**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## INDEPENDENT AUDITOR'S REPORT

SABIC Benefits Committee  
SABIC Innovative Plastics US LLC  
Houston, Texas

**Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the financial statements of Information Alliance Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

**Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

---

(Continued)

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

---

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INFORMATION ALLIANCE PENSION PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024 and 2023

---

**NOTE 1 - DESCRIPTION OF THE PLAN**

The following is an abbreviated description of the Information Alliance Pension Plan (the Plan). More complete descriptions are provided in the plan document and the summary plan description.

General: The Plan is a frozen defined benefit pension plan sponsored by SABIC Innovative Plastics US LLC (the Company or Sponsor) whose ultimate parent is the Saudi Basic Industries Corporation. As of July 27, 1998, the Plan was considered a “frozen plan”, whereby after that date no new participants entered the Plan and participants no longer accrue benefits. The Plan exists solely to pay vested participants and retirees the benefits that had accumulated as of that date. Employees were fully vested in their accrued benefit as of December 31, 2005. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The SABIC Benefits Committee (the Committee) is responsible for the general administration of the Plan.

Benefits: Participants become eligible for benefits and are considered vested when they attain age 65. Each participant who retires shall become entitled to receive a normal retirement benefit determined and payable according to the terms of the Plan.

Employees with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1.9% of their covered compensation less an amount up to \$4,500 depending on the year in which compensation was earned plus 2.344% of their pay in excess of covered compensation multiplied by years of eligible service.

Participants may elect to receive the value of their accumulated plan benefits in a number of different payment forms. The normal form of payment for a single participant is a five-year certain and life annuity, while the normal form of payment for a married participant is a 50% joint and survivor annuity. Other optional forms include a 75% and 100% joint and survivor annuity.

Death and Disability Benefits: If an active employee dies before retirement and has five years of service, a death benefit equal to the value of the employee’s accumulated pension benefits is paid to the employee’s beneficiary.

Active employees having 15 or more years of service who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled.

Funding Policy: The Company contributes to the Plan to provide assets intended to meet the benefit obligations to be paid to participants of the Plan. The Company’s current funding policy is to make contributions in amounts at least sufficient to satisfy the Code and ERISA funding requirements but not less than the amount needed to avoid a Form 4010 filing to the Pension Benefit Guaranteed Corporation (PBGC). In 2024 and 2023, the Plan met the minimum funding standards of ERISA.

**NOTE 1 - DESCRIPTION OF THE PLAN (Continued)**

Plan Termination: While the Sponsor has not expressed any intent to terminate the Plan, it is free to do so at any time, subject to the provisions of ERISA. In the event of termination, participants shall become fully vested in their accumulated plan benefits and the net assets of the Plan shall be allocated among participants and beneficiaries in accordance with the provisions of Title IV of ERISA. Whether a participant's accumulated plan benefit will be paid when a plan is terminated depends on the amount of the net assets in a plan, the priority of the participant's benefits in relation to the claims of other participants and the level of the participant's benefits that are guaranteed by the PBGC at that time. Accordingly, the benefits of some participants may be fully or partially covered by the net assets of a plan, while the benefits of other participants may not be covered at all. Any assets remaining after satisfaction of the benefit obligations of the Plan shall revert to the Company.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits: Benefit distributions are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are held in the SABIC Innovative Plastics Master Retirement Defined Benefit Pension Trust (Master Trust) and are stated at fair value, in accordance with ASC 820, Fair Value Measurements and Disclosures. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). See Note 5 for further discussion and disclosures related to fair value measurements.

The three levels of the fair value hierarchy are:

*Level 1* – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

*Level 2* – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

*Level 3* – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Purchase and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits are based on the transition benefits for certain employees. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

Due to Other Company Sponsored Plans: Amounts due to other company sponsored plans are for the reallocation of transferred assets from a previous trustee.

Subsequent Events: Management evaluated subsequent events for the Plan through September 22, 2025, the date the financial statements were available to be issued.

**NOTE 3 - ACCUMULATED PLAN BENEFITS**

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment.

