INDEPENDENT AUDITOR'S REPORT

The Plan Administrator
FIG LLC 401(k) Profit Sharing Plan & Trust

Opinion

We have audited the financial statements of the FIG LLC 401(k) Profit Sharing Plan & Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

FIG LLC 401(k) PROFIT SHARING PLAN & TRUST
NOTES TO THE FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2024, AND 2023, AND FOR THE YEAR ENDED DECEMBER 31, 2024

1. DESCRIPTION OF THE PLAN

The following description of the FIG LLC 401(k) Profit Sharing Plan & Trust (the “Plan”) provides only general information. Plan participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan, established on January 1, 1998, amended and restated as of January 1, 2006, and as subsequently amended, is a defined contribution plan covering eligible employees of FIG LLC and its affiliates (collectively, the “Company”). Employees who have attained the age of 21 may elect to participate in the Plan immediately upon their employment start date. The Board of Directors are responsible for oversight of the Plan, which is administered by FIG LLC (“Plan Administrator”). The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Administrator.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Fidelity Management Trust Company is the trustee for the Plan and Fidelity Workplace Services, LLC (collectively, “Fidelity”) is the recordkeeper for the Plan.

Contributions—Each year, participants may contribute a percentage of their annual compensation (either pre-tax or Roth 401(k) contributions), as defined in the Plan document, up to the maximum allowable amount determined by the Internal Revenue Code (“IRC”) each calendar year (\$23,000 for 2024). In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to \$7,500 for 2024. Participants may contribute an additional percentage of their annual compensation as after-tax contributions, as defined in the Plan document (up to \$35,650 for 2024). Participants may also rollover amounts representing distributions from another qualified plan (“Rollover Contribution”), which are accepted by the Plan. Participants may change their percentage contribution elections semi-monthly.

The Company may elect, but is not required, to make a discretionary profit-sharing contribution for a Plan year. Only eligible employees who are employed by the Company on the last day of the Plan year (except in the case of death, employees who become disabled or retire during the plan year) are entitled to receive a share of discretionary profit-sharing contributions. For the 2024 Plan year, the Company elected to provide a discretionary profit-sharing contribution, on behalf of each eligible employee, in an amount equal to 3% of the eligible employee’s compensation, as defined in the Plan document (up to a maximum compensation of \$345,000).

Participant Accounts—Participant accounts are credited with the participants’ contributions, the Company’s contributions, and allocations of plan earnings or losses less an allocation of administration expense. Allocations are based on participant earnings or losses or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be paid from the participant’s vested account.

Investments—Participants may direct the investment of their contributions and any Company discretionary contributions and/or account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily. The Plan offers mutual funds,

money market funds, common collective trust funds ("CCT") including a stable value fund, and bitcoin Digital Assets Accounts ("DAA") as investment options for participants. Effective September 3, 2024, the Plan offered the participants the option of a self-directed brokerage feature, Fidelity BrokerageLink "Mutual Funds Plus." This feature allows the participant an option to self-direct their 401(k) investments, and it includes mutual fund, money market and exchange-traded fund (ETF) investments beyond those in the plan's normal offerings. The Participant may choose to transfer up to a maximum of 50% of their total account value into BrokerageLink.

Vesting and Forfeitures—Participants are vested immediately in their own voluntary contributions and rollover contributions plus actual plan earnings thereon.

Vesting in the Company’s discretionary contributions and earnings thereon is based on years of service, as defined by the Plan document. Generally, the vesting service for participants begins on their date of hire and vesting is calculated based on the elapsed time method in which whole years are counted to compute years of service for vesting purposes, as defined by the Plan document.

The vesting schedule with respect to the Company’s discretionary contributions after date of hire is outlined below. Employee’s prior years of service as a full-time employee will count towards this vesting schedule.

Years of Completed Service	Vested Percentage
2	50%
3	75%
4	100%

Any nonvested contributions may be forfeited upon termination of employment for reasons other than death, disability, or retirement. Such forfeitures are used to first pay Plan expenses. Any remaining forfeitures will be used to reduce the Company’s subsequent contributions to the Plan. During the year ended 2024, Company contributions of \$294,543 were forfeited by participants. During the year ended December 31, 2024, forfeited accounts that were used to pay Plan expenses amounted to \$61,159. During the year ended 2024, forfeited amounts were used to offset Company contributions by \$196,803. As of December 31, 2024 and 2023, there were \$202,948 and \$162,204, respectively, of nonvested forfeited amounts included in net assets available for benefits.

