The Estee Lauder Companies Retirement Growth Account Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of The Estee Lauder Companies Retirement Growth Account Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedules required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - PLAN DESCRIPTION

The following description of The Estee Lauder Companies Retirement Growth Account Plan (the “Plan”) covers employees of certain subsidiaries of The Estee Lauder Companies Inc. and RSL Management Corp. (collectively, the “Company”) and provides only general information. The Company manufactures, markets and sells skin care, makeup, fragrance and hair care products around the world. Participants should refer to the Plan document for a more complete description of the Plan’s provisions, which is available for examination at the Plan administrator’s office. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and subsequent pension legislation.

General

The Plan is a noncontributory, multiple employer defined benefit plan covering substantially all regular full time employees in the United States (except those who are nonresident aliens with no U.S.-sourced income, leased employees, international military salespersons and on call employees) who have worked 1,000 hours or more, as defined by the Plan document. Deciem USA, LLC (“DECIEM”) became a participating employer on January 1, 2025.

The Plan maintains hypothetical cash balance accounts for each participant. Such accounts represent allocated compensation credits (based generally upon years of service and compensation) and interest credits calculated in accordance with the Plan document. As amended, a grandfathering provision exists pursuant to which employees who were participants on December 31, 1990 and who had completed 10 years of service, as defined in the Plan document, on January 1, 1993 or who had attained age 50 and completed five years of service, as defined in the Plan document, as of January 1, 1993 receive benefits equal to the greater of the formula of the Plan prior to amendment or the current Plan, as amended.

Plan Administration

The Plan is administered by The Estee Lauder Inc. Employee Benefits Committee (the “Plan Administrator”) and the day-to-day administration of the Plan is outsourced to Alight Solutions. The Plan’s assets are held in trust by The Northern Trust Company (the “Trustee”). The Estee Lauder Inc. Fiduciary Investment Committee (the “Fiduciary Committee”) has the authority to appoint the trustee and to determine the investments of the Plan.

401(h) Account

The Plan includes a medical-benefit component, in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (the “IRC”). A separate account has been established and maintained in the Plan for the net assets related to the medical-benefit component (“401(h) account”). In accordance with IRC Section 401(h), the Plan’s investments in the 401(h) account may not be used for, or diverted to, any purposes other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not included in this Plan’s obligations which are discussed in Note 6. Plan participants do not contribute to the 401(h) account. Employer contributions to the 401(h) account are subject to Internal Revenue Service (“IRS”) limitations and are made at the discretion of the Company after consulting with Mercer, the enrolled actuary of the Plan. There were no net assets held in the 401(h) account as of December 31, 2024 and 2023.

Related-Party and Party-in-Interest Transactions

Certain assets of the Plan are managed by the Trustee, and such investments amounted to \$14,940,699 and \$9,763,536 at December 31, 2024 and 2023, respectively. The Plan is charged contract administration

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

fees by the Trustee and such investment management services qualify as party-in-interest transactions. Fees recorded by the Plan for investment management services and contract administration to the Trustee were \$24,306 and \$113,506 for the years ended December 31, 2024 and 2023, respectively, and accrued administrative expenses were \$40,523 and \$78,224 at December 31, 2024 and 2023, respectively.

Vesting

Participants who have completed three years of service, as defined in the Plan document, are 100% vested and entitled to receive a retirement benefit at the normal retirement date, or the settlement date, equal to the participant's vested benefits.

Payment of Benefits

Benefits are generally determined based on the participant's hypothetical account balance, with the exception of participants who are eligible to have their benefits calculated according to the grandfathering provision discussed above. On the later of the date on which plan participants attain age 65 or have completed five years of service, as defined in the Plan document, participants are entitled to receive a pension, payable in a lump sum distribution, or a monthly annuity on the first day of each month generally following their termination of employment in an amount calculated in accordance with the normal retirement provisions of the Plan.

The Plan permits early retirement for those retiring before the normal retirement date only on or after attaining both age 55 and completing 10 years of service, as defined in the Plan document. The Plan also permits payment of benefits upon termination of employment to participants who are vested in plan benefits, as defined in the Plan document.

If the actuarial equivalent value of a participant's account does not exceed \$1,000, such value will be automatically paid in a lump-sum in accordance with the Plan.

Upon death in service, the named beneficiary of a vested participant will receive the value of the Plan benefit. For employees who are covered under the grandfathering provision, the surviving spouse (only) is eligible to receive benefits calculated under the prior-plan formula or the current-plan formula, whichever is greater.

