## **Report of Independent Auditors**

To the Administrator of National Gypsum Company 401(k) and Retirement Savings Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed an audit of the accompanying financial statements of National Gypsum Company 401(k) and Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter – Supplemental Schedule Required by ERISA***

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# National Gypsum Company 401(k) and Retirement Savings Plan

## Notes to Financial Statements

### December 31, 2024 and 2023

---

#### 1. Plan Description

The following brief description of the National Gypsum Company 401(k) and Retirement Savings Plan (the “Savings Plan”), also known as National Gypsum 401(k) and Retirement Savings Plan in various trustee documents, is provided for general information purposes only. Participants should refer to the Savings Plan documents for more complete information.

##### **General**

The Savings Plan allows participation by substantially all employees of NG Operations, LLC and its subsidiaries (the “Company”), and employees of Spangler Companies, Inc., an affiliated company in the same consolidated group (collectively the “Companies”). The Savings Plan is a defined contribution plan which provides benefits to participants upon retirement, permanent disability, death, or termination of service.

Charles Schwab Trust Bank is the trustee (the “Trustee”) of the Savings Plan and Schwab Retirement Plan Services, Inc. is the recordkeeper of the Savings Plan.

The Savings Plan is sponsored by the Company. The Company delegated administrative authority of the Plan to NG Corporate, LLC, a subsidiary of the Company. The Company has responsibility for the operation and administration of the Savings Plan including the power to construe and interpret the Savings Plan and to resolve all questions that arise thereunder. The Savings Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) as applicable to defined contribution or individual account plans.

##### **Participation**

All full-time employees may immediately participate in the Savings Plan. Part-time employees (defined as working 30 hours per week or less) and temporary employees may participate after completing 1,000 hours in a calendar year. Beginning in 2024, long-term part-time employees may participate after completing 500 hours in a calendar year for three consecutive plan years.

Employees who do not enroll in the Savings Plan after six months are automatically enrolled at a contribution rate of four percent. Contributions from automatic enrollment are placed in an age appropriate Asset Allocation target retirement fund. Employees may elect to not participate in the Savings Plan by electing a contribution rate of zero percent.

##### **Participant Contributions**

Participants in the Savings Plan are allowed to make traditional pre-tax 401(k) or Roth 401(k) contributions of 1% to 50% of their total compensation (“Salary Reduction Contribution”). Salary Reduction Contributions were limited by the Internal Revenue Code (“IRC”) to \$23,000 (\$30,500 for participants age 50 or over) in 2024. The limit is increased periodically by certain cost of living adjustments. Salary Reduction Contributions of highly compensated employees may be limited to comply with IRC discrimination requirements.

Participants in the Savings Plan may also elect to make after-tax contributions up to 50% of their total compensation (“Voluntary Contributions”). Total contributions, including all types of participant and company contributions, are subject to IRC limits calculated at the participant level.

##### **Company’s Matching Contributions**

The Savings Plan specifies the Company’s matching contribution to be made on behalf of each eligible employee making Salary Reduction Contributions and/or Voluntary Contributions. The amount and timing of the matching contribution varies based on the eligible employee’s employment

### December 31, 2024 and 2023

---

classification. Regardless of the method used, eligible employees must be employed for six months to be eligible for matching contributions.

For salaried employees, the Company's matching contribution is discretionary. The Company will make an annual determination as to the timing of funding of any matching contributions for salaried employees relating to Salary Reduction Contributions and Voluntary Contributions for such plan year. Such matching contributions can be funded following the close of the related pay periods or in total subsequent to the Plan year end. For contributions made by eligible salaried employees during 2024, the Company's discretionary matching contribution was calculated at 50% of the employee's contributions during the Savings Plan year, disregarding employee contributions in excess of 6% of the employee's eligible compensation during such year. During 2024, the discretionary matching contribution was funded after each pay period and a true-up was calculated at the end of the Savings Plan year, which was paid in early 2025 and recorded as an employer contribution receivable.

For non-union hourly employees and for those union hourly employees whose collective bargaining agreement does not specify otherwise, the Company's matching contribution is equal to 50% of eligible employees' contributions during each pay period, disregarding employee contributions in excess of 6% of the employee's eligible compensation for the pay period. The matching contribution for each pay period is contributed to the Savings Plan within a reasonable period of time following the close of such pay period. At the end of the Savings Plan year, the Company shall determine what matching contribution such employee would be entitled to under a formula that provides a matching contribution for the Savings Plan year equal to the lesser of (i) 50% of the eligible employee's contributions for the Savings Plan year, or (ii) \$400, and if this amount is greater than the amount of matching contributions made on behalf of such employee during the Savings Plan year, then the Company makes an additional matching contribution early in the next year to bring the total amount of matching contributions up to this greater amount. Any amounts paid in the subsequent year are included in employer contribution receivable.

