INDEPENDENT AUDITOR'S REPORT

To the Employee Benefits Administration Board of The Kraft Heinz Company and
Participants of the Kraft Heinz Retirement Plan
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Kraft Heinz Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Kraft Heinz Retirement Plan

Notes to Financial Statements

1. General Description of the Plan

The Kraft Heinz Retirement Plan (the “Plan”) is primarily a noncontributory defined benefit plan sponsored by Kraft Heinz Foods Company, a wholly-owned subsidiary of The Kraft Heinz Company (the “Company” or “Kraft Heinz”). The Employee Benefits Administration Board of Kraft Heinz (“EBAB”) is responsible for the day-to-day administration and investment operations of the Plan. The Plan also vests EBAB with authority to control and manage the investment and non-investment operations of the Plan.

The Plan covers eligible domestic salaried and hourly employees of the Company. Participants should refer to the official Plan document that legally governs the operation of the Plan for a complete description of the Plan’s provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and the U.S. Internal Revenue Code (the “Code”).

The plan provides retirement benefits to certain participants based on career earnings and/or final average earnings, and also based on years of service with the Company and its affiliates, with certain minimum pensions provided. The normal retirement date for certain participants is defined as the first day of the month following the employee’s 65th birthday or, if later, the date the employee completes five years of vesting service. Certain participants have the option to retire early and receive benefits at age 55 or later, upon completion of a minimum number of years of vesting service. The number of years of vesting service required for early retirement differs depending upon the employee’s work location.

The Plan has transferred the annuity benefits payable to certain participants to an insurance company through the purchase of irrevocable commitments. These annuity benefits are no longer payable from the Plan. In 2024, the Plan paid premium charges and received refunds relating to the annuity contracts. This is shown as an “amendments to annuity contracts” on the statement of changes in net assets available for benefits.

The Plan is closed for all domestic salaried and non-union hourly employees hired after December 31, 2008 and for union employees at certain locations, subject to the terms of the applicable collective bargaining agreement. Effective December 31, 2015, all benefits of the Plan were frozen for all salaried, non-union hourly, and certain union employees.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and related disclosures. Actual results could differ from those estimates.

Investments Held by Kraft Heinz Company Master Retirement Trust

Assets of the Plan are co-invested with assets of other defined benefit pension plans of the Company in a commingled trust fund known as the Kraft Heinz Company Master Retirement Trust (the “Master Trust”) for which The Northern Trust Company (the “Trustee” or “Northern Trust”) serves as the trustee. Each plan has an undivided interest in the underlying assets and liabilities of the Master Trust.

Notes to Financial Statements, Continued

Valuation of Investment in Master Trust

The Plan's participation in the Master Trust is determined monthly by adding to or deducting from its investment at the beginning of each month the Plan's contributions, benefit payments, and administrative expenses made during the month and a proportionate share of the other changes in the Master Trust's net assets (related principally to investment activities), based on the relative interest of the Plan in the Master Trust at the beginning of the month.

The Plan's allocated share of the Master Trust's net assets is reflected in the statements of net assets available for benefits. The net investment income or (loss) from Master Trust reflected in the statement of changes in net assets available for benefits represents the Plan's allocated share of the Master Trust's interest and dividend income and net appreciation/(depreciation) in the fair value of investments.

Valuation of Investments

Investments of the Plan and the Master Trust are reported at fair value, except for the insurance contracts, which are reported at contract value. The Plan's interest in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held within the Master Trust. Fair value is defined as the price that would be received by the Plan to sell an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan and the Master Trust have the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's and the Master Trust's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Transfers between hierarchy measurement levels are recognized by the Plan as of the end of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan and those held as underlying investments of the Master Trust.

Equities: Suspended equities are valued using the last known price, which management believes approximates fair value (Level 3 inputs).

Government securities: These securities consist of direct investments in publicly traded U.S. fixed interest obligations (principally debentures) and non-U.S. government bonds. U.S. government securities are valued at the closing price reported in the active market in which the individual security is traded (Level 1 inputs). Non-U.S. government securities are generally valued using observable inputs (Level 2).

Corporate bonds and other fixed-income securities: Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings (Level 2 inputs). When quoted prices

Kraft Heinz Retirement Plan

Notes to Financial Statements, Continued

are not available for identical or similar bonds, the bond is valued using matrix pricing, a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). Asset-backed securities, mortgage-backed securities (agency and non-government), and municipal bonds are valued based on an evaluation methodology where prices are based on a compilation of primary observable market information. The value is imputed based on the conversion ratio and other security specific information or a broker quote in a non-active market (Level 2 inputs). Evaluation methodology relies on inputs that may include, but are not limited to, treasury or floating index benchmarks, other benchmark yields, base spreads, spread adjustments, yield-to-maturity, swap curves, prepayment speeds, cash flows, ratings updates, collateral performance, and collateral type. Defaulted bonds are primarily valued using the estimated recoverable cost, which management believes approximates fair value (Level 3 inputs).

Pooled funds: The fair values of participation units held in collective trusts (approximately \$827.5 million and \$845.0 million as of December 31, 2024 and 2023, respectively) are based on their net asset values, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair value of these investments measured at net asset value is excluded from the fair value hierarchy. Investments in the collective trusts can be redeemed daily, monthly, or quarterly based upon the applicable net asset value per unit and the terms of the specific trust agreements.

The mutual fund investments (approximately \$112.1 million and \$99.0 million as of December 31, 2024 and 2023, respectively) are not traded on an exchange and a majority of these funds are held in separate accounts managed by fixed income managers. The fair values of the mutual fund investments that are not traded on an exchange are based on their net asset values, as reported by the managers and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair value of these investments measured at net asset value is excluded from the fair value hierarchy. The objective of the asset-backed securities mutual fund is to seek maximum total return consistent with prudent investment management by investing primarily in asset-backed securities. The objective of the short-term floating net asset value mutual fund is to provide current income, preservation of capital, and daily liquidity by investing in fixed-income instruments. Investments in these accounts can be redeemed with a written notice to the investment manager.

Short-term investments: Short-term investments largely consisted of money market funds, the fair value of which is based on the net asset value reported by the manager of the fund and supported by the unit prices of actual purchase and sale transactions. The fair value of these investments measured at net asset value is excluded from the fair value hierarchy. The money market fund for cash collateral is designed to provide a stable net asset value by investing in high-grade money market instruments with short maturities. The money market fund for other cash is designed to provide safety of principal, daily liquidity, and a competitive yield by investing in U.S. government bonds and high quality money market instruments.

Kraft Heinz Retirement Plan

Notes to Financial Statements, Continued

Derivatives: Derivative financial instruments include foreign currency forward contracts, futures contracts, options contracts, interest rate swaps and credit default swaps. Derivative financial instruments are valued based on observable market transactions or prices (Level 2 inputs).

Group annuity insurance contracts: Contracts are reported at contract value.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment Transactions and Investment Income

Investment transactions of the Plan and the Master Trust are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair value, the net appreciation/(depreciation) in the fair value of investments reflects both realized gains and/or losses and the change in the unrealized appreciation/(depreciation) of investments held at year-end.

Risks and Uncertainties

The Plan and Master Trust invest in various investments. Investments, in general, are exposed to various risks, such as interest rate, credit, liquidity, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 6) are future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the amounts employees have earned through benefit service as defined by the Plan. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent that they are deemed attributable to employee service rendered as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by actuaries from Willis Towers Watson (the "Actuary") and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Kraft Heinz Retirement Plan

Notes to Financial Statements, Continued

The more significant assumptions underlying the actuarial computations are as follows:

	December 31, 2024	December 31, 2023
Interest rate	6.20%	6.55%
Mortality assumptions	Pri-2012 table (no collar), using MP-2021 improvement scale	Pri-2012 table (no collar), using MP-2021 improvement scale
Weighted average retirement age	63	62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefits Paid

Benefit payments to participants are recorded upon distribution.

Administrative Fees

Administrative fees are payable by the Plan, to the extent not paid by the Company. Brokerage commissions are included in the cost basis of investments when purchased and deducted from the proceeds of investments when sold. Investment management fees are charged to the Plan and the Master Trust as a reduction of investment return and included in the net investment income/(loss) reported by the Plan and the Master Trust. Administrative fees such as Trustee fees, participant recordkeeping, communications, actuarial, audit fees, and legal fees are paid by the Plan.

Group Annuity Insurance Contracts

The Plan has group annuity insurance contracts with Metropolitan Life Insurance Company (“Metropolitan Life”) and Aetna Life Insurance Company (“Aetna”). The contracts are valued at contract value (equal to contributions less expenses and benefit payments) plus interest at the contract rate. Benefit payments made and interest income earned under the contracts are reflected in the statement of changes in net assets available for benefits.

On August 6, 2025, there was an amendment to the contract with Metropolitan Life that resulted in a refund to the Plan. The refund represents a number of participants that were deceased preceding the liability assumption date under the contract. As of December 31, 2024, the statement of net assets available for benefits reflects an amendment to annuity contracts receivable of approximately \$2.3 million.

