Independent Auditor's Report

To the Plan Administrator and Participants
Crescent Industries Employee Stock Ownership Plan
New Freedom, Pennsylvania

Opinion on the 2024 Financial Statements

We have audited the financial statements of Crescent Industries Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Responsibilities of Management for the 2024 Financial Statements (continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statements

The financial statements of Crescent Industries Employee Stock Ownership Plan as of December 31, 2023, were audited by other auditors whose report dated October 11, 2024 expressed an unmodified opinion on those statements.

Crescent Industries Employee Stock Ownership Plan

Notes to the Financial Statements
December 31, 2024 and 2023

Note 1 - Description of Plan

The following description of the Crescent Industries Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution pension plan covering substantially all employees of Crescent Industries, Inc. (the Company) who have completed one year of service and have attained the age of 18. Employees may enter the Plan on January 1st and July 1st after such requirements are met. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last day of the plan year are generally not eligible for an allocation of Company contributions for such year. The Plan is designed to comply with Section 4975 (e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an administrative committee. Two officers of the Company are trustees.

Contributions

Employee contributions are not permitted. The Company may contribute a discretionary contribution to the Plan in cash or company stock. The discretionary contribution amounted to \$223,816 and \$205,029 for the years ended December 31, 2024 and 2023, respectively. The contribution was 10,100 shares of company stock valued at \$22.16 per share and 9,900 shares of company stock valued at \$20.71 per share for the years ended December 31, 2024 and 2023, respectively. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with allocations of (a) the Company's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Participants must be employed on December 31 to receive an employer contribution or forfeitures of terminated participant's nonvested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in their account based on total years of service with the Company as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Notes to the Financial Statements

Note 1 - Description of Plan (continued)

Vesting (continued)

Regardless of the number of years of service, a participant's account balance becomes fully vested when the participant attains age 65 or upon death or disability.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may receive a lump-sum amount in cash equal to the December 31 value, immediately preceding distribution, of the participant's vested interest in their account. Distributions of less than \$5,000 that meet the provisions for a mandatory distribution will be paid as a lump sum rollover into an IRA in the participant's name, if the participant does not elect a distribution method. Distributions are made in cash or Company stock, or both as determined by the Plan Committee.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. There were no forfeited nonvested accounts as of December 31, 2024 and 2023. Forfeitures allocated to participants during December 31, 2024 and 2023 totaled \$1,482 and \$631 in cash, respectively, and 261 and 312 shares, respectively.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. That put option is a right to demand that the Company buy any shares of its common stock distributed to participants for which there is no market. The put price is representative of the fair market value of the common stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who have attained age 55 and completed ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Note 1 - Description of Plan (continued)

Voting Rights

The trustees vote all Company common stock held by the Plan on ordinary matters. For certain extraordinary matters, each participant or beneficiary is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustees prior to the time that such rights are to be exercised. If the trustees do not timely receive voting directions from the participant or beneficiary, the trustees shall vote such Company stock.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The financial statements include Crescent Industries, Inc. common stock, whose value has been estimated by an independent valuation specialist in the absence of readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed and the difference could be material.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The estimated fair value of the investment in Crescent Industries, Inc. common stock is determined based upon the results of an appraisal performed by an independent appraiser. As a result of the appraisal, the common stock is valued at \$22.16 and \$20.71 per share at December 31, 2024 and 2023, respectively.

Payment of Benefits

Benefits are recorded when paid.

Crescent Industries Employee Stock Ownership Plan

Notes to the Financial Statements
December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (continued)

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid most operating expenses for the Plan. Investment-related expenses are included in net appreciation in fair value of investments.

Note 3 - Investments

The Plan's investments consist of the following as of December 31 (all non-participant directed):

	<u>2024</u>	<u>2023</u>
Crescent Industries, Inc. Common Stock		
Number of shares	306,989	296,889
Cost	\$ 11,441,402	\$ 8,627,006
Fair value	\$ 6,802,876	\$ 6,148,571

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Crescent Industries Employee Stock Ownership Plan

Notes to the Financial Statements

December 31, 2024 and 2023

Note 4 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The investment in Crescent Industries, Inc. common stock is valued at estimated fair value as determined by an independent appraiser since it is not actively traded and significant other observable inputs are not available. The independent appraiser has chosen the income approach valuation technique to determine the fair value of the common stock. The appraiser took into account historical and projected cash flow and net income. In addition to the income approach, the appraiser took into account a discounted value of non-operating assets. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stock	\$ -	\$ -	\$ 6,802,876	\$ 6,802,876

	Fair Value Measurements at December 31, 2023			
Common stock	\$ -	\$ -	\$ 6,148,571	\$ 6,148,571

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Crescent Industries Employee Stock Ownership Plan

Notes to the Financial Statements

Note 4 - Fair Value Measurements (continued)

Changes in Fair Value Levels (continued)

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of transfer relative to total net assets available for benefits. The following table sets forth a summary of the changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	<u>2024</u>	<u>2023</u>
Common Stock		
Common stock contributed	\$ 223,816	\$ 205,029

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation technique used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	December 31, 2024	December 31, 2023		
Common stock	\$ 6,802,876	\$ 6,148,571	Capitalization of earnings method (income approach) and discounted non-operating assets	Weighted average normalized net income Discount for lack of marketability

Note 5 - Plan Tax Status

The IRS has determined and informed the Company by a letter dated, December 23, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of IRC. The Plan is exempt from federal and state income taxes under current regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2021.

Crescent Industries Employee Stock Ownership Plan

Notes to the Financial Statements
December 31, 2024 and 2023

Note 6 - Administration of Plan Assets

The Plan's assets, which consist primarily of the Company's common stock, are held by the custodian of the Plan. The Plan uses Blue Ridge ESOP Associates as the custodian.

The trustees and custodian invest funds received from contributions, investment sales, interest, and dividend income. The custodian makes distribution payments to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the trustees shall direct the custodian to pay all liabilities and expenses of the trust fund.

Note 8 - Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan also maintains cash in a back deposit account. At times during the years ended December 31, 2024 and 2023, the Plan's cash balances may have exceeded federally insured limits.

Note 9 - Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are shares of the Company's common stock that are managed by the custodian and individual plan trustees are also participants in the plan. Therefore, these transactions qualified as party-in-interest transactions. As described in Note 2, the Company pays the operating expenses of the Plan to the custodian. Fees paid by the Plan to the custodian and custodian for investment management and custody services are immaterial.

Note 10 - Reclassifications

Certain amounts in the 2023 financial statements have been reclassified to conform to the 2024 presentation.
