Independent Auditor's Report

Plan Trustee and Management of the ESOP Plan Committee
Blythe Brothers Holdings, Inc. Employee Stock Ownership Plan
Charlotte, North Carolina

Opinion

We have audited the financial statements of Blythe Brothers Holdings, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2024, and the related statement of changes in net assets (deficit) available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2024, and the changes in its net assets (deficit) available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule as of December 31, 2024 listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Trustee and Management of the ESOP Plan Committee
Blythe Brothers Holdings, Inc. Employee Stock Ownership Plan

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statements Compiled

We performed a compilation engagement with respect to the statement of net assets available for benefits as of December 31, 2023. Management is responsible for the 2023 statement of net assets available for benefits in accordance with accounting principles generally accepted in the United States of America. We have performed the compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. We did not audit or review the 2023 statement of net assets available for benefits nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the 2023 statement of net assets available for benefits

Note 1. Description of Plan

The following description of Blythe Brothers Holdings, Inc. (the “Company”) Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Company established the Plan effective as of January 1, 2024. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the “Code”) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Apex Fiduciary Services, LLC (“Trustee”) is the Plan’s Trustee.

To establish the ESOP, the Plan purchased Company stock using proceeds of a Promissory Note (“Note”) from the Company (See Note 5). The Note is to be repaid over an initial period of 40 years by Company contributions to the Plan. As the Plan makes each payment of principal and interest, a percentage of stock will be allocated to eligible employees’ accounts in accordance with applicable regulations under the Code. The Company may choose to prepay principal amounts on the Note without penalty.

The Plan and Blythe Brothers Holdings, Inc. ESOP Trust (“Trust”) established under the Plan have entered into a Pledge Agreement where the Plan and Trust have agreed to pledge unallocated shares of Company stock back to the Company to secure the payments under the Note. Each Plan year, shares will be released from the Pledge Agreement equal to the number of shares allocated to participants’ accounts. The Company has no rights against shares once they are allocated under the Pledge Agreement. Accordingly, the financial statements of the Plan as of December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated stock (allocated) and
- (b) stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service and are age 18 or older. A participant who ceases to be an eligible employee, shall become a suspended participant. During the period of suspension, no amounts shall be credited to the participant’s accounts which are based on the participant’s compensation from and after the date of suspension. Amounts previously credited to a participant’s accounts shall continue to vest throughout the period during which the participant is on suspended status. An eligible employee will still receive an allocation of the Company contributions for a plan year if employment is terminated on account of retirement, death, or disability in such year, which will automatically be 100% vested.

Contributions

The Company is obligated to make contributions in cash to the Trust which equal the amount necessary to enable the Trust to make its regularly scheduled payments of principal and interest due on the Note. The Company is permitted to make additional contributions to the Plan which are also used to reduce the principal amount of the Note. Employee contributions are not permitted.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of shares of the Company's common stock released by the Trustee and forfeitures of terminated participants' non-vested accounts, in such an amount as determined at the sole discretion of the Company and in accordance with the plan document. Only those participants who meet the requirements outlined in the Eligibility section above will receive an allocation. All allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Employer contributions and plan forfeitures are allocated to each participant's account based on the proportion of a participant's eligible compensation, as defined by the Plan, to eligible compensation for all participants each plan year. During the year ended December 31, 2024, non-vested forfeitures amounted to \$1,274,872 and were reallocated to participants as of December 31, 2024.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service in the Plan. A participant is 20% vested after two years of credited service and are 100% vested after six years of credited service.

Payment of Benefits

Distributions of benefits may be made in cash or Company stock or both. In the event of retirement, total disability or death of a participant, benefits will commence as soon as possible after the close of the Plan year in which a participant retires, suffers a disability, or dies while employed by the Company. Distributions related to terminations may commence after the end of the fifth plan year following the plan year in which the participant separated from service unless the account balance is less than \$7,000, then distribution will begin after the plan year end in which an employee terminates. The full benefits will be paid in lump sum installments. Distribution to a participant shall not include any Company stock acquired with the proceeds of an exempt loan until the close of the plan year in which such loan is repaid in full. The Plan provides the Trustee with the right of first refusal to purchase a participant's stock, then to the Company.

Voting Rights

The Trustee is entitled to vote the stock held in the Trust in accordance with the provisions of the Trust Agreement.

Plan Termination

The Company reserves the right to terminate or amend the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Company shall direct the Trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase in lump sum or in installments. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who have 10 years of plan participation and who have attained age 55 are eligible to diversify a portion of the employer securities held in their ESOP accounts. Participants will be eligible to diversify following the December 31, 2034 plan year end.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded upon distribution.

Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which can invest the cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal of the Note, which is reimbursed to the Trustee through contributions as determined by the Company.

Administrative Expenses

Plan expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Any expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset (deficit) available for benefits. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through September 16, 2025, the date the financial statements were available to be issued.

Note 3. Investments

The Plan's investment in Company common stock at December 31, 2024, are as follows:

	2024	
	Allocated	Unallocated
Number of shares	134,235	888,219
Cost	\$ 20,135,250	\$ 133,232,850
Estimated fair value	\$ 3,291,446	\$ 21,779,126

Note 4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1** Observable inputs such as quoted prices in active markets.
- Level 2** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Sponsor Company Common Stock

The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	December 31, 2024			
	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Sponsor company common stock	\$ 25,070,572	\$ -	\$ -	\$ 25,070,572

The ESOP received 1,022,454 of Company shares during the year ended December 31, 2024. There were no transfers in and out of Level 3 assets for the year ended December 31, 2024.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Note Payable

On March 29, 2024, the Plan entered into a \$153,397,103 Note with the Company. The proceeds of the Note were used to purchase Company common stock. Unallocated shares serve as collateral for the Note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The percentage of shares to be released is determined using the actual principal and interest payments made from the the Plan divided by these payments plus all future principal and interest payments to be made over the term of the Note, multiplied by the total number of unallocated shares. This allocation formula resulted in 134,235 shares being released and allocated to participants for the Plan year ended December 31, 2024.

The balance due on the Note as of December 31, 2024 was \$140,473,517. The Note bears interest at 1.00% and provides for the Note to mature on December 31, 2064.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2025	\$ 2,910,660
2026	2,910,660
2027	2,910,660
2028	2,910,660
2029	2,910,660
Thereafter	<u>125,920,217</u>
	<u>\$ 140,473,517</u>

Note 6. Exempt Party-In-Interest Transactions

The Plan investments are shares held by the plan sponsor; therefore, these transactions qualify as exempt party-in-interest transactions. The Plan may also pay the Trustee for various administrative services from time to time, however there were no fees paid to the Trustee for the year ended December 31, 2024.

Note 7. Tax Status

The Plan has submitted Form 5300 to the Internal Revenue Service (the “IRS”) to obtain a determination letter that the Plan and related Trust are designed in accordance with the applicable sections of the Internal Revenue Code (the “IRC”). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in the common stock of the Company. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with these investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statement of Net Assets (Deficit) Available for Benefits.
