Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CROWE LLP**

(2) EIN: **35-0921680**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

SABIC Benefits Committee
SHPP US LLC
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of SHPP Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

SHPP PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF THE PLAN

The following is an abbreviated description of the SHPP Pension Plan (the Plan). More complete descriptions are provided in the plan document and the summary plan description.

General: The Plan is a noncontributory defined benefit pension plan sponsored by SHPP US LLC (the Company or Sponsor) whose ultimate parent is the Saudi Basic Industries Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The SABIC Benefits Committee (the Committee) is responsible for the general administration of the Plan.

The Plan was established as of January 1, 2023 as the result of a spin-off from the SABIC Innovative Plastics Pension Plan related to active participants who transferred employment from SABIC Innovative Plastics US LLC to the Company. As a result, \$80,968,185 in assets from the SABIC Innovative Plastics Pension Plan were transferred to the Plan effective January 1, 2023.

Benefits: Any employee who is not a participant of the Plan as of January 1, 2023 is not eligible to participate in the Plan. Additionally, existing participants will not accrue any additional benefits with respect to service or compensation on and after January 1, 2023 in excess of the accrued benefit that was transferred into the Plan from the SABIC Innovative Plastics Pension Plan.

Upon retirement on or after his Normal Retirement Date in accordance with the provisions of the plan document (Normal Retirement), there shall be payable to a participating Employee an annual Pension consisting of the total of the Regular or Guaranteed Minimum Pension (as defined in the plan document), whichever is greater, plus any early retirement supplements for which they are eligible.

Payment is made in equal monthly payments or annuity. Employees are vested upon the earlier of five years of service, or attain age 60 while actively employed.

The Regular Pension payable to each participating employee upon retirement on or after his Normal Retirement Date shall be an amount equivalent to the Regular Pension as determined under the SABIC Innovative Plastics Pension Plan which was the sum of 1.45% of the Employee's Compensation received in each calendar year while participating, up to the Plan Covered Compensation amount, plus 1.90% of the remainder of such Compensation received in each calendar year.

A participating Employee who retires under or in accordance with the provisions of the plan document (Normal Retirement) shall receive the Additional Pension, if any, required to provide an annual minimum pension. Such Additional Pension shall be equal to the excess, if any, of the participating Employee's annual minimum pension over the annual amount of his Regular Pension computed in accordance with the plan document (Amount of Pension at Normal Retirement). The annual minimum pension of an eligible participating Employee under or in accordance with the provisions of the plan document (Normal Retirement) shall be determined in accordance with a table based on his Pension Benefit Service to his date of retirement and his Average Annual Compensation.

The normal retirement date, as defined by the Plan, is the first day of the month following age 65. Each participant who retires shall become entitled to receive a normal retirement benefit determined and payable according to the terms of the Plan. Core (as defined in the plan document) employees can retire from the Company at the date the participant attains age 60 with an unreduced pension. Delta (as defined in the plan document) employees can receive an unreduced pension benefit at age 65 or when age 62 is attained if 25 or more years of Pension Qualification Service (PQS) have been completed. Delta employees that retire at or after age 60 will have benefits reduced for each month that payments start before age 65.

SHPP PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Employees with the Company and all affiliates must terminate in order to receive their benefit. However, if the employee continues to work for the Company, they will automatically begin to receive payments no later than April 1 following the year in which they reach the designated age required by law, even if they are still employed by the Company or affiliate at that time.

Participants may elect to receive the value of their accumulated plan benefits in a number of different payment forms. The normal form of payment for a single participant is a five-year certain and life annuity, while the normal form of payment for a married participant is a 50% joint and survivor annuity. Other optional forms include a 75% and 100% joint and survivor annuity.

Death and Disability Benefits: The surviving spouse of the employee who dies after retirement can receive 50%, 75%, or 100% of the employee's benefit. If the employee dies before retirement, the surviving spouse can receive monthly payments or a lump-sum payment, depending on the age and service of the employee at death. If an active employee dies before retirement and has five years of service, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees having 15 or more years of pension qualification service who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled.

Funding Policy: The Company contributes to the Plan to provide assets intended to meet the benefit obligations to be paid to participants of the Plan. The Company's current funding policy is to make contributions in amounts at least sufficient to satisfy the Code and ERISA funding requirements but not less than the amount needed to avoid a Form 4010 filing to the Pension Benefit Guaranteed Corporation (PBGC). In 2024 and 2023, the Plan met the minimum funding standards of ERISA.

