collective investment funds are valued at the unit value as reported by the fund at year end.

Separate managed accounts are valued at the broker entered price of the underlying investments, which consist primarily of common stocks plus approximately 1% of uninvested cash and cash equivalents.

## Guardian Life Employees Incentive Savings Plan

### Notes to the Financial Statements (Continued)

#### **Note 2. Significant Accounting Policies (Continued)**

##### *Investment Valuation and Income Recognition (continued)*

The Trust also invests in a stable value investment fund which consists of security backed contracts, which are fully benefit responsive and valued at contract value, and a short term common collective investment fund valued at fair value. Contract value is the relevant measurement attribute for fully benefit responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 3 for further discussion of the security backed contracts.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The Plan's allocated share of the Trust interest and dividend income, unrealized appreciation and depreciation of investments, and realized investment gains or losses due to the difference between the proceeds received and the identified cost of investments sold are included in the Statement of Changes in Net Assets Available for Plan Benefits, and are allocated on a per unit basis at the time of the transaction.

##### *Benefit Payments*

Benefit payments are recorded when paid.

##### *Contributions*

Employee contributions are recorded in the period during which the Company makes payroll deductions from Plan participants earnings. Regular Company contributions are recorded when employee contributions are recorded and special Company contributions are recorded at the Plan year-end for eligible employees.

##### *Contribution Receivable*

Employer and employee contribution receivables consist of the regular Company contributions and special Company contributions that were not remitted to the Plan administrator as of year-end.

##### *Notes Receivable from Participants*

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. Delinquent notes receivable that have not had a distributable event are included as outstanding loans. No allowance for credit losses has been recorded as of December 31, 2024 or 2023.

### Notes to the Financial Statements (Continued)

#### **Note 2. Significant Accounting Policies (Continued)**

##### *Risks and Uncertainties*

The Plan provides for various investment options, that are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investments and the level of uncertainty related to the change in value of investment securities, it is possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

##### *Subsequent Events*

The Plan has evaluated subsequent events for disclosure and recognition through September 16, 2025, which is the date the financial statements were available to be issued and has considered any relevant matters in the preparation of the financial statements and notes.

#### **Note 3. Master Trust**

The Trust was established for the purpose of maintaining assets for the exclusive benefit of the participants of the Guardian Plans. Each Plans' interest in the Trust is based on participant account balances and their elected investment options. The Trust assets are allocated among the Plans by assigning to each Plan the entire amount of contributions received on behalf of such Plan, benefit payments, or other expenses attributable solely to such Plan, and every other transaction relating only to such Plan and by allocating among all Plans, in proportion to the value of the assets assigned to each Plan, income and expenses resulting from the collective investment of the assets of the Trust.

- (a) Seeks to provide current income and some capital appreciation.
- (b) Seeks to provide capital appreciation and current income consistent with its current asset allocation.
- (c) Seeks to track the performance of the FTSE Developed All Cap ex US Index, a market-capitalization-weighted index that is made up of approximately 3,700 common stocks of large-, mid-, and small-cap companies located in Canada and the major markets of Europe and the Pacific region. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.
- (d) This investment fund's objective is to generate an annualized excess return of 2% above the S&P 500 Index over a full market cycle (three to five years) before fees.
- (e) The fund seeks total return consisting of current income and capital appreciation. The fund invests principally in investment-grade debt securities, including U.S. Government obligations, corporate bonds, and mortgage- and asset-backed securities. As part of the investment strategy, the fund may invest in stripped securities or enter into mortgage dollar rolls and reverse repurchase agreements, as well as invest in U.S. dollar-denominated debt securities of foreign issuers.
- (f) This fund's objective is to invest primarily in short term fixed income securities and will pursue its objective through investment in one or more underlying collective investment funds maintained by BlackRock Institutional Trust Company, N.A.

##### *Security Backed Contracts*

The Trust invests in security backed contracts issued by insurance companies and other financial institutions. The assets supporting the security backed contracts are maintained separately from the contract issuer's general assets, usually by a third party custodian. The Trust deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period for the security backed contracts. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest).

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security backed contracts have the risk of default or lack of liquidity of the underlying portfolio assets. The credit risk of each issuer is evaluated and monitored through the third party custodian's credit analysis. The fund requires that each investment contract, and subsequently the issuers of each contract, have at least an "AA-" rating as of the contract effective date, and that all underlying portfolio assets be rated investment grade at the time of purchase.

Security backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events may include all or a portion of the following:

- Material adjustments to the Trust's structure or administration;
- Changes to the participating plans' competing investment options including the elimination of equity wash provisions;
- Complete or partial termination of the Trust, including a merger with another fund;
- The failure of the Trust to qualify for exemption from federal income taxes or any required transaction exemption under ERISA;
- The redemption of all or a portion of the interests in the Trust held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;
- Any law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Trust or participating plans; and
- The delivery of any communication to plan participants designed to influence a participant not to invest in the security backed contracts.

At this time, the Plan does not believe that the occurrence of any such event, which would limit the Trust's ability to transact at contract value with participants, is probable.

##### *Security Backed Contracts (continued)*

Security backed contracts generally are evergreen contracts that contain termination provisions, allowing the Plan or the contract issuer to terminate with notice, at any time at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero. In addition, if the Plan defaults in its obligations under the contract (including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, the contract may be terminated by the issuer and the Plan will receive the fair value as of the date of termination. Each contract recognizes certain "events of default" which can invalidate the contracts' coverage. Among these are investments outside of the range of instruments which are permitted under the investment guidelines contained in the investment contract, fraudulent or other material misrepresentations made to the issuer, changes of control of the investment adviser not approved by the contract issuer, changes in certain key regulatory requirements, or failure of the Plan to be tax qualified. These events have not occurred, and the Plan and Trust do not believe the occurrence of such events are probable.

#### **Note 4. Tax Status**

The IRS has determined and informed the Company by letter dated September 7, 2017 that the Plan and related Trust are designed in accordance with applicable sections of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRS. Accordingly, no provision for income taxes is made in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

#### **Note 5. Transactions with Parties-In-Interest**

Fidelity Management Trust Company is custodian of the Plan and Fidelity Workplace Services, LLC is the recordkeeper of the Plan. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund and qualify as party-in-interest transactions. Fees paid by the Plan for custodial and record-keeping services amounted to \$93,636 for the year ended December 31, 2024. Notes receivable from participants qualify as transactions with parties-in-interest.

#### **Note 6. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