Notes Receivable from Participants—Participants may borrow from their Plan accounts an amount equal to at least \$1,000 and up to a maximum equal to \$50,000 or 50% of the value of their nonforfeitable vested account, whichever is less. Notes are secured by the balance in the participant’s account and bear interest at rates at 1% above prime at the time of issuance and maturity ranging from 1 year to 15 years at the time of issuance. Generally, notes are to be repaid within five years, but notes used to acquire a principal residence may be repaid over a maximum term of 180 months. All principal and interest payments are credited to the participant’s account. Notes receivable on December 31, 2024 bear interest ranging from 4.25% to 9.50% and have maturity years ranging from 2025 to 2039. Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest in the financial statements.

Repayment will normally be made through payroll deductions. Any outstanding loans not fully repaid when employment terminates will be deducted from any benefit due to the participant.

Payment of Benefits—Upon termination of service due to death, disability, or retirement, a participant will receive a lump- sum or systematic withdrawal distribution (effective August 2, 2023) equal to the value of the participant’s vested interest in their account. The Plan is subject to certain minimum distribution requirements as defined in the Plan document. For termination of service for other reasons, the participant may elect to receive the value of the vested interest in their account as a lump- sum or systematic withdrawal distribution or if the vested interest exceeds \$5,000 the participant may retain their money in the Plan.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits during the applicable reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan provides for various investment options consisting of a money market mutual fund, mutual funds, a digital assets account, and a stable value fund. Such investments are exposed to various risks, such as interest rates, market, and credit risks. Market risks include global events which could have an impact on the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect participants’ accounts and the amounts reported in the statements of net assets available for benefits and changes therein.

Investments and Income Recognition—The Plan investments are stated at fair value in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 Fair Value Measurement (“ASC 820”). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the Plan’s realized gains (losses) on investments bought and sold as well as changes in unrealized gains (losses) on investments held during the year.

Payment of Benefits—Benefits are recorded when paid. There were no participants who elected to withdraw from the Plan but had not yet been paid at December 31, 2024 or 2023.

Contributions—Employee contributions are recorded when withheld and Company discretionary profit-sharing contributions are recorded when earned.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Administrative Expenses—Administrative expenses of the Plan are paid by the Plan or the Plan sponsor, as provided in the Plan document. Participants pay administrative costs for loans, distributions and qualified domestic relation orders.

All investment management and transaction fees directly related to the Plan investments are paid by the Plan. Management fees and operating expenses charged to the Plan for investments are deducted from income earned daily and are not separately reflected. Consequently, investment management fees and operating expenses are reflected as a reduction of investment return for such investments.

The Plan has a revenue-sharing agreement with Fidelity, whereby the revenue that is generated from funds that provide a revenue credit/allowance gets automatically credited to the participants' accounts for those who have invested in those funds for the quarter. It does not go through any Plan level account. For the year ended December 31, 2024, \$87,028 was provided as revenue credit to the participants.

The Plan has another revenue-sharing agreement whereby Fidelity calculates a revenue credit for each quarter equal to the net float earnings attributable to the Plan for the quarter (exclusive of net float earnings attributable to recurring advisor payments, if applicable). Future Plan expenses can be paid from any excess remaining revenue sharing amounts. For the year ended December 31, 2024, \$21,514 credit was used to offset Plan expenses. The Plan held undistributed administrative revenues of \$5,080 and \$25,556 as of December 31, 2024 and 2023, respectively.

Non-interest bearing cash— Cash held by the Plan does not earn interest and is included in the self-directed brokerage account.

3. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an “exit price”) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value. There are no level 2 or level 3 assets or activity as of December 31, 2024 or 2023.

Level I—Quoted prices in active markets for identical assets or liabilities.

