Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Moody's Market, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Moody's Market, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Moody's Market, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Moody's Market, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Moody's Market, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Moody's Market, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN

The following description of the Moody's Market, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Moody's Market, Inc. (the Company) established the Plan effective January 1, 2021. The Plan is a defined contribution plan intended to constitute an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who have completed the eligibility requirements including the completion of one year of service and attainment of age 18, except for nonresident aliens, members of a collective bargaining unit, independent contractors, or employee of a nonadopting related employer. An eligible employee will begin participation on January 1 or July 1 following the completion of the eligibility requirements. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of ERISA, as amended.

The Plan purchased Company common stock through a series of transactions and notes payable to various stockholders of the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, presented separately the assets and liabilities and changes therein pertaining to:

- (a) The accounts of employees with vested rights in allocated common stock (allocated); and
- (b) Common stock not yet allocated to employees (unallocated).

Contributions

Each year, the Company may contribute a discretionary percentage of its net earnings to the Plan as determined annually by the Company's Board of Directors. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings or losses are allocated based on each participant's share of the investment at the beginning of the year, less distributions and withdrawals during the year. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participants' accounts is based on years of continuous credited service with the Company. A participant's account becomes fully vested after six years of credited service with the Company, under a graded vesting schedule whereby an employee is 20% vested after two years of eligible credited service and 20% a year thereafter. A participant is fully vested upon reaching normal retirement age, death, permanent disability, or Plan termination.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is required to vote any allocated share for which instructions have not been given by a participant, and unallocated shares as directed by a committee appointed by the Company's Board of Directors.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. A participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. Participants who elect to diversify receive a cash distribution. Due to when the Plan was established, diversification will not be allowed until the 2031 Plan year.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

The benefit to which a participant is entitled is the benefit that can be provided by the participant's account and may take the form of a lump-sum distribution or annual installments over a period of five years, as determined by the Company. Upon termination of service, a participant will receive a lump-sum distribution of their account balance, without the participant's consent, if their vested balance does not exceed \$1,000. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

Under the provisions of the Plan, the Plan or the Plan Sponsor is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During the year ended December 31, 2024, no shares were repurchased or cash distributed to participants.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants for the year ended December 31, 2024 were \$33,500, and there were no balances in forfeited nonvested accounts as of December 31, 2024 and 2023.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are valued at estimated fair value. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 19, 2025, the date the financial statements were available to be issued.

NOTE 3 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 3 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Common Stock: The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by Level, within the fair value hierarchy, the Plan's assets at fair value at December 31:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Common Stock	\$ -	\$ -	\$ 11,467,060	\$ 11,467,060

	Level 1	Level 2	Level 3	Total
Common Stock	\$ -	\$ -	\$ 11,477,400	\$ 11,477,400

There were no changes, purchases, issuances or transfers in and out of Level 3 assets for the year ended December 31, 2024.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 4 INVESTMENTS

The Plan's initial investment in Company securities consisted of 1,034,000 shares of the outstanding common stock of the Company. The shares were acquired on January 1, 2021, for \$19.34 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. The total purchase price was \$20,000,000 which included a \$19,200,000 loan to the selling shareholder, and \$800,000 in cash.

The estimated fair market value, as determined by independent appraisal, as of December 31, 2024 and 2023 was \$11.09 and \$11.10 per share, respectively.

During the year ended December 31, 2024, 24,816 shares were allocated to participants.

Market (at Estimated Fair Value)	\$ 1,284,257	\$ 10,182,803	\$ 1,009,956	\$ 10,467,444

NOTE 5 NOTES PAYABLE

On December 28, 2021, the Plan entered into term note agreements totaling \$19,200,000 with the stockholders of the Company. The proceeds of the loans and an additional \$800,000 were used to purchase the 1,034,000 shares of the Company's common stock. The note was subsequently amended to reduce the amount due by \$402,226 for working capital adjustments to a balance of \$18,797,774. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made.

The Plan owes the Company the remaining balance and the notes payable due to the Company from the Plan are outlined below as of December 31:

<u>Description</u>	<u>2024</u>	<u>2023</u>
Note payable - Moody's Market, Inc., interest fixed at 1.90%, due December 31, 2061; secured by unallocated Moody's Market, Inc. common stock purchased with proceeds from this note and cash contributions from the Company	\$ 17,828,276	\$ 18,158,541

**MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5 NOTES PAYABLE (CONTINUED)

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan's loan and related Plan contributions for the next five years is as follows:

<u>Fiscal Year Ending</u>	<u>Amount</u>
2025	\$ 336,541
2026	342,935
2027	349,451
2028	356,090
2029	362,856
Thereafter	<u>16,080,403</u>
Total	<u><u>\$ 17,828,276</u></u>

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary as prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Retirement Plan Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The Plan has applied for and is currently waiting a determination of its tax status from the IRS. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

MOODY'S MARKET, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 8 RISKS AND UNCERTAINTIES

The Plan provides for investment primarily of the Company's common stock which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 PARTY-IN-INTEREST

The Plan's assets, which consist primarily of Company common shares, are held by Alturas Fiduciary Services as of December 31, 2024 and 2023. Company contributions are held and managed by the Trustee, who invests cash received as a result of cash contributions and interest income and makes distributions to participants.

The Plan is administered by the Company and certain administrative functions are outsourced to a third-party administrator; however, no employees of the Company receive compensation from the Plan.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. At December 31, 2024 and 2023, the Plan held 1,034,000 shares of Company common stock, and the Plan received no dividends from this stock for the year then ended. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
