INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator
Liberty Pumps Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Liberty Pumps Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

LIBERTY PUMPS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following is a brief description of the Liberty Pumps Employee Stock Ownership Plan (the Plan) provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Liberty Pumps, Inc. (the Company) established the Liberty Pumps Employee Stock Ownership Plan effective as of January 1, 2014. The plan operates as a leveraged Employee Stock Ownership Plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an Employee Stock Ownership Plan Committee comprising of four persons, with two being voting members. For the years ended December 31, 2024 and 2023, the trust department of an independent third-party was the Plan's trustee. John Zollo at Sky Blue ESOP Fiduciary Services, an independent third-party Trust Company, was appointed Plan trustee in January 2025.

In December 2014, the Plan borrowed \$16,625,000 from the Company and used the proceeds to purchase 330,000 shares of the Company's common stock which is held in a trust established by the Plan (see Note 8). In June 2021, the Company purchased 9,125.8173 shares from the Plan for \$1,164,454.

The loan payable is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the years then ended, present separately the assets and liabilities and changes therein pertaining to:

- a) the accounts of employees with rights in allocated common stock (allocated), and
- b) common stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company are generally eligible to participate in the Plan providing they worked at least 1,000 hours during such plan year and were nineteen years of age. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions: The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan payable. Employee contributions are not permitted.

Payment of Benefits: Distributions on account of death, disability, retirement or termination commence in the Plan year following the event. The amount to be distributed is based upon the most recent account valuation date prior to the distribution. Distributions are made in cash. Participants with a vested benefit greater than \$20,000 will be paid in equal annual installments over five years. Participants with a vested benefit less than or equal to \$20,000 will receive a lump sum payment.

Administrative Expenses: As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

LIBERTY PUMPS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Plan Termination: The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Stock Ownership Plan Committee directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale is necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of services with the Company. Vesting of ownership benefits is based on the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Put Option: Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is a limited or no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of his or her account. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year end based upon the shares of employer stock in the participant's account at year end.

Forfeitures: Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total participant's compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants were \$162,227 and \$164,524 for the years ended December 31, 2024 and 2023, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

LIBERTY PUMPS EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates: The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Risks and Uncertainties: The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition: The shares of Company common stock are reported at fair value. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains on investments held during the year.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through September 12, 2025, the date the financial statements were available to be issued.

NOTE 3. TAX STATUS

The Plan has received a determination letter from the IRS dated June 8, 2018, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant in the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

	Investments at Fair Value as of December 31, 2024

NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in Fair Value of Level 3 Investments

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Liberty Pumps, Inc. common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Liberty Pumps, Inc. common stock	\$72,523,983	Income	EBITDA Net income Weighted average cost of capital Discount rate Discount for lack of marketability
		Market	Public comparable Revenue multiple EBITDA multiple Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6. COMPANY ADVANCES

During the Plan years ended December 31, 2024 and 2023, the Company advanced \$1,719,117 and \$807,617, respectively, in cash to the Trust to cover the Plan's distribution obligations. This advance was an interest-free loan to the Plan. No collateral has been taken for this loan. Plan Management believes that the loan complies with the requirements of Department of Labor Prohibited Transaction Class Exemption 80-26.

NOTE 7. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness to the Company for the loan used to purchase the Company stock. These are related party and party in interest transactions. As described in Note 1, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

NOTE 8. LOAN PAYABLE

In December 2014, the Plan entered into a \$16,625,000 term loan agreement with Liberty Pumps, Inc., the Company. The proceeds of the loan were used to purchase 330,000 shares of the Company's common stock. Unallocated shares are the collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral immediately before the current year release, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments.
