INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of **Summit Companies Holdings, Inc. Employee Stock Ownership Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of the Plan as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note A – Description of the Plan

The following description of the Summit Companies Holdings, Inc. (the “Company” or “Employer”) Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was established effective January 1, 2021. The Plan operates as a leveraged employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (“IRC”), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is administered by a committee appointed by the Company and is subject to the provisions of ERISA. The Plan Trustee is Prudent Fiduciary Services, LLC (the “Trustee”).

The Plan purchased all 2,917,000 shares of common voting stock from the Company for \$396,586,684 on December 17, 2021 by obtaining a loan from the Company as described in Note E, and holds the stock in a trust established under the Plan. The loan is to be repaid over a period of 50 years, and is guaranteed by the Company. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employee’s accounts in accordance with applicable regulations under the IRC.

Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with allocated stock (Allocated), and
- b. stock not yet allocated to employees and related dividends received and invested (Unallocated).

An eligible employee becomes a participant in the Plan on January 1 or July 1 occurring on or after his or her completion of one Year of Service with the Corporation, provided that he or she has attained age 18.

Unless the Participant elects to postpone distribution of his vested account balance, with consent of a participant’s spouse, elects to have the Trustee apply other distribution provisions of this Plan, the committee will direct the Trustee to distribute the participant’s vested account balance attributable to Employer securities no later than the time described by the code unless the distribution provision of this Plan require earlier distribution of participant’s vested account balance.

Eligibility

Eligible employees of the Company who have attained age 18 and are not non-resident aliens, leased employees, and are employed as of December 31, or have terminated employee status during the year due to death, disability or retirement are eligible for allocation of shares. Any employees who were hired prior to January 1, 2021 were automatically entered into the Plan as of this date whether or not they have met the service requirement. For years thereafter, employees become eligible to enter the Plan once they attain one year of service. Eligible employees may enter the Plan on the first day of the 5th or 12th month of the year depending on their hire date. Participants are credited with a year of service for completing at least 1,000 hours of service.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Participant contributions are not permitted.

Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note A – Description of the Plan (continued)

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company or its participating subsidiaries. Distributions may be made in shares or in the form of cash only. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan.

Administrative Expenses

As provided by the Plan, administrative expenses are currently paid by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participant's unvested accounts. Only those eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a point system that is based on the participant's eligible compensation and years of service.

Vesting

If a participant's employment with the Company ends for any reason other than attainment of age 65, permanent disability or death, he or she will vest in the balances in his or her account based on total years of Plan participation. Participants become 100% vested after completion of 6 years of Plan participation. All participants that have earned years of service prior to January 1, 2021 were awarded 1 year for every 2 years of service to count towards their vesting. There are no half points awarded for a single year. All years thereafter are counted as 1 year for every 1 year of service towards their vesting.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan are considered a qualified participant, and they may elect to diversify a portion of their account.

Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note A – Description of the Plan (continued)

Diversification (continued)

Diversification is offered to each qualified participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may receive a cash distribution, or a transfer to another qualified plan or to an Individual Retirement Account. As of December 31, 2024 and 2023, there were no qualified participants and distributions, respectively.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation and years of service for the Plan year. As of December 31, 2024 and 2023, there were no unallocated forfeited balances, and 428 shares were forfeited and reallocated for the year ended December 31, 2024.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”), and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Plan investments in the Employer common stock are stated at estimated fair market value as determined by an independent appraiser. The Employer common stock held by the Plan as of December 31, 2024 and 2023 has been stated at \$258.00 and \$126.00 per share, respectively, in the accompanying statements of assets available for benefits, which represented the estimated fair market value of the stock at December 31, 2024 and 2023.

Dividend income is accrued on the ex-dividend date. Purchases and sales of investments are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Payment of Benefits

Benefits are recorded when paid.

Plan Termination

It is management's intent to continue the Plan indefinitely; however, the Company reserves the right to terminate the Plan should it become necessary because of business reasons or changes in the tax laws. Upon occurrence of such an event, the Plan termination will be subject to the provisions of ERISA, and the Plan shall continue until all participants' accounts have been completely distributed in accordance with the provisions of the Plan.

Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note B – Summary of Significant Accounting Policies (continued)

Plan Termination (continued)

Upon termination of the Plan, the Board of Directors shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investment units, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Note C – Investments

The Plan's investments at December 31, 2024 and 2023 are presented in the following tables:

Company common stock at 12/31/2024:

	Allocated	Unallocated	Total
Number of shares	230,508	2,686,492	2,917,000
Cost	\$ 31,339,185	\$ 365,247,499	\$ 396,586,684
Estimated fair market value	\$ 59,470,975	\$ 693,115,025	\$ 752,586,000

Company common stock at 12/31/2023:

	Allocated	Unallocated	Total
Number of shares	173,348	2,743,652	2,917,000
Cost	\$ 21,488,248	\$ 340,103,072	\$ 361,586,684
Estimated fair market value	\$ 21,841,879	\$ 345,700,121	\$ 367,542,000

Note D – Fair Value Measurements

The Financial Accounting Standards Board has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note D – Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Company common stock: The fair market value of the Employer common stock is determined on a marketable controlling interest basis by an independent appraiser (Level 3 inputs). The fair market value analysis is developed primarily on the basis of the market approach and the income approach. The market approach utilizes a comparison of the Company with comparable publicly traded companies or acquisitions of comparable companies. The discounted cash flow method is a frequently used form of the income approach. The method estimates the present value of the projected future cash flows to be generated by an entity and theoretically available to the capital providers of the entity. The discount rate contains no implicit expectations of growth for the cash flows. Instead, the projected cash flows themselves reveal growth expectations, while allowing for a great deal more flexibility in projecting such growth rates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value as of December 31, 2024 and 2023:

	<u>Fair Value Measurements at Reporting Date Using:</u>

Summit Companies Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note E – Loan Payable

In 2021, the Plan entered into a \$361,586,684 term loan agreement with the Company to purchase all of the outstanding Company common stock. During 2023, the management of Summit Companies Holdings, Inc. determined that the Target EBITDAE clause in the purchase agreement was met and recorded a liability to pay the former stockholders an earn-out balance of \$35,000,000 that was paid in 2024. This increased the purchase price of the common stock to \$396,586,684, and resulted in a loan adjustment reflected as an adjustment to the unallocated shares on the statement of changes in net assets available for benefits for the year ended December 31, 2024. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made.

The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 57,159 and 57,783 shares being released and allocated for the year ended December 31, 2024 and 2023, respectively. The agreement provides for the loan to be repaid over 50 years.

The scheduled amortization of the loan for the next five years is as follows December 31 2024:

Year Ending December 31,	Amount
2025	\$ 4,971,090
2026	5,065,541
2027	5,161,786
2028	5,259,860
2029	5,359,797
Thereafter	346,247,031
	<u>\$ 372,065,105</u>

Interest expense was approximately \$7,010,000 for the year ended December 31, 2024.

Note F – Tax Status

The Plan has applied for and has received a determination letter from the Internal Revenue Service dated May 19, 2025 stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements.

Note G – Related Party and Parties-in-Interest Transactions

The Plan invests in Company common stock and has an outstanding loan from the Company. These are related party and party in interest transactions. As described in Note A, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Notes to Financial Statements

December 31, 2024 and 2023

Note H – Employer Contributions

Employer contributions shall be paid to the Trustee for each Plan year in such amounts (or under such formula) as determined by the Board of Directors. Employer contributions for each Plan year shall be paid to the Trustee no later than the due date of the Plan loan, but in no case later than the due date (including extensions) for filing the Company's Federal income tax return for that Plan year. The Company is obligated to make contributions to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan to the Company. For the year ended December 31, 2024, the Company paid approximately \$13,386,000 aggregated between contributions and dividends.

Note I – Subsequent Events

The Plan has evaluated subsequent events through September 10, 2025, the date the financial statements were available to be issued.