For union hourly employees, if negotiated in the applicable collective bargaining agreement, the Company's matching contribution is calculated either on an annual or pay period basis and is equal to 50% of eligible employees' contributions during the period, disregarding employee contributions in excess of 6% of the employee's eligible compensation for the Savings Plan year. The Company also determines what matching contribution such employee would be entitled to under a formula that provides a matching contribution for the Savings Plan year equal to the lesser of (i) 50% of the eligible employee's contributions for the Savings Plan year, or (ii) \$400, and if this amount is greater than the amount of matching contributions otherwise calculated on behalf of such employee for the Savings Plan year, then the Company will instead contribute this matching contribution for the employee. A matching contribution true-up is calculated at the end of the Savings Plan year, is paid early in the following year, and is recorded as an employer contribution receivable.

#### **Defined Company, Defined Retirement and Transition Benefit Contributions**

Beginning in 2009, salaried and non-union hourly associates who had not reached age 40 became eligible to receive a Defined Company Contribution. These associates are no longer allowed to accrue benefits under the National Gypsum Company General Pension Plan ("GPP"), which is a defined benefit pension plan. Any non-collectively bargained employee hired on or after April 1, 2009 is eligible to receive the Company-paid Defined Company Contribution regardless of the associate's age. Beginning in 2025, any active employee of the Company who was a participant in the GPP and was actively accruing benefits in the GPP as of December 31, 2024 is eligible to receive the GPP Company-paid Defined Company Contribution regardless of the associate's age.

# National Gypsum Company 401(k) and Retirement Savings Plan

## Notes to Financial Statements

### December 31, 2024 and 2023

---

The Defined Company Contribution amount for non-collectively bargained employees, other than employees of Spangler Companies, Inc., is calculated utilizing a combination of the employee's age and the employee's continuous years of service to the Company. The amount contributed ranges from 2% of the participant's compensation and 1% of the participant's excess compensation to 6% of the participant's compensation and 3% of the participant's excess compensation. The participant's compensation includes all wages earned during the Savings Plan year, and the participant's excess compensation includes all wages earned during the Savings Plan year in excess of the Social Security Wage Base. The Defined Company Contribution is calculated at the end of the Savings Plan year, is paid early in the following year, and is recorded as an employer contribution receivable.

The Defined Company Contribution amount for employees of Spangler Companies, Inc. is 5% of the employee's compensation. The employee's compensation includes all wages earned during the Savings Plan year.

As collective bargaining agreements were negotiated, certain union associates who had not attained the age of 40 before the date specified per the applicable contract became eligible to receive a Defined Retirement Contribution as of the contract date. The employees receiving a Defined Retirement Contribution will no longer accrue benefits under the Pension Plan for Represented Hourly-Paid Employees of National Gypsum. Newly hired union associates are eligible to receive the Defined Retirement Contribution and will not participate in the Pension Plan for Represented Hourly-Paid Employees of National Gypsum, which is a defined benefit pension plan. These terms have been negotiated and implemented in all collective bargaining agreements. The Defined Retirement Contribution amount for eligible union employees ranges from 2% to 5% of the participant's compensation depending on the participant's years of continuous service. The Company-paid Defined Retirement Contribution is calculated once per year at the end of the year.

Defined Company Contributions and Defined Retirement Contributions of \$8.4 million and \$7.5 million were recorded as employer contribution receivables as of December 31, 2024 and 2023, respectively, and were paid early in the subsequent years.

Beginning in 2025 and ending on or before December 31, 2029, certain employees who were participants in the GPP and are actively employed are eligible to receive a Transition Benefit Contribution equal to a percentage of the employee's annual compensation. The Transition Benefit Contribution will be paid early in the following year and will be recorded as an employer contribution receivable.

#### **Profit Sharing Contributions**

In addition, the Company may make a profit sharing contribution to the Savings Plan as determined by resolution of the Company's Board of Directors. Contributions are allocated to participants based on the ratio of each participant's compensation for the applicable Savings Plan year to the compensation for all Savings Plan participants for the Savings Plan year. Participants are eligible for an allocation of the contribution for a Savings Plan year if the employee worked at least 1,000 hours during that year. Contributions to highly compensated employees may be limited to comply with IRC discrimination requirements. Profit sharing contributions of \$5.4 million and \$5.6 million were recorded as employer contributions receivables as of December 31, 2024 and 2023, respectively. These profit sharing contributions were paid in the subsequent years.

