ESOP Administrative Committee
McCarthy Employee Stock Ownership Plan
St. Louis, Missouri

Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit For The 2024 Financial Statements

We have performed an audit of the financial statements of McCarthy Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2024 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2024 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the 2024 financial statements, is complete and accurate.

Opinion On The 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities For The Audit Of The 2024 Financial Statements section:

- The amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis For Opinion On The 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The 2024 Financial Statements section of our report. We are required to be independent of McCarthy Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities Of Management For The 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about McCarthy Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The 2024 Financial Statements

Except as described in the Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit For The 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of McCarthy Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about McCarthy Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required By ERISA

The supplemental schedules of assets held at end of year as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedules that agrees to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report On The 2023 Financial Statements

We have audited the 2023 financial statements, and in our report dated October 3, 2024, we expressed an unmodified opinion on those 2023 financial statements.

McCARTHY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 And 2023

1. Description Of Plan And Basis Of Presentation

The following description of the McCarthy Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined contribution plan covering all employees of Genuine McCarthy Enterprises, Inc. and Subsidiaries, the Company, who have completed a 12-month period of service, except union members, leased employees, nonunion hourly craft employees, and irregularly schedules employees. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the Code), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Contributions to the Plan are made at the discretion of the Board of Directors in the form of cash or Company common stock. Contributions may consist of discretionary amounts allocated as a percentage of base pay, as defined by the Plan Agreement.

Participant Accounts

Each participant's account is credited with an allocation of the Company's contributions and Plan earnings. Company contributions are allocated to each participant's account based upon a percentage of participant compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's total account balance to the total balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants' balances vest at the rate of 20% for each year of vesting service in the Plan with 100% vesting at the end of five years of vesting service. Participants are also 100% vested upon retirement, disability, or death.

McCARTHY EMPLOYEE STOCK OWNERSHIP PLAN

Notes To Financial Statements (*Continued*)

Forfeitures

Forfeited amounts of Company discretionary contributions are used to offset the amount of future Company discretionary contributions. Forfeitures amounting to \$1,136,639 and \$948,220 were used to offset the Company's discretionary contributions for the years ended December 31, 2024 and 2023, respectively. There were no forfeitures available for future use as of December 31, 2024 or 2023.

Payment Of Benefits

Generally, no distributions from the Plan are paid until a participant retires, dies, becomes disabled, or otherwise terminates employment with the Company. Distributions are made in one or more substantially equal periodic cash payments over a period no longer than five years. Periodic payments may extend an additional five years for participants with account balances in excess of certain dollar limits, as defined by the Plan Agreement.

Participants may elect an in-service withdrawal if the participant has either (i) attained the age of sixty-one and is 100% vested under the Plan Agreement or (ii) attained the age of fifty-five and completed at least twenty years of vesting service under the Plan Agreement.

The Plan also allows for the distribution of Company common stock. Upon distribution, the Company common stock is immediately sold to the Company at fair value for a single sum payment.

In addition, the Plan provides for the mandatory transfer of terminated participants' account balances to the McCarthy Employee Retirement Savings Plan, unless otherwise elected by the participant (Note 4).

Put Option

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

McCARTHY EMPLOYEE STOCK OWNERSHIP PLAN

Notes To Financial Statements (*Continued*)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into other investments. Participants who have reached age 55 and have at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of total shares ever allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Distributions are made in cash or Company common stock.

Administration

The Plan is administered by the ESOP Administrative Committee (the Committee). The Committee consists of members appointed by the Company's Board of Directors. Except as provided by the Plan Agreement, Company common stock owned by the Plan is voted by GreatBanc Trust Company, the Trustee. Plan administrative expenses are paid by the Company.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Contributions Receivable And Credit Loss Policy

Amounts due for contributions are stated at the amount that management expects to collect from outstanding balances less an allowance for expected credit losses. The expected credit losses amount reflects management's best estimate of amounts that will not be collected. This assessment considers historical experience, current conditions and, when appropriate, reasonable and supportable forecasts.

McCARTHY EMPLOYEE STOCK OWNERSHIP PLAN

Notes To Financial Statements (*Continued*)

The Company has concluded that no allowance for current expected credit losses was necessary at December 31, 2024 or 2023.

Investment Valuation And Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net change in value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following investment information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statements of net assets available for benefits as of December 31, 2024;
- Investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024;
- Investment information included in the footnotes and on the supplemental schedule of assets held at end of year as of December 31, 2024.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The Plan follows accounting rules that establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes To Financial Statements (*Continued*)

The following is a description of the valuation methodologies used for assets measured at fair value:

Genuine McCarthy Enterprises, Inc. Class A Common Stock

The fair value of Genuine McCarthy Enterprises, Inc. Class A common stock held by the Plan is valued at fair market value based upon an independent appraisal. This appraisal was based upon a combination of the market capitalization and discounted cash flow valuation techniques consistent with prior years.

The valuation process involves the Trustee's selection of an independent appraiser (the Appraiser). The Appraiser will make reviews, analyses, and inquiries that are deemed necessary and appropriate to express an opinion on the fair market value of the common stock held by the Plan. Among the information obtained by the Appraiser are audited financial statements, forecasts and projections prepared by Plan management, and publicly available financial data for certain companies that are deemed comparable to the Company. The Appraiser prepares a written report, which the Trustee reviews in detail, discusses with the Appraiser and approves. The results of this process are documented in minutes of the Trustee.

Cash Equivalents

Cash equivalents consists of a money market mutual fund, valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the U.S. Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Quantitative Information About Significant Unobservable Inputs Used In Level 3 Fair Value Measurements

The following table sets forth the basic assumptions used in arriving at fair value and the range of value for unobservable inputs as of December 31, 2024 and 2023:

Instrument	Fair Value		Principal Valuation Techniques	Unobservable Inputs
	2024	2023		
Genuine McCarthy Enterprises, Inc. Class A common stock	\$ 1,779,115,994	\$ 1,435,973,965	Discounted Cash Flow	Weighted average cost of capital Long-term revenue growth rate Long-term pretax operating margin Changes in working capital
			Market Capitalization	Revenue, EBITDA, EBIT, net income and cash flow multiples

There have been no changes in the valuation methodologies used at December 31, 2024 or 2023.

5. Transfers To Another Plan

This represents the account balance transfer of participants who affirmatively elected to diversify a portion of their investment in Company common stock into the McCarthy Employee Retirement Savings Plan. This amount also includes the transfer of terminated participants' account balances to the McCarthy Employee Retirement Savings Plan.

6. Risks And Uncertainties

It is the Plan's intent to be primarily invested in Company common stock, which represents a nondiversified investment portfolio. Investment securities, such as the Company's common stock, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Income Tax Status

The Plan received a favorable determination letter from the IRS, dated April 30, 2015, indicating that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the favorable determination letter, and was restated effective January 1, 2019. Due to the expiration of the IRS determination letter program for individually designed plans, no new letter is expected. The Plan administrator and the Plan's tax counsel believe that the Plan and its underlying trust are currently designed and are operating in compliance with the applicable requirements of the IRC and that the Plan continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2021 and later remain subject to examination by taxing authorities.

9. Related Party And Parties In Interest Transactions

The Plan invests in Company common stock and has agreements with various service providers to provide administrative services to the Plan. These transactions are allowable party in interest transactions under ERISA.
