OWNERSHIP PLAN**

**FINANCIAL STATEMENTS**

## INDEPENDENT AUDITORS' REPORT

Trustee and ESOP Committee of  
Seaco National Corp. Employee Stock Ownership Plan

### Opinion

We have audited the financial statements of Seaco National Corp. Employee Stock Ownership Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter - Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

# SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN

## NOTES TO FINANCIAL STATEMENTS

### ( 1 ) Description of plan

The following description of the Seaco National Corp. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

**General** - The Plan is a defined contribution plan, effective January 1, 2015, sponsored by Seaco National Corp. (the "Company") for the benefit of its full-time employees who have twelve months of service, are age twenty-one or older, and worked at least 1,000 hours during the year, except as specifically prohibited by the plan document. The Plan also covers the employees of the Company's subsidiaries who are participating in the Plan. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company's Employee Stock Ownership Plan Committee ("ESOP Committee"), which is a committee of the board of directors of the Company. The Trustee has overall responsibility for the operation and administration of the Plan. The ESOP Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. Effective January 1, 2015, the Company entered into a trust agreement with James R. Urbach, to serve as the Plan's trustee. The trustee is responsible for receiving, investing and distributing the assets of the Plan as directed by the Company or the Committee.

On December 31, 2015, the Plan purchased 99,990 shares of Company stock (100% of total preferred shares outstanding) for \$12,250,000, (\$122.51 per share as valued in an independent valuation). The Plan owns 100% of the Company. The Plan financed the entire purchase price with a loan payable bearing interest at 2.61% per annum requiring annual payments of principal and interest. The loan payable is to be repaid over a period of thirty (30) years by Company contributions.

The Company is obliged to repurchase a participant's shares under certain conditions. In December 2019, the Company purchased 4,116 shares of preferred stock from the Plan through a cash payment of \$681,201 to the Plan and then resold the shares in return for the note payable. This 2019 repurchased loan bears interest at 2.09% per annum and is payable quarterly beginning on March 31, 2020. The outstanding principal is due in full prior to December 31, 2050. In September 2024 the Company purchased 1,715 shares of preferred stock from the Plan through a cash payment of \$723,105 to the Plan and then resold the shares in return for the note payable. The 2024 repurchased loan bears interest at 4.53% per annum. Interest only is payable quarterly, beginning on March 31, 2025, with the outstanding principal due in full prior to December 31, 2055.

As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. Allocated shares are subject to vesting.

# SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN

## NOTES TO FINANCIAL STATEMENTS

### ( 1 ) Description of plan (continued)

**General – continued** - The loans payable are collateralized by unallocated shares of Company stock. The lender has no rights against shares of Company stock once they are allocated under the employee stock ownership plan (the “ESOP”). Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the years then ended present separately the assets and liabilities and changes therein pertaining to the accounting of employees with vested rights in allocated Company stock (allocated) and Company stock not yet allocated to employees (unallocated).

**Employer contributions** - The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan’s dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. Employer contributions are allocated to participants’ accounts based on participant’s eligible compensation, relative to total eligible compensation. Employee contributions are not permitted.

**Participant accounts** - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited as of the last day of each Plan year with an allocation of shares of the Company’s stock released by the Trustee from the unallocated account and forfeitures of terminated participants’ nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant’s account based on the ratio of the participant’s beginning of year account balance to all participants’ beginning of year account balances. Employer contributions, which are not made to repay the loans (Note 5), are allocated to each participant’s account based upon the relation of the participant’s eligible compensation to total eligible compensation for the Plan year.

**Vesting** - Vesting in the Company’s contribution portion of participants’ accounts are based on credited years of service.

Employer contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>	<u>Forfeited %</u>
Less than 2	0%	100%
2	20%	80%
3	40%	60%
4	60%	40%
5	80%	20%
6 or more	100%	0%

**Forfeitures** - Plan forfeitures can be used to pay plan expenses, reduce Company contributions, or are allocated to each participant’s account based upon the relation of the participant’s eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 and 2023 totaled approximately \$595,000 and \$292,000.

## SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN

### NOTES TO FINANCIAL STATEMENTS

#### ( 1 ) Description of plan (continued)

**Payment of benefits** - On termination of service due to retirement, death, disability, or retirement upon reaching the age of 65, a participant's benefit is to be distributed in substantially equal annual installments over a 5 year period (unless the participant elects a longer period). The Plan was amended effective January 1, 2023 to allow for in-service distributions to participants that reach the age of 65. The 5 year period can be extended if the participant's account balance is over a certain dollar amount as specified in the Plan. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. Distributions are made in cash or, if the participant elects, in the form of Company stock plus cash for any fractional shares of preferred stock. Under the provisions of the Plan, the Company holds the option to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. If the vested balance at the time of termination does not exceed \$5,000, \$7,000 effective January 1, 2025, the participant will receive a mandatory cash distribution equal to the vested balance. During the years ended December 31, 2024 and 2023 the Company repurchased approximately 1,715 and 1,394 shares from participants, respectively.

**Put option** - Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Diversification** - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end. Effective January 1, 2025, participants meeting the requirements for diversification became eligible to make that election.

**Voting rights** - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

## SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN

### NOTES TO FINANCIAL STATEMENTS

#### ( 2 ) Summary of significant accounting policies

**Basis of accounting** - The financial statements of the Plan are prepared under the accrual method of accounting.

**Use of estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Significant estimates are required to value the Company stock (Note 4). Accordingly, actual results may differ from those estimates.

**Investment valuation and income recognition** - The shares of Company stock are valued at estimated fair value. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of benefits** - Benefits are recorded when paid.

**Administrative expenses** - Certain expenses of the Plan are paid by the Company and are not included on the statements of changes in net assets available for benefits.

**Allocations** - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid, while shares are allocated for participant accounting purposes during the period for which shares are to be released based on the scheduled debt service payment.

**NOTES TO FINANCIAL STATEMENTS**

**( 3 ) Investment in Company’s stock**

The Plan’s investments in Company’s preferred stock at December 31, 2024 and 2023 are presented in the following table:

	<u>December 31, 2024</u>		<u>December 31, 2023</u>	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>

**( 4 ) Fair value measurements**

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1      Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
  
- Level 2      Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
  
- Level 3      Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**( 4 ) Fair value measurements (continued)**

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Company stock:* The fair value of the Company's preferred stock held by the Plan is determined based upon an income valuation technique. The Plan uses an independent appraiser to assist in determining the estimated fair value. The valuation model considers historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. At December 31, 2024 and 2023, 100% weight was given to the income approach based on the nature and comparability of the inputs and assumptions. The estimated fair values at December 31, 2024 and 2023 also include a discount for lack of marketability given the illiquid nature of the preferred stock.

The following table discloses the basic assumptions used in arriving at fair value and the unobservable inputs used:

<u>Description</u>	<u>December 31, 2024</u> <u>Fair Value</u>	<u>December 31, 2023</u> <u>Fair Value</u>	<u>Valuation</u> <u>Techniques</u>	<u>Unobservable</u> <u>Inputs</u>
SEACO National Corp.	\$ 50,163,983	\$ 42,154,784	Income approach	EBITDA, discount for lack of marketability; discount rate; weighted average cost of capital; residual growth rate

The valuation process involves Trustee's selection of an independent appraiser under an annual contract. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company.

The preceding methods described may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Unrealized gains (losses) included in changes in net assets for the period above are reported in net appreciation (depreciation) in the fair value of investments in the statements of changes in net assets available for benefits.

**NOTES TO FINANCIAL STATEMENTS**

**( 5 ) Loans payable to plan sponsor**

In 2015, the Plan obtained a loan in the amount of \$12,250,000. The loan payable is collateralized by unallocated shares of Company stock. The agreement provides for the loan to be repaid over thirty years with interest at 2.61% per annum and annual payments of principal and interest.

