## *Independent Auditors' Report*

Plan Administrator  
Associated Universities Inc. Retiree Medical Plan  
Vienna, Virginia

### ***Opinion***

We have audited the financial statements of the Associated Universities Inc. Retiree Medical Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in benefit obligations for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

RETIREE MEDICAL PLAN**

***Notes to Financial Statements***

***Note 1 - Description of the Plan***

The following brief description of the Associated Universities Inc. (“AUI”) Retiree Medical Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

***General***

The Plan was established on January 1, 2020 as a result of the spin off from AUI’s Comprehensive Medical Insurance Plan in 2019. The Plan provides health and welfare benefits to eligible retired employees and their dependents. To be an Eligible Retiree, the former employee has to have been hired before January 1, 2012 and enters the Plan when they reach age 65. Participation in the Plan is frozen and, as a result, no employee who was not an Eligible Retiree prior to January 1, 2020 shall become an Eligible Retiree.

The Associated Universities, Inc. Retiree Health Benefits Trust (the “Trust”) was established under Section 501(c)(9) of the Internal Revenue Code pursuant to an agreement and declaration of trust effective June 1995 to fund the obligations of the Plan for qualified retirees whose benefits are not covered by any cooperative agreement or contract. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

***Benefits***

The Plan has a health reimbursement arrangement (“HRA”) providing for reimbursement for eligible health care expenses up to a maximum dollar amount determined on an annual basis. AUI provides this benefit to all retiree participants, and their eligible dependents, who were hired prior to January 1, 2012.

***Employer Contributions***

AUI makes contributions to the Plan as needed to fund the HRA.

***Note 2 - Summary of Significant Accounting Policies***

***Basis of Accounting***

The Plan’s financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

# ASSOCIATED UNIVERSITIES INC. RETIREE MEDICAL PLAN

## *Notes to Financial Statements*

### **Note 2 - Summary of Significant Accounting Policies (Continued)**

#### ***Investments, Investment Valuation and Income Recognition***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The determination of gain and loss on sales of investments is based on average cost.

#### ***Postretirement Benefits***

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employee service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from AUI. The obligations represent the amounts that are expected to be funded by contributions by AUI and from existing assets from the Plan. Postretirement benefits include future benefits expected to be paid to or for (i) currently retired employees and their beneficiaries and dependents and (ii) active employees and their beneficiaries and dependents after retiring from service with AUI. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary, and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment, and to reflect the portion of those costs expected to be borne by Medicare, the retired Participants, and other providers.

For measurement purposes at December 31, 2024 and 2023, the following were other significant assumptions used in the valuation:

Assumed discount rate	5.51% and 4.95%, respectively
Retirement age	Ages 55 to 70 at varying rates
Mortality	For 2024, the mortality assumption used the Pri-2012 mortality tables with generational projection using Scale MSS-2024 with no collar adjustment
	For 2023, the mortality assumption used the Pri-2012 mortality tables with generational projection using Scale MSS-2023 with no collar adjustment

**ASSOCIATED UNIVERSITIES INC.  
RETIREE MEDICAL PLAN**

***Notes to Financial Statements***

***Note 2 - Summary of Significant Accounting Policies (Continued)***

***Postretirement Benefits (Continued)***

For measurement purposes, a health care cost trend rate assumption of 7.20% and 7.52% in the per capita cost of covered healthcare benefits was assumed for pre-65 benefits at December 31, 2024 and 2023, respectively. This was assumed to decrease gradually to 4.67% in 2034.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligations.

If the health care cost trend rate assumptions were increased by 1.0% in each year, the accumulated postretirement benefit obligation, as of December 31, 2024 and 2023, would be increased by \$31,847 and \$41,697, respectively.

The Plan's postretirement benefit obligation does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 because the Plan is not directly entitled to the Medicare subsidy. AUI has included the effects of the Medicare subsidy in measuring its postretirement benefit obligation; therefore, the Plan's postretirement benefit obligation differs from that of AUI.

***Use of Estimates***

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated Plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

***Risks and Uncertainties***

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events such as an international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of benefit obligations is determined based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**ASSOCIATED UNIVERSITIES INC.  
RETIREE MEDICAL PLAN**

***Notes to Financial Statements***

***Note 2 - Summary of Significant Accounting Policies (Continued)***

***Administrative Expenses***

The Plan's expenses are paid either by the Plan or AUI, as provided by the Plan document. Expenses that are paid for directly by AUI are excluded from these financial statements. The Plan pays administrative expenses consisting primarily of fees for processing claims. In addition, fees are incurred for investment services. These expenses have been recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits.

***Subsequent Events***

The Plan has evaluated subsequent events through September 23, 2025, the date that the financial statements were available to be issued. There were no significant matters identified for disclosure during this evaluation.

***Note 3 - Fair Value Measurements***

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

*Level I* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level II* Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

*Level III* Inputs that are unobservable for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value.

***Mutual Funds***

Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**ASSOCIATED UNIVERSITIES INC.  
RETIREE MEDICAL PLAN**

***Notes to Financial Statements***

***Note 3 - Fair Value Measurements (Continued)***

The following tables summarize fair value measurements at December 31, 2024 and 2023 for financial assets measured at fair value:

<i>Description</i>	<b><i>Assets at Fair Value as of December 31, 2024</i></b>			
	<b><i>Level I</i></b>	<b><i>Level II</i></b>	<b><i>Level III</i></b>	<b><i>Total</i></b>
Mutual fund	\$ 541,927	\$ -	\$ -	\$ 541,927
<b>Total</b>	<b>\$ 541,927</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 541,927</b>

  

<i>Description</i>	<b><i>Assets at Fair Value as of December 31, 2023</i></b>			
	<b><i>Level I</i></b>	<b><i>Level II</i></b>	<b><i>Level III</i></b>	<b><i>Total</i></b>
Mutual fund	\$ 471,462	\$ -	\$ -	\$ 471,462
<b>Total</b>	<b>\$ 471,462</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 471,462</b>

***Note 4 - Benefit Obligations***

The Plan's deficiency of net assets compared to benefit obligations at December 31, 2024 and 2023 relate primarily to the postretirement obligation, the funding of which is not covered by current contributions. It is expected that the deficiency will be funded through future contributions by AUI.

***Note 5 - Tax Status***

The Trust established under the Plan to hold the Plan's net assets is qualified pursuant to Section 501(a) of the Internal Revenue Code. The Trust has obtained a favorable determination letter dated July 23, 1997 from the Internal Revenue Service. Although the Plan has been amended since receiving the determination letter, AUI believes that the related Trust continues to qualify and operate as designed. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**ASSOCIATED UNIVERSITIES INC.  
RETIREE MEDICAL PLAN**

***Notes to Financial Statements***

***Note 6 - Related Party and Party-In-Interest Transactions***

The Plan pays for administrative services provided by Extend Health, Inc. (“Extend Health”). Administrative expenses paid to Extend Health totaled \$10,773 and \$10,630 for the years ended December 31, 2024 and 2023, respectively. AUI may pay certain administrative expenses on behalf of the Plan. Each year, AUI determines whether to request reimbursement of these expenses based on the current financial status of the Plan. There were no amounts to be reimbursed to AUI for the years ended December 31, 2024 and 2023.

***Note 7 - Plan Termination***

Although it has not expressed an intention to do so, AUI has the right under the Plan to modify the benefits provided to, and contributions required of, participants to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets after the satisfaction of all liabilities and expenses will be applied to provide benefits, as permitted under Section 501(c)(3) of the Internal Revenue Code, to participants. No assets of the Plan may revert to AUI or be used for purposes other than for the exclusive benefit of Plan participants.