The present value of accumulated plan benefits, as determined by the Plan's independent actuary, is as follows at December 31, 2023:

Vested benefits:	
Active participants	\$ 129,716
Retirees and beneficiaries	6,826,018
Deferred vested	<u>1,487,943</u>
	8,443,677
 Non-vested benefits	 <u>1,734</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 8,445,411</u>

**NOTE 3 - ACCUMULATED PLAN BENEFITS** (Continued)

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits at December 31, 2022	\$ 9,143,286
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	14,670
Increase for interest due to decrease in discount period	413,994
Benefits paid	(789,469)
Change in actuarial assumptions	<u>(337,070)</u>
Net increase (decrease)	<u>(697,875)</u>
 Actuarial present value of accumulated plan benefits at December 31, 2023	 \$ <u>8,445,411</u>

The actuarial valuation as of December 31, 2024 has not yet been completed.

Significant actuarial assumptions underlying the actuarial valuation are as follows:

Assumed rate of return on investments	5.25% for 2023 and 4.75% for 2022	
Retirement rate	Various rates ranging from 30% at age 60 to 100% at age 70	
Mortality basis – annuity payments	PRI-2012 mortality table with MP-2021 generational projection scale	
Mortality basis – lump sum payments	Combined IRS Pri-2012 base funding mortality table, projected generationally using the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female for 2023 and 2024 417(e) mortality table with MP-2021 generational projection for 2022	
Lump sum interest rate	5.50% for 2023 and 5.00% for 2022	
Form of payment	<u>Lump Sum</u>	<u>Annuity</u>
Active retirements	60%	40%
Future vested deferred	85%	15%
Future disabilities	60%	40%
Future deaths	-	100%
Current vested deferred	75%	25%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**NOTE 4 - CERTIFIED INFORMATION**

Certain information pertaining to the Plan's investments included in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and the associated investment gain (loss) from the Plan's interest in the Master Trust for the years ended December 31, 2024 and 2023, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company.

**NOTE 5 - PLAN INVESTMENTS**

As discussed in Note 2, the Plan's investments are held in the Master Trust. Prior to January 1, 2023, in addition to the Plan, the Master Trust included the following Company-sponsored retirement plans:

- 1) SABIC Innovative Plastics Pension Plan;
- 2) LNP Engineering Plastics Inc. Pension Plan; and
- 3) LNP Engineering Plastics Inc. Pension Plan for Union Employees.

Effective January 1, 2023, assets of the LNP Engineering Plastics Inc. Pension Plan and LNP Engineering Plastics Inc. Pension Plan for Union Employees were transferred to a newly formed master trust, the SHPP Defined Benefit Pension Master Trust. Accordingly, after January 1, 2023, the only plans held in the Master Trust are the Plan and the SABIC Innovative Plastics Pension Plan

Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and allocated among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. Investment income (loss) and related expenses, including interest and dividend income and net realized gains (losses) on sale and unrealized appreciation (depreciation) in value of investments, is allocated by the Master Trust to the Plan based upon the Plan's percentage of Master Trust net assets at the beginning of each month. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 2.6%.

The following table presents the fair value of the net assets and liabilities in the Master Trust at December 31:

**NOTE 5 - PLAN INVESTMENTS** (Continued)

The Master Trust's investment income (loss) and net appreciation (depreciation) for the years ended December 31, 2024 and 2023 are presented in the following table:

	<u>2024</u>	<u>2023</u>

\* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the line items presented in the disclosure of net assets of the Master Trust.

*Government securities and municipal bonds:* Valued based on evaluated prices provided by independent pricing services. Such evaluated prices may be determined by factors which include, but are not limited to market quotations, yields, maturities and the bond's terms and conditions. These financial instruments are generally categorized as Level 2 instruments in the fair value hierarchy.

*Corporate debt:* Valued based on evaluated prices provided by independent pricing services. Such evaluated prices may be determined by factors which include, but are not limited to market quotations, yields, maturities and the bond's terms and conditions. These financial instruments are generally categorized as Level 2 instruments in the fair value hierarchy.

*Collective trust funds:* Valued at net asset value using the practical expedient which is based on the fair value of the underlying assets which are, in turn, valued at the closing price reported on the active markets on which the assets are traded. There are currently no redemption restrictions on these investments. The Master Trust has no future funding commitments associated with these investments. The investment objective for the State Street Short Term Investment Fund is to provide safety of principal, daily liquidity and a competitive yield over the long term.