Plan Termination Provisions

In the event of termination of the Plan as to all or a particular group of participants or of the complete discontinuance of contributions under the Plan, the participating employer shall have no further obligation. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated: (i) annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan, subject to certain limits as defined by ERISA; (ii) other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations; (iii) all other vested benefits (that is, vested benefits not insured by the PBGC); (iv) all non-vested benefits; (v) to the extent remaining, assets shall be applied to pay for administrative expenses of the Plan; and (vi) to the extent then remaining, assets shall be paid to the Company for its own use and benefit.

Benefits would be paid from then-existing net assets, subject to certain limitations. Benefits in excess of the Plan's assets, if any, would be covered by the PBGC to the extent provided by statute. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the amount of benefit protection is subject to certain limitations. Vested

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. The priority order of participants' claims to the assets of the Plan upon its termination is stipulated in the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. As future events and their effects cannot be determined with precision, actual results could differ significantly from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability, in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date (the exit price). Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded as of the ex-dividend date. Net appreciation in fair value of investments includes realized gains and losses, as well as changes in net unrealized appreciation.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died; and (c) present participants or their beneficiaries. Benefits

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

payable, as calculated in accordance with the Plan, under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to participant service rendered to the date as of which the benefit information is presented (the "Valuation Date").

The actuarial present value of accumulated plan benefits, included in Note 6 is determined by an enrolled actuary with the firm Mercer and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the Valuation Date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

	January 1,	
	2024	2023
Life expectancy of participants	PRI-2012 mortality table projected forward using MP2021 mortality improvement scale with no collar adjustment	PRI-2012 mortality table projected forward using MP2021 mortality improvement scale with no collar adjustment
Assumed average retirement age for grandfathered employees	62 years old	62 years old
Cash balance interest crediting rate	4.50%	4.00%
Investment return (assumed rate of interest which includes a reduction to reflect anticipated administrative expenses)	6.25%	6.25%
Interest rates assumed for conversion from cash balance account to life annuity	Implied forward rates beginning with 5.24%, 5.48% and 5.61% and 2024 417(e) mortality including future improvements	Implied forward rates beginning with 4.77%, 4.97% and 5.13% and 2023 417(e) mortality including future improvements

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

NOTE 3 - INVESTMENTS

Investments consist of a short-term investment fund, interests in common/collective trusts and 103-12 investment entities, interests in limited partnerships and hedge funds, and U.S. government securities.

Short-term investment funds invest in highly-liquid investments with original maturities of three months or less and are held for liquidity purposes. The registered investment companies, interests in common/collective trusts and 103-12 investment entities invest primarily in both common stocks and fixed income securities. Limited partnerships and hedge funds invest primarily in debt and equity securities of public entities, as well as real estate.

See Note 9 - Reconciliation of Financial Statements to Form 5500 for information related to 401(h) account activity.

NOTE 4 - FAIR VALUE MEASUREMENTS

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). Investments for which fair value is measured using net asset value ("NAV") per share (or its equivalent) as a practical expedient shall not be categorized within the fair value hierarchy.

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are based on unadjusted quoted market prices for identical assets or liabilities in active markets at the measurement date that the Plan has the ability to access;

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Also included in Level 2 are investments measured using NAV per share, or its equivalent, that may be redeemed at that NAV at the period end date or in the near term without redemption restrictions; and

Level 3 - Inputs to the valuation methodology are unobservable in the market and significant to the fair value measurement.

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 from December 31, 2023:

Short-Term Investment Fund: The fair values are determined using the NAV provided by the administrator of the fund. These assets are classified within Level 2 of the valuation hierarchy and the Plan has the ability to redeem at the measurement date or within the near term without redemption restrictions.

Interests in Limited Partnerships and Hedge Funds: The fair values are determined using the NAV provided by the administrator of the partnership/fund as a practical expedient to fair value and therefore these investments are not included in the valuation hierarchy.

Interests in Common/Collective Trusts and 103-12 Investment Entities: The fair values for non-publicly traded funds are determined using the NAV provided by the administrator of the fund when the Plan has the ability to redeem the assets at the measurement date or within the near term. When the Plan is utilizing the NAV as a practical expedient those investments are not included in the valuation hierarchy.

U.S. Government Securities: The fair values are determined using third-party pricing services using market prices or prices derived from observable market inputs such as benchmark curves, broker/dealer quotes, and other industry and economic factors.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments, at Fair Value, as of December 31, 2024				
	Level 1	Level 2	Level 3	Investments Measured at NAV	Total

^(a) These funds typically take both long and short positions in primarily publicly traded debt and equity securities, some of which include global exposure including emerging markets, as well as real estate.

^(b) Includes private equity funds that seek out private investments in non-publicly traded securities that include special situations such as distressed, opportunistic, or secondary market positions. These funds will include global exposure, which includes emerging markets. The Plan estimates the lifecycle of these funds to be approximately 10 years from investment to full divestiture.