Plan Termination: While the Sponsor has not expressed any intent to terminate the Plan, it is free to do so at any time, subject to the provisions of ERISA. In the event of termination, participants shall become fully vested in their accumulated plan benefits and the net assets of the Plan shall be allocated among participants and beneficiaries in accordance with the provisions of Title IV of ERISA. Whether a participant's accumulated plan benefit will be paid when a plan is terminated depends on the amount of the net assets in a plan, the priority of the participant's benefits in relation to the claims of other participants and the level of the participant's benefits that are guaranteed by the PBGC at that time.

Accordingly, the benefits of some participants may be fully or partially covered by the net assets of a plan, while the benefits of other participants may not be covered at all. Any assets remaining after satisfaction of the benefit obligations of the Plan shall revert to the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits: Benefit distributions are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

December 31, 2024 and 2023

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are held in the SHPP Defined Benefit Pension Master Trust (Master Trust) and are stated at fair value, in accordance with ASC 820, Fair Value Measurements and Disclosures. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). See Note 5 for further discussion and disclosures related to fair value measurements.

The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Purchase and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits are based on the transition benefits for certain employees. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events: Management evaluated subsequent events for the Plan through September 22, 2025, the date the financial statements were available to be issued.

NOTE 3 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment.

The present value of accumulated plan benefits, as determined by the Plan's independent actuary, is as follows at December 31, 2023:

Vested benefits:	
Active participants	\$ 72,766,939
Retirees and beneficiaries	5,023,713
Deferred vested	<u>909,322</u>
	78,699,974
 Non-vested benefits	 <u>709,597</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 79,409,571</u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits at December 31, 2022	\$ -
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	(1,231,309)
Increase for interest due to decrease in discount period	3,996,023
Benefits paid	(2,668,729)
Plan Spin-off	85,572,363
Change in actuarial assumptions	<u>(6,258,777)</u>
Net increase (decrease)	79,409,571
 Actuarial present value of accumulated plan benefits at December 31, 2023	 <u>\$ 79,409,571</u>

The actuarial valuation as of December 31, 2024 has not yet been completed.

Significant actuarial assumptions underlying the actuarial valuation at December 31, 2023 are as follows:

Assumed rate of return on investments	5.25%
Retirement rate	Various rates ranging from 30% at age 60 to 100% at age 70
Mortality basis – annuity payments	PRI-2012 mortality table with MP-2021 generational projection scale

(Continued)

SHPP PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 3 - ACCUMULATED PLAN BENEFITS (Continued)

Mortality basis – lump sum payments	Combined IRS Pri-2012 base funding mortality table, projected generationally using the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female		
Lump sum interest rate	5.50%		
Form of payment		<u>Lump Sum</u>	<u>Annuity</u>
	Active retirements	60%	40%
	Future vested deferred	85%	15%
	Future disabilities	60%	40%
	Future deaths	-	100%
	Current vested deferred	75%	25%

Significant actuarial assumptions underlying the actuarial valuation of the Plan Spin-off as of January 1, 2023 are the same as the December 31, 2023 assumptions noted above except for the assumptions below:

Assumed rate of return on investments	4.75%
Mortality basis – lump sum payments	417(e) mortality table with MP-2021 generational projection
Lump sum interest rate	5.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 – CERTIFIED INFORMATION

Certain information pertaining to the Plan's investments included in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and the associated investment gain (loss) from the Plan's interest in the Master Trust for the years ended December 31, 2024 and 2023, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company.

NOTE 5 – PLAN INVESTMENTS

The Plan's investments are held in the Master Trust. In addition to the Plan, the Master Trust includes the following Company-sponsored retirement plans:

- 1) LNP Engineering Plastics Inc. Pension Plan; and
- 2) LNP Engineering Plastics Inc. Pension Plan for Union Employees.

(Continued)

SHPP PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 5 – PLAN INVESTMENTS (Continued)

Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and allocated among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

Investment income (loss) and related expenses, including interest and dividend income and net realized gains (losses) on sale and unrealized appreciation (depreciation) in value of investments, is allocated by the Master Trust to the Plan based upon the Plan's percentage of Master Trust net assets at the beginning of each month. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 75.2% and 74.4%, respectively.

