Independent Auditor's Report

The Plan Administrator
GasSearch Drilling Services Corporation 401(k) Plan
Montrose, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of GasSearch Drilling Services 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the

supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following brief description of the GasSearch Drilling Services Corporation 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective July 1, 2000, as a defined contribution plan covering all employees of GasSearch Drilling Services Corporation (the Company, Plan Administrator, or Employer), as defined in the plan document. The Plan is subject to the provisions of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and its amendments.

Trustee and Administration of the Plan

The trustee and recordkeeper of the Plan is Fidelity Management Trust Company (Fidelity or Trustee). The Trustee holds all assets of the Plan in accordance with the provisions of the trust agreement and service provider contract with the Company. The Company determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

The Plan's eligibility requirement allowed employees to enter the Plan upon attaining the age of 18. Employees are automatically enrolled in the Plan at a pre-tax deferral rate of 3%, unless they actively elect to enroll in the Plan at a different deferral rate or actively elect to opt-out of participation in the Plan. Annually, participants who have automatic enrollment contributions are subject to automatic deferral rate increases of 1%, until a maximum of 6% is reached.

Contributions

Eligible participants can contribute to the Plan on a pre-tax or after-tax (Roth) basis up to 80% of their qualifying annual compensation, subject to certain Internal Revenue Code (IRC) limitations. The Plan also allows catch-up contributions for participants aged 50 and over based on IRC limitations. Participants may change the allocation of invested funds or future contributions as of the first day of each month.

The Company may make discretionary matching employer contributions and/or discretionary non-elective employer contributions at amounts to be determined by the Company. During 2024, the Company matched, on a pay period basis, 100% of the first 6% of eligible compensation contributed. For the year ended December 31, 2024, the Company made a discretionary non-elective employer contribution, on a pay period basis, of a percentage of eligible compensation based on employment group for all eligible employees.

Participants may contribute amounts representing rollover distributions from other qualified plans.

Vesting

Participants are fully vested in their pre-tax, after-tax (Roth) and rollover contributions. Vesting under the Plan is based upon the elapsed time method. A period of service starts with the

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

employee's date of employment and, generally, ends on the date of termination. The Company's discretionary matching employer contributions and discretionary non-elective employer contributions vest according to the below schedule.

Years of Service	Vested (%)
1	33
2	66
3	100

If a participant leaves the Company and is rehired within five years, the prior service with the Company will be restored under the plan document. Predecessor employer services with Cabot Oil & Gas Corporation shall be included in computing years of service for purpose of eligibility and vesting of the Plan. Participants affected by the partial plan termination in 2024 were fully vested upon termination of employment.

Forfeitures

Forfeitures of the Employer's contributions may occur if a participant terminates employment prior to becoming fully vested in the Employer's contributions. Forfeitures will be first applied to plan expenses and then to reduce employer contributions. Forfeited unvested accounts totaled \$86,944 and \$92,571 as of December 31, 2024, and 2023, respectively. During the year ended December 31, 2024, \$92,124 of forfeitures were used to reduce discretionary matching employer contributions. No forfeitures were used to pay plan administrative expenses.

Payment of Benefits

Benefits are generally paid upon normal retirement, disability, death, or termination of employment. Upon normal retirement, disability, or death, participants are entitled to receive 100% of their account balance. A participant eligible for a distribution from the Plan may elect to receive an immediate lump sum payment, installment payments, and partial withdrawal as defined in the plan document. In-service distributions are allowed for participants who have reached age 59½ and are 100% vested. Financial hardship withdrawals are permitted, as defined in the plan document. For terminated participants with a vested account balance greater than \$1,000, but less than \$5,000, who do not elect either a distribution or rollover to an account of the participant's choice, the vested balance will be rolled over to an IRA, for the benefit of the participant. For participants with a vested account balance less than \$1,000, the vested balance will be distributed to the participant in a lump-sum amount equal to the vested value of their account.

Notes Receivable from Participants

Participants may borrow from \$1,000 up to the lesser of \$50,000 or 50% of the vested portion of their account balance subject to certain limits imposed by the IRC. Only one loan can be outstanding at any given time. A loan must be repaid by payroll deductions over a period not to exceed five years unless funds are used in the purchase of the participant's principal residence in which loans are not to exceed ten years. Early payoff of loans is permitted. The loans are secured by the balance in the participant's accounts and bear a reasonable rate of interest as determined by the Plan Administrator based on prevailing rates. The set-up fee and the ongoing administrative fee for the loan are charged directly to the participant's account on a quarterly basis. Loans are limited to participants who are active employees.