#### **Vesting**

Participants are 100% vested in their 401(k) contributions, voluntary contributions, voluntary deductible contributions, matching contributions, rollover contributions, and profit sharing contributions at all times, with the exception of pre-termination withdrawals, which are discussed

below. Participants' Defined Company Contribution accounts and Defined Retirement Contribution accounts are 100% vested after three years of vesting service. Participants are 100% vested in their Transition Benefit contributions.

#### **Earnings Allocation**

Each participant's account is credited with an allocation of the earnings or losses, net of investment fees and administrative expenses, of the funds in which the participant has directed investments on a daily basis. Allocations are based on participant account balances relative to the total for all account balances.

#### **Payments of Benefits**

Following a participant's retirement, death, or other separation from service, distribution of amounts credited to the participant's account will occur. The participant or the named beneficiary will receive an amount equal to the value of the participant's account arising from the participant's and Companies' contributions and earnings (losses) thereon. If the value of the participant's vested accounts to be distributed does not exceed \$7,000, the participant will automatically be paid a single cash payment equal to the value of his vested accounts. The Plan allows participants to elect distributions as a single cash payment or installment payments for vested accounts over \$7,000.

Pre-termination withdrawals of salary reduction contributions and rollover contributions are permitted on account of hardship, as defined in the Savings Plan. Voluntary contributions may be withdrawn at any time. Company's matching contributions may also be withdrawn at any time, provided that the portion thereof attributable to such contributions made within the twenty-four month period prior to withdrawal may not be withdrawn unless the participant has completed at least five years of Savings Plan participation.

#### **Participant Loans**

Participants may obtain loans subject to approval by the Savings Plan Trustee, in accordance with Savings Plan provisions. Loans may be made from a participant's 401(k) account, matching contributions account, profit sharing contributions account, and rollover account. Such loans are limited to one-half of a participant's vested account up to \$50,000. Loans bear interest at prime plus 1.0% at origination date, which approximated 8.5% and 9.5% at December 31, 2024 and 2023, respectively. Participant loans generally mature over a period of up to four years, with principal residence loans maturing up to fifteen years. Principal and interest is paid ratably through payroll deductions. Participant loans in default are reclassified as distributions based upon the terms of the Savings Plan document.

Loans may not be made against a participant's Defined Company Contribution, Defined Retirement Contribution, or Transition Benefit Contribution account.

#### **Forfeitures**

At December 31, 2024 and 2023, there was \$270,584 and \$290,627, respectively, in forfeited nonvested accounts available. Forfeitures of nonvested accounts are used to reduce employer contributions and then administrative expenses. For the year ended December 31, 2024, \$287,453 was used to reduce employer contributions and the related employer contributions receivable. The forfeitures used represented the 2024 forfeiture balance plus additional 2025 forfeitures available at the time of usage. For the year ended December 31, 2023, \$325,000 was used to reduce employer contributions and the related employer contributions receivable. The forfeitures used represented the 2023 forfeiture balance plus additional 2024 forfeitures available at the time of usage.

## 2. Summary of Significant Accounting Policies

The significant accounting principles and practices of the Savings Plan are summarized as follows:

### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

### **Investment Valuation**

Participants may direct the investment of their contributions as well as employer contributions between mutual funds, common/collective trust funds, and a pooled separate account, each offering different degrees of risk and return. Investments are reported at fair value which is described more fully in Note 4. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Savings Plan’s investments are determined by closing prices of each fund at the end of the Savings Plan year. Purchases and sales are recorded on a trade-date basis.

### **Net Appreciation (Depreciation) in Fair Value of Investments and Investment Income**

The Savings Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of investments, which consists of the realized gains and losses and the unrealized appreciation (depreciation) on these investments. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

### **Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and changes therein. Actual results could differ from those estimates.

### **Notes Receivable From Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

### **Payment of Benefits**

Benefits are recorded when paid.

### **Administrative Fees**

Certain expenses of maintaining the Savings Plan are paid directly by the Company and are excluded from these financial statements. Fees related to asset management and administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative fees. Other investment related expenses are included in net appreciation (depreciation) of fair value of investments. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Savings Plan.

### 3. Information Certified by Trustee

The following is a summary of the information included in the Savings Plan's financial statements and supplemental schedule that was prepared by the Trustee as of December 31, 2024 and 2023, and for the year ended December 31, 2024, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the Trustee that the data included in the supplemental schedule, and the data summarized below, is complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	<b>2024</b>	<b>2023</b>
<b>Statements of net assets available for benefits</b>

Net appreciation in fair value of investments	40,472,479	
Total investment income	\$ 49,579,892	
Interest income on notes receivable from participants	\$ 898,184	

### 4. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1      Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Savings Plan has the ability to access.
- Level 2      Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;

## Notes to Financial Statements

### December 31, 2024 and 2023

---

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Savings Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2024.