3. Certified Information

With the exception of the value and interest income of the Metropolitan Life insurance contract (valued at approximately \$4.7 million and \$4.6 million as of December 31, 2024 and 2023, and earning interest income of approximately \$89 thousand for the year ended December 31, 2024) and the value and interest income of the Aetna insurance contract (valued at approximately \$110 thousand and \$101 thousand as of December 31, 2024 and 2023, respectively, and earning interest income of approximately \$5 thousand for the year ended December 31, 2024), information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and net investment income/(loss) for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by The Northern Trust Company.

The fair value amounts presented in this table are intended to reconcile to investments at fair value noted in the table in Note 4.

Additional disclosures for Level 3 assets related to valuation processes and sensitivities were excluded due to their insignificance.

5. Securities Lending

Effective December 1, 2016, the Master Trust entered into a security lending program with the Trustee whereby the Trustee was authorized to lend certain securities owned by the Master Trust to a select number of qualified brokerage firms (“borrowers”).

The Trustee requires the borrowers, pursuant to a security loan agreement, to deliver cash or non-cash collateral of at least 102% at loan initiation of the then fair value of the loaned securities in order to secure each loan. Loan collateral values can change after initiation, but in no case will collateral levels fall below 100% of the value of the lent securities. For lending agreements collateralized by non-cash collateral, the Plan does not record the collateral as an asset or liability, since the collateral is not eligible to be sold or repledged as of December 31, 2024 and 2023. For lending agreements collateralized by cash collateral, the Plan does record the collateral as an asset or liability, since the collateral is eligible to be sold as of December 31, 2024 and 2023. Loans are made on an open basis, where the borrower or the lender can terminate the loan at any time.

Security borrowers are authorized to use borrowed securities to settle trades and are obligated to return the securities to the Master Trust upon the maturity of the agreement. The Master Trust maintains effective control of the loaned securities and is entitled to applicable dividend income. The borrowers bear the risk of loss related to decreases in the fair value of securities collateral, as they are required to deliver additional securities to maintain the required collateral. Subject to certain restrictions, the Master Trust is indemnified by the Trustee against losses incurred as a result of borrower default.

Kraft Heinz Retirement Plan

Notes to Financial Statements, Continued

The fair value of the securities the Master Trust had on loan was approximately \$176.7 million and \$202.6 million as of December 31, 2024 and 2023, respectively. Cash collateral held by the Trustee on behalf of the Master Trust as of December 31, 2024 and 2023 consisted of approximately \$152.8 million and \$194.2 million, respectively, and is reinvested in a short-term investment fund. Non-cash collateral held by the Trustee on behalf of the Master Trust consisted of U.S. government and U.S. government-sponsored agency securities with a fair value of approximately \$29.1 million and \$14.8 million as of December 31, 2024 and 2023, respectively.

6. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated plan benefits were calculated by the Actuary:

Actuarial present value of accumulated plan benefits as of December 31, 2024	<u>\$ 2,386,372,859</u>	

*Difference between the benefits paid per the statement of changes in net assets and the amount presented above relates primarily to pending benefit payments and group annuity contract benefit payment adjustments.

**Assumption changes include, but are not limited to, a change in the discount rate and lump sum assumption.

7. Funding Policy

The Company makes contributions to the Plan each year in an aggregate amount that is not less than the amount that is required under the minimum funding standards of ERISA and the Code, as amended.

The amount of contributions required (and permitted) each year is determined by the Actuary using the unit credit actuarial cost method, and includes the annual funding target plus an amount to amortize the unfunded funding target, if any, generally over seven years. The actuarial determination assumes payment of the contributions, adjusted for interest, by the Company before the filing date of the Company's consolidated U.S. federal income tax return.

As a result of the Plan's funded status and contribution credits from prior years, the Actuary has determined that no cash contributions were required by the Company for the year ended December 31, 2024 and that existing funding balances were used to satisfy the entire minimum required contribution. The Company has complied with the minimum funding requirements of ERISA and the Code as of December 31, 2024 and 2023.

Certain eligible participants are able to make voluntary contributions to the Plan based on the current Plan provisions. Interest is also credited annually based on an index of the Federal Mid-Term rate in effect at the beginning of the valuation year. As of January 1, 2024 and 2023, the long-term interest accumulation was 5.25% and 4.62%, respectively, and the amount of accumulated contributions as of both December 31, 2024 and 2023 was approximately \$1.0 million.

8. Derivative Financial Instruments

The Master Trust carries all derivatives in the statements of net assets available for benefits at fair value. The Master Trust's investment policy permits investments in derivative instruments, including, but not limited to, financial futures, forwards, options and swaps. Investments in derivative instruments are used to manage risk and may not be used for speculative or leverage purposes.

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at prearranged exposure levels. Master netting agreements are specific to each different asset type; therefore, they allow the Master Trust to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty. As of December 31, 2024 and 2023, the Master Trust includes derivatives, receivables for securities sold, payables for securities purchased, receivables for derivative-related collateral, and payables for derivative-related collateral in gross amounts. Realized gains and losses on settled trades are recorded as net appreciation/(depreciation) in fair value of investments.

During the years ended December 31, 2024 and 2023, the Master Trust used futures in the normal course of its investing activities to manage market risk associated with the Master Trust's fixed-income investments and to achieve overall investment portfolio objectives. A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange. During the years ended December 31, 2024 and 2023, the Master Trust used swaps and forwards in the normal course of its investing activities to manage market risk associated with the Master Trust's fixed-income and equity investments and to achieve overall investment portfolio objectives. A swap is a contractual agreement to exchange cash flows based on specified financial market conditions at specified points in time. The Master Trust uses interest rate swaps to manage the portfolio's interest rate risk and credit default swaps to manage the portfolio's credit risk. Foreign currency forward contracts are used to manage foreign currency risk for certain fixed-income and equity investments. A foreign currency forward contract is a contractual agreement to buy or sell a certain foreign currency at a specified future date at a specified exchange rate. These futures, swaps, and forward contracts involve elements of market risk in excess of amounts recognized on the statements of net assets available for benefits. The Master Trust is exposed to counterparty risk, which is

Kraft Heinz Retirement Plan

Notes to Financial Statements, Continued

managed by using exchange-traded contracts or limiting over-the-counter contracts to certain counterparties that are pre-approved by the respective investor managers.

As of December 31, 2024, the Master Trust held 66 contracts of differing types, which expire between January 2025 and March 2055. The investments had a notional amount of approximately \$657.8 million as of December 31, 2024. The unrealized appreciation of the investments as of December 31, 2024 was approximately \$14.1 million.

As of December 31, 2023, the Master Trust held 73 contracts of differing types, which were set to expire between January 2024 and March 2054. The investments had a notional amount of approximately \$549.8 million as of December 31, 2023. The unrealized appreciation of the investments as of December 31, 2023 was approximately \$7.9 million.

9. Transactions with Parties-in-Interest

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Master Trust held party-in-interest investments consisting of a money market fund and collective trust funds all issued by The Northern Trust Company and its affiliates. The Northern Trust Company is the Plan's Trustee and the Trustee of the Master Trust, therefore these investments and transactions therein are considered party-in-interest. Metropolitan Life and Aetna, both of which are an issuer of a group annuity insurance contract held by the Plan, are also considered parties-in-interest.

Actual fees paid by the Plan for Trustee, actuarial, investment management, recordkeeping, and consulting services also qualify as party-in-interest transactions and are included in administrative expenses in the accompanying financial statements. The Company pays certain expenses for the administration of the Plan.

The Plan administrator believes these transactions are exempt from the party-in-interest transaction prohibitions of ERISA.

10. Termination Priorities

In the event of a termination of the Plan in accordance with the provisions of ERISA, the Plan provides that its net assets shall be allocated among participants and beneficiaries in the order and manner provided for in ERISA. Whether a participant's accumulated plan benefit will be paid depends on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and the priority of those benefits and the level of the benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all.

11. Tax Status

By letter dated September 14, 2020, the Internal Revenue Service ("IRS") has determined that the Plan constitutes a qualified plan under Section 401(a) of the Code and the related trust is, therefore, exempt from U.S. federal income taxes under the provisions of Section 501(a) of the Code. Additional amendments have been made to the Plan since the amendments covered by the IRS determination letter; however, the Plan administrator believes that the Plan continues to be designed and operated in accordance with the applicable provisions of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

12. Subsequent Events

The Company offered a Special Election window from April 14, 2025 to May 23, 2025 in which terminated vested participants could elect to receive a single lump sum payment. Lump sum payments were made on June 25, 2025, and amounted to approximately \$232.1 million (unaudited).

On June 30, 2025, the Kraft Heinz Retirement Plan was split into two separate pension plans, the Kraft Heinz Retirement Plan and the Kraft Heinz Retiree Plan. The Kraft Heinz Retirement Plan will continue to cover active participants who are currently employed by the Company and terminated vested participants who are eligible to participate in the Plan. The Kraft Heinz Retiree Plan has been established to cover current retirees who are receiving benefits from the existing Kraft Heinz Retirement Plan. The Kraft Heinz Retiree Plan will assume all current retiree obligations and assets (approximately 60%, unaudited) associated with the benefits previously administered through the Kraft Heinz Retirement Plan.

