Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pacific Mobile Structures, Inc. 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Pacific Mobile Structures, Inc. 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pacific Mobile Structures, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt Pacific Mobile Structures, Inc. 401(k) Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pacific Mobile Structures, Inc. 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific Mobile Structures, Inc. 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i – schedule of assets (held at end of year) and Schedule H, Line4a – schedule of delinquent participant contributions, as of and for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pacific Mobile Structures, Inc. 401(k) Retirement Plan Notes to Financial Statements

Note 1 – Description of Plan

The following brief description of the Pacific Mobile Structures, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions.

General – The Plan is a defined contribution retirement plan established for the benefit of eligible employees of Pacific Mobile Structures, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was amended and restated effective April 12, 2022. Effective March 1, 2024, employees of Sustainable Modular Management (Sustainable) are eligible to participate in the Plan.

Eligibility – In general, unless specifically excluded by provisions in the Plan, employees of the Company are eligible to participate in the Plan and receive the discretionary employer match after six months of service, provided they are 18 years of age. Temporary and part-time employees hired on or after April 1, 2017, become eligible to participate in the plan after reaching the age of 21 and completing 1,000 hours of service. Eligible employees that have completed 1,000 hours of service and are employed on the last day of the Plan year are eligible to receive a discretionary profit-sharing contribution from the Company.

Contributions

Participants – The Plan allows for traditional pre-tax deferrals and Roth contributions. When eligible to participate in the Plan, if an employee does not make an election otherwise, they will be automatically enrolled in the Plan at a deferral rate of 3% with annual increases of 1% each April 1st until participant deferrals reach 5%. The Plan allows for catch-up contributions for participants 50 years of age or older as well as rollover contributions from other qualified plans.

Employer Profit Share – The Plan provides that the Company may make a non-elective contribution to the Plan each year in an amount determined by the Company at its discretion (referred to as a profit-sharing contribution). Any non-elective contribution is allocated based upon eligible compensation, as defined by the Plan. For the years ended December 31, 2024 and 2023, the Company made discretionary profit-sharing contributions of 1% of employees' eligible compensation. The Company may make discretionary profit-sharing contributions for eligible employees as determined by the Company's Board of Directors. During the year, the Company made profit-sharing contributions in the amount of \$165,997 to participants.

Employer Match – The Plan also provides that the Company may make discretionary matching contributions to the Plan. Matching contributions are based upon participants' eligible salary contributions made during the year. For the year ended December 31, 2024, the Company made matching contributions to the Plan equal to 100% of the first 3% of an eligible participant's compensation contributed to the Plan, and 50% of the next 2% of eligible compensation contributed to the Plan. During the year, the Company made matching contributions in the amount of \$791,973 to participants.

Contributions are subject to certain limitations of the Internal Revenue Code (IRC).

Notes to Financial Statements

Participant accounts – Each participant's account is credited with the participant's contribution, the Company matching contributions, and allocations of the Company's profit-sharing contributions, as well as Plan earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant eligible compensation, participant contributions, or account balances, as defined.

Participants direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are 100% vested in their contributions to the Plan and related earnings at all times. Contributions from the Company and related net earnings become vested to the participant based on the following schedule of years of service:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Additionally, a participant becomes 100% vested when the participant reaches early or normal retirement age, dies, or becomes disabled while in the service of the Company. Normal retirement age is 65. Early retirement age is 55 (as long as the participant has completed six years of service).

Forfeitures – The portion of a terminated participant account that is not vested (forfeitures) may be used first to pay expenses of the Plan and then to reduce employer contributions. Forfeitures used to reduce expenses during 2024 were \$1,750 and to reduce employer contributions during 2024 were \$37,752. At December 31, 2024 and 2023, there were \$49,015 and \$46,768, respectively, of forfeitures included in net assets available for benefits to be used to pay recordkeeper expenses of the Plan or reduce future employer contributions.

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear fixed, commercially reasonable rates of interest, as determined by the Plan administrator. The maximum loan term is five years unless the loan term qualifies as a home loan, in which case the Plan administrator may permit a longer repayment term. A participant may have only two outstanding loans at a time. Principal and interest are paid ratably through payroll deductions. As of December 31, 2024, the rate of interest on all outstanding loans was between 4.25% and 9.50% with various maturities through May 2038.

Pacific Mobile Structures, Inc. 401(k) Retirement Plan Notes to Financial Statements

Payment of benefits – On termination of service due to death, disability, retirement, or other reasons, a participant or the participant's beneficiary upon his or her consent may elect to receive either a lump-sum amount (full or partial) equal to the value of the participant's vested interest in his or her account, or installments over a period of not more than his or her assumed life expectancy, provided the vested account balance is in excess of \$5,000. For participants whose vested account balance is less than \$5,000, a participant, with or without consent, will receive the value of the vested interest in his or her account as a lump-sum distribution.

Other than termination of employment, death, and disability, distributions can also be made during a participant's employment upon attainment of age 59½ or under certain hardship provisions as defined within the Plan document.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of management estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition – The investments of the Plan are reported at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of the investments within the Plan are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions – Contributions to the Plan are in the form of salary reductions which participants have elected to defer in lieu of current compensation. Participants may elect to contribute, subject to statutory limitations, up to 90% of their eligible compensation. Participants aged 50 or older are allowed to make catch-up contributions. Participants may elect to change contribution percentages to be effective the beginning of the next pay period after the request is received or as soon as administratively possible. The allocation of both their contributions and employer contributions to the funds may be changed at any time and become effective on the day of the change or the next business day based on the day and time the request for a change is made in relation to the stock market close of business. The Plan allows active employees to contribute to the Plan from pre-tax compensation, after-tax compensation, or a combination of both. The Plan also accepts certain rollover contributions.

Contributions from participants and corresponding matching contributions are recorded in the year in which the employee contributions are withheld from compensation.

Pacific Mobile Structures, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. The Plan considers all notes receivable from participants at the end of the calendar quarter, following a calendar quarter for which there is any outstanding payment due, as in default. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Administrative expenses related to operating and maintaining the Plan and certain investment and transaction fees are paid by the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through September 22, 2025, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

Accounting Standards Codification (ASC) 820 established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Pacific Mobile Structures, Inc. 401(k) Retirement Plan

Notes to Financial Statements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value.

Registered investment companies (mutual funds) and money market fund – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments by general types of assets measured at fair value on a recurring basis at December 31, 2024 and 2023. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Notes to Financial Statements

Note 4 – Information Certified by the Plan’s Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments, interest and dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investments reflected on the schedule of assets (held at end of year).

Note 5 – Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company, the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7 – Income Tax Status

The Plan is based on a prototype defined contribution profit sharing plan that received a favorable opinion letter dated June 30, 2020, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended and restated since the date of the opinion letter; however, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan’s tax-exempt status has not been affected, and no provision for income taxes has been included in the Plan’s financial statements.

Note 8 – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Delinquent Participant Contributions

As disclosed in the accompanying supplemental schedule, certain employee deferrals were not remitted to the Plan within the timeframe required by the Department of Labor. The Company has determined the amount of related lost earnings and has remitted these amounts to participants' accounts during 2024.