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

Participant Accounts

Participants are allowed to direct their accounts for investment in various mutual funds, collective investment trust funds, and a money market mutual fund. Each participant's account is credited with the participant's contributions, the Company's contributions and allocations of plan earnings and charged with plan losses and expenses. The investment earnings or losses are allocated daily to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value as more fully described in Note 4, Fair Value Measurements and Disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends and capital gains are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments represents the Plan's realized and unrealized gains and losses on investments as well as the reinvested capital gains received.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest was di minimis at December 31, 2024 and 2023. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Contributions

Participant contributions and related discretionary employer matching contributions are recognized in the Plan year during which the Company makes payroll deductions from the participant's compensation. Discretionary non-elective employer contributions are recognized in the Plan year to which the participant's compensation relates.

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

Administrative Expenses

Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments. Administrative expenses consist of all expenses incidental to the administration, termination, or protection of the Plan, including, but not limited to, legal, accounting, investment manager, and trustee fees. Substantially all administrative expenses, except for expenses associated with loans to participants and participant directed investment transactions, were paid by the Company. Those expenses paid by the Company are excluded from these financial statements.

Plan Termination and Partial Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan be terminated, the assets of the Plan would be distributed to the participants based on their individual account balances as determined under the provisions of the Plan. Participants would be fully vested upon termination of the Plan.

In 2024, the Company had a reduction in force, which resulted in a partial plan termination. All affected participants were fully vested upon termination.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) as complete and accurate:

- Investments and notes receivable from participants as reported on the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants as shown on the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investment amounts included in the notes to financial statements.
- All investment information included in the supplemental schedule of assets (held at end of year) as of December 31, 2024.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements and Disclosures

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Mutual Funds and Money Market Mutual Fund - These assets are valued at the daily closing price as reported by the fund or security. Mutual funds and the money market mutual fund held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and money market mutual fund held by the Plan are deemed to be actively traded.

Collective Investment Trust Funds (CITs) - The fair values of the Plan's interest in the CITs are based on the NAV reported at the close of each business day. The NAV of each CIT is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. All CITs held are direct filing entities.

The preceding methodologies described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.

Investments Measured Using the NAV per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

5. Income Tax Status

The Plan adopted a pre-approved plan document offered by Fidelity Management & Research Company for which an opinion letter was obtained from the Internal Revenue Service (IRS) dated June 30, 2020, indicating the pre-approved plan document and trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable provisions of the IRC and the Plan and related trust continue to be tax-exempt; therefore, no provision for income taxes have been included in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-in-Interest Transactions

The Plan invests in various investments managed by Fidelity. Certain fees may also be paid out of the Plan to certain service providers of the Plan. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. The above transactions with related parties qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Risks and Uncertainties

The Plan provides for various investments in mutual funds, CITs, and a money market mutual fund. Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risk. Additionally, the value, liquidity, and related income of the investments are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investments and the level of uncertainty related to the changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation of Financial Statements to the Form 5500

A reconciliation of net assets available for benefits per the financial statements to net assets per the Form 5500 is as follows:

<i>December 31,</i>	2024		2023	
Net Assets Available for Benefits , per the financial statements	\$ 10,993,924	\$	13,533,544	
Contributions receivable	-	\$	(63,810)	
Net Assets Available for Benefits , per the Form 5500	\$ 10,993,924	\$	13,469,734	

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

A reconciliation of the contributions per the financial statements to contributions per the Form 5500 is as follows:

Year ended December 31, 2024

Contributions per the financial statements	\$	1,842,786
Contributions receivable		63,810
Contributions, per the Form 5500	\$	1,906,596

9. Subsequent Events

Plan management has evaluated subsequent events through September 16, 2025, which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements, except the following:

Effective May 5, 2025, the Plan was merged into the Coterra Energy Inc. Retirement Savings Plan through a direct trust-to-trust transfer. As part of this merger, approximately \$10 million including notes receivable from participants were merged into the Coterra Energy Inc. Retirement Savings Plan.