On September 2, 2025, the Company announced plans to separate into two independent, publicly traded companies. The implications to the Plan are unknown at this time.

Plan management has evaluated subsequent events for recognition and disclosure through September 26, 2025, which is the date the financial statements were available to be issued.

Economic Assumptions

Interest rate basis

- Interest rate basis Full Yield Curve

Interest rates

- 10-year rate 5.07%
- 20-year rate 5.22%
- 30-year rate 5.17%
- Effective interest rate 5.14%

Annual rates of increase

- Compensation: 4.00%
- Future Social Security wage bases 3.50%
- Statutory limits on compensation N/A

Plan-related expenses \$ 7,355,000

As permitted by law, a yield curve reflecting returns on high quality corporate bonds (A, AA and AAA) is used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are prescribed by law and reflect current market conditions (specifically, the average market conditions for the month preceding the valuation date) they may from time to time be inconsistent with other economic assumptions used in the valuation, which may reflect both current economic conditions and assumed future conditions.

Ongoing Plan Status	Operations are assumed to continue indefinitely. Some groups may have specific or negotiated shutdown benefits that are not valued as a result of this assumption.
Loads	None
Special at-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is a life annuity for all except for select married prior Nabisco participants, who are assumed to elect the 100% contingent annuitant form.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except the cost of the post-retirement refund of contributions. WTW has reviewed the plan provisions with Kraft Heinz and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

WTW used asset data supplied by the trustee. The plan sponsor, through its third party administrator, furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. These assumptions have been documented as part of the annual data review meeting on May 21, 2024 and confirmed by Kraft Heinz on May 28, 2024. We are not aware of any omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are estimated by determining the actual expenses paid from the trust during the preceding year, adjusted for prior and anticipated significant events.
Rates of increase in compensation, National Average Wages (NAW), CPI	Assumed increases were chosen by the plan sponsor and represent a best estimate of future experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2019, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on an experience study conducted in 2018. The rates are based on plan design and published tables. In some cases, in lieu of an explicit assumption, a loading factor on benefits paid to healthy retirees may be used.
Retirement	Retirement rates were based on an experience study conducted in 2019, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
Deferred vested benefit	Deferred vested participants are assumed to begin benefits based on rates applied to a number of commencement ages based on an experience study conducted in 2018, with periodic consideration of

Form of payment	Form of payment is based on an experience study conducted in 2020, with periodic considerations of whether any conditions have changed that would be expected to produce different results in the future.
Percent married	The assumed percentage married is based on an experience study conducted in 2017, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.
Spouse age	The assumed age difference for spouses is based on an experience study conducted in 2020, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The yield curve spot rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430. The mortality table was updated to include one additional year of projected mortality improvement as required by guidance issued by IRS under IRC §430. Disability loads were removed for Davenport participants due to benefit accruals freezing at December 31, 2023. The assumed plan-related expenses added to the target normal cost were changed from \$5,973,000 for the prior valuation to \$7,355,000 for the current valuation to account for higher expected expenses to be paid from the trust.

Quantify

Quantify is the WTW centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Expected Return Estimator

The Expected Return Estimator is used to help inform the choice of an expected return assumption (e.g., as one data point to consider) for returns on the assets of the trust for purposes of the ASC 960 results reported in Exhibit 2.8

The tool depends on the capital market assumptions chosen at the starting date of the simulation. These assumptions reflect currently prevailing capital market conditions, assumed future conditions ("normative conditions"), and the transition from the current conditions to the normative ones.

SCHEDULE SB ATTACHMENTS

The assumed normative conditions incorporate a blend of historical capital market data and future expectations. The sources consulted in the determination of normative levels include practitioners in our global actuarial and investment consulting practices, plan sponsors, investment managers, economists, and academics.

The model includes various asset classes, and may not have an appropriate classification for every type of asset a plan may hold, or the allocation provided to us by the client may be oversimplified or inaccurate.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

An average retirement age for each possible decrement is calculated for each active participant as the probability of decrementing in each year multiplied by the percentage of the participant not previously decremented.

The weighted average retirement age is calculated as the average age of these individual participant ages, per decrement, weighted by the total number expected to leave due to each decrement.

Representative retirement rates are found in the attachment Schedule SB, Part V – Statement of Actuarial Assumptions/Methods.

Economic Assumptions

Interest rate basis

- Interest rate basis Full Yield Curve

Interest rates

- 10-year rate 5.07%
- 20-year rate 5.22%
- 30-year rate 5.17%
- Effective interest rate 5.14%

Annual rates of increase

- Compensation: 4.00%
- Future Social Security wage bases 3.50%
- Statutory limits on compensation N/A

Plan-related expenses \$ 7,355,000

As permitted by law, a yield curve reflecting returns on high quality corporate bonds (A, AA and AAA) is used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are prescribed by law and reflect current market conditions (specifically, the average market conditions for the month preceding the valuation date) they may from time to time be inconsistent with other economic assumptions used in the valuation, which may reflect both current economic conditions and assumed future conditions.

Ongoing Plan Status	Operations are assumed to continue indefinitely. Some groups may have specific or negotiated shutdown benefits that are not valued as a result of this assumption.
Loads	None
Special at-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is a life annuity for all except for select married prior Nabisco participants, who are assumed to elect the 100% contingent annuitant form.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except the cost of the post-retirement refund of contributions. WTW has reviewed the plan provisions with Kraft Heinz and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

WTW used asset data supplied by the trustee. The plan sponsor, through its third party administrator, furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. These assumptions have been documented as part of the annual data review meeting on May 21, 2024 and confirmed by Kraft Heinz on May 28, 2024. We are not aware of any omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are estimated by determining the actual expenses paid from the trust during the preceding year, adjusted for prior and anticipated significant events.
Rates of increase in compensation, National Average Wages (NAW), CPI	Assumed increases were chosen by the plan sponsor and represent a best estimate of future experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2019, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on an experience study conducted in 2018. The rates are based on plan design and published tables. In some cases, in lieu of an explicit assumption, a loading factor on benefits paid to healthy retirees may be used.
Retirement	Retirement rates were based on an experience study conducted in 2019, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
Deferred vested benefit	Deferred vested participants are assumed to begin benefits based on rates applied to a number of commencement ages based on an experience study conducted in 2018, with periodic consideration of

Form of payment	Form of payment is based on an experience study conducted in 2020, with periodic considerations of whether any conditions have changed that would be expected to produce different results in the future.
Percent married	The assumed percentage married is based on an experience study conducted in 2017, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.
Spouse age	The assumed age difference for spouses is based on an experience study conducted in 2020, with periodic consideration of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The yield curve spot rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430. The mortality table was updated to include one additional year of projected mortality improvement as required by guidance issued by IRS under IRC §430. Disability loads were removed for Davenport participants due to benefit accruals freezing at December 31, 2023. The assumed plan-related expenses added to the target normal cost were changed from \$5,973,000 for the prior valuation to \$7,355,000 for the current valuation to account for higher expected expenses to be paid from the trust.

Quantify

Quantify is the WTW centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Expected Return Estimator

The Expected Return Estimator is used to help inform the choice of an expected return assumption (e.g., as one data point to consider) for returns on the assets of the trust for purposes of the ASC 960 results reported in Exhibit 2.8

The tool depends on the capital market assumptions chosen at the starting date of the simulation. These assumptions reflect currently prevailing capital market conditions, assumed future conditions ("normative conditions"), and the transition from the current conditions to the normative ones.

The assumed normative conditions incorporate a blend of historical capital market data and future expectations. The sources consulted in the determination of normative levels include practitioners in our global actuarial and investment consulting practices, plan sponsors, investment managers, economists, and academics.

The model includes various asset classes, and may not have an appropriate classification for every type of asset a plan may hold, or the allocation provided to us by the client may be oversimplified or inaccurate.

Plan Provisions — Kraft Heinz Retirement Plan – Former Retirement Plan

1. Effective Date: January 1, 2010.
2. Eligibility for Participation: All nonunion employees and union employees hired before January 1, 2009, who belong to a participating group to whom the benefits of this Plan have been extended become participants immediately following the completion of one year of service. There are some union groups who have not yet negotiated into the level of benefits described in 4(b) below. See the plan document for the plan provisions which apply to these groups.

Accrued benefits for Bakery employees were frozen as of October 2, 1995 (the effective date of the sale of that unit). Generally, benefits accrued under the Kraft formula for future service beginning January 1, 1995. Participants at Entenmann's, Oroweat, and Boboli were covered by their respective plan formulas for service accrued through December 31, 1994. For prior plan provisions applicable to these participants, see the plan document.

Nabisco employees who were participants in the Retirement Plan for Employees of Nabisco, Inc. as of January 1, 2001 became participants in this plan as of January 1, 2001. Participation and other plan features are as according to the plan provisions of the Retirement Plan for Employees of Nabisco, Inc. See Appendix A for a summary of these plan provisions.