(Continued)

**NOTE 5 - PLAN INVESTMENTS (Continued)**

*Limited Liability Company:* The Master Trust's investment in the Western Asset Multi-Asset Credit Portfolio Fund is valued at net asset value using the practical expedient as reported by the fund manager. The fund manager may temporarily suspend the determination of the net asset value of the Fund, the issuance and redemption of the Fund's shares, and may postpone the date of payment of redemption proceeds if, among other reasons, during any period when it is not reasonably practicable for the fund manager to fairly determine the value of the Fund's net assets. There were no such occurrences during the years ended December 31, 2024 and 2023. The Master Trust has no future funding commitments associated with this investment.

**NOTE 6 - ADMINISTRATIVE EXPENSES**

The Plan incurs administrative expenses directly related to the Plan which consist primarily of trustee and custody fees, PBGC premiums, reporting fees, legal, tax, actuarial, audit and consulting professional service fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses related to purchases, sales, or transfers of the Plan's investments, and investment management fees, are charged to the particular investment fund to which the expenses relate or are allocated. All other administrative expenses are paid by the Company on behalf of the Plan.

**NOTE 7 - PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS**

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan to parties in interest included fees paid for trustee and custodial services, recordkeeping services, investment management and actuarial services and certain legal and audit services. Other professional fees for the administration of the Plan were paid by the Company.

As of December 31, 2024 and 2023, the Master Trust held party-in-interest investments consisting of collective trust funds issued by State Street Global Advisors Trust Company (SSGATC) of \$262,157,664 and \$297,988,002, respectively. During the plan year ended December 31, 2024, there were purchases and sales of these SSGATC collective trust funds of \$65,246,278 and \$100,358,493, respectively, and the Master Trust recorded corresponding net realized gains of \$7.7 million. During the plan year ended December 31, 2023, there were purchases and sales of these SSGATC collective trust funds of \$292,027,130 and \$299,747,208, respectively, and the Master Trust recorded corresponding net realized losses of \$26.4 million. SSGATC is the Investment Manager and a fiduciary for the Master Trust as well as an affiliate of State Street Bank and Trust Company, the trustee for the Plan and the Master Trust. Therefore, these investments and transactions therein are considered party-in-interest. However, these transactions are exempt from the prohibited transactions rules under ERISA.

**NOTE 8 - RISKS AND UNCERTAINTIES**

The Master Trust and the Plan invest in various investment securities. Investment securities are exposed to various risks such as interest rate, liquidity, market volatility, credit risks as well as the risks associated with global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments may occur in the near term and that those changes could materially affect amounts reported in the statements of net assets available for benefits.

**NOTE 8 - RISKS AND UNCERTAINTIES** (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

**NOTE 9 - INCOME TAX STATUS**

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated June 3, 2015, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Subsequent to this determination by the IRS, the Plan has been amended and restated. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

• 417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This underlying annuity is valued based on funding interest rates, rather than 417(e) rates, and the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.	
Other economic assumptions		
• Salary increases	N/A	
• Expected investment return	4.70% for 2022 plan year, 6.10% for 2023 plan year and 5.05% for 2024 plan year.	
• Administrative Expenses	\$100,000 added to current year normal cost	

**Rationale for economic funding assumptions**

- **Expected investment return** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook for the plan’s current target asset mix, net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Administrative Expenses** – This assumption is based on average of administrative expenses for prior three years, adjusted to reflect estimated PBGC premium paid during the current plan year and rounded to the nearest \$25,000.

- **Disability incidence** – An experience study was undertaken in 2020 using data from 2015 – 2019. No disability experience was reported over the study period. Based on the actuary’s experience with many plans, disability rates were set equal to the 1985 Pension Study based on Social Security data with Class 1 rates for professional administrative, supervisory, sales and clerical employees.
- **Retirement age** – Retirement rates were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.

