INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information noted in the table of contents, as of and for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

FLINCHBAUGH ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Flinchbaugh Engineering, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a nonleveraged employee stock ownership plan (ESOP) sponsored by Flinchbaugh Engineering, Inc (Company or Employer). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's executive team is responsible for oversight of the Plan and periodically reports to the Company's Board of Directors. Argent Trust Company is the independent third party trustee.

Effective January 1, 2024, the Plan was amended to include acquired employees of Billet Industries, Inc. (Billet), a precision machining company purchased by the Company. The Plan's service requirement was waived for all acquired Billet employees. Billet participants are held to the same vesting criteria as all other participants.

Eligibility

The Plan covers all employees who have completed 1,000 hours of service during a Plan year, except for employees covered under a collective bargaining agreement, non-resident aliens and, temporary, or leased employees. Participants who do not have at least 1,000 hours of service during the Plan year or are not employed on the last working day of a plan year are generally not eligible for allocation of Company contributions for such year.

Employer Contributions

Contributions are recognized in the period, when earned, as determined by the Board of Directors. During the year ended December 31, 2024, the Company made a stock contribution of 20,376 shares valued at \$825,432 and a cash contribution of \$164,365. Of those contributions, 9,324 shares of Company stock and \$75,210 of cash were for the safe harbor qualified nonelective contribution related to the Company's 401(k) plan. During the year ended December 31, 2023, the Company made a stock contribution of 27,698 shares valued at \$1,099,888 and a cash contribution of \$142,524. Of those contributions, 8,484 shares of Company stock and \$43,657 of cash were for the safe harbor qualified nonelective contribution related to the Company's 401(k) plan.

Employees must meet certain requirements to receive an allocation to their account. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

FLINCHBAUGH ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Payment of Benefits

Distributions are made in cash only and stock held in the participant's Employer's stock account will be converted to cash based on the valuation immediately preceding the distribution date. Upon retirement, disability, or death, distributions will typically be paid in annual installments over a five-year period. Upon termination of service other than by retirement, disability, or death, a participant will receive a lump-sum payment if the total of their vested account balance does not exceed \$5,000. If the vested account balance exceeds \$5,000, the assets will generally be held in a trust until the participant's normal or early retirement date, unless otherwise elected by the participant.

Under the provisions of the Plan, the Company is obligated to repurchase shares of common stock held by participants diversifying shares or terminated participants with balances under \$5,000. During the years ended December 31, 2024 and 2023, the Company repurchased 15,201 shares and 14,552 shares, respectively, of the Employer's common stock held by participants at prices determined from the independent appraisal immediately preceding the purchase date.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares of common stock allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares of common stock for which instructions have not been given by a participant.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the plan year with the Employer's safe harbor qualified nonelective contribution and ESOP contributions, as well as the Plan's earnings and forfeitures. Participants are charged with an allocation of administrative expenses that are paid by the Plan, if applicable.

Allocations of the Employer's ESOP contributions and participant's forfeitures are based on the participant's eligible compensation, relative to total compensation. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. The Plan's earnings and administrative expenses, if any, are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

As of December 31, 2024 and 2023, all Company common stock held by the Plan was fully allocated to participant accounts.

FLINCHBAUGH ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Vesting

If a participant terminates employment by retirement, disability, or death, they are 100% vested in their account balance. If a participant's employment terminates other than by retirement, disability or death, the percentage of their account to which they will be entitled depends upon number of years of credited service as follows:

Vesting Schedule	
<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants vest immediately in their Employer's safe harbor qualified nonelective contribution.

Put Option

Under federal income tax regulations, the Employer's stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of these fair market value of the stock. The Company can pay for the purchase over a period not exceeding five years. The purpose of the put option is to ensure that participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company's common stock into investments which are more diversified. Participants who are at least age 55, with at least 10 years of participation in the Plan, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first 5 years, a participant may diversify up to 25 percent of his or her Flinchbaugh Engineering, Inc. common stock account balance. In the sixth year, the percentage changes to 50 percent.

Forfeitures

Forfeited nonvested accounts remain in the Plan until the participant has incurred a five-year break in service unless the participant was permitted a distribution. At December 31, 2024 and 2023, there were no forfeited nonvested accounts. During the years ended December 31, 2024 and 2023, forfeitures

FLINCHBAUGH ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

allocated to the participants' accounts amounted to \$17,269 and \$6,462, respectively. Forfeited nonvested accounts are allocated to eligible participants based on their eligible compensation.

Expenses

Administrative expenses may be paid either by the Plan or by the Company. The Company has paid all administrative expenses of the Plan for the years ended December 31, 2024 and 2023 and as such, these expenses are excluded from the financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's executive team determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 15, 2025, the date the financial statements were available to be issued.

3. INVESTMENTS

The Plan's investments in Flinchbaugh Engineering, Inc.'s common stock, at December 31, 2024 and 2023, are presented as follows:

	2024	2023
Number of shares	330,026	324,851
Cost	\$ 12,606,978	\$ 12,359,913
Estimated fair value	\$ 13,369,360	\$ 12,899,827

On February 20, 2025, an independent appraiser completed a valuation of the share price of the Company common stock as of December 31, 2024. As a result of this appraisal, the fair value of each share of the Company common stock increased to \$40.51 per share as of December 31, 2024, from \$39.71 per share as of December 31, 2023.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Investment in Flinchbaugh Engineering, Inc. common stock: The fair value of the Company's allocated common stock held by the Plan is valued at estimated value based on an independent appraisal. At December 31, 2024 and 2023, the appraisal was based on a combination of the discounted cash flow method and a guideline public company approach. The appraiser considered both approaches and considered the likely weights placed upon each approach by an investor.

The valuation process involves Plan management's selection of an independent appraiser under contract for a term of one year with the right to cancel at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares the report which management and the independent trustee review in detail, discuss, and approve. The results of this process are discussed at meetings of the Board of Directors.

Money market mutual fund: Valued at the daily closing price as reported by the fund. The money market mutual fund held by the Plan is an open-end money market mutual fund that is registered with the SEC. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market mutual fund held by the Plan is deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Investment in Flinchbaugh Engineering, Inc. common stock	\$ -	\$ -	\$ 13,369,360	\$ 13,369,360
Money market mutual fund	14,718	-	-	14,718

For the years ended December 31, 2024 and 2023, there were 20,376 and 27,698 shares contributed with a fair market value of \$825,432 and \$1,099,888, respectively.

5. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of Plan termination, participants would be 100 percent vested in their employer contributions. The interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

6. TAX STATUS

The Plan has received a determination letter from the IRS dated January 23, 2017, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

7. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The majority of the 2024 and 2023 Plan investments were common shares of the Company's stock. Flinchbaugh Engineering, Inc. is the Plan's sponsor, and therefore all transactions in common shares of the Company stock qualify as related party and party in interest transactions.

As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

8. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of common shares of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect amounts reported in the statements of net assets available for benefits.