#### **Mutual Funds**

The mutual funds held by the Savings Plan are open-end mutual funds registered with the Securities and Exchange Commission and deemed to be actively traded. These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and these investments are classified within Level 1 of the valuation hierarchy.

#### **Common/Collective Trusts**

The Savings Plan held a fair value of \$229,378,926 and \$193,505,076 in Harbor Capital Appreciation CIT and Vanguard Target Retirement Funds classified as common/collective trusts at December 31, 2024 and 2023, respectively. These investments are measured at a fair value based on NAV per unit as a practical expedient.

Generally, under ordinary market conditions, all common/collective trust positions provide daily market liquidity to Savings Plan participants and the Savings Plan. These investments are public investment vehicles valued using the NAV provided by the trustee of the fund as the practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is not quoted on an active public market; however, the unit price is based on underlying investments which are traded on an active market. There are no unfunded commitments and no restrictions on redemptions of the investment at December 31, 2024 or 2023.

#### **Pooled Separate Account**

The New York Life Anchor Account is a pooled separate account group annuity contract. The Savings Plan held a fair value of \$62,608,849 and \$66,515,934 in the New York Life Anchor Account at December 31, 2024 and 2023, respectively. This investment is measured at a fair value based on NAV per unit as a practical expedient.

Generally, under ordinary market conditions, pooled separate accounts provide daily market liquidity to Savings Plan participants and the Savings Plan. The Savings Plan invests in the New York Life

Anchor Account, in which participant transactions (issuances and redemptions) may occur daily. Were the Savings Plan to initiate a full redemption of the contract, the investment advisor reserves the right to delay withdrawal for up to twelve months from the trust in order to ensure that securities liquidations will be carried out in an orderly manner. There were no unfunded commitments and no restrictions on redemptions of the investment at December 31, 2024 or 2023.

The following table sets forth by level, within the fair value hierarchy, the Savings Plan's investments at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 148,318,678	\$ -	\$ -	\$ 148,318,678
Investments measured at net asset value practical expedient <sup>(1)</sup>				291,987,775
Total investments, at fair value				<u>\$ 440,306,453</u>

The following table sets forth by level, within the fair value hierarchy, the Savings Plan's investments at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 133,149,044	\$ -	\$ -	\$ 133,149,044
Investments measured at net asset value practical expedient <sup>(1)</sup>				260,021,010
Total investments, at fair value				<u>\$ 393,170,054</u>

(1) In accordance with ASU No. 2015-07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient (the "NAV PE") have not been classified in the fair value hierarchy. These investments, consisting of a pooled separate account and common/collective trusts, are valued using the NAV PE provided by the Trustee. The NAV PE is based on the underlying investments held by the fund less its liabilities. These investments can be redeemed in the near-term. Significant investment strategies have not been disclosed for investments measured at net asset value using the practical expedient which represent investments filing Form 5500 as direct filing entities.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024 and 2023, there were no transfers in or out of levels 1, 2, or 3.

## 5. Plan Termination

The Company reserves the right to change, amend, modify or terminate the Savings Plan. If the Savings Plan should be terminated, each participant will be entitled to receive payment from his or

her account as provided in the Savings Plan. In the event of plan termination, participants will become 100% vested in their accounts. Because the Savings Plan is an individual account plan, it is not insured under the plan termination provision of ERISA as administered by the Pension Benefit Guaranty Corporation.

#### **6. Tax Status**

The IRS has determined and informed the Company by letter dated July 13, 2017 that the Savings Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Savings Plan has been amended since receiving the determination letter, the Savings Plan administrator and the Savings Plan's legal counsel believe that the Savings Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Savings Plan and recognize a tax liability (or asset) if the Savings Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. Savings Plan management has analyzed the tax positions taken by the Savings Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Savings Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes the Savings Plan is no longer subject to income tax examinations for years prior to 2021.

#### **7. Party-in-Interest Transactions**

Certain fees incurred by the Savings Plan for investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are settled with adjustments to participants' accounts rather than direct payment. Notes receivable from participants qualify as exempt party-in-interest transactions.

#### **8. Risks and Uncertainties**

The Savings Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, credit, and market risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

#### **9. Subsequent Events**

The Company has evaluated the effects subsequent events would have on the financial statements through September 2, 2025, which is the date the financial statements were available to be issued. Based on such evaluation, no additional events have occurred that in the opinion of management warrant adjustment or disclosure to the financial statements.
