INDEPENDENT AUDITORS' REPORT

Allgeier, Martin & Associates, Inc.
Employee Stock Ownership Plan
Springfield, Missouri

Opinion

We have audited the accompanying financial statements of the Allgeier, Martin & Associates, Inc. Employee Stock Ownership Plan an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Allgeier, Martin & Associates, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Allgeier, Martin & Associates, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Allgeier,

Martin & Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Allgeier, Martin & Associates, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Allgeier, Martin & Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets held for investment purposes as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2024 and 2023

NOTE 1: PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Allgeier, Martin & Associates, Inc., Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Allgeier, Martin & Associates, Inc. (company) established the Allgeier, Martin & Associates, Inc., Employee Stock Ownership Plan (plan) effective as of January 1, 1992. As of January 1, 2009, the plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (code) and is subject to the applicable provisions of ERISA. The plan is administered by a committee comprising three persons (committee) appointed by the company's Board of Directors.

The plan purchased approximately 45% of the company's issued and outstanding common stock prior to year-end 1992. The ESOP borrowed money from the company to buy that block of stock from certain employees. The company in turn borrowed money from a local bank to finance the loan to the ESOP. The ESOP has met its obligation to repay the loan to the company through the contributions made by the company to the ESOP and the acquisition loan has been paid in full.

Eligibility – Employees of the company are generally eligible to participate in the plan after one year of service providing they worked at least 1,000 hours and attained age 20 ½ during such plan year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of company contributions for such year.

Payment of benefits – No distributions from the plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the company and its participating subsidiaries. Distributions are made in cash or, if a participant elects, in the form of company common shares plus cash for any fractional share. The amount distributed is based upon the account valuation immediately preceding the distribution.

Under the provisions of the plan, the company is obligated to repurchase participant shares which have been distributed under the terms of the plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2024 and 2023, the company repurchased from participants 477 and 878 shares, respectively, at prices determined from the independent appraisal.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2024 and 2023

NOTE 1: PLAN DESCRIPTION AND BASIS OF PRESENTATION - CONTINUED

Voting rights – Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is to vote any allocated company stock, for which participant instructions have been received, in accordance with such instructions. The Trustee shall vote any unallocated company stock in the trust fund, or any allocated company stock as to which no voting instructions have been received, in such manner as directed by the committee.

Plan termination – The company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the code. Upon termination of the Plan, participants would become 100% vested in their accounts and the committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant accounts – The plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the company's common stock released by the Trustee from the unallocated account and forfeitures of the terminated participant's nonvested accounts. Only those participants who are eligible employees of the company as of the last day of the plan year will receive an allocation. Allocations are based on participant's eligible compensation, relative to total eligible compensation.

Vesting – If a participant's employment with the company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the company. Participants vest 25% per year of service, beginning with the second year of service, and are 100% vested after five years of service.

Put option – Under Federal income tax regulations, the employer stock that is held by the plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2024 and 2023

NOTE 1: PLAN DESCRIPTION AND BASIS OF PRESENTATION - CONTINUED

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Participant accounts and forfeitures – Employer contributions and plan forfeitures are allocated to each participant’s account based upon the relation of the participant’s compensation to total compensation for the plan year. There were no forfeitures allocated in 2023 or 2024. Plan earnings are allocated to each participant’s account based on the ratio of the participant’s beginning of the year account balance to all participants’ beginning of the year account balances.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of accounting – The financial statements of the plan are prepared using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – The common shares of the company are valued at estimated fair value. See Note 6 for discussion of fair value measurements.

Net appreciation (depreciation) includes the plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Operating expenses – All expenses of maintaining the plan are paid by the company.

ALLGEIER, MARTIN & ASSOCIATES, INC.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2024 and 2023

NOTE 2: SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Subsequent events – The plan has evaluated subsequent events through August 15, 2025, the date the financial statements were available to be issued.

NOTE 3: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated August 27, 2014, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan was qualified and the related trust was tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 4: ADMINISTRATION OF PLAN ASSETS

The plan's assets, which consist principally of Allgeier, Martin & Associates, Inc. common shares, are held by the Trustee of the plan, who is an officer of the company. Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants. A third-party administrator is used to allocate shares and maintain participant accounts. No officer or employee performing administrative functions receives compensation from the plan. Administrative expenses to the plan's third-party administrator are paid directly by the company.

NOTE 6: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets of liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Years Ended December 31, 2024 and 2023

NOTE 6: FAIR VALUE MEASUREMENTS - CONTINUED

The fair value of the Allgeier, Martin & Associates, Inc. common stock held by the plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon the net asset value technique consistent with prior years. The appraiser took into account historical and projected net income, return on assets, return on equity, and estimated fair value of company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2024 and 2023.

Assets at Fair Value as of December 31, 2024

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 7: RISKS AND UNCERTAINTIES

The common stock held by Plan is valued at estimated fair value based upon an independent appraisal. The Plan is exposed to various risks, such as interest rate, economy risks, and credit risks. Economy risks include global events which could impact the fair value of the Plan's common stock, such as a pandemic or international conflict. Due to the level of risk associated with the fair value of common stock held by the Plan, it is at least reasonably possible that changes in the fair value will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.
