Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator and Trustee of
Security First Federal Credit Union Retirement Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Security First Federal Credit Union Retirement Pension Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note E to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (“GAAP”).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2024, is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024 and 2023

A. Description of the Plan

General

The following brief description of the Security First Federal Credit Union Retirement Pension Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by Security First Federal Credit Union (the "Company"). Participants should refer to the Plan document for more complete information. The Company's corporate offices are located in Edinburg, Texas.

The Plan was effective January 1, 2006, restated effective January 1, 2019, and is a noncontributory defined benefit pension plan available to all employees of the Company who have attained age 21 and completed six months of service. All employees of the Company are eligible to participate in the Plan, except for those employees hired or rehired after June 15, 2017. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 15, 2017 ("Freeze Date"), the Plan was amended to freeze benefit accruals. Therefore, effective June 15, 2017, no further benefits were earned under the Plan after that date. No employee hired or rehired was eligible to become a Plan participant on or after June 15, 2017. However, the benefits that have been earned for service and compensation up to and including June 15, 2017, will not be affected.

Administration of the Plan

The Retirement Plan Committee is a committee appointed by the Company that serves as a fiduciary of the Plan. The Retirement Plan Committee has general responsibility for the administration and interpretation of the Plan.

Vesting

Effective June 15, 2017, the Plan was amended to freeze benefit accruals. As a result of the Plan being frozen, the vesting period was changed from 5 years to 1 year.

Contributions

The Company is responsible for funding the Plan and contributions by participants are not required or permitted. All contributions are paid directly to Matrix Trust Company (the "Trustee"). The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company was not required to make any contributions for 2024 and 2023 to satisfy the minimum funding requirements of ERISA.

The Pension Protection Act of 2006, as amended by the Worker, Retiree and Employer Recovery Act of 2008, imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "at-risk" status is referred to as the Funding Target Attainment Percentage. A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2024 AFTAP for the Plan is 478% percent (450% in 2023). Because the Plan's AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS *(continued)*

A. Description of the Plan – continued

Retirement Benefits

Employees who are 100% vested are entitled to pension benefits beginning at the normal retirement age of 65. The normal retirement date is the first day of the month following the normal retirement age. The benefit will be equal to 40% of the 60 month's highest average monthly salary, rounded to the nearest \$5, with a pro-rata reduction for service less than 25 years. For purposes of calculating accrued benefits, years of service completed prior to January 1, 2001 will be disregarded. Payment of the benefits will begin as soon as practicable following the normal retirement rate. A participant is fully vested after completing five or more years of vested service prior to the Freeze Date and one year after the Freeze Date. The normal forms of benefit payments are a life annuity or, if married, a joint and up to 100% survivor annuity, however a lump sum is allowed.

The Plan permits early retirement if an employee has more than 5 years of service (1 year after Freeze Date) and has reached age 55. Participants who request pension benefits prior to their normal retirement age are subject to a 6% annual reduction of benefits. Early retirement benefits payable at the early retirement date will be equal to the accrued benefit reduced by 0.5% for each of the first 60 complete calendar months and 0.4% for the next 60 months; and actuarial equivalence before age 55. Payment of early retirement benefits will begin as soon as practicable following the date elected to receive payment.

Death and Disability Benefits

If an active vested employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active vested employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they would have accumulated if employment had continued uninterrupted until age 65.

Plan Expenses

Employees of the Company perform certain administrative functions with no compensation from the Plan. The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses, incurred in connection with the general administration of the Plan, that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net realized and unrealized gains (losses) on investments presented in the accompanying statements of changes in net assets available for benefits.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS *(continued)*

B. Summary of Significant Accounting Policies – continued

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates. Significant estimates include the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein.

Investment Valuation and Income

The investments of the Plan are stated at fair value as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with GAAP, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. See Note C for information related to the Plan's valuation methodologies.

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

C. Fair Value Measurements

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined are as follows:

Level 1 – observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets

Level 2 – observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

Level 3 – inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS (continued)

C. Fair Value Measurements – continued

GAAP requires that management describe the methodologies used to measure the fair value of assets and liabilities. The methodologies used to measure the fair value of the Plan’s investments are as follows:

- Common collective trust funds – the Plan invests in common collective trust funds composed primarily of a highly diversified portfolio of investment grade, fixed and floating rate securities, equity securities, and foreign and domestic mid-cap companies. The fair values of the underlying funds in the common collective trust funds are valued based on the unit value established for each fund at each valuation date. The unit value of a collective investment fund is calculated by dividing the fund’s net asset value on the calculation date by the number of units of the fund that are outstanding on the calculation date, which is derived from observable purchase and redemption activity in the collective investment fund. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund sell the investment for an amount different from the reported net asset value.

