## Independent Auditor's Report

Plan Administrator  
Brooks Automation US, LLC 401(k) Plan  
Chelmsford, Massachusetts

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Brooks Automation US, LLC 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP"); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

### ***Auditor’s Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### ***Other Matter – Supplemental Schedule Required by ERISA***

The supplemental schedule of Form 5500 - Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment

information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Notes to Financial Statements

---

### 1. Description of Plan

The following description of the Brooks Automation US, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

#### *General*

The Plan is a defined contribution profit sharing plan with a cash deferred arrangement covering all United States employees of Brooks Automation US, LLC (the “Company” or “Employer”) who have reached age 18 (“Participants”). Employees are eligible to participate in the Plan on the first day of the month following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

#### *Participant Contributions*

Each year, Participants may contribute up to 25% of their annual compensation as defined by the Plan, up to a dollar limit set by federal law. Employees of the Employer shall have an automatic deferral of 3% after 45 days from date of hire unless an alternative election is made. An additional deferral of 1% will be added to automatically enrolled participants’ accounts annually, not to exceed a total deferral percentage of 10% (9% for 2023). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions and to contribute up to 100% of their annual pre-tax compensation to make such contributions. Participants may also contribute amounts representing distributions from other qualified plans (“Participant Rollovers”).

#### *Employer Contributions*

The Employer will make a safe harbor matching contribution of 100% of the first 3% of eligible compensation that a participant contributes to the Plan, plus 50% of the next 3% of eligible compensation, subject to certain limitations. For the 2024 plan year, a true up of \$143,723 was paid subsequent to year end.

In addition, at its discretion, the Employer may make a profit-sharing contribution. In order to be allocated a profit-sharing contribution, a participant must be employed on the last day of the plan year, unless separated due to death, disability, or normal retirement age. For the plan years ended December 31, 2024 and 2023, there was no profit-sharing contribution to the Plan.

#### *Participant Accounts*

Each Participant’s account is credited with the Participant’s contribution, the Employer’s matching contributions, and a pro-rata allocation of (a) the Employer’s profit-sharing contribution, (b) the Plan’s investment earnings, (c) charged with an allocation of investment fees, and (d) charged with direct administrative expenses. Allocations are based on participant earnings, deferrals, or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant’s vested account.

#### *Vesting*

Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

# Brooks Automation US, LLC 401(k) Plan

## Notes to Financial Statements

---

Vesting in the employer's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. A year of service is defined as a 12-month plan year period. A Participant begins vesting after one year of service and is fully vested after two years of service.

### ***Forfeitures***

The non-vested portion of a participant's account shall be forfeited as of the earlier of the date on which the Participant receives a complete distribution of his or her accounts or the last day of the plan year in which the participant incurs five consecutive one-year breaks in service.

Forfeitures are used to reduce future employer contributions or pay administrative expenses of the Plan. At December 31, 2024 and 2023, unused forfeited account balances totaled \$198,203 and \$188,198, respectively. During 2024 and 2023, forfeitures used to pay employer contributions or administrative expenses were immaterial.

### ***Payment of Benefits***

In-service withdrawals from a Participant's vested deferral account balance are permitted upon the attainment of age 59½ or due to financial hardship (after exhausting the maximum amount available to the Participant as a loan under the Plan).

Participants are entitled to their vested account balance upon death, disability, retirement, or termination of employment. A Participant may elect to receive a lump-sum amount, installment payments, or partial payments equal to their vested account balance. In addition, if a Participant's vested account is less than \$5,000, and a distribution election has not been made by the Participant, the plan administrator may distribute the benefit without the consent of the participant.

### ***Notes Receivable from Participants***

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Terms range up to five years (or up to 15 years for the purchase of a primary residence). Participants are allowed only one loan outstanding at any given time. Notes receivable from Participants are secured by the vested balance in the Participant's account and bear interest at a rate equal to the prime rate plus one percent. Principal and interest are paid ratably through payroll deductions.

### ***Administrative Expenses***

The Plan is responsible for paying all expenses incurred in the administration of the Plan, except to the extent such expenses are paid by the Company. Expenses paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses. Other administrative expenses are allocated to participants as defined in the plan document. Investment related expenses are included in net appreciation/ depreciation in fair value of investments.

## **2. Summary of Significant Accounting Policies**

### ***Basis of Accounting***

The financial statements of the Plan are prepared under the accrual method of accounting.

# Brooks Automation US, LLC 401(k) Plan

## Notes to Financial Statements

---

### *Use of Estimates*

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### *Contributions*

Participant contributions and any related employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Discretionary profit-sharing contributions are recorded in the relevant period in accordance with the terms in the plan document.

### *Investment Valuation and Income Recognition*

The investments of the Plan are reported at fair value. The fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### *Payment of Benefits*

Benefits are recorded when paid.

### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

### *Subsequent Events*

The Plan evaluated all events and transactions that occurred after December 31, 2024, through August 27, 2025, the date these financial statements were available to be issued.

## **3. Certified Investments**

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T Rowe Price Trust Company, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

# Brooks Automation US, LLC 401(k) Plan

## Notes to Financial Statements

---

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Investment activity including, net appreciation in fair value of investments, and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.
- Investment information included in the Form 5500 - Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, as shown on the ERISA-required supplemental schedule.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

### 4. Fair Value Measurement

The Plan follows the guidance of Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement*, which defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets.
- quoted prices for identical or similar assets or liabilities in inactive markets.
- inputs other than quoted prices that are observable for the asset or liability.
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in methodologies used at December 31, 2024 and 2023.

### ***Mutual Funds***

Represent registered investments and are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value

# Brooks Automation US, LLC 401(k) Plan

## Notes to Financial Statements

---

(“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value (“NAV”) as of December 31, 2024 and 2023.

### ***Common Trust Funds***

The Plan’s investments in the common trust funds are stated at fair value and represent the number of participation units owned by the Plan. Quoted market prices of the underlying investments are used to value each fund and are based on the NAV of the shares held at the end of the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan’s investment assets at fair value as of December 31, 2024 and 2023:

	(Level 1)	December 31, 2024 Total
Mutual funds	\$ 59,937,564	\$ 59,937,564
Common trust funds	128,020,392	128,020,392
<b>Total Investments</b>	<b>\$ 187,957,956</b>	<b>\$ 187,957,956</b>

	(Level 1)	December 31, 2023 Total
Mutual funds	\$ 50,440,804	\$ 50,440,804
Common trust funds	118,086,709	118,086,709
<b>Total Investments</b>	<b>\$ 168,527,513</b>	<b>\$ 168,527,513</b>

## **5. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

## **6. Related-Party and Party-in-Interest Transactions**

Certain plan investments are shares of mutual funds and common trust funds managed by T. Rowe Price Trust Company, the plan trustee. Therefore, these transactions qualify as party-in-interest.

# Brooks Automation US, LLC 401(k) Plan

## Notes to Financial Statements

---

Certain employees of the Company who participate in the Plan, perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

### **7. Tax Status**

The Plan has adopted the T. Rowe Price Retirement Services, Inc. pre-approved Profit Sharing/Money Purchase/CODA Plan. The pre-approved plan received an opinion letter from the Internal Revenue Service dated August 19, 2020, stating that the written form of the underlying plan document is qualified under Section 401(a) of the Internal Revenue Code (“IRC”), and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and that the Plan continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **8. Termination of the Plan**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.