NOTE 5 - FUNDING POLICY

The Company's funding policy for the Plan seeks to maintain appropriate funded percentages, and for 2024 and 2023 the Plan met or exceeded the minimum funding requirements of ERISA. For any future contributions to the Plan, the Company will seek to contribute an amount or amounts that would not be less than the minimum required by ERISA and subsequent pension legislation and would not be more than the maximum amount deductible for income tax purposes. At December 31, 2024, contributions receivable were \$23,700,000, which were subsequently collected by the Plan in 2025. At December 31, 2023, contributions receivable were \$39,200,000, which were subsequently collected by the Plan in 2024. Employee contributions to the Plan are not permitted.

Additionally, the Company makes discretionary contributions to the 401(h) account from time to time based upon the deductibility limits set by the IRC. There were no contributions made to the 401(h) account in 2024 and 2023.

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 6 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits as of January 1, 2024, the latest valuation date, is as follows:

	<u>2024</u>
Vested benefits:	
Active participants	\$ 371,320,676
Inactive participants with deferred benefits	179,310,898
Inactive participants receiving benefits	<u>185,661,801</u>
	<u>736,293,375</u>
Nonvested benefits	<u>1,945,257</u>
	<u>\$ 738,238,632</u>

The change in the actuarial present value of accumulated plan benefits from January 1, 2023 to January 1, 2024 is as follows:

Actuarial present value of accumulated plan benefits at January 1, 2023	\$ 680,698,171
Increase (decrease) attributable to:	
Benefits accumulated and non-investment (gains) losses	38,830,768
Increase for interest due to decrease in discount period	41,135,926
Benefits paid	(41,581,588)
Change in actuarial assumptions	<u>19,155,355</u>
Net increase	<u>57,540,461</u>
Actuarial present value of accumulated plan benefits at January 1, 2024	<u>\$ 738,238,632</u>

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, 2023 there would be no material differences.

NOTE 7 - TAX STATUS

The Plan obtained its latest favorable determination letter on June 30, 2020, in which the IRS stated that the Plan was in compliance with the applicable requirements of the IRC pending the adoption of certain amendments which became effective for the Plan as of January 1, 2019 (which were subsequently adopted). The Plan Administrator believes that the amended and restated plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon

The Estee Lauder Companies Retirement Growth Account Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following information in the accompanying financial statements and supplemental schedules is complete and accurate:

Discount rate sponsor elections	
Discount rate sponsor election	Full yield curve
Mortality sponsor elections	
All Participants	430(h)(3) prescribed separate generational annuitant and non-annuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1
Non-417(e) lump sums	
Mortality table	Blended 1994 Group Annuity Reserving Table weighted 50% for males and 50% for females, as issued by the IRS.
Interest rate	4.50% per annum based on expected long-term rates of return on 30-year Treasury bonds
Cash balance plans	
Interest accumulation rate	Actual return for valuation year (5.20% for 2024) and long-term rate of 4.50% per annum, based on expected long-term rates of return on 1-year Treasury Constant Maturities (not less than 4%)
Annuity conversion	
Mortality table	2024 IRC Section 417(e) unisex mortality
Interest rate basis	Full Yield Curve
Other economic assumptions	
Salary increases	Age-related where the rates of salary increase by attained age are based on past experience and current plan membership, adjusted to reflect management's expectation of future salary increases. See table of sample rates
Bonus Level	Future bonus level is assumed to remain constant and determined as the average of past three years' bonuses as of the valuation date. This assumption is based on past experience and current plan membership, adjusted to reflect management's expectation of future levels of bonus rewards
Social Security wage base	4.00% per year
Administrative expenses expected to be paid from the assets	\$1,300,000 per annum This is our best estimate of the current year's expenses
Demographic assumptions	
Withdrawal	175% of the Mercer Modified SOA 10-Year Select and Ultimate table for service less than 10 years and 260% of the Mercer Modified SOA 10-Year Select and Ultimate table for service 10 years or greater. This table is deemed to be representative of withdrawal incidence of this plan based on plan experience from 2018-2023 and input from the plan sponsor on future anticipated withdrawal rates. See table of sample rates
Disability incidence	None assumed

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Retirement age	See table of rates by attained age. The rates are deemed to be representative of retirement incidence of this plan based on plan experience from 2018-2023 and input from the plan sponsor on future rates of retirement.
----------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Spouse assumptions	Male participants	Female participants
Spouse age difference	1 year younger	1 years older

Form of payment Upon retirement From active status	<p>Active participants not eligible for retiree medical coverage: 75% of active participants not eligible for retiree medical coverage are assumed to elect a lump sum and remaining 25% are assumed to elect an annuity upon retirement</p>
-----------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Active participants eligible for retiree medical coverage:

Active participants eligible for retiree medical coverage are assumed to make elections according to the following schedule upon retirement:

	<u>Lump Sum</u>	<u>Annuity</u>
Age 55 – 61	50%	50%
Age 62+	30%	70%

100% of those who elect annuities are assumed to be married and elect a 50% Joint and Survivor annuity.