Cadbury employees who were participants in either the Cadbury Adams Holdings LLC Personal Pension Account Plan (PPA) or the Cadbury Adams Retirement Plan (Adams) as of January 1, 2012 became participants in this plan as of January 1, 2012. Participation and other plan features are as according to the plan provisions of the PPA Plan and the CAPP. See Appendix B and Appendix C respectively for a summary of those plan provisions.

3. Definitions:
 - a) Continuous Service: All completed years and months of employment.
 - b) Credited Service: The sum of all completed years and months during which employees were participants in their predecessor plans prior to the effective date, and all completed years and months during which employees are participants in the Plan as of January 1, 1989.

For former Oscar Mayer Salaried participants, the greater of the sum of (xi) through (xiii).

xi) Past credited service benefit (credited service earned prior to December 31, 1993):

- 1.1% of final average earnings up to one-half of the Social Security taxable wage base multiplied by years of past credited service, plus
- 1.45% of final average earnings in excess of one-half of the Social Security taxable wage base multiplied by years of past credited service limited to 35 years.

The past credited service benefit represents an amount payable in a five year certain and continuous annuity form. The benefit is then multiplied by a conversion factor to arrive at a life only annuity amount.

xii) Future service benefit:

- 1.3% of final average earnings up to Social Security covered compensation multiplied by years of future service, plus
- 1.675% of final average earnings in excess of Social Security covered compensation multiplied by years of future service.

Future service is limited such that the sum of past credited service and future service cannot exceed 30 years. For employees with at least 20 years of past credited service as of December 31, 1993, future service is instead limited such that the sum of past credited service and future service cannot exceed 35 years.

xiii) All service benefit:

- 0.5% of final average earnings multiplied by years of credited service in excess of 30 or 35 years as described above.

For former Nabisco employees covered under the Retirement Plan for Employees of Nabisco, Inc. and not eligible for the Preserved PRA grandfather formula, the sum of (xiv) through (xvi).

xiv) Past credited service benefit (credits earned as of December 31, 2002):

A lump sum benefit equal to final average earnings (as defined in Appendix A) multiplied by the sum of percentage credits below. (A single life annuity is Actuarially Equivalent to the lump sum benefit).

xv) Future service benefit:

- 1.3% of final average earnings up to Social Security covered compensation multiplied by years of future service, plus
- 1.675% of final average earnings in excess of Social Security covered compensation multiplied by years of future service.

Future service is limited such that the sum of past credited service and future service cannot exceed 30 years. For employees with at least 20 years of past credited service as of December 31, 2002, future service is not limited.

xvi) All service benefit:

- 0.5% of final average earnings multiplied by years of credited service in excess of 30 years of service as described above.

This benefit does not apply for employees with at least 20 years of past credited service as of December 31, 2002.

- c) Certain transfers from Altria between December 8, 1988 and September 30, 2007, inclusive, could be entitled to benefits in addition to those described above. Each such participant's accrued benefit for service earned under the Altria plan formula will be recalculated using Final Average Earnings and Social Security Covered Compensation as of their date of termination. The credited service used in this calculation will be the amount frozen as of the transfer date. To the extent that the recalculated benefit exceeds the frozen benefit calculated as of the transfer date, additional benefits will be due.
- d) For participants whose compensation in years prior to 1994 exceeded the IRC Section 401(a)(17) limit effective January 1, 1994, the extended wear-away approach to calculating benefits is applied.

5. Pension Benefit at Early Retirement Date:

- a) Eligibility: All participants who have completed at least ten years of continuous service, and who retire on the first day of any month subsequent to attainment of age 55, or participants who were deemed early retirement eligible or bridged to early retirement as part of special program.
- b) Annual Benefit: The benefit determined as in 4(b) above, based upon service and earnings prior to the early retirement date. This benefit is reduced by 1/4% for each full month between ages 56 and 62 and 1/6% for each full month between ages 55 and 56 that commencement of benefits precedes the first day of the month following attainment of age 62. For participants hired on or after January 1, 2004, the benefit is reduced by 1/2% for each full month between ages 55 and 65 that commencement of benefits precedes the first day of the month following attainment of age 65. Early retirement reduction factors which are applicable to benefits accrued under prior plans before their merger with the Kraft Foods Group, Inc. Retirement plan are preserved where necessary.

- c) Former Oscar Mayer Salaried Participants: Employees with at least 20 years of past credited service prior to December 31, 1993 who retire under the 30 and Out provision may commence their annual retirement benefit upon attainment of 30 years of total credited service. All other employees retiring under the 30 and Out provision may only commence their past credited service benefit upon attainment of 30 years of total credited service. The benefits attributable to credited service prior to December 31, 1993 are reduced by the factors applicable to the former plan.
 - d) Altria Transfers: The recalculated and frozen benefits described in section 4(c) above are reduced by the factors applicable to the Altria plan. As described in the plan document, former Altria participants continue to accrue vesting service in the Kraft plan and could grow into more favorable early retirement factors to be applied to the recalculated benefit. The early retirement factor applied to the frozen benefit is based on vesting service as of the transfer date.
6. Pension Benefit at Postponed Retirement Date:
- a) Eligibility: All participants who retire subsequent to their normal retirement date.
 - b) Annual Retirement Benefit: The benefit determined as in 4(b) above, based upon service and earnings to postponed retirement date.
7. Vested Benefit:
- a) Retirement: All participants who have completed at least five years of continuous service.
 - b) Annual Retirement Benefit: The benefit determined as in 4(b) above, based upon service and earnings to date of termination, reduced:
 - For participants with 20 or more years of continuous service at termination, or participants who were deemed early retirement eligible or bridged to early retirement as part of special program, as described in 5(b) above, and
 - For participants who terminate prior to age 55 with less than 20 years of continuous service at termination, by 1/2% for each full month commencement of benefits precedes the normal retirement date.
 - c) Former Oscar Mayer Salaried Participants: The benefits attributable to credited service prior to December 31, 1993 are instead reduced by the factors applicable to the former plan.
8. Post-Retirement Death Benefit: Return of aggregate amount of employee contributions with interest over the aggregate amount of retirement income payments paid. Effective January 1, 1975, interest on contributions is credited at 5% per annum. (Beginning in 1988, interest on contributions is credited with 120% of the Applicable Federal Rate.)

3. Eligibility Requirements: Regular salaried employees on U.S. payroll and pay FICA taxes. Eligible on the first day of the month coincident with or next following six months of service. To be eligible for the Preserved PRA grandfather formula, participants must be in the former PRA plan on December 31, 1992 who (i) were in PRA on January 1, 1988 and (ii) were either age 40 with ten years of service or age 55 with five years of service on January 1, 1988. Effective December 31, 2002, service will cease to accrue for employees not eligible for the Preserved PRA grandfather formula.
4. Definitions:
 - a) Credited Service: All service including the first two years of a participant's leave of absence due to permanent disability, service while on military leave as required under Section 414(u). Credited service is frozen as of December 31, 2015.
 - b) Final Average Earnings: The average annual compensation received in the three highest paid consecutive years in the last five years prior to retirement or termination. For employees eligible for the Preserved PRA grandfather formula, the average annual compensation received in the five highest paid consecutive years in the last ten years prior to retirement or termination. The final average earnings are frozen as of December 31, 2015.
 - c) Social Security Covered Compensation: The average of the maximum Social Security taxable wage bases in effect during each of the 35 calendar years ending with the year the participant attains Social Security retirement age.
 - d) Social Security Benefit: Primary benefit payable at age 65 under Social Security. For employees who retire early, the Social Security benefit will be the benefit payable at age 62 or age of retirement if later, assuming that the last rate of earnings continues unchanged to age 62 or age at retirement, if later. For employees who terminate prior to early retirement eligibility, the Social Security benefit will be the benefit payable at age 65, assuming that the last rate of earnings continues unchanged. The Social Security benefit is frozen as of December 31, 2015.
 - e) Social Security Offset: 1.25% of the Social Security benefit multiplied by years of credited service (maximum percentage is 50%).
 - f) Treasury Rate: The 30-year treasury as of November of the year prior to distribution.
 - g) Actuarial Equivalence: The factor used for converting a lump sum to a life annuity is based on an interest rate as specified in (h) below and the mortality table as specified in (i) below. For purposes of determining the qualified 50% Joint and Survivor annuity for the pre-retirement spouse benefit, the basis is 8% and the UP-1984 mortality table.
 - h) Interest rate: For periods before the annuity starting date, the interest rate is the lesser of (i) Treasury Rate or (ii) 5%, but not less than 2.5%. For periods after the annuity starting date, the interest rate is the greater of (i) Treasury Rate or (ii) 8%.
 - i) Mortality: The table specified by the Secretary of the Treasury set forth in Code Section 417(e)(3). There is no mortality assumed prior to the annuity starting date.

5. Normal Retirement Benefit:

- a) Normal Retirement Date: The first day of the month coincident with or next following the earlier of the completion of five years of service or the attainment of age 65.
- b) Benefit: A lump sum benefit equal to final average earnings multiplied by the sum of percentage credits below for each year of credited service. (A single life annuity is Actuarially Equivalent to the lump sum benefit.)