Independent Auditor's Report

The Plan Administrator
GasSearch Drilling Services Corporation 401(k) Plan
Montrose, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of GasSearch Drilling Services 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the

supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following brief description of the GasSearch Drilling Services Corporation 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective July 1, 2000, as a defined contribution plan covering all employees of GasSearch Drilling Services Corporation (the Company, Plan Administrator, or Employer), as defined in the plan document. The Plan is subject to the provisions of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and its amendments.

Trustee and Administration of the Plan

The trustee and recordkeeper of the Plan is Fidelity Management Trust Company (Fidelity or Trustee). The Trustee holds all assets of the Plan in accordance with the provisions of the trust agreement and service provider contract with the Company. The Company determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

The Plan's eligibility requirement allowed employees to enter the Plan upon attaining the age of 18. Employees are automatically enrolled in the Plan at a pre-tax deferral rate of 3%, unless they actively elect to enroll in the Plan at a different deferral rate or actively elect to opt-out of participation in the Plan. Annually, participants who have automatic enrollment contributions are subject to automatic deferral rate increases of 1%, until a maximum of 6% is reached.

Contributions

Eligible participants can contribute to the Plan on a pre-tax or after-tax (Roth) basis up to 80% of their qualifying annual compensation, subject to certain Internal Revenue Code (IRC) limitations. The Plan also allows catch-up contributions for participants aged 50 and over based on IRC limitations. Participants may change the allocation of invested funds or future contributions as of the first day of each month.

The Company may make discretionary matching employer contributions and/or discretionary non-elective employer contributions at amounts to be determined by the Company. During 2024, the Company matched, on a pay period basis, 100% of the first 6% of eligible compensation contributed. For the year ended December 31, 2024, the Company made a discretionary non-elective employer contribution, on a pay period basis, of a percentage of eligible compensation based on employment group for all eligible employees.

Participants may contribute amounts representing rollover distributions from other qualified plans.

Vesting

Participants are fully vested in their pre-tax, after-tax (Roth) and rollover contributions. Vesting under the Plan is based upon the elapsed time method. A period of service starts with the

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

employee's date of employment and, generally, ends on the date of termination. The Company's discretionary matching employer contributions and discretionary non-elective employer contributions vest according to the below schedule.

Years of Service	Vested (%)
1	33
2	66
3	100

If a participant leaves the Company and is rehired within five years, the prior service with the Company will be restored under the plan document. Predecessor employer services with Cabot Oil & Gas Corporation shall be included in computing years of service for purpose of eligibility and vesting of the Plan. Participants affected by the partial plan termination in 2024 were fully vested upon termination of employment.

Forfeitures

Forfeitures of the Employer's contributions may occur if a participant terminates employment prior to becoming fully vested in the Employer's contributions. Forfeitures will be first applied to plan expenses and then to reduce employer contributions. Forfeited unvested accounts totaled \$86,944 and \$92,571 as of December 31, 2024, and 2023, respectively. During the year ended December 31, 2024, \$92,124 of forfeitures were used to reduce discretionary matching employer contributions. No forfeitures were used to pay plan administrative expenses.

Payment of Benefits

Benefits are generally paid upon normal retirement, disability, death, or termination of employment. Upon normal retirement, disability, or death, participants are entitled to receive 100% of their account balance. A participant eligible for a distribution from the Plan may elect to receive an immediate lump sum payment, installment payments, and partial withdrawal as defined in the plan document. In-service distributions are allowed for participants who have reached age 59½ and are 100% vested. Financial hardship withdrawals are permitted, as defined in the plan document. For terminated participants with a vested account balance greater than \$1,000, but less than \$5,000, who do not elect either a distribution or rollover to an account of the participant's choice, the vested balance will be rolled over to an IRA, for the benefit of the participant. For participants with a vested account balance less than \$1,000, the vested balance will be distributed to the participant in a lump-sum amount equal to the vested value of their account.

Notes Receivable from Participants

Participants may borrow from \$1,000 up to the lesser of \$50,000 or 50% of the vested portion of their account balance subject to certain limits imposed by the IRC. Only one loan can be outstanding at any given time. A loan must be repaid by payroll deductions over a period not to exceed five years unless funds are used in the purchase of the participant's principal residence in which loans are not to exceed ten years. Early payoff of loans is permitted. The loans are secured by the balance in the participant's accounts and bear a reasonable rate of interest as determined by the Plan Administrator based on prevailing rates. The set-up fee and the ongoing administrative fee for the loan are charged directly to the participant's account on a quarterly basis. Loans are limited to participants who are active employees.

