Independent Auditors' Report

To the Trustees of
the Grato Employee Stock Ownership Plan

Opinion on the Financial Statements

We have audited the financial statements of Grato Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Grato Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year then ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Grato Employee Stock Ownership Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Grato Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Grato Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Grato Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedule, including the form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Grato Employee Stock Ownership Plan

Notes to Financial Statements

Year Ended December 31, 2024

Note A – Plan Description and Basis of Presentation

The following brief description of the Grato Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Grato Holdings Inc. (the “Company”) established the Plan effective as January 1, 2011. As of January 1, 2015, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Trustees appointed by Grato’s Board of Directors.

On January 1, 2011, the Plan purchased 1,000,000 shares of the Company’s stock with a loan of \$370,500.

The borrowing is collateralized by the unallocated shares of company stock and is guaranteed by the Company. The lender has no rights against shares of company stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the asset and liability and changes therein pertaining to

- a. The accounts of employees with right in allocated company stock (allocated), and
- b. Company stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash or Company Stock to the Plan which is determined by the Board of Directors. Contributions shall be made to the Plan in such amounts, provided that such contributions shall not exceed the maximum amounts deductible under Sections 404(a)(3) of the Internal Revenue Code, and the contributions are adequate to make its regularly scheduled payments of principal and interest on its term loans. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of retirement, death, permanently disable or termination are as follows:

- 1) If a participant terminates employment on or after their Normal Retirement Age (65 years old), the value of their account balance may begin to be paid to the participant no later than one year after the close of the Plan Year in which the participant terminates their employment.
- 2) If a participant should die while still employed by the Company, their beneficiary will be paid the full value of their account. If the participant’s account has not yet begun to be paid out, payment to the participant’s beneficiary will begin by the end of the Plan Year following the Plan Year in which the participant’s death occurs. The full benefit will be paid by the December 31st following the fifth anniversary of the date of death. Alternatively, if the participant dies after payments have already begun to be paid, the payments will continue to their beneficiary on the same payment schedule.

Notes to Financial Statements – Continued

Year Ended December 31, 2024

Note A – Plan Description and Basis of Presentation (Continued)

Payment of Benefits (Continued)

- 3) If a participant should become permanently disabled while still employed by the Company, the participant will begin to receive their benefit by the end of the Plan Year following the Plan Year in which the participant was determined to be disabled.
- 4) If a participant terminates employment for any other reason prior to their Normal Retirement Age and their vested account balance is \$1,000 or less, the participant will receive a “cash-out” distribution of their entire vested account balance in a lump sum by the close of the Plan Year following the Plan Year of the participant’s termination of employment.
- 5) If a participant terminates employment for any other reason prior to their Normal Retirement Date and the participant’s vested account balance is over \$1,000 but not more than \$5,000 and they do not elect to have the distribution paid to another qualified retirement plan or IRA or do not elect to receive the distribution, the participant’s distribution shall be automatically transferred to an IRA.
- 6) If the participant terminates employment for any other reason prior to their Normal Retirement Age, the participant may elect to begin to receive their vested account balance by the close of the sixth Plan Year following the Plan Year in which the participant terminates or if earlier the year following the date the participant attains Normal Retirement Age. If the participant does not elect to receive their benefits at this time, they may begin to receive their benefits at any time prior to their Normal Retirement Age. If the participant does not make an election by the earlier of age 65 or death, payments will be made at that time.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited as of the last day of each Plan year with an allocation of shares of the Company’s stock released by the Trustee from the unallocated account and forfeitures of terminated participants’ non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant’s account based on the ratio of the participant’s account balance.

Vesting

If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service after 2 years of service and are 100-percent vested after 6 years of service.

Note A – Plan Description and Basis of Presentation (Continued)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradeable on an established market, or is subject to trading limitations, includes a put option. The put option is right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution, unless eligible floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2024, totaled \$9,956. Forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023, were \$412,526 and \$342,063, respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company stock are reported at fair value. See note D for a discussion of the fair value measurements. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Note D – Fair Value Measurements

The framework for measuring value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan’s level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	\$ 21,458,470
Unrealized appreciation in estimated fair value	42,752
Company stock repurchase	(2,604)
Sale of Grato company stock	(294,287)
Balance, end of year	<u>\$ 21,204,331</u>

The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date

\$ 44,441

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The Grato company stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Grato company stock	\$21,204,331	Income	EBITDA Net income Weighted average cost of capital Discount rate Discount for lack of marketability
		Market	Public comparables Revenue multiple EBITDA multiple Discount for lack of marketability

Grato Employee Stock Ownership Plan

Notes to Financial Statements – Continued

Year Ended December 31, 2024

Note D – Fair Value Measurements (Continued)

The valuation process involves the selection of an appraiser under contract for a term of one year with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Company management independently reviews the report for accuracy and validity, and meets with the appraiser to discuss and comment. Once finalized, the trustees will review and approve.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Loan Payable

In 2011, the Plan entered into a term loan agreement totaling \$370,500 with the Company. The proceeds of the loan were used to purchase Company stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 51,237.046 shares being released and allocated for the plan year ended December 31, 2024.

The agreement provides for the loan to be repaid over 19.5 years. The fair value of the note payable as of December 31, 2024 and 2023, was \$191,546 and \$215,980, respectively.

The scheduled amortization of the loan for the next 5 years is as follows: 2025-\$24,826; 2026-\$27,308; 2027-\$30,039; 2028-\$33,043 and 2029-\$76,330. The loan bears interest at the negotiated rate of the lender. For 2024 the loan interest rate averaged 10.00 percent.

Note F – Related Party and Party in Interest Transactions

The Plan invests in Company stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions. As described in note A, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note G – Risks and Uncertainties

The Plan investments consist primarily of the Company's stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in Company stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in value of the Company stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note H – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed Company stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Grato Employee Stock Ownership Plan
Notes to Financial Statements – Continued
Year Ended December 31, 2024

Note I – Tax Status

The Plan has received a determination letter from the IRS dated August 16, 2016, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken a significant uncertain position that more than likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by the Internal Revenue Service, however, there are currently no audits in progress.

Note J – Subsequent Events

The Plan has evaluated subsequent events through August 27, 2025, the date the financial statements were available to be issued.