<u>Attained Age</u>	<u>% of Final Average Earnings</u>	<u>% of Final Average Earnings in Excess of Social Security Covered Compensation</u>
Under 30	4%	0%
30 – 34	5%	0%
35 – 39	6%	1%
40 – 44	8%	1%
45 – 49	9%	2%
50 – 54	10%	2%
55 – 59	12%	3%
60 and over	13%	4%

The Preserved PRA grandfather benefit is the benefit that produces the greatest actuarial equivalent value:

- (i) The benefit described above.
- (ii) The amount (a) plus (b) minus (c):
- (a) 1.5% of final average earnings multiplied by years of credited service up to 25 years, plus
- (b) 1.25% of final average earnings multiplied by years of credited service over 25 years (up to 15 years, if hired after December 1, 1974) minus
- (c) Social Security Offset.
- (iii) The amount (d) plus (e):
- (d) \$24 per month multiplied by years of credited service up to 25 years, plus
- (e) \$12 per month multiplied by years of credited service over 25 up to 15 years.

6. Early Retirement Benefit:

- a) Eligibility: Age 55 with at least ten years of service.
- b) Benefit:
 - (i) Accrued benefit reduced for early commencement according to the Actuarial Equivalence definition described above.
 - (ii) Preserved PRA grandfather: If participant retires after age 62 or after 30 years of service, benefit is unreduced. Otherwise, accrued benefit with no reduction from age 65 to 62, reduced 5% for the next seven years early (reduction is not applied to the Social Security Offset).
- c) Supplement: Social Security offset if formula (ii) in Section 5(b) applies, not applied until age 62.

7. Vested Benefit:

- a) Requirement: The earlier of five years of service or age 65.
- b) Benefit: Accrued benefit.

8. Pre-Retirement Spouse's Benefit:

- a) Eligibility: The earlier of five years of service or age 65.
- b) Benefit: Accrued benefit reduced for early commencement according to the Actuarial Equivalence definition described above.

9. Normal Form of Payment: Benefits are payable as a lump sum. For participants whose benefit is determined at the Preserved PRA grandfather formula, the form of payment is a single life annuity.

Plan Provisions for Cadbury employees formerly covered under the Adams Holdings LLC Personal Pension Account Plan (PPA)

1. Eligibility for Participation: Salaried employees are eligible to participate in the plan on the first payroll period following completion of one year of eligibility service. Eligibility service is a 12-month period during which the employee completes 1,000 hours of service. All regular full-time salaried employees, employed prior to January 1, 1992, begin participating on January 1, 1992. Participants in the Adams Retirement Plan as of April 30, 2005 participate as of May 1, 2005. Participation was closed to new entrants effective January 1, 2007.
2. Definitions:
 - a) Vesting Service: Completed years of employment generally including employment with acquired companies and Cadbury affiliates.
 - b) Benefit Service:
 - (i) Years and fractional years of employment:
 - Employees who did not elect to participate in the Cadbury U.S.A. Salaried Employees' Pension Plan begin to accrue benefit service on January 1, 1979.
 - Employees who became participants as a result of the May 30, 1986 acquisition begin to earn service under this plan on various dates, as provided by Cadbury.
 - Employees who became participants as a result of the Adams acquisition begin to earn service under this plan on May 1, 2005.
 - Benefit service is frozen as of December 31, 2015 (December 31, 2020 for Walton Plant).
 - c) Compensation Considered: Base pay, overtime pay, Annual Incentive Plan bonus, but excluding deferred compensation. Compensation is limited by IRC Section 401(a)(17).
 - d) Average Annual Compensation: The average of the five highest consecutive completed calendar years of compensation out of the last ten completed calendar years. Average annual compensation is frozen as of December 31, 2015 (December 31, 2020 for Walton Plant).
 - e) Social Security Benefits: Amount to which participant is entitled to at age 65 based on earnings during periods for which benefit service is accrued. The Social Security Benefit is frozen as of December 31, 2015 (December 31, 2020 for Walton Plant).

f) Benefit Under the Plan as of 12/31/1991:

(i) Benefit:

- 56% of final average compensation less 50% of Social Security benefit as of December 31, 1991, reduced proportionately for benefit service of less than 25 years as of December 31, 1991.

(ii) Offset Benefit:

- Above benefit will be offset by any benefit accrued under the Retirement Plan for Employees of Del Monte Corporation for service which is considered benefit service under this plan, by benefits earned in non-U.S. Cadbury plans, and by annuity benefits purchased from insurance companies.

g) The PPA Account: The PPA account is a record keeping account, established for each participating employee, which each year is credited with an annual allocation based on the following table. Annual allocations are frozen as of December 31, 2015 (December 31, 2020 for Walton Plant).

Sum of Age plus Vesting Service as of January 1	Allocation % of Compensation			
	Earnings up to the Social Security Wage Base		Earnings above the Social Security Wage Base	
	Before 1999	After 1998	Before 1999	After 1998
Less than 35	2.50%	2.75%	5.00%	5.50%
35 to less than 45	3.50%	3.75%	7.00%	7.50%

3. Eligibility for Benefits:

- a) Normal Retirement: The first of the month coincident with or next following the later of attainment of age 65 and the fifth anniversary of employment.
- b) Early Retirement: The first month coincident with or next following attainment of age 55 and completion of 10 years of vesting service.
- c) Vested Retirement Pension: Completion of three years of vesting service (including service with acquired or affiliated companies).
- d) Death Benefit: Beneficiary of participant who dies.
- e) Disability: Employees who are receiving payments under the long-term disability plan and/or Workers' Compensation payments.

4. Monthly Benefits Paid Upon the Following Events:

a) Normal Retirement:

- (i) For employees at least age 50 with at least 10 years of vesting service as of December 31, 1991, the greater of (a) or (b), where:

$$(a) = \text{Benefit under the plan as of December 31, 1991,} \\ \text{times} \\ \frac{\text{Final Average Compensation at December 31, 1993}}{\text{Final Average Compensation at December 31, 1991}} \\ \text{times} \\ \frac{\text{Final Average Compensation at Retirement}}{\text{Final Average Compensation at December 31, 1993}}$$

plus the PPA annuity described in (ii)(b) below.

- (b) = Benefit formula under the plan in effect as of December 31, 1991, using all benefit service and final average compensation at retirement date.

- (ii) For employees under age 50, or with less than 10 years of vesting service as of December 1991, (a) + (b) where:

$$(a) = \text{Benefit under the plan as of December 31, 1991,} \\ \text{times} \\ \frac{\text{Final Average Compensation at December 31, 1993}}{\text{Final Average Compensation at December 31, 1991}} \\ \text{times} \\ \frac{\text{Final Average Compensation at Retirement}}{\text{Final Average Compensation at December 31, 1993}}$$

(b) = The PPA annuity which is the value of The PPA Account divided by an annuity factor using the Applicable Interest Rate and Applicable Mortality Table as defined in the plan.

- b) Early Retirement: Normal retirement benefit as determined according to Normal Retirement Pension above but based upon final average compensation, Social Security benefit, benefit service and PPA annuity as of the employee's early retirement date. If payments are to commence prior to normal retirement date, such payments, except for the PPA annuity, will be reduced by 2% for each of the first 3 years and 4% for each additional year that early retirement date precedes normal retirement date.

- c) Vested Retirement Pension: Normal retirement benefit as determined according to Normal Retirement Pension above based upon final average compensation, Social Security benefit, benefit service and PPA annuity as of the employee's termination date. Payments may commence immediately, but are actuarially reduced prior to earliest retirement age provided he or she had accrued the required vesting service prior to termination.
- d) Death Benefit: For beneficiaries of participants who die prior to satisfying the service requirement for early retirement: 50% of the employee's vested accrued benefit reduced on an actuarially equivalent basis and converted to a 50% joint and survivor form of payment commencing as of the date of death.

For beneficiaries of participants who die after satisfying the requirements for early retirement: 50% of the employee's vested accrued benefit, converted to a 50% joint and survivor form of payment commencing as of the date of death.

For beneficiaries of participants who die after normal retirement date: 50% of the employee's vested accrued benefit as reduced for the 50% joint and survivor annuity payable for the beneficiary's lifetime.

In all cases, the death benefit is assumed payable as a lump sum.

5. Other Plan Provisions:

- a) Normal Form of Payment: Life annuity.
 - b) Optional Forms of Retirement Benefits: Actuarially equivalent to life annuity:
 - (i) Joint and survivor: 100%, 75%, or 50%
 - (ii) 5 or 10 years certain and continuous
 - (iii) Lump sum
 - c) Actuarial Equivalence: Based on the 1994 Group Annuity Reserving Table with ages set back 1 year for participants and 4 years for beneficiaries and an interest rate of 8.5%. For lump sums, based on the Applicable Interest Rate and Applicable Mortality Table as defined in the plan.
6. Future Plan Changes: No future changes were recognized in determining pension cost or in determining minimum and maximum contributions. WTW is not aware of any future plan changes which are required to be reflected.