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

Participant Accounts

Participants are allowed to direct their accounts for investment in various mutual funds, collective investment trust funds, and a money market mutual fund. Each participant's account is credited with the participant's contributions, the Company's contributions and allocations of plan earnings and charged with plan losses and expenses. The investment earnings or losses are allocated daily to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value as more fully described in Note 4, Fair Value Measurements and Disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends and capital gains are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments represents the Plan's realized and unrealized gains and losses on investments as well as the reinvested capital gains received.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest was di minimis at December 31, 2024 and 2023. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Contributions

Participant contributions and related discretionary employer matching contributions are recognized in the Plan year during which the Company makes payroll deductions from the participant's compensation. Discretionary non-elective employer contributions are recognized in the Plan year to which the participant's compensation relates.

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

Administrative Expenses

Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments. Administrative expenses consist of all expenses incidental to the administration, termination, or protection of the Plan, including, but not limited to, legal, accounting, investment manager, and trustee fees. Substantially all administrative expenses, except for expenses associated with loans to participants and participant directed investment transactions, were paid by the Company. Those expenses paid by the Company are excluded from these financial statements.

Plan Termination and Partial Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan be terminated, the assets of the Plan would be distributed to the participants based on their individual account balances as determined under the provisions of the Plan. Participants would be fully vested upon termination of the Plan.

In 2024, the Company had a reduction in force, which resulted in a partial plan termination. All affected participants were fully vested upon termination.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) as complete and accurate:

- Investments and notes receivable from participants as reported on the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants as shown on the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investment amounts included in the notes to financial statements.
- All investment information included in the supplemental schedule of assets (held at end of year) as of December 31, 2024.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements and Disclosures

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Mutual Funds and Money Market Mutual Fund - These assets are valued at the daily closing price as reported by the fund or security. Mutual funds and the money market mutual fund held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and money market mutual fund held by the Plan are deemed to be actively traded.

Collective Investment Trust Funds (CITs) - The fair values of the Plan's interest in the CITs are based on the NAV reported at the close of each business day. The NAV of each CIT is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. All CITs held are direct filing entities.

The preceding methodologies described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.

Investments Measured Using the NAV per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

5. Income Tax Status

The Plan adopted a pre-approved plan document offered by Fidelity Management & Research Company for which an opinion letter was obtained from the Internal Revenue Service (IRS) dated June 30, 2020, indicating the pre-approved plan document and trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable provisions of the IRC and the Plan and related trust continue to be tax-exempt; therefore, no provision for income taxes have been included in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-in-Interest Transactions

The Plan invests in various investments managed by Fidelity. Certain fees may also be paid out of the Plan to certain service providers of the Plan. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. The above transactions with related parties qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Risks and Uncertainties

The Plan provides for various investments in mutual funds, CITs, and a money market mutual fund. Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risk. Additionally, the value, liquidity, and related income of the investments are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investments and the level of uncertainty related to the changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation of Financial Statements to the Form 5500

A reconciliation of net assets available for benefits per the financial statements to net assets per the Form 5500 is as follows:

<i>December 31,</i>	2024		2023	
Net Assets Available for Benefits , per the financial statements	\$ 10,993,924	\$	13,533,544	
Contributions receivable	-	\$	(63,810)	
Net Assets Available for Benefits , per the Form 5500	\$ 10,993,924	\$	13,469,734	

GasSearch Drilling Services Corporation 401(k) Plan

Notes to Financial Statements

A reconciliation of the contributions per the financial statements to contributions per the Form 5500 is as follows:

Year ended December 31, 2024

Contributions per the financial statements	\$	1,842,786
Contributions receivable		63,810
Contributions, per the Form 5500	\$	1,906,596

9. Subsequent Events

Plan management has evaluated subsequent events through September 16, 2025, which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements, except the following:

Effective May 5, 2025, the Plan was merged into the Coterra Energy Inc. Retirement Savings Plan through a direct trust-to-trust transfer. As part of this merger, approximately \$10 million including notes receivable from participants were merged into the Coterra Energy Inc. Retirement Savings Plan.