The following table presents the fair value of the net assets and liabilities in the Master Trust at December 31:

	2024		2023	
	Master Trust	Plan's Interest in Master Trust	Master Trust	Plan's Interest in Master Trust
Investment at fair value:

The Master Trust's investment income (loss) and net appreciation (depreciation) for the years ended December 31, 2024 and 2023 are presented in the following table:

	2024	2023
Investment income (loss)		
Net appreciation (depreciation) in fair value of investments	\$ (1,903,237)	\$ 13,471,469

Total investment income (loss)	<u>\$ (1,875,099)</u>	<u>\$ 13,550,515</u>

Collective trust funds: Valued at net asset value using the practical expedient which is based on the fair value of the underlying assets which are, in turn, valued at the closing price reported on the active markets on which the assets are traded. There are currently no redemption restrictions on these investments. The Master Trust has no future funding commitments associated with these investments. The investment objective for the State Street Short Term Investment Fund is to provide safety of principal, daily liquidity and a competitive yield over the long term.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 5 – PLAN INVESTMENTS (Continued)

Limited Liability Companies: The Western Asset Multi-Asset Credit Portfolio Fund is valued at net asset value using the practical expedient as reported by the fund manager. The fund manager may temporarily suspend the determination of the net asset value of the Fund, the issuance and redemption of the Fund's shares, and may postpone the date of payment of redemption proceeds if, among other reasons, during any period when it is not reasonably practicable for the fund manager to fairly determine the value of the Fund's net assets. There were no such occurrences during the years ended December 31, 2024 and 2023. The IR&M Long Credit Bond Fund is also valued at net asset value using the practical expedient as reported by the fund manager. There are currently no redemption restrictions on this fund. There are no future funding commitments associated with either of these investments.

NOTE 6 – ADMINISTRATIVE EXPENSES

The Plan incurs administrative expenses directly related to the Plan which consist primarily of trustee and custody fees, PBGC premiums, reporting fees, legal, tax, actuarial, audit and consulting professional service fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses related to purchases, sales, or transfers of the Plan's investments, and investment management fees, are charged to the particular investment fund to which the expenses relate or are allocated. All other administrative expenses are paid by the Company on behalf of the Plan.

NOTE 7 – PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan to parties in interest included fees paid for trustee and custodial services, recordkeeping services, investment management and actuarial services and certain legal and audit services. Other professional fees for the administration of the Plan were paid by the Company.

As of December 31, 2024 and 2023, the Master Trust held party-in-interest investments consisting of collective trust funds issued by State Street Global Advisors Trust Company (SSGATC) of \$97,495,843 and \$104,509,170, respectively. During the plan year ended December 31, 2024, there were purchases and sales of these SSGATC collective trust funds of \$38,179,892 and \$43,674,085, respectively, and the Master Trust recorded corresponding net realized gains of \$2.4 million. During the plan year ended December 31, 2023, there were purchases and sales of these SSGATC collective trust funds of \$170,724,328 and \$77,490,072, respectively, and the Master Trust recorded corresponding net realized gains of \$4.5 million. SSGATC is the Investment Manager and a fiduciary for the Master Trust as well as an affiliate of State Street Bank and Trust Company, the trustee for the Plan and the Master Trust. Therefore, these investments and transactions therein are considered party-in-interest. However, these transactions are exempt from the prohibited transactions rules under ERISA.

NOTE 8 – RISKS AND UNCERTAINTIES

The Master Trust and the Plan invest in various investment securities. Investment securities are exposed to various risks such as interest rate, liquidity, market volatility, credit risks as well as the risks associated with global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments may occur in the near term and that those changes could materially affect amounts reported in the statements of net assets available for benefits.

SHPP PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 8 – RISKS AND UNCERTAINTIES (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 9 – INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated May 9, 2024, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	Non stabilized
• First 5 years	4.75%	4.37%
• Next 15 years	4.96%	4.96%
• Over 20 years	5.59%	4.95%
Mortality sponsor elections		
• All participants	Section 430(h)(3) prescribed generational annuitant and non-annuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1.	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This underlying annuity is valued based on funding interest rates, rather than 417(e) rates, and the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.	
Other economic assumptions		
• Salary increases	N/A	
• Expected investment return	4.70% for 2022 plan year, 6.10% for 2023 plan year and 5.05% for 2024 plan year.	
• Administrative Expenses	\$200,000 added to current year normal cost	

Rationale for economic funding assumptions

- **Expected investment return** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current target asset mix, net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Administrative Expenses** – This assumption is based on average of administrative expenses for the prior three years, adjusted to reflect estimated PBGC premium paid during the current plan year and rounded to the nearest \$25,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic funding assumptions**

- **Withdrawal** – Termination rates were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Disability incidence** – An experience study was undertaken in 2020 using data from 2015 – 2019. No disability experience was reported over the study period. Based on the actuary's experience with many plans, disability rates were set equal to the 1985 Pension Study based on Social Security data with Class 1 rates for professional administrative, supervisory, sales and clerical employees.
- **Retirement age** – Retirement rates were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Spouse assumptions** – Assumptions for spousal age difference and percent married were reviewed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Form of payment** – The lump sum and annuity assumptions were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Benefit commencement age** – Benefit commencement ages for future and current vested deferred participants were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Mortality sponsor elections

- All participants Section 430(h)(3) prescribed generational annuitant and non-annuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1.

