Report of Independent Auditors

To the Plan Administrator of
Augusta Cooperative Farm Bureau, Inc. 401(k) Savings Plan
Staunton, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Augusta Cooperative Farm Bureau, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) audit. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Augusta Cooperative Farm Bureau, Inc. 401(k) Plan's financial statements performed in accordance with ERISA section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit section of our report. We are required to be independent of Augusta Cooperative Farm Bureau, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Augusta Cooperative Farm Bureau, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Augusta Cooperative Farm Bureau, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment there are conditions or events, considered in the aggregate, that raise substantial doubt about Augusta Cooperative Farm Bureau, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, line 4i – Schedule of Assets Held (At End of Year) for the year ended December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of plan

The following description of the Augusta Cooperative Farm Bureau, Inc. (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established July 31, 1998, is a defined contribution plan covering all employees of Augusta Cooperative Farm Bureau, Inc. (the "Company") who have completed either 1,000 hours of service in the first six months or one year of service (no hours requirement) and are age 18 or older with entry dates on the first of the month following the date on which the eligibility requirements have been met. All temporary, contract, leased, and seasonal employees whose regularly scheduled service is less than 1,000 hours of service over six months are excluded from the Plan. The Plan allows the following related employers to participate in the Plan: ASM Ag Services, LLC, Southern States Bristol Cooperative, and Southern States Marion Cooperative. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan document was restated to a non-standardized document sponsored by American Trust Company ("American Trust") with American Trust as the named Trustee in January 2018 to change several provisions. The maximum deferral under the automated escalation provision increased to 12%. The automatic distribution threshold for terminated employees increased from a vested account balance of \$1,000 to a vested account balance of \$5,000. The plan was restated effective January 1, 2022. The plan was amended in 2023 to allow in-service withdrawals for participants age 59 and 1/2 or older or in the event of a financial hardship.

Contributions

Participants may contribute an amount of their annual wages either as pre-tax deferrals or as Roth deferrals, as defined in the plan, up to the maximum allowed by the Internal Revenue Code. The Plan permits catch-up contributions to be made by participants who have attained age 50 before the end of the year. Participants may also contribute amounts from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations. The plan has an auto-enrollment feature providing for automatic deferral starting at 3% and increasing 1% each Plan year, up to a maximum of 12%, unless a different election is made.

The Company makes a matching contribution of 50% of the first 6% of compensation that a participant contributes. The Company may also make a discretionary nonelective contribution to the Plan. In order to be eligible for the allocation of the discretionary contributions, the employee must be employed on the last day of the Plan year and have completed at least 1,000 hours of service during the Plan year. The allocation is based on the employee's compensation as a percentage of the total eligible compensation. The Company did not make a discretionary contribution to the Plan for the years ended December 31, 2024 and 2023.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching and discretionary contributions, and allocations of plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options

Upon enrollment in the Plan, participants may direct the custodian of the Plan as to the investment of their account balances in accordance with guidelines established by the Plan. The Plan currently offers various mutual funds and common collective trust funds as investment options for participants. Participants may change their investment options daily.

Forfeitures

Forfeitures of matching and discretionary employer contributions may be used to pay administrative expenses incurred by the Plan or used to offset employer contributions. For the years ended December 31, 2024 and 2023, forfeitures of terminated participants' non-vested accounts totaled \$4,653 and \$4,866, respectively. Forfeitures of \$-0- and \$360 were used to offset employer contributions in the year ending December 31, 2024 and 2023, respectively. Forfeitures of \$6,433 and \$1,902 were used to offset administrative expenses in the years ending December 31, 2024 and 2023, respectively. As of December 31, 2024 and 2023, forfeitures available to reduce future administrative expenses and employer contributions totaled \$1,080 and \$2,839, respectively.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contribution and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
0	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Payment of benefits

On termination of service due to death, disability, retirement, or other termination of employment, a participant with a vested account balance exceeding \$5,000 may elect to receive a lump-sum amount. Vested account balances less than \$5,000 will be automatically distributed in a lump-sum payment. The plan was amended in 2023 to allow in-service withdrawals for participants age 59 and 1/2 or older or in the event of a financial hardship.