This assumption is based on review of plan experience over the period 2018-2023, and input from the plan sponsor as indicative of long-term expectations of future lump-sums/annuity elections.

Form of payment upon Death	Death benefits are assumed to be paid as a lump-sum
-----------------------------------	-----------------------------------------------------

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Demographic assumptions

Assumption of payment for vested Terminated Participants terminated participants

Future vested terminations:

- Active participants not retirement eligible are assumed to make elections according to the following schedule upon termination:

Immediate Lump Sum	Deferred to age 63 Lump Sum	Deferred to age 63 Life Annuity
20%	68%	12%

Current vested terminated:

- Vested terminated participants who terminated within 1 year prior to valuation date are assumed to make elections according to the following schedule:

Immediate Lump Sum	Deferred to age 63 Lump Sum	Deferred to age 63 Life Annuity
20%	68%	12%

- Vested terminated participants who terminated more than 1 year prior to the valuation date are assumed to make elections according to the following schedule:

Deferred to age 63 Lump Sum	Deferred to age 63 Life Annuity
85%	15%

- Vested terminated participants who terminated under the prior plan provisions (before January 1, 1991) are assumed to elect an annuity at age 65
- Grandfathered participants who terminated prior to retirement eligibility and have deferred payment are valued with a 35% load to their cash balance accounts as an approximation of the value of the grandfathered lump-sum benefit entitlement

This assumption is based on review of plan experience over the period 2018-2023, and input from the plan sponsor as indicative of long-term expectations of future lump-sums/annuity elections

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
 - *Active participants:* Benefits for grandfathered participants assumed to retire after age 65 reflect the late retirement actuarial increase.
 - *Deferred vested participants:* Benefits for prior plan or grandfathered deferred vested participants over normal retirement age reflect the late retirement actuarial increase.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, none are included.
- **IRC Section 415(b) and 401(a)(17):** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.
- **Disability:** The disability benefit is valued implicitly. No explicit disability incidence rate is included in the actuarial assumptions.

Section 416 of the Internal Revenue Code: Specifies additional requirements for plan qualification, which could affect benefit accruals and funding if the present value of benefits for key employees equals or exceeds 60% of the present value of benefits for all employees. Such a plan is said to be top-heavy. We performed no special test regarding the portion of accumulated benefits attributable to key employees. However, we expect that the RGA Plan is not top-heavy due to the large number of rank-and-file participants; therefore, the above contributions do not reflect any liability for top-heavy benefit accruals.

Asset methods

We used financial data submitted by the trustee as of January 1, 2024 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The Retirement Growth Account Pension Plan's funding asset valuation method is the fair market value.

Liabilities and normal cost are allocated to each employer based on individual results. As is permissible for a de minimis employer in a multiple employer plan, assets are allocated to RSL Management each year such that the RSL Management funded status equals total plan funded status on not-at-risk target liability.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- A **past service benefit** is determined as the projected benefit provided by the Account Balance on the valuation date with the addition of future interest credits to retirement or other termination date. In the case where final average pay formula is applicable, the past service benefit can be no less than the projected benefit provided by the lump-sum actuarial equivalent (as of the retirement or other termination date) of the final average pay formula annuity earned as of the valuation date.
- The **annual service benefit** is determined as the projected benefit provided by the current year's pay-based credit with interest credits to retirement or other termination date. In the case where a final average pay formula is applicable, the annual service benefit can be no less than the current year increase in the projected benefit provided by the lump-sum actuarial equivalent (as of the retirement or other termination date) of the final average pay formula annuity earned during the current year.
- An **accrued liability** is calculated at the valuation date as the actuarial present value of past service benefits for active participants and the actuarial present value of accrued benefits for all other participants.
- The plan's **target normal cost** is the sum of the present value of the annual service benefit for each active participant who has not yet attained the assumed retirement age plus an annual expense load to cover annual administration fees payable from the trust, and the plan's **target liability** is the sum of accrued liabilities for each participant.

Schedule SB — Information for Each Individual Employer**Minimum required contribution – by employer**

The minimum required contribution under IRC Section 430 is equal to the target normal cost plus the shortfall amortization charge plus the waiver amortization charge. The target normal cost is based on the increase in pension benefits during the current plan year plus expected expenses while the shortfall and waiver amortizations are based on the funding shortfall and amount of contribution waived, respectively.

	Estee Lauder Inc.	RSL Management
Target normal cost adjusted by excess assets	\$ 33,329,238	\$ 178,291
Shortfall amortization charge	0	0