417(e) lump sums Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This underlying annuity is valued based on funding interest rates, rather than 417(e) rates, and the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.

Other economic assumptions

- Salary increases N/A
- Expected investment return 4.70% for 2022 plan year, 6.10% for 2023 plan year and 5.05% for 2024 plan year.
- Administrative Expenses \$200,000 added to current year normal cost

Rationale for economic funding assumptions

- **Expected investment return** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current target asset mix, net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Administrative Expenses** – This assumption is based on average of administrative expenses for the prior three years, adjusted to reflect estimated PBGC premium paid during the current plan year and rounded to the nearest \$25,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic funding assumptions**

- **Withdrawal** – Termination rates were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Disability incidence** – An experience study was undertaken in 2020 using data from 2015 – 2019. No disability experience was reported over the study period. Based on the actuary's experience with many plans, disability rates were set equal to the 1985 Pension Study based on Social Security data with Class 1 rates for professional administrative, supervisory, sales and clerical employees.
- **Retirement age** – Retirement rates were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Spouse assumptions** – Assumptions for spousal age difference and percent married were reviewed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Form of payment** – The lump sum and annuity assumptions were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Benefit commencement age** – Benefit commencement ages for future and current vested deferred participants were developed based on an experience study undertaken in 2020 using data from 2015 – 2019. The plan sponsor believes that this period will be representative of anticipated future experience.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

- Lump sum conversion mortality was updated to the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.
- The administrative expenses load assumption is \$225,000 to \$200,000.
- The expected investment return changed from 6.10% for 2023 to 5.05% for 2024 plan year.

Most recent plan amendment	The plans were amended in December 2023 to allow for surplus assets to revert to SABIC following a plan termination.
Status of the plan	Effective January 1, 2023, active SHPP US LLC participants in the SABIC IP Plan were spun off to create the SHPP US Pension Plan. The SHPP US Pension Plan's plan sponsor is SHPP US LLC. There were no changes in plan provisions impacting participant benefits.
Plan Eligibility	First day of employment with SABIC Innovative Plastics; Employees hired or rehired on or after January 1, 2014 are not eligible to participate in this plan.
Delta employee	All participants who meet one of the following conditions: (a) Hired on or after October 22, 2007 and a salaried employee of SABIC (b) Hired on or after January 1, 2005 and a salaried employee of General Electric
Core/Eplison employee	All participants who are not classified as Delta employees
Vesting service (Pension qualification service)	Number of calendar years during which an Employee is credited with at least 1,000 hours of service. For employees hired on October 22, 2007 who were employed by General Electric Company, Pension Qualification Service shall include all Pension Qualification Service credited under the GE Pension Plan, including one year of Pension Qualification Service for the 2007 calendar year. Effective December 31, 2016, West Square (Polymershapes) employees that were part of the spin-off transaction are 100% vested.
Amount of pension	Regular pension plus Additional pension. Benefit accruals were frozen effective December 31, 2019.
Regular pension	A participant retiring on his Normal Retirement Date is entitled to an annual benefit determined as the sum of (a) and (b): (a) 1.45% of Compensation received in each calendar year up to the Plan Covered Compensation amount (b) 1.90% of the remainder of such Compensation received in each calendar year.
Additional pension	Greater of the Wrap and Minimum Pension Benefits
Wrap benefit	The minimum pension payable to a participating Employee hired on October 22, 2007 who was employed by GE Company immediately prior to that date shall equal the Minimum Pension Benefit taking into account Compensation and Pension Benefit Service credited to the Employee under both the GE Pension Plan and under the SABIC Innovative Plastics Pension Plan, minus the GE Pension Plan accrued benefit.