Note 2 – Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

The Plan's investments, which included mutual funds and common collective trusts, are recorded at fair value except for fully benefit responsive investment contracts which are reported at contract value. Shares of mutual funds, managed by American Trust, are based on quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. Common collective trusts are valued at the net asset value of the underlying investments held in the trust. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

As described under FASB ASC 962-325-35 "*Plan Accounting – Defined Contribution Pension Plans*", the Plan values all fully-benefit responsive contracts at fair value, which is contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Note 2 – Summary of significant accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Expenses

Plan fees and administrative expenses are paid by the Plan or the Company on a discretionary basis. A portion of these fees and expenses were paid by the Company for the years ended December 31, 2024 and 2023.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Credit risk

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3 – Fair value measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Augusta Cooperative Farm Bureau, Inc. 401(k) Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 3 – Fair value measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the quoted net assets values of the shares actively traded on the market as held by the Plan at year-end.

Common collective funds: Investments are valued using net asset value as a practical expedient. Net asset value as reported by the investment manager based on the value of the underlying assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2024 and 2023:

		Fair Value Measurement Using:		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	
		Total Fair Value

Note 3 – Fair value measurements (continued)

Investments measured at net asset value above are presented using the net asset value per share practical expedient. In accordance with ASU 2015-07 and Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value measured using the net asset value per share practical expedient as of December 31, 2024 and 2023. There are no participant redemption restrictions for these investments: the redemption notice period is applicable only to the Plan.

Note 4 – Investment Contracts

The Plan has invested in the American Trust Company Stable Value Trust Fund issued by Metlife. This investment meets the fully benefit-responsive investment contract criteria and is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. This investment is a guaranteed investment contract and certain wrapper contract. The average yield earned by the Plan is the yield earned on the guaranteed investment contract.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The following represents the total contract value of this investment contract held by the Plan:

	<u>2024</u>	<u>2023</u>
Stable value trust fund	\$ <u>1,432,399</u>	\$ <u>1,344,246</u>

With traditional investment contracts, the Plan owns only the contract itself. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on a semi-annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

December 31, 2024 and 2023**

Note 4 – Investment Contracts (continued)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Other Plan Sponsor events that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

Note 5 – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 6 – Tax status

The Plan adopted a volume submitter plan sponsored by the Trustee and has not requested a determination letter but rather has relied upon the Internal Revenue Service opinion letter dated June 30, 2020 issued on the volume submitter plan stating the Plan and related trust are designed in accordance with applicable sections of the *Internal Revenue Code (IRC)*. The plan was restated effective January 1, 2022. The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the *IRC*.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2024 and 2023, no uncertain positions are taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

Note 7 – Party-in-interest transactions

Certain administrative functions are performed by officers or employees of the Company. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Plan participants directed their investments in funds issued and managed by the American Trust, the Plan trustee. Investments in funds issued by American Trust are considered related party transactions. Fees paid to the Plan Trustees by the Plan for investment management and administrative services were \$29,132 and \$29,069, respectively, for the years ended December 31, 2024 and 2023.

Employee Benefit Services provides administrative services to the Plan. Fees paid by the Plan for administrative services amounts to \$8,860 and \$9,320, respectively, for the years ended December 31, 2024 and 2023.

Note 8 – Revenue sharing

American Trust provides certain administrative services to the Plan pursuant to a Service Agreement between the Employer and American Trust. American Trust receives revenue from mutual fund service providers for services American Trust provides to the funds. The revenue shares through American Trust for the years ended December 31, 2024 and 2023 totaled \$3,530 and \$3,226, respectively. The revenue is used to offset certain amounts owed to American Trust for its administrative services to the Plan.

Note 9 – Financial information certified by the custodian of the Plan

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments and interest and dividends for the year ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by American Trust Company (the trustee of the Plan).
