## **Independent Auditors' Report**

The Trustees  
Burns Engineering, Inc. Employee Stock Ownership Plan  
Philadelphia, Pennsylvania

### ***Opinion***

We have audited the financial statements of Burns Engineering, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan 's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

***Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## Notes to Financial Statements

December 31, 2024 and 2023

---

### (1) Description of Plan

The following description of the Burns Engineering, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

#### ***General***

The Plan is a noncontributory plan which was established effective January 1, 2000 to provide retirement benefits for the eligible employees of Burns Engineering, Inc. (the Company), except for employees who are leased by the Company or covered by collective bargaining agreements.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by Principal Financial Group (formerly FuturePlan, an Ascensus company).

The Plan requires segregation of accounts for terminated employees. To the extent there are available assets, other than Company stock in the Plan, the plan administrator shall segregate for investment purposes all or any designated portion of the accounts of participants who have terminated employment with the Company in accordance with the prescribed format per the plan amendment. These accounts are included in the statements of net assets available for benefits, as interest bearing cash, and total \$1,136,783 and \$1,415,540 at December 31, 2024 and 2023, respectively.

The Plan was amended and restated effective January 1, 2022.

#### ***Eligibility***

Employees of the Company become eligible to participate in the Plan after completion of 1,000 hours of service in a plan year, attaining at least 21 years of age, and being employed by the Company at year end. Entry into the Plan occurs the first day of January each plan year.

#### ***Employer Contributions***

Company contributions for any plan year shall be in an amount determined by the Board of Directors in its sole discretion (which may be zero). Contributions are not to exceed the lesser of 1) the maximum amount the Company is permitted to deduct as an expense on its federal income tax return, or 2) the maximum amount that may be credited for such plan year in accordance with individual maximum annual addition limitations under section 415 of the Internal Revenue Code (IRC).

### (1) Description of Plan, Continued

#### *Participant Accounts*

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of cash contributed into the Plan, shares of the Company's common stock released by the trustees from the unallocated account, and forfeitures of terminated participants' nonvested accounts. Each participant's account is debited as of the last day of each plan year with an allocation of cash payments made by the trustees for acquisition of Company stock. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

#### *Vesting*

Participants are vested based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%

#### *Payment of Benefits*

Upon termination of service, participants will receive an automatic lump-sum distribution if the vested value of their account is under \$5,000. Participants with a vested account balance up to \$10,000 will receive a lump sum payment in the plan year following termination of employment. For balances over \$10,000 participants will receive annual installments over a period of five years. Effective January 1, 2018, the Plan was amended to allow segregation of the accounts of terminated employees. Under this amendment, retired or terminated participants' accounts may be distributed from the interest bearing cash included in the segregated account.

#### *Forfeitures*

When a participant is no longer employed by the Company, the amount of that individual's account that is not fully vested will be forfeited. The forfeited portion of the account will be allocated among the participants in the Plan who are eligible employees at the end of the plan year. The amount of cash forfeited for the plan years ended December 31, 2024 and 2023 was \$56,063 and \$24,196, respectively. The number of shares of common stock forfeited for the plan years ended December 31, 2024 and 2023 was 0 and 89, respectively. There were no unallocated forfeitures at the end of either plan year.

##### *Voting Rights*

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account with respect to any shareholder vote that is required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. Each participant in the Plan shall direct the trustees as to the voting of shares of Company stock held in their account and not held in the unallocated stock suspense account. The trustees shall vote all unallocated shares of Company stock held by the Plan. Participants shall have one vote for each vested share of Company stock in their account. There are no unallocated shares at December 31, 2024 and 2023.

##### *Plan Termination*

Although the Company has not indicated an intention to do so, the Company reserves the right to terminate the Plan at any time, subject to plan provisions and in accordance with ERISA. Upon such termination of the Plan, the interest of each participant in the Plan will be distributed to such participant or their beneficiary at the time prescribed by the plan terms and the IRC. Upon termination, all participant accounts will immediately become fully vested and shall not thereafter be subject to forfeiture.

##### *Diversification*

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify have the option of receiving a cash distribution or rolling the funds into the Company's 401(k) Plan or other eligible retirement account.

##### *Put Option*

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company may pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

#### (2) Summary of Significant Accounting Policies

##### *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

##### *Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

##### *Investment Valuation and Income Recognition*

The common stock of the Company is stated at fair value on December 31, 2024 and 2023. Fair value is determined annually by an independent appraisal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

##### *Payment of Benefits*

Benefits are recorded when paid.

##### *Expenses*

The plan trustees control and manage the operation of the Plan. Certain administrative expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements.

##### *Subsequent Events*

The Plan has evaluated subsequent events through September 24, 2025, the date the financial statements were available to be issued.

#### (3) Payment of Benefits

Benefit payments will be made beginning at the earlier of normal retirement, death or total disability, based upon the participant's vested interest in plan assets at such time unless elected otherwise by the participant. Benefit payments are based on the fair value of the stock as of the date of the last valuation for purposes of making a distribution. During the years ended December 31, 2024 and 2023, distributions to participants were \$1,084,335 and \$649,496, respectively.

#### (4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability; and
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

#### (4) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Cash, interest bearing:* Valued at the cost that equals fair value.

*Burns Engineering, Inc. common stock:* The Company's stock is not actively traded, and significant other observable inputs are not available. The fair value of the common stock is determined by an annual independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraisal took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

The valuation process involves the selection of an appraiser approved by the Board of Directors. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Plan management and the Board of Directors review and approve the appraiser report before it is finalized.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash, interest bearing	\$ 1,486,022	\$ -	\$ -	\$ 1,486,022
Burns Engineering, Inc. common stock (276,000 shares)	-	-	16,595,880	16,595,880
Total investments at fair value	<u>\$ 1,486,022</u>	<u>\$ -</u>	<u>\$ 16,595,880</u>	<u>\$ 18,081,902</u>

  

Description	Assets at Fair Value as of December 31, 2023

#### (4) Fair Value Measurements, Continued

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

The unrealized gain on the Company common stock is included in the net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

#### (5) Investment in Common Stock

The following presents investments of the Plan's net assets available for benefits at December 31:

Investments	2024	2023
Burns Engineering, Inc. common stock		
Number of shares	276,000	276,000
Cost	\$ 1,611,840	\$ 1,611,840
Fair Value	\$ 16,595,880	\$ 14,890,200

During the years ended December 31, 2024 and 2023, the Plan's investment in the Company's common stock appreciated in fair value by \$1,705,680 and \$1,391,040, respectively, which includes gains and losses on common stock sold, as well as held during the year. The fair value per share is \$60.13 and \$53.95 at December 31, 2024 and 2023, respectively.

#### (6) Company Dividends

Cash dividends paid on shares of the Company's common stock were allocated to participants' accounts in accordance with plan provisions. As required by the plan document, the current appraised value of the shares returned to participant accounts in exchange for the use of such dividends was at least equal to the current value of such dividends. There were no dividends paid during the years ended December 31, 2024 and 2023.

#### (7) Related Party Transactions and Party-In-Interest Transactions

During the years ended December 31, 2024 and 2023, the Plan's contribution totaled \$900,000 and \$901,929, respectively, from the Company. The Plan is managed by Principal Financial Group (formerly FuturePlan, an Ascensus company); transactions with Principal Financial Group qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

#### **(8) Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has not received an opinion letter specific to the Plan itself; however, the plan administrator believes that the Plan is currently designed and being operated in the compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **(9) Risks and Uncertainties**

The Plan invests primarily in common stock of the Company which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows or other such techniques. Due to the level of risk associated with the investment in the common stock and uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
