Independent Auditor's Report

Administrative Committee
CTL Engineering, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of CTL Engineering, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

To the Administrative Committee
CTL Engineering, Inc. Employee Stock Ownership Plan

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

To the Administrative Committee
CTL Engineering, Inc. Employee Stock Ownership Plan

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule on page 13 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

CTL Engineering, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1: Plan Description

The following brief description of the CTL Engineering, Inc. Employee Stock Ownership Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

CTL Engineering, Inc. (the “Company”) established the Plan effective as of April 1, 1990. The Plan has been amended and operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Administrative Committee appointed by the Company’s Board of Directors. The Plan’s Trustee is an officer of the Company.

The Plan purchased Company common shares using the proceeds of bank and Company borrowings and holds the common stock in a trust established under the Plan. The borrowings were repaid during 2006. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees’ accounts in accordance with applicable regulations under the IRC.

Since the borrowings were repaid, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, reflect the accounts of employees with vested rights in allocated common stock. There are no unallocated shares.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service and are 21 years old or over. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. The latter condition does not apply if employment termination is due to temporary or seasonal lay-off, normal or early retirement, disability, or death.

During 2023, the Company acquired 100% of the outstanding common shares of Allied Environmental Services, Inc. (“Allied”). As such, effective January 1, 2024, Allied was added as an employer of the Plan.

Effective January 1, 2024, a year of service was amended to include services provided by employees to certain employers acquired by the Company, subject to certain conditions set forth in the amendment.

Employer Contributions

The Company, at its discretion, may make contributions to the Plan in cash or Company stock. Employee contributions are not permitted.

December 31, 2024 and 2023

Note 1: Plan Description (continued)

Payment of Benefits

Distributions on account of death, disability or retirement are made in lump sum in the Plan year following the event. Upon the attainment of age 65 (61 as of January 1, 2024), a participant may elect to receive an in-service distribution. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash. Benefits for in-service distributions or other separations not related to death, disability or retirement that exceed \$25,000 may be paid evenly over five years unless the stock account exceeds \$1,130,000. In that instance, the plan document allows the distribution to occur for up to five additional years as defined in the plan document.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2024, the Plan repurchased certain shares and allocated to remaining participants (i.e., recycling).

The Plan allows for the transfer of account balances of retired or terminated participants to the CTL Engineering, Inc. 401(k) Profit Sharing Plan ("Profit Sharing Plan"). For the year ended December 31, 2024, total transfers to the Profit Sharing Plan were \$3,154,174.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. Administrative expenses paid by the Plan for the year ended December 31, 2024 consisted of fees primarily relating to valuation and recordkeeper services provided in the administration of the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation and length of service, relative to total eligible compensation and total years of service. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Notes to Financial Statements

December 31, 2024 and 2023

Note 1: Plan Description (continued)

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service after two years, and are 100% vested after six years of service. Participants are immediately vested upon retirement, permanent disability, or death.

Effective January 1, 2024, a vesting year was amended to include services provided by employees to certain employees acquired by the Company, subject to certain conditions set forth in the amendment.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. If the total value is in excess of \$5,000, the Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. In the first five years, a participant may diversify up to 25% of shares allocated to his or her account. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution upon eligibility for distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the designated point system of compensation and years of service. Forfeitures of terminated non-vested account balances allocated to remaining participants for the year ended December 31, 2024 consisted of 41.5353 shares and \$17,160 in cash.

Rebalancing

The Plan allows for the rebalancing of eligible participant accounts as of the end of each Plan year designed to result in all eligible participant accounts having the appropriate proportion of Plan assets (other than assets in the form of employer stock) and employer stock.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at fair value. See Note 3 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer Contribution Receivable

Contributions due but not paid prior to year-end are recorded as contributions receivable. The receivable is based on board resolutions of the Company and is considered collectible. Therefore, the receivable is not subject to an allowance for amounts that will not be collected.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through July 21, 2025, the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Cash: Valued at cost, which approximates fair value.

Sponsor Company common stock: Valued at fair value based upon an independent appraisal. This appraisal was based upon a consideration of various valuation methodologies to determine enterprise value, including ones based on cash flows, similar public companies, similar transactions, and net asset value. The appraiser then adjusted enterprise value for certain adjustments, including lack of marketability and outstanding stock appreciation rights to arrive at a fair market value per share.

Note 3: Fair Value Measurements (continued)

The valuation process involves Plan management’s selection of an independent appraiser under contract. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management and the ESOP trustee review and approve. The results of this process are documented in minutes of the Company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value at December 31, 2024 and 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>2024</u>
Cash	\$ 44,091	\$ -	\$ -	\$ 44,091
Sponsor Company common stock	-	-	35,888,616	35,888,616
Investments at fair value	\$ 44,091	\$ -	\$ 35,888,616	\$ 35,932,707
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>2023</u>
Cash	\$ 164,200	\$ -	\$ -	\$ 164,200
Sponsor Company common stock	-	-	29,166,591	29,166,591
Investments at fair value	\$ 164,200	\$ -	\$ 29,166,591	\$ 29,330,791

Changes in Fair Value of Level 3 Assets

The following table sets forth a summary of changes in the fair value of the Plan’s Level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	\$ 29,166,591
Unrealized gains relating to assets still held at the reporting date	6,722,025
Shares repurchased from participants	(3,578,689)
Shares redistributed to participants	3,578,689
Balance, end of year	\$ 35,888,616

There were no transfers into Level 3 investments for the years ended December 31, 2024 and 2023.

Note 4: Related-Party and Party-In-Interest Transactions

The Plan invests in Company common stock. This is a related-party and party-in-interest transaction. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Note 5: Risk and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company common stock and to uncertainties inherent in estimation and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 6: Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Administrative Committee directs the Trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 7: Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 25, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.