Plan Provisions for Cadbury employees formerly covered under the Cadbury Adams Retirement Plan (Adams)

1. Effective Date: April 1, 2003.
2. Covered Employees: Active employees included in the plan spinoff from the Warner-Lambert Company Retirement Plan on March 31, 2003. After April 20, 2005, no employee is eligible to commence participation in the plan.
3. Participation Date: January 1st following employment date.
4. Definitions:
 - a) Compensation: Base pay rate on January 1 plus incentive and overtime pay.
 - b) Dollar Value of Equity Unit: Equal to the net market value of all assets in the Equity Fund divided by the present value units of all credited units.
 - c) Normal Retirement Date (NRD): Age 65.
 - d) Monthly Pension Benefit: As of May 1, 2005, the Monthly pension benefit was frozen and participants were moved to the PPA plan. The frozen benefit is calculated as the sum of (i), (ii), and (iii):
 - (i) Dollar annuity retirement income:
 - 1.5% of Compensation for each year of service.
 - (ii) Equity annuity retirement income:
 - For employees who elected at January 1, 1977 to retain their Equity Annuity Retirement Income, the Dollar Annuity benefit is half the amount described above and the remaining half is the “assumed benefit.” Equity Annuity Units are credited to a participant each year by dividing that year’s assumed benefit by the Dollar Value of a Unit at that time. Equity Annuity Retirement Income to a retired participant is determined by multiplying the participant’s number of Units by the Dollar Value of a Unit determined in the preceding calendar year.
 - (iii) Flat dollar retirement income:
 - \$96 per year of service.
 - After April 30, 2005, no participant will accrue any additional benefit under the plan.
 - e) Monthly Postretirement Spouse Benefit: 50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant’s 55th birthday.

Plan Provisions — Kraft Heinz Retirement Plan — Optional Forms and Actuarial Equivalence

Benefits are generally converted from the normal form of payment to the optional form of payment on an actuarially equivalent basis, which varies depending on the plan formula. Benefits accrued under multiple prior plan formulas may be converted using multiple bases.

The following actuarial equivalence bases apply to the Kraft Heinz Retirement Plan:

Mortality	Interest
417(e)(3) Applicable Mortality Table	417(e)(3) Applicable Interest Rates with a five-month lookback and monthly stability period
1971 TPFC	7.0%
1951 GAM with TPFC Projection with one-year setback for participant and four-year setback for joint annuitant	7.5%
UP84-Unisex	10.5% / 9.5% / 8.0% / 5.0%
UP84-Unisex with two-year setback	7.0% / 10.5%
Revenue Ruling 2001-62 Mortality Table	8.5%
1971 GAM with one-year setback for participant and seven-year setback for joint annuitant	7.5% / 5.0%
1951 GA with no setback for participant and five-year setback for joint annuitant	3.5%
GAR94 Mortality	Treasury rate interest with a November lookback
1983 Group Annuity Unisex Mortality	6.0%

For the former Retirement Plan, the conversion bases for optional forms for some groups are alternatively based upon specified factors, such as the following:

<u>Form</u>	<u>Factor</u>	<u>Addition for each year of retirement prior to 65</u>	<u>Addition/subtraction for each year survivor is older/younger than participant</u>
50% Joint-and-Survivor	0.8750	0.0030	0.0050
66-2/3% Joint-and-Survivor	0.8333	0.0040	0.0067
75% Joint-and-Survivor	0.8125	0.0045	0.0075
100% Joint-and-Survivor	0.7500	0.0060	0.0100

<u>Age</u>	<u>5-year Certain & Continuous</u>	<u>10-year Certain & Continuous</u>

Select groups may also receive a fully subsidized 50% Joint-and-Survivor annuity. For the Heinz Former Plan B and Heinz Former Plan C, the conversion bases for optional forms for some groups are alternatively based upon specified factors, such as the following tables:

<u>Form</u>	<u>Factor</u>	<u>Addition/subtraction for each year in excess of 5 years the survivor is older/younger than participant</u>
50% Joint-and-Survivor	0.9000	0.0030
100% Joint-and-Survivor	0.8200	0.0060

<u>Form</u>	<u>Factor- no reduction for survivor spouse age difference</u>
50% Joint-and-Survivor	0.9000
66-2/3% Joint-and-Survivor	0.8500
100% Joint-and-Survivor	0.8000
10-year Certain & Continuous	0.9300
15-year Certain & Continuous	0.8700

Alternatively, for the former Hourly Plan, one of the following subsidized conversion factors may be used to convert to a 50% Joint-and-Survivor annuity for select groups:

- 1.00
- .95

Note that this summary is intended to be a reasonably representative sample of the optional form conversion factors for the plan. It is not intended to be an exhaustive list of all the factors used in the conversion of benefits from the normal form of payment to any optional form of payment offered by the plan.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

An average retirement age for each possible decrement is calculated for each active participant as the probability of decrementing in each year multiplied by the percentage of the participant not previously decremented.

The weighted average retirement age is calculated as the average age of these individual participant ages, per decrement, weighted by the total number expected to leave due to each decrement.

Representative retirement rates are found in the attachment Schedule SB, Part V – Statement of Actuarial Assumptions/Methods.

Plan Provisions — Kraft Heinz Retirement Plan – Former Retirement Plan

1. Effective Date: January 1, 2010.
2. Eligibility for Participation: All nonunion employees and union employees hired before January 1, 2009, who belong to a participating group to whom the benefits of this Plan have been extended become participants immediately following the completion of one year of service. There are some union groups who have not yet negotiated into the level of benefits described in 4(b) below. See the plan document for the plan provisions which apply to these groups.

Accrued benefits for Bakery employees were frozen as of October 2, 1995 (the effective date of the sale of that unit). Generally, benefits accrued under the Kraft formula for future service beginning January 1, 1995. Participants at Entenmann's, Oroweat, and Boboli were covered by their respective plan formulas for service accrued through December 31, 1994. For prior plan provisions applicable to these participants, see the plan document.

Nabisco employees who were participants in the Retirement Plan for Employees of Nabisco, Inc. as of January 1, 2001 became participants in this plan as of January 1, 2001. Participation and other plan features are as according to the plan provisions of the Retirement Plan for Employees of Nabisco, Inc. See Appendix A for a summary of these plan provisions.

Cadbury employees who were participants in either the Cadbury Adams Holdings LLC Personal Pension Account Plan (PPA) or the Cadbury Adams Retirement Plan (Adams) as of January 1, 2012 became participants in this plan as of January 1, 2012. Participation and other plan features are as according to the plan provisions of the PPA Plan and the CAPP. See Appendix B and Appendix C respectively for a summary of those plan provisions.

3. Definitions:

For former Oscar Mayer Salaried participants, the greater of the sum of (xi) through (xiii).

xi) Past credited service benefit (credited service earned prior to December 31, 1993):

- 1.1% of final average earnings up to one-half of the Social Security taxable wage base multiplied by years of past credited service, plus
- 1.45% of final average earnings in excess of one-half of the Social Security taxable wage base multiplied by years of past credited service limited to 35 years.

The past credited service benefit represents an amount payable in a five year certain and continuous annuity form. The benefit is then multiplied by a conversion factor to arrive at a life only annuity amount.

xii) Future service benefit:

- 1.3% of final average earnings up to Social Security covered compensation multiplied by years of future service, plus
- 1.675% of final average earnings in excess of Social Security covered compensation multiplied by years of future service.

Future service is limited such that the sum of past credited service and future service cannot exceed 30 years. For employees with at least 20 years of past credited service as of December 31, 1993, future service is instead limited such that the sum of past credited service and future service cannot exceed 35 years.

xiii) All service benefit:

- 0.5% of final average earnings multiplied by years of credited service in excess of 30 or 35 years as described above.

For former Nabisco employees covered under the Retirement Plan for Employees of Nabisco, Inc. and not eligible for the Preserved PRA grandfather formula, the sum of (xiv) through (xvi).

xiv) Past credited service benefit (credits earned as of December 31, 2002):

A lump sum benefit equal to final average earnings (as defined in Appendix A) multiplied by the sum of percentage credits below. (A single life annuity is Actuarially Equivalent to the lump sum benefit).

xv) Future service benefit:

- 1.3% of final average earnings up to Social Security covered compensation multiplied by years of future service, plus
- 1.675% of final average earnings in excess of Social Security covered compensation multiplied by years of future service.

Future service is limited such that the sum of past credited service and future service cannot exceed 30 years. For employees with at least 20 years of past credited service as of December 31, 2002, future service is not limited.

xvi) All service benefit:

- 0.5% of final average earnings multiplied by years of credited service in excess of 30 years of service as described above.

This benefit does not apply for employees with at least 20 years of past credited service as of December 31, 2002.

- c) Certain transfers from Altria between December 8, 1988 and September 30, 2007, inclusive, could be entitled to benefits in addition to those described above. Each such participant's accrued benefit for service earned under the Altria plan formula will be recalculated using Final Average Earnings and Social Security Covered Compensation as of their date of termination. The credited service used in this calculation will be the amount frozen as of the transfer date. To the extent that the recalculated benefit exceeds the frozen benefit calculated as of the transfer date, additional benefits will be due.
- d) For participants whose compensation in years prior to 1994 exceeded the IRC Section 401(a)(17) limit effective January 1, 1994, the extended wear-away approach to calculating benefits is applied.

