## **Schedule SB, line 22 - Description of Weighted Average Retirement Age**

The age reported is the weighted average of the Normal Retirement Ages for all active employees as of the valuation date, rounded to the nearest whole age. The weighting is based on the total IRC 430 funding liability for the employee compared to the total liability for all active employees. For an active late retiree, the assumed retirement age may be later than the Plan's Normal Retirement Age. Each participant's rate of retirement is assumed to be 100% at his or her assumed retirement age.

**Describe the change:**

A change in funding method has occurred with regards to using different valuation software than the prior actuary. Under IRS Announcement 2015-3, automatic approval is given for certain changes in funding method when the enrolled actuary and the business organization providing actuarial services to the Plan changes, provided that certain conditions are satisfied. We have satisfied these conditions.

## **Schedule SB, line 22 - Description of Weighted Average Retirement Age**

The age reported is the weighted average of the Normal Retirement Ages for all active employees as of the valuation date, rounded to the nearest whole age. The weighting is based on the total IRC 430 funding liability for the employee compared to the total liability for all active employees. For an active late retiree, the assumed retirement age may be later than the Plan's Normal Retirement Age. Each participant's rate of retirement is assumed to be 100% at his or her assumed retirement age.

**Describe the change:**

A change in funding method has occurred with regards to using different valuation software than the prior actuary. Under IRS Announcement 2015-3, automatic approval is given for certain changes in funding method when the enrolled actuary and the business organization providing actuarial services to the Plan changes, provided that certain conditions are satisfied. We have satisfied these conditions.