There have been no changes in the methodologies used at December 31, 2024 and 2023. The following table details the Plan’s investments at fair value by level, within the fair value hierarchy, as of December 31:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2024				
Investments measured at net asset value*				<u>\$ 10,631,991</u>
Total investments at fair value				<u>\$ 10,631,991</u>
December 31, 2023				
Investments measured at net asset value*				<u>\$ 9,758,937</u>
Total investments at fair value				<u>\$ 9,758,937</u>

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

These items are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement of assets and liabilities within the levels of the fair value hierarchy. For the years ended December 31, 2024 and 2023, there were no significant transfers between levels.

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS (continued)

C. Fair Value Measurements – continued

There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan. The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if Currently Eligible)</u>	<u>Redemption Notice Period</u>
December 31, 2024				
Common collective trust funds	\$ 10,631,991	N/A	Daily	5 days
December 31, 2023				
Common collective trust funds	\$ 9,758,937	N/A	Daily	5 days

D. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan’s independent actuary using a January 1 measurement date and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS *(continued)*

D. Actuarial Present Value of Accumulated Plan Benefits – continued

The significant actuarial assumptions used to determine the actuarial present value of accumulated plan benefits, were as follows:

January 1, 2025

Investment returns	4.00%
Salary increases	Not applicable
Weighted average discount rate	6.75%
Retirement age assumption	65 years old
Mortality – during benefit payment period	RP 2014 table proj to 2025 by scale MP 2021
Mortality – before benefit payment period	RP 2014 table proj to 2025 by scale MP 2021

January 1, 2024

Investment returns	4.00%
Salary increases	Not applicable
Weighted average discount rate	6.50%
Retirement age assumption	65 years old
Mortality – during benefit payment period	RP 2014 table proj to 2024 by scale MP 2021
Mortality – before benefit payment period	RP 2014 table proj to 2024 by scale MP 2021

For 2024 and 2023, disability, termination, and retirement rates are based on published statistical data and anticipated experience under the Plan. Benefits accumulated, including actuarial adjustments, include the effects of actuarial experience gains and losses.

The actuarial assumptions are based on the presumption that the Plan will continue. If the Company chooses to terminate the Plan, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

E. Certified Investments

Certain information related to investments are disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, and net realized and unrealized gains on investments for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company.

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS *(continued)*

F. Tax Status

The Plan obtained its latest determination letter in February 28, 2023, in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of Section 401 of the Internal Revenue Code (the "Code"). The Plan has been amended since receiving the determination letter.

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated after providing for any administrative expenses:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the terms of the Plan. The priority amount is limited to the lowest benefit that was payable during those three years. The amount is further limited to the lowest benefit that would be payable under the plan provisions in effect at any time during the five years preceding plan termination.
- Benefits guaranteed and insured by the Pension Benefit Guaranty Corporation ("PBGC").
- All other vested accrued benefits under the Plan not insured by the PBGC.
- All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for the accumulated benefit obligation and may depend on the level of benefits guaranteed by the PBGC.

SECURITY FIRST FEDERAL CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS *(continued)*

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

I. Parties-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

The Plan invests in a common collective trust fund managed by affiliates of the Trustee. Transactions in such investments, qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. The Plan paid certain expenses to affiliates of the Trustee, related to investment activity totaling \$1,453 and \$1,654 for the years ended December 31, 2024 and 2023, respectively. The Plan paid certain expenses to CFMG Life Insurance Company, the Recordkeeper, related to plan operations totaling \$64,616 and \$64,854 for the years ended December 31, 2024 and 2023, respectively. These transactions are party-in-interest transactions under ERISA. These transactions are exempt from the prohibited transactions rules under ERISA.

J. Reconciliation of Financial Statements to Form 5500

The net assets available for benefits and the changes in net assets available for benefits per the financial statements reconciled to Schedule H of Form 5500 without a difference as of and for the years ended December 31, 2024 and 2023.

K. Subsequent Events

In preparing the accompanying financial statements, management has evaluated all subsequent events and transactions for potential recognition or disclosure through August 8, 2025, the date the financial statements were available for issuance.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