5. Pension Benefit at Early Retirement Date:

- a) Eligibility: All participants who have completed at least ten years of continuous service, and who retire on the first day of any month subsequent to attainment of age 55, or participants who were deemed early retirement eligible or bridged to early retirement as part of special program.
- b) Annual Benefit: The benefit determined as in 4(b) above, based upon service and earnings prior to the early retirement date. This benefit is reduced by 1/4% for each full month between ages 56 and 62 and 1/6% for each full month between ages 55 and 56 that commencement of benefits precedes the first day of the month following attainment of age 62. For participants hired on or after January 1, 2004, the benefit is reduced by 1/2% for each full month between ages 55 and 65 that commencement of benefits precedes the first day of the month following attainment of age 65. Early retirement reduction factors which are applicable to benefits accrued under prior plans before their merger with the Kraft Foods Group, Inc. Retirement plan are preserved where necessary.

- c) Former Oscar Mayer Salaried Participants: Employees with at least 20 years of past credited service prior to December 31, 1993 who retire under the 30 and Out provision may commence their annual retirement benefit upon attainment of 30 years of total credited service. All other employees retiring under the 30 and Out provision may only commence their past credited service benefit upon attainment of 30 years of total credited service. The benefits attributable to credited service prior to December 31, 1993 are reduced by the factors applicable to the former plan.
 - d) Altria Transfers: The recalculated and frozen benefits described in section 4(c) above are reduced by the factors applicable to the Altria plan. As described in the plan document, former Altria participants continue to accrue vesting service in the Kraft plan and could grow into more favorable early retirement factors to be applied to the recalculated benefit. The early retirement factor applied to the frozen benefit is based on vesting service as of the transfer date.
6. Pension Benefit at Postponed Retirement Date:
- a) Eligibility: All participants who retire subsequent to their normal retirement date.
 - b) Annual Retirement Benefit: The benefit determined as in 4(b) above, based upon service and earnings to postponed retirement date.
7. Vested Benefit:
- a) Retirement: All participants who have completed at least five years of continuous service.
 - b) Annual Retirement Benefit: The benefit determined as in 4(b) above, based upon service and earnings to date of termination, reduced:
 - For participants with 20 or more years of continuous service at termination, or participants who were deemed early retirement eligible or bridged to early retirement as part of special program, as described in 5(b) above, and
 - For participants who terminate prior to age 55 with less than 20 years of continuous service at termination, by 1/2% for each full month commencement of benefits precedes the normal retirement date.
 - c) Former Oscar Mayer Salaried Participants: The benefits attributable to credited service prior to December 31, 1993 are instead reduced by the factors applicable to the former plan.
8. Post-Retirement Death Benefit: Return of aggregate amount of employee contributions with interest over the aggregate amount of retirement income payments paid. Effective January 1, 1975, interest on contributions is credited at 5% per annum. (Beginning in 1988, interest on contributions is credited with 120% of the Applicable Federal Rate.)

Plan Provisions – Kraft Heinz Retirement Plan – Former Retirement Plan – Appendix A

Plan Provisions for Nabisco employees formerly covered under the Retirement Plan for Employees of Nabisco, Inc.

1. Effective Date: Plan most recently restated effective January 1, 2010.
2. Date of Most Recent Amendment: June 14, 1999.
3. Eligibility Requirements: Regular salaried employees on U.S. payroll and pay FICA taxes. Eligible on the first day of the month coincident with or next following six months of service. To be eligible for the Preserved PRA grandfather formula, participants must be in the former PRA plan on December 31, 1992 who (i) were in PRA on January 1, 1988 and (ii) were either age 40 with ten years of service or age 55 with five years of service on January 1, 1988. Effective December 31, 2002, service will cease to accrue for employees not eligible for the Preserved PRA grandfather formula.
4. Definitions:
 - a) Credited Service: All service including the first two years of a participant's leave of absence due to permanent disability, service while on military leave as required under Section 414(u). Credited service is frozen as of December 31, 2015.
 - b) Final Average Earnings: The average annual compensation received in the three highest paid consecutive years in the last five years prior to retirement or termination. For employees eligible for the Preserved PRA grandfather formula, the average annual compensation received in the five highest paid consecutive years in the last ten years prior to retirement or termination. The final average earnings are frozen as of December 31, 2015.
 - c) Social Security Covered Compensation: The average of the maximum Social Security taxable wage bases in effect during each of the 35 calendar years ending with the year the participant attains Social Security retirement age.
 - d) Social Security Benefit: Primary benefit payable at age 65 under Social Security. For employees who retire early, the Social Security benefit will be the benefit payable at age 62 or age of retirement if later, assuming that the last rate of earnings continues unchanged to age 62 or age at retirement, if later. For employees who terminate prior to early retirement eligibility, the Social Security benefit will be the benefit payable at age 65, assuming that the last rate of earnings continues unchanged. The Social Security benefit is frozen as of December 31, 2015.
 - e) Social Security Offset: 1.25% of the Social Security benefit multiplied by years of credited service (maximum percentage is 50%).
 - f) Treasury Rate: The 30-year treasury as of November of the year prior to distribution.
 - g) Actuarial Equivalence: The factor used for converting a lump sum to a life annuity is based on an interest rate as specified in (h) below and the mortality table as specified in (i) below. For purposes of determining the qualified 50% Joint and Survivor annuity for the pre-retirement spouse benefit, the basis is 8% and the UP-1984 mortality table.
 - h) Interest rate: For periods before the annuity starting date, the interest rate is the lesser of (i) Treasury Rate or (ii) 5%, but not less than 2.5%. For periods after the annuity starting date, the interest rate is the greater of (i) Treasury Rate or (ii) 8%.
 - i) Mortality: The table specified by the Secretary of the Treasury set forth in Code Section 417(e)(3). There is no mortality assumed prior to the annuity starting date.

5. Normal Retirement Benefit:

- a) Normal Retirement Date: The first day of the month coincident with or next following the earlier of the completion of five years of service or the attainment of age 65.
- b) Benefit: A lump sum benefit equal to final average earnings multiplied by the sum of percentage credits below for each year of credited service. (A single life annuity is Actuarially Equivalent to the lump sum benefit.)

<u>Attained Age</u>	<u>% of Final Average Earnings</u>	<u>% of Final Average Earnings in Excess of Social Security Covered Compensation</u>
Under 30	4%	0%
30 – 34	5%	0%
35 – 39	6%	1%
40 – 44	8%	1%
45 – 49	9%	2%
50 – 54	10%	2%
55 – 59	12%	3%
60 and over	13%	4%

The Preserved PRA grandfather benefit is the benefit that produces the greatest actuarial equivalent value:

- (i) The benefit described above.
- (ii) The amount (a) plus (b) minus (c):
- (a) 1.5% of final average earnings multiplied by years of credited service up to 25 years, plus
- (b) 1.25% of final average earnings multiplied by years of credited service over 25 years (up to 15 years, if hired after December 1, 1974) minus
- (c) Social Security Offset.
- (iii) The amount (d) plus (e):
- (d) \$24 per month multiplied by years of credited service up to 25 years, plus
- (e) \$12 per month multiplied by years of credited service over 25 up to 15 years.

6. Early Retirement Benefit:

- a) Eligibility: Age 55 with at least ten years of service.
- b) Benefit:
 - (i) Accrued benefit reduced for early commencement according to the Actuarial Equivalence definition described above.
 - (ii) Preserved PRA grandfather: If participant retires after age 62 or after 30 years of service, benefit is unreduced. Otherwise, accrued benefit with no reduction from age 65 to 62, reduced 5% for the next seven years early (reduction is not applied to the Social Security Offset).
- c) Supplement: Social Security offset if formula (ii) in Section 5(b) applies, not applied until age 62.

7. Vested Benefit:

- a) Requirement: The earlier of five years of service or age 65.
- b) Benefit: Accrued benefit.

8. Pre-Retirement Spouse's Benefit:

- a) Eligibility: The earlier of five years of service or age 65.
- b) Benefit: Accrued benefit reduced for early commencement according to the Actuarial Equivalence definition described above.

9. Normal Form of Payment: Benefits are payable as a lump sum. For participants whose benefit is determined at the Preserved PRA grandfather formula, the form of payment is a single life annuity.

f) Benefit Under the Plan as of 12/31/1991:

(i) Benefit:

- 56% of final average compensation less 50% of Social Security benefit as of December 31, 1991, reduced proportionately for benefit service of less than 25 years as of December 31, 1991.

(ii) Offset Benefit:

- Above benefit will be offset by any benefit accrued under the Retirement Plan for Employees of Del Monte Corporation for service which is considered benefit service under this plan, by benefits earned in non-U.S. Cadbury plans, and by annuity benefits purchased from insurance companies.

g) The PPA Account: The PPA account is a record keeping account, established for each participating employee, which each year is credited with an annual allocation based on the following table. Annual allocations are frozen as of December 31, 2015 (December 31, 2020 for Walton Plant).