## **Actuarial methods for funding**

### **Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

### **Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Mortality sponsor elections		
• All participants	Section 430(h)(3) prescribed generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1.	
• 417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This underlying annuity is valued based on funding interest rates, rather than 417(e) rates, and the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.	
Other economic assumptions		
• Salary increases	N/A	
• Expected investment return	4.70% for 2022 plan year, 6.10% for 2023 plan year and 5.05% for 2024 plan year.	
• Administrative Expenses	\$100,000 added to current year normal cost	

**Rationale for economic funding assumptions**

- **Expected investment return** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook for the plan’s current target asset mix, net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Administrative Expenses** – This assumption is based on average of administrative expenses for prior three years, adjusted to reflect estimated PBGC premium paid during the current plan year and rounded to the nearest \$25,000.

**Rationale for demographic funding assumptions**

- **Withdrawal – Termination rates** were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Disability incidence** – An experience study was undertaken in 2020 using data from 2015 – 2019. No disability experience was reported over the study period. Based on the actuary's experience with many plans, disability rates were set equal to the 1985 Pension Study based on Social Security data with Class 1 rates for professional administrative, supervisory, sales and clerical employees.
- **Retirement age** – Retirement rates were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Spouse assumptions** – Assumptions for spousal age difference and percent married were reviewed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.

---

<sup>1</sup> 5-year certain and life.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**

- **Form of payment** – The lump sum and annuity assumptions were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Benefit commencement age** – Benefit commencement ages for future and current vested deferred participants were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.

**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

***Schedule SB, line 24 — Change in Actuarial Assumptions***

- Lump sum conversion mortality was updated to the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.
- The expected investment return changed from 6.10% for 2023 to 5.05% for 2024 plan year.

Borg warner (BW) benefits	<p>Employees employed by BW on 12/31/1988 and by Information Alliance on 1/1/1989 are eligible to receive their benefits in one of the following ways:</p> <ul style="list-style-type: none"> <li>(i) Their accrued Information Alliance benefit, paid by SABIC, plus their Borg Warner benefit, paid by GE.</li> <li>(ii) The BW Alternate Benefit: SABIC will pay the entire benefit at commencement, then GE will begin to pay a portion when the individual attains the age of eligibility for the unreduced BW benefit (either 62 or 65)</li> </ul>
Late retirement benefit	<p>Benefit determined using Normal retirement benefit formula, based on Service and Average compensation at actual retirement. Benefit accruals were frozen on July 27, 1998. Actuarial increases apply after age 70 ½ and for the period after Normal Retirement Date during which a Suspension of Benefits Notice was not provided.</p>
Early retirement benefit	<p>Early retirement benefits are unreduced upon attainment of age 60.</p>
Supplemental benefit	<p>Employees with at least 5 years of PQS who retire after age 60 are eligible for a supplemental benefit of \$17 per month per year of PBS, payable up to the age at which the participants reach eligibility for 80% of their Social Security benefits.</p>
Deferred vested benefit	<p>Participants who terminate after completing 5 years of service will have their benefit determined using the Normal retirement benefit formula, based on the applicable Service payable at age 60. The benefit can commence at any age with the benefit reduced on an actuarial equivalent basis to reflect commencement prior to age 60. A vested terminated employee can choose to withdraw employee contributions plus interest prior to retirement. Such a withdrawal will result in a reduction of the employee's accrued benefit.</p>
Disability benefit	<p>Participants who become permanently disabled after completing 15 years of service will be eligible for a disability benefit, subject to approval.</p> <p>The disability benefit will be determined by the Normal Benefit formula, and reduced for commencement prior to age 60. The reduction is 2% per year prior to age 60 (maximum reduction of 12%). Participants will be eligible for temporary supplements under certain conditions.</p>

**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** See applicable plan provision summary for the most recent plan amendment reflected in the valuation. Amendments effective after the current plan year are excluded from this valuation.
- **Late retirement increases:**
  - *Active participants:* All plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. Participants that are past the April 1st following the calendar year in which they turn 70½ are entitled to back payments with interest from the April 1st following the calendar year in which they turn 70½ to benefit commencement date. This valuation does not approximate the value of these back payments with interest due to the small number of affected participants.
  - *Deferred vested participants:* Participants who are terminated vested and past Normal Retirement date are entitled to back payments with interest from Normal Retirement Date to benefit commencement date. This valuation approximates the value of these back payments with interest.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

**Schedule SB, Part V — Summary of Plan Provisions****• IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