Schedule SB, Part V — Summary of Plan Provisions

Minimum pension benefit	A participating Employee who retires on or after age 60 shall receive the Additional Pension, if any, required to provide an annual minimum pension. Such Additional Pension shall be equal to the excess, if any, of the participating Employee's annual minimum pension over the annual amount of his Regular Pension benefits. See Appendix I for a schedule of the annual minimum pension amounts.
Compensation	All salary or wages from the Company, including payments for overtime, vacation pay, night shift bonus, cost of living adjustment, 100% of any Incentive Compensation, not in excess of the IRC Section 401(a)(17) amount for each applicable plan year. Compensation for determining pension benefits were frozen effective December 31, 2019.
Plan Covered Compensation	2007: \$35,000 2008-2011: \$40,000 2012 and after: Covered Compensation defined by Section 401(l) of the Code for an Employee attaining age 65 in that calendar year minus \$17,000.
Pension benefit service	An Employee will be credited with 190 Hours of Service for any month during which the Employee performs at least one (1) Hour of Service. Unless specifically provided otherwise, no service shall be credited for periods prior to October 22, 2007. Pension benefit service accruals ceased effective December 31, 2019.
Vesting	Five or more years of Pension Qualification Service. The benefit is reduced for payment prior to the Normal Retirement Date using the same reductions as for the early retirement benefit, and further reduced to the commencement age on an actuarial equivalent basis. Effective December 31, 2016, active Polymershapes participants as of the December 31, 2016 sale date are considered vested under the plan.
Normal Retirement Date	First day of month following age 65
Early retirement benefit	First day of month following age 60 Core Employees who retire after attainment of age 60 from active or inactive status but prior to their Normal Retirement Date will receive unreduced early retirement benefits. Delta Employees who retire after attainment of age 60 from active or inactive status but prior to their Normal Retirement Date are entitled to such Employee's Regular Pension and any Additional Pension. This benefit shall be reduced by 5/12% for each month from retirement date to Normal Retirement Date. However, in the event such Employee terminates from the Service of the Company on or after (a) attainment of at least age 62 and (b) completion of at least 25 years of Pension Qualification Service, his benefit will not be reduced.
Late retirement Benefit	Benefit is determined based on the Regular and Additional pension formulas reflecting Compensation and Pension benefit service through the actual termination date. Actuarial increases apply after age 70 ½ and for the period after Normal Retirement Date during which a Suspension of Benefits Notice was not provided.

Schedule SB, Part V — Summary of Plan Provisions**Pre-retirement death benefit**

Benefits vary with age, service, marital status and employment status at time of death, as described in the table below. Benefits described are for active participants only; benefits for vested terminations may be different, depending on the participant's age at death.

For those married at time of death (defined as married at least one full year prior to date of death), 50% spouse benefits are available. These benefits are payable immediately to the spouses of participants who were (i) age 60, (ii) age 50 with 15 years of Pension Qualification Service, or (ii) with 30 years of Pension Qualification Service prior to death. Otherwise, these benefits are deferred to age 60.

For single employees (and those married for less than 12 months) who are either (i) age 60, or (ii) have 15 years of Pension Qualification Service, only lump sum death benefits are available. The lump sum death benefit is the amount payable to such Employee for five years, on the basis that he retired on the first day of the month following the month in which death occurred and no survivor benefit applied. Married participants may also elect to receive death benefits in this payment form.

Early commencement factors for both monthly death benefits and lump sum death benefits are based on the age the employee would have attained upon commencement of the pre-retirement death benefit.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, are included in this valuation:

- **Most recent plan amendments included:** See applicable plan provision summary for the most recent plan amendment reflected in the valuation. Amendments effective after the current plan year are excluded from this valuation.
- **Late retirement increases:**
 - *Active participants:* All the plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70 ½. Participants that are past the April 1st following the calendar year in which they turn 70 ½ are entitled to back payments with interest from the April 1st following the calendar year in which they turn 70 ½ to benefit commencement date. This valuation does not approximate the value of these back payments with interest due to the small number of affected participants.
 - *Deferred vested participants:* Participants who are terminated vested and past Normal Retirement Date are entitled to back payments with interest to their benefit commencement date from the later of their Normal Retirement Date and termination date. This valuation approximates the value of these back payments with interest.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Additional pension	Greater of the Wrap and Minimum Pension Benefits
Wrap benefit	The minimum pension payable to a participating Employee hired on October 22, 2007 who was employed by GE Company immediately prior to that date shall equal the Minimum Pension Benefit taking into account Compensation and Pension Benefit Service credited to the Employee under both the GE Pension Plan and under the SABIC Innovative Plastics Pension Plan, minus the GE Pension Plan accrued benefit.