Sum of Age plus Vesting Service as of January 1	Allocation % of Compensation			
	Earnings up to the Social Security Wage Base		Earnings above the Social Security Wage Base	
	Before 1999	After 1998	Before 1999	After 1998

3. Eligibility for Benefits:

- a) Normal Retirement: The first of the month coincident with or next following the later of attainment of age 65 and the fifth anniversary of employment.
- b) Early Retirement: The first month coincident with or next following attainment of age 55 and completion of 10 years of vesting service.
- c) Vested Retirement Pension: Completion of three years of vesting service (including service with acquired or affiliated companies).
- d) Death Benefit: Beneficiary of participant who dies.
- e) Disability: Employees who are receiving payments under the long-term disability plan and/or Workers' Compensation payments.

4. Monthly Benefits Paid Upon the Following Events:

a) Normal Retirement:

- (i) For employees at least age 50 with at least 10 years of vesting service as of December 31, 1991, the greater of (a) or (b), where:

$$(a) = \text{Benefit under the plan as of December 31, 1991,} \\ \text{times} \\ \frac{\text{Final Average Compensation at December 31, 1993}}{\text{Final Average Compensation at December 31, 1991}} \\ \text{times} \\ \frac{\text{Final Average Compensation at Retirement}}{\text{Final Average Compensation at December 31, 1993}}$$

plus the PPA annuity described in (ii)(b) below.

- (b) = Benefit formula under the plan in effect as of December 31, 1991, using all benefit service and final average compensation at retirement date.

- (ii) For employees under age 50, or with less than 10 years of vesting service as of December 1991, (a) + (b) where:

$$(a) = \text{Benefit under the plan as of December 31, 1991,} \\ \text{times} \\ \frac{\text{Final Average Compensation at December 31, 1993}}{\text{Final Average Compensation at December 31, 1991}} \\ \text{times} \\ \frac{\text{Final Average Compensation at Retirement}}{\text{Final Average Compensation at December 31, 1993}}$$

- (b) = The PPA annuity which is the value of The PPA Account divided by an annuity factor using the Applicable Interest Rate and Applicable Mortality Table as defined in the plan.

- b) Early Retirement: Normal retirement benefit as determined according to Normal Retirement Pension above but based upon final average compensation, Social Security benefit, benefit service and PPA annuity as of the employee's early retirement date. If payments are to commence prior to normal retirement date, such payments, except for the PPA annuity, will be reduced by 2% for each of the first 3 years and 4% for each additional year that early retirement date precedes normal retirement date.

- c) Vested Retirement Pension: Normal retirement benefit as determined according to Normal Retirement Pension above based upon final average compensation, Social Security benefit, benefit service and PPA annuity as of the employee's termination date. Payments may commence immediately, but are actuarially reduced prior to earliest retirement age provided he or she had accrued the required vesting service prior to termination.
- d) Death Benefit: For beneficiaries of participants who die prior to satisfying the service requirement for early retirement: 50% of the employee's vested accrued benefit reduced on an actuarially equivalent basis and converted to a 50% joint and survivor form of payment commencing as of the date of death.

For beneficiaries of participants who die after satisfying the requirements for early retirement: 50% of the employee's vested accrued benefit, converted to a 50% joint and survivor form of payment commencing as of the date of death.

For beneficiaries of participants who die after normal retirement date: 50% of the employee's vested accrued benefit as reduced for the 50% joint and survivor annuity payable for the beneficiary's lifetime.

In all cases, the death benefit is assumed payable as a lump sum.

5. Other Plan Provisions:

- a) Normal Form of Payment: Life annuity.
 - b) Optional Forms of Retirement Benefits: Actuarially equivalent to life annuity:
 - (i) Joint and survivor: 100%, 75%, or 50%
 - (ii) 5 or 10 years certain and continuous
 - (iii) Lump sum
 - c) Actuarial Equivalence: Based on the 1994 Group Annuity Reserving Table with ages set back 1 year for participants and 4 years for beneficiaries and an interest rate of 8.5%. For lump sums, based on the Applicable Interest Rate and Applicable Mortality Table as defined in the plan.
6. Future Plan Changes: No future changes were recognized in determining pension cost or in determining minimum and maximum contributions. WTW is not aware of any future plan changes which are required to be reflected.

Plan Provisions for Cadbury employees formerly covered under the Cadbury Adams Retirement Plan (Adams)

1. Effective Date: April 1, 2003.
2. Covered Employees: Active employees included in the plan spinoff from the Warner-Lambert Company Retirement Plan on March 31, 2003. After April 20, 2005, no employee is eligible to commence participation in the plan.
3. Participation Date: January 1st following employment date.
4. Definitions:
 - a) Compensation: Base pay rate on January 1 plus incentive and overtime pay.
 - b) Dollar Value of Equity Unit: Equal to the net market value of all assets in the Equity Fund divided by the present value units of all credited units.
 - c) Normal Retirement Date (NRD): Age 65.
 - d) Monthly Pension Benefit: As of May 1, 2005, the Monthly pension benefit was frozen and participants were moved to the PPA plan. The frozen benefit is calculated as the sum of (i), (ii), and (iii):
 - (i) Dollar annuity retirement income:
 - 1.5% of Compensation for each year of service.
 - (ii) Equity annuity retirement income:
 - For employees who elected at January 1, 1977 to retain their Equity Annuity Retirement Income, the Dollar Annuity benefit is half the amount described above and the remaining half is the “assumed benefit.” Equity Annuity Units are credited to a participant each year by dividing that year’s assumed benefit by the Dollar Value of a Unit at that time. Equity Annuity Retirement Income to a retired participant is determined by multiplying the participant’s number of Units by the Dollar Value of a Unit determined in the preceding calendar year.
 - (iii) Flat dollar retirement income:
 - \$96 per year of service.
 - After April 30, 2005, no participant will accrue any additional benefit under the plan.
 - e) Monthly Postretirement Spouse Benefit: 50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant’s 55th birthday.

Plan Provisions — Kraft Heinz Retirement Plan — Optional Forms and Actuarial Equivalence

Benefits are generally converted from the normal form of payment to the optional form of payment on an actuarially equivalent basis, which varies depending on the plan formula. Benefits accrued under multiple prior plan formulas may be converted using multiple bases.

The following actuarial equivalence bases apply to the Kraft Heinz Retirement Plan:

Mortality	Interest
417(e)(3) Applicable Mortality Table	417(e)(3) Applicable Interest Rates with a five-month lookback and monthly stability period
1971 TPFC	7.0%
1951 GAM with TPFC Projection with one-year setback for participant and four-year setback for joint annuitant	7.5%
UP84-Unisex	10.5% / 9.5% / 8.0% / 5.0%
UP84-Unisex with two-year setback	7.0% / 10.5%
Revenue Ruling 2001-62 Mortality Table	8.5%
1971 GAM with one-year setback for participant and seven-year setback for joint annuitant	7.5% / 5.0%
1951 GA with no setback for participant and five-year setback for joint annuitant	3.5%
GAR94 Mortality	Treasury rate interest with a November lookback
1983 Group Annuity Unisex Mortality	6.0%

For the former Retirement Plan, the conversion bases for optional forms for some groups are alternatively based upon specified factors, such as the following:

<u>Form</u>	<u>Factor</u>	<u>Addition for each year of retirement prior to 65</u>	<u>Addition/subtraction for each year survivor is older/younger than participant</u>
50% Joint-and-Survivor	0.8750	0.0030	0.0050
66-2/3% Joint-and-Survivor	0.8333	0.0040	0.0067
75% Joint-and-Survivor	0.8125	0.0045	0.0075
100% Joint-and-Survivor	0.7500	0.0060	0.0100

<u>Age</u>	<u>5-year Certain & Continuous</u>	<u>10-year Certain & Continuous</u>

Select groups may also receive a fully subsidized 50% Joint-and-Survivor annuity. For the Heinz Former Plan B and Heinz Former Plan C, the conversion bases for optional forms for some groups are alternatively based upon specified factors, such as the following tables:

<u>Form</u>	<u>Factor</u>	<u>Addition/subtraction for each year in excess of 5 years the survivor is older/younger than participant</u>
50% Joint-and-Survivor	0.9000	0.0030
100% Joint-and-Survivor	0.8200	0.0060

<u>Form</u>	<u>Factor- no reduction for survivor spouse age difference</u>
50% Joint-and-Survivor	0.9000
66-2/3% Joint-and-Survivor	0.8500
100% Joint-and-Survivor	0.8000
10-year Certain & Continuous	0.9300
15-year Certain & Continuous	0.8700

Alternatively, for the former Hourly Plan, one of the following subsidized conversion factors may be used to convert to a 50% Joint-and-Survivor annuity for select groups:

- 1.00
- .95

Note that this summary is intended to be a reasonably representative sample of the optional form conversion factors for the plan. It is not intended to be an exhaustive list of all the factors used in the conversion of benefits from the normal form of payment to any optional form of payment offered by the plan.