The Company is obliged to repurchase a participant's shares under certain conditions. In December 2019, the Company purchased 4,116 shares of preferred stock from the Plan through a cash payment of \$681,201 to the Plan and then resold the shares in return for the note payable. This repurchased loan bears interest at 2.09% per annum and quarterly payments began on March 31, 2020. The outstanding principal is due in full prior to December 31, 2050. In September 2024 the Company purchased 1,715 shares of preferred stock from the Plan through a cash payment of \$723,105 to the Plan and then resold the shares in return for the note payable. This 2024 repurchased loan bears interest at 4.53% per annum. Interest only is payable quarterly, beginning on March 31, 2025, with the outstanding principal due in full prior to December 31, 2055.

The Company is obligated to make cash contributions to enable the Plan to make its regularly scheduled payments of principal and interest due on these loans payable. As the Plan makes principal and interest payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. At December 31, 2024, the annual debt service payments of principal and interest are scheduled to be \$542,798. For financial reporting purposes, the shares pledged as collateral are reported as unallocated ESOP shares in the statements of changes in net assets available for benefits.

Aggregate annual maturities of long-term debt at December 31, 2024 are as follows:

<u>Years Ending December 31,</u>	<u>Original Loan</u>	<u>Repurchase</u>	<u>Total</u>
2025	\$ 407,500	\$ 40,824	\$ 448,324

## SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN

### NOTES TO FINANCIAL STATEMENTS

#### ( 6 ) **Plan transfer**

In 2019, the certain terminated participant account balances were converted to cash as allowed under the Plan document. The cash balances were transferred to the Company's 401(k) plan to allow for diversification of the participant's investment since no diversification was allowed under the Plan during this time frame. Effective January 1, 2024, those participants had a five-year break in service and the unvested portion of these transferred funds totaling \$445,729 was forfeited and returned to the Plan for allocation to participants as of December 31, 2024.

#### ( 7 ) **Administration of Plan assets**

The Plan's assets, which consist principally of Company shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

#### ( 8 ) **Related party and party-in-interest transactions**

Plan investments are primarily in shares of Company preferred stock purchased using proceeds of the loan from the Company. This investment, transactions in this investment and the loan from the Company qualify as party-in-interest transactions. During the years ended December 31, 2024 and 2023, the Plan incurred interest expense of approximately \$117,000 and \$128,000, respectively, to the Company. The Plan also has service providers that qualify as parties-in-interest under ERISA. During the years ended December 31, 2024 and 2023, the Plan made direct payments to service providers that qualify as parties-in-interest of \$77,553 and zero, respectively. All other expenses were paid by the Company for the years ended December 31, 2024 and 2023.

#### ( 9 ) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and related regulations. Upon termination of the Plan, the Trustee shall pay all liabilities and expenses of the trust fund and to sell shares of financed Company stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

## SEACO NATIONAL CORP. EMPLOYEE STOCK OWNERSHIP PLAN

### NOTES TO FINANCIAL STATEMENTS

#### ( 10 ) **Tax status (continued)**

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated June 19, 2018, that the Plan, as restated, and the related trust are designed in accordance with the applicable sections of the IRC. Although, the Plan has been amended since receiving the determination letter, the ESOP Committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Trustee has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

#### ( 11 ) **Risks, uncertainties, and concentration**

The Plan investments consist primarily of the Company’s preferred stock, which is exposed to various risks such as interest rate, market, and credit risk, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Market risks include global events, such as a pandemic or international conflict, which could impact the value of investment securities or the value of the Company’s preferred stock. Due to the level of risk associated with the investment in the preferred stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of the preferred stock will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

#### ( 12 ) **Subsequent events**

The Plan has evaluated subsequent events through September 22, 2025, which is the date the financial statements were available to be issued.