Schedule SB, Part V — Summary of Plan Provisions

Minimum pension benefit	A participating Employee who retires on or after age 60 shall receive the Additional Pension, if any, required to provide an annual minimum pension. Such Additional Pension shall be equal to the excess, if any, of the participating Employee's annual minimum pension over the annual amount of his Regular Pension benefits. See Appendix I for a schedule of the annual minimum pension amounts.
Compensation	All salary or wages from the Company, including payments for overtime, vacation pay, night shift bonus, cost of living adjustment, 100% of any Incentive Compensation, not in excess of the IRC Section 401(a)(17) amount for each applicable plan year. Compensation for determining pension benefits were frozen effective December 31, 2019.

Pension benefit service	An Employee will be credited with 190 Hours of Service for any month during which the Employee performs at least one (1) Hour of Service. Unless specifically provided otherwise, no service shall be credited for periods prior to October 22, 2007. Pension benefit service accruals ceased effective December 31, 2019.
Vesting	Five or more years of Pension Qualification Service. The benefit is reduced for payment prior to the Normal Retirement Date using the same reductions as for the early retirement benefit, and further reduced to the commencement age on an actuarial equivalent basis. Effective December 31, 2016, active Polymersshapes participants as of the December 31, 2016 sale date are considered vested under the plan.
Normal Retirement Date	First day of month following age 65
Early retirement benefit	First day of month following age 60 Core Employees who retire after attainment of age 60 from active or inactive status but prior to their Normal Retirement Date will receive unreduced early retirement benefits. Delta Employees who retire after attainment of age 60 from active or inactive status but prior to their Normal Retirement Date are entitled to such Employee's Regular Pension and any Additional Pension. This benefit shall be reduced by 5/12% for each month from retirement date to Normal Retirement Date. However, in the event such Employee terminates from the Service of the Company on or after (a) attainment of at least age 62 and (b) completion of at least 25 years of Pension Qualification Service, his benefit will not be reduced.
Late retirement Benefit	Benefit is determined based on the Regular and Additional pension formulas reflecting Compensation and Pension benefit service through the actual termination date. Actuarial increases apply after age 70 ½ and for the period after Normal Retirement Date during which a Suspension of Benefits Notice was not provided.

Schedule SB, Part V — Summary of Plan Provisions

Schedule SB, Part V — Summary of Plan Provisions

Pre-retirement death benefit	Benefits vary with age, service, marital status and employment status at time of death, as described in the table below. Benefits described are for active participants only; benefits for vested terminations may be different, depending on the participant's age at death. For those married at time of death (defined as married at least one full year prior to date of death), 50% spouse benefits are available. These benefits are payable immediately to the spouses of participants who were (i) age 60, (ii) age 50 with 15 years of Pension Qualification Service, or (ii) with 30 years of Pension Qualification Service prior to death. Otherwise, these benefits are deferred to age 60. For single employees (and those married for less than 12 months) who are either (i) age 60, or (ii) have 15 years of Pension Qualification Service, only lump sum death benefits are available. The lump sum death benefit is the amount payable to such Employee for five years, on the basis that he retired on the first day of the month following the month in which death occurred and no survivor benefit applied. Married participants may also elect to receive death benefits in this payment form. Early commencement factors for both monthly death benefits and lump sum death benefits are based on the age the employee would have attained upon commencement of the pre-retirement death benefit.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, are included in this valuation:

- **Most recent plan amendments included:** See applicable plan provision summary for the most recent plan amendment reflected in the valuation. Amendments effective after the current plan year are excluded from this valuation.
- **Late retirement increases:**
 - *Active participants:* All the plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70 ½. Participants that are past the April 1st following the calendar year in which they turn 70 ½ are entitled to back payments with interest from the April 1st following the calendar year in which they turn 70 ½ to benefit commencement date. This valuation does not approximate the value of these back payments with interest due to the small number of affected participants.
 - *Deferred vested participants:* Participants who are terminated vested and past Normal Retirement Date are entitled to back payments with interest to their benefit commencement date from the later of their Normal Retirement Date and termination date. This valuation approximates the value of these back payments with interest.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 24 — Change in Actuarial Assumptions

- Lump sum conversion mortality was updated to the combined IRS Pri-2012 base funding mortality table projected generationally based on the 2024 IRS-adjusted projection scale MP-2021 and blended 50% male and 50% female.
- The administrative expenses load assumption is \$225,000 to \$200,000.
- The expected investment return changed from 6.10% for 2023 to 5.05% for 2024 plan year.