Level II—Observable inputs other than Level I prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level III—Unobservable inputs supported by little or no market activity and that reflect the reporting entity's own assumptions about the exit price, including assumptions that market participants would use in pricing the asset or liability.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's investments in mutual funds, the money market fund are stated at fair value as determined by quoted prices in active markets and reported as Level I investments. The Plan's investment in the stable value fund is stated at fair value based on the fair value of the underlying investments. The stable value fund with Wells Fargo stabilizes the fund such that participants' transactions are carried out at cost plus accrued interest. If the Plan initiates a full redemption of the stable value fund, the issuer reserves the right to require 12 months' notification in order to confirm that the liquidation of the fund on a Plan level will be carried out in an orderly business manner. There are no contractual commitments to purchase individual holdings and there are no restrictions on redemption on a participant level as the fund is traded daily. Since the fair value of the stable value fund is calculated and published daily, management

concluded that the stable value fund has a readily determinable fair value and is therefore a Level 1 investment.

The Bitcoin DAA is valued at the daily closing price, using the Fidelity Bitcoin Index, to establish a single price for the bitcoin held by the Bitcoin DAA by using price feeds from eligible exchanges. This fund is required to publish its daily quoted net asset value (“NAV”) and is therefore reported as a Level I investment.

Self-Directed Brokerage Account includes a variety of money market funds, mutual funds and exchange-traded funds that are stated at fair value as determined by quoted prices in active markets and reported as Level I investments.

CCTs with readily determinable fair value are valued at the daily closing price as reported or published by the CCT. The CCTs have been determined to have a readily determinable fair value based on the published price and transact at that price. The CCTs included in the fair value hierarchy are deemed to be actively traded. The CCTs are not exchange-traded funds, however, the prices per unit are published and represent the actual price at which the units held in the CCT can be bought or sold. The Plan’s CCTs with readily determinable fair value are included in the fair value hierarchy as level 1.

There were no changes in methodologies used on December 31, 2024 and 2023.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2024:

	Level I	Level II	Level III	Total
Mutual funds	\$ 352,322,641	\$ -	\$ -	\$ 352,322,641
Money market fund	12,337,742	-	-	12,337,742
Stable value fund	3,379,481	-	-	3,379,481
Bitcoin DAA	7,581,852	-	-	7,581,852
Self directed brokerage account	5,200,168	-	-	5,200,168
CCT (not stable value)	6,284,098	-	-	6,284,098
Total Investments	\$ 387,105,982	\$ -	\$ -	\$ 387,105,982

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2023:

	Level I	Level II	Level III	Total
Mutual funds	\$ 304,420,589	\$ -	\$ -	\$ 304,420,589
Money market fund	14,017,507	-	-	14,017,507
Stable value fund	4,968,104	-	-	4,968,104
Bitcoin DAA	1,984,418	-	-	1,984,418
Total Investments	\$ 325,390,618	\$ -	\$ -	\$ 325,390,618

Transfers Between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation approaches may require the transfer of financial instruments from one fair value level to another. The significance of transfers between levels is evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers amongst levels during the years ended December 31, 2024 and 2023.

4. RELATED PARTY TRANSACTIONS AND EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan permits transactions with certain related parties, including the Company, who may provide services or act in a fiduciary capacity. Additionally, the Plan offers participant loans, which are secured by the vested balances in their respective accounts.

Certain mutual funds, money market funds and the Bitcoin Digital Asset Account (DAA) offered as investment options under the Plan, including investments offered as part of a self-directed brokerage account, are managed by Fidelity. As Fidelity serves as the Plan's recordkeeper and trustee, these transactions are considered party-in-interest transactions.

The Company also covers administrative fees on behalf of the Plan. These fees include costs associated with recordkeeping and loan maintenance services. For details regarding revenue sharing arrangements, refer to Note 2.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participant accounts will become 100% vested.

6. FEDERAL INCOME TAX STATUS

The Plan adopted Fidelity's prototype Plan with a favorable determination letter dated June 30, 2020. The Plan has been amended since receiving the letter of determination. The Plan Administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or derecognize an asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or derecognition of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As of December 31, 2024, the Plan Administrator believes the Plan is no longer subject to IRS examinations for Plan years beginning prior to 2021. Due to the nature of retirement plans, in the event of an IRS audit, the IRS could go back further than 2021 if errors were discovered that spanned beyond that timeframe.

7. SUBSEQUENT EVENTS

Plan management has evaluated the impact of all subsequent events through September 16, 2025, which is the date that these financial statements were available to be issued and has determined that there were no subsequent events requiring adjustment to or disclosure in the financial statements.
