NOTE: The accompanying financial statements have been prepared in part for the purpose of filing with the Department of Labor's Form 5500. Supplemental schedules required by 29 CFR 2520.103-10 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, other than the schedule listed above, are omitted because of the absence of the conditions under which they are required.

Report of Independent Auditors

The Plan Administrator and Participants of
TXNM Energy, Inc. Retirement Savings Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of TXNM Energy, Inc. Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of TXNM Energy, Inc. Retirement Savings Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of TXNM Energy, Inc. Retirement Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about TXNM Energy, Inc. Retirement Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of TXNM Energy, Inc. Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about TXNM Energy, Inc. Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

TXNM Energy, Inc. Retirement Savings Plan

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024 and 2023

(1) Plan Description

The following description of the TXNM Energy, Inc. Retirement Savings Plan (the “Plan”) is provided for general informational purposes only. More complete information regarding the Plan’s provisions may be found in the Plan document.

General

The Plan is a defined contribution plan sponsored by TXNM Energy, Inc., (the “Company” or “TXNM”) covering all employees of the Company, and adopting affiliates who meet the eligibility requirements as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by the TXNM Benefits Governance Committee (the “Committee”). The TXNM Corporate Investment Committee has the authority regarding investment oversight for the Plan. The Company’s Benefits Department also has responsibility for certain aspects of Plan administration.

Eligibility

Eligible employees of the Company and its participating affiliates may participate in the employee deferral portions of the Plan as of the first payroll period after the employee enrolls. An employee becomes eligible to participate in the Company contributions portion of the Plan as of the first day of the payroll period after the employee completes three months of continuous service with the Company or its participating affiliates.

Eligible employees of the Company and its participating affiliates who do not voluntarily elect to enroll in the employee deferral contributions portion of the Plan will be automatically enrolled in the employee deferral contributions portion of the Plan on the first day of the first payroll period after the employee has received notice of automatic enrollment and has been given a reasonable period in which to make an election. If an employee does not want to be automatically enrolled in the employee deferral contributions portion of the plan, the employee must affirmatively elect not to participate.

Contributions and Vesting

Eligible employees may contribute between 1% and 100% of compensation as defined by the Plan, limited by requirements of the Internal Revenue Code (“IRC”). For 2024, the maximum allowable contribution was \$23,000. The Plan also allows participants attaining the age of 50 or older by the end of the calendar year to make catch-up contributions in accordance with Section 414(v) of the IRC. The maximum catch-up contribution for 2024 was \$7,500. Participants may also elect to make Roth contributions utilizing after-tax contributions.

If an employee is automatically enrolled in the Plan, the Company and its participating affiliates will automatically withhold 3% of the participant’s compensation each payroll period and contribute that amount on a before-tax basis to the participant’s account in the Plan. All participants’ before-tax contributions will be automatically increased by 1% each June until the participant reaches the greater of (1) 100% of available eligible earnings or (2) the maximum amount of before-tax contributions permitted by the IRC unless a participant affirmatively elects to not have the participant’s contributions increased.

The Company provides a matching contribution of 75% of the participant’s contributions up to 6% of the participant’s eligible compensation (maximum Company matching contribution of 4.5%). The Company also contributes the following percentages of the participant’s eligible compensation based on the participant’s age:

Under 40 years of age	3%
40 - 44 years of age	5%
45 - 49 years of age	6%
50 - 54 years of age	8%
55 years of age or older	10%

The retirement benefit provided by this Plan is dependent upon the contributions made by the employee, the Company match, the age based contribution described in the above table, and the rate of return on the investments. If an employee does not participate in the matching contributions, a retirement benefit will be derived exclusively from the age based contributions

TXNM Energy, Inc. Retirement Savings Plan

NOTES TO THE FINANCIAL STATEMENTS

made by the Company and return on investments. Should an employee take full advantage of the matching portions by contributing 6%, a retirement contribution ranging from 13.5% to 20.5%, subject to annual maximums established under the IRC, can be accrued each year along with any investment gain or loss.

Participants are fully vested in their contributions and earnings (losses) thereon. In addition, participants are vested in the Company's contributions to the participant's Plan account as soon as they are made.

Benefits

Upon termination of service for any reason, a participant may elect to receive benefits via a distribution in a lump sum, take installment distributions not to exceed a period longer than his or her life expectancy, direct a rollover of the account balance to another qualified plan or individual retirement account or leave the account in the Plan if the balance is \$1,000 or greater.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, the Company's contributions, and the participant's share of the Plan's income and expenses. Allocations are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options

Participants have the opportunity to choose to allocate their contributions among various investment options, including the TXNM Energy, Inc. Common Stock Fund.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum aggregate equal to the lesser of \$50,000 or 50% of their account balance. Amortization periods may not exceed five years, except for loans for the purchase of a primary residence, which may be repaid over a longer period of time as determined by the Committee. All loans shall be repaid with a substantially level amortization of both principal and interest on a schedule prescribed by the Committee with payments made at least bi-weekly, except for loans that qualify for a grace period as determined by the Committee. Any loan is secured by 50% of the balance in the participant's account and bears interest at a rate commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, as determined by the Committee. Outstanding loans at December 31, 2024 have interest rates ranging from 5.75% to 11.0% and maturities through December 2034.

Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would continue to be 100% vested in their account balances remaining after the final allocation of expenses and fund profits or losses.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenues and expenses during the reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

TXNM Energy, Inc. Retirement Savings Plan

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024 and 2023

Income Recognition

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Purchases and sales of investments are reflected on a trade-date basis. The net appreciation (depreciation) in fair value of investments includes both realized gains (losses) and unrealized appreciation (depreciation).

Investment Valuation

Investments of the Plan are stated at fair value. See Note 5.

Participants do not have a beneficial ownership in the specific underlying securities in any of the investments (except for the TXNM Energy, Inc. Common Stock Fund), but have an interest therein represented by units valued as of the last business day of the period.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants and measured at their unpaid principal balance, plus accrued but unpaid interest at the end of the period. Delinquent notes receivable from participants are considered distributions upon the occurrence of an event of default as defined by the loan policy of Plan. No allowance for credit losses has been recorded as of December 31, 2024 or 2023.

Risks and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the financial statements.

Administrative Expenses

The Company and participants share in the administrative expenses of the Plan, except for the administrative costs of the investment funds and loan processing fees that are all paid by the participants.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

GAAP defines subsequent events as events or transactions that occur after the date of the statement of net assets available for benefits but before financial statements are issued. Based on their nature, magnitude, and timing, certain subsequent events may be required to be reflected at the date of the Statement of Net Assets Available for Benefits and/or required to be disclosed in the notes to the financial statements. The Plan has evaluated subsequent events as required by GAAP.

On May 18, 2025, the Company, TroyParentCo LLC, a Delaware limited liability company (“Parent”), and Troy Merger Sub Inc., a New Mexico corporation and a direct subsidiary of Parent (“Merger Sub”), entered into an Agreement and Plan of Merger (the “Merger Agreement”), pursuant to which Merger Sub will merge with and into TXNM (the “Merger”), with TXNM surviving the Merger as a direct wholly-owned subsidiary of Parent. Parent and Merger Sub are affiliates of Blackstone Infrastructure Partners L.P. (“BIP”). The Merger is subject to certain regulatory approvals, including from the New Mexico Public Regulatory Commission. Additional details related to the Merger can be found in the Company’s Current Report on Form 8-K filed on May 19, 2025. The Company is currently unable to determine the full extent of the impacts that the Merger will have on the Plan.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2024 and 2023

(3) Tax Status

The Internal Revenue Service (“IRS”) issued a favorable determination letter dated December 26, 2017, which states that the Plan and the related trust as then designed were in accordance with applicable sections of the IRC. Therefore, the Plan’s net investment income is exempt from income taxes. The Plan has been amended since the determination letter was requested. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires the Plan to evaluate tax positions and recognize tax assets (liabilities) for uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan has no uncertain tax positions taken or expected to be taken as of December 31, 2024 and 2023. The Plan is subject to routine audits by taxing jurisdictions however, there are no examinations currently in progress.

(4) Party-in-Interest

The Plan presently holds shares of the Company’s stock. Participants are allowed to invest their accounts in the TXNM Common Stock Fund. In addition, the Plan invests in shares of investment funds managed by an affiliate of Vanguard Fiduciary Trust Company (“VFTC”). VFTC acts as the Trustee for only those investments as defined by the Plan. Transactions in these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

(5) Fair Value Disclosures

GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair value is based on current market quotes, as available, and is supplemented by modeling techniques and assumptions made by the Plan to the extent quoted market prices are not available.

The Plan determines the fair values of its investments based on the fair value hierarchy established in GAAP, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. GAAP describes three levels of inputs that may be used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs, other than quoted prices, included within Level 1 that are observable for the asset or liability, either directly or indirectly. The Plan’s Level 1 investments, including the TXNM Energy, Inc. Common Stock Fund, values of registered investment companies, and collective investment trusts (“CIT”) are based on quoted market prices, while Level 2 investments include CIT, which are measured at NAV at year-end. Level 2 fair values are provided by the Trustee utilizing a pricing service. The pricing provider predominantly uses the market approach using bid side market value based upon a hierarchy of information for specific securities or securities with similar characteristics. GAAP also provides a practical expedient that allows the net asset value per share to be used as fair value for investments in certain entities that do not have readily determinable fair values and are considered to be investment companies. Fair values for certain CITs held by the Plan are valued using this practical expedient. Investments for which fair value is measured using that practical expedient are not required to be categorized within the fair value hierarchy.
