INDEPENDENT AUDITORS' REPORT

Participants and Plan Administrator
Evonik Corporation Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Evonik Corporation Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, the related statement of accumulated plan benefits as of December 31, 2023 and the related statement of changes in accumulated plan benefits for the year ended December 31, 2023 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to, or derived from, the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Evonik Corporation Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Evonik Corporation Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4j—Schedule Reportable Transactions and Schedule H, Line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

Participants and Administrator
Evonik Corporation Retirement Plan

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to, or derived from, the certified investment information, including their form and content, are presented in conformity with the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA.
- The information in the supplemental schedules related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN

General

The Evonik Corporation Retirement Plan (Plan), formerly known as the Evonik Degussa Corporation Retirement Plan, was established by Evonik Corporation (Company or Sponsor) on January 1, 1971, as a noncontributory, defined-benefit pension plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Evonik Corporation Administrative and Investment Committees (Plan Administrator). The Plan covers all eligible employees of the Company. The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan Document for more complete information. The Plan holds a 100% interest in a Master Trust, which contains investments that all relate to the Plan, as well as minor investments in two insurance contracts.

Eligibility

All employees who were hired, rehired, localized or would have otherwise been eligible to participate in the Plan on or after April 1, 2008, are not allowed to enter into the Plan due to an amendment. This amendment has no impact on the actuarial assumptions for employees in the Plan before April 1, 2008. Employees who were not eligible before April 1, 2008, but would have subsequently become eligible, are not allowed to participate in the Plan. Employees who were hired before April 1, 2008, to work for an affiliated company who subsequently adopted the Plan are not eligible to participate in the Plan. In addition, employees who were hired before April 1, 2008, and transfer within, or among, one U.S. affiliated company to another are not eligible to participate in the Plan.

If an employee was hired before April 1, 2008, they became a participant of the Plan if they were employed (i) on a basis in which they were scheduled to work at least 28 hours of service in a week and were not seasonal or temporary employees (regular full-time employee) or (ii) were not regular full-time employees and had been credited with at least 1,000 hours of service for the 12-consecutive-month period commencing with the employee's first hour of service, or had been credited with at least 1,000 hours of service for any Plan year beginning after their first hour of service; and were not covered by a collective bargaining agreement unless inclusion is provided for in the agreement, were not covered by a pension plan maintained by an affiliated company outside of the United States, and were not an employee who transferred from a non-U.S. affiliated company and were not localized in the United States.

Plan Benefits

Participants employed on or after July 1, 2003, receive a pay credit for each payroll period equal to 6% of eligible compensation, as defined by the Plan. In addition to the pay credit, participants receive an interest credit determined each year by the annual rate of interest on 30-year Treasury securities for September of the prior Plan year.

Effective July 1, 2003, under the cash balance formula, a participant's retirement benefit shall be equal to the sum of the opening cash balance account, cash balance credit for each pay period after the amendment date, and interest credits. Cash-balance participants may receive benefits in the form of a life annuity, a joint-and-survivor annuity, a period-certain annuity, or in a lump sum up to their vested interest.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Benefits (Continued)

Under the Plan's traditional formula, the annual retirement benefit payable at the normal retirement date shall be equal to the sum of: (a) 1.1% of the highest consecutive five-year average compensation, as defined by the Plan, times the amount of benefit service up to a maximum of 40 years, plus (b) 0.5% of such highest consecutive average compensation in excess of covered compensation times the amount of benefit service to a maximum of 35 years, minus the annual benefit payable under any prior plan. Years of benefit service are credited under the elapsed-time method. Covered compensation is generally the average of the Social Security taxable wage base over a 35-year period.

Employees who are currently receiving benefits and are rehired after March 31, 2008, will not be eligible to accrue additional benefits under the Rules of 45 and 50. Benefits accrued before the date of rehire will be paid under the Rules of 45 and 50. The employees will be eligible to accrue additional benefits under the cash-balance formula.

Participants who were hired, or last rehired, by RohMax USA, Inc., or RohMax USA, LP, prior to January 1, 2007, have their benefits determined under the provisions set forth in the RohMax plan document in effect immediately prior to the merger into the Plan.

Participants who were hired, or last rehired, by Stockhausen Louisiana, LLC, prior to April 1, 2006, have their benefits determined under the provisions set forth in the Stockhausen Louisiana, LLC, plan document in effect immediately prior to July 1, 2003.

The Plan was amended, effective January 1, 2012, to modify the provisions regarding lump-sum distributions options and lump-sum-related recovery of benefit provisions.

The Plan was amended, effective December 31, 2013, to align the Plan Document and Plan operation with regard to the calculation of the final average earnings for the period beginning January 1, 2004 and ending June 30, 2009. In addition, a new formula was adopted for the Cyro portion of the salaried plan to be compared to the current formulas for determining the highest benefit applicable at commencement.

Effective as of December 31, 2014, the Silbond Plan was merged into the Plan. With respect to Plan participants who were participants in the Silbond Plan on December 31, 2014, their benefits shall continue to be determined under the provisions set forth in the Silbond Plan as it existed prior to the December 31, 2014, merger into this Plan.

Effective December 31, 2015, 900 participants were transferred from the Plan to the Evonik Corporation 401(k) Savings Plan. For each payroll period, if an eligible participant was receiving either a 6% or 9% special cash-balance credit under the Plan as of December 31, 2015, then the Plan shall credit such eligible participants' Evonik Retirement Accounts with an amount of Evonik Retirement Contributions equal to either 6% or 9% of the participant's compensation.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Benefits (Continued)

The Plan was amended to freeze benefit accruals for those in only the cash-balance formula (pay credits frozen) effective December 31, 2015, and for those in a legacy formula effective December 31, 2024.

Effective as of December 31, 2016, the SEIU F&O Plan was merged into the Plan. With respect to Plan participants who were participants in the SEIU F&O Plan on December 31, 2016, their benefits shall continue to be determined under the provisions set forth in the SEIU F&O Plan as it existed prior to the December 31, 2016, merger into this Plan.

Rule of 50

The Rule of 50 is defined as the sum of a participant's years of service and age as of July 1, 2003. If the sum is equal to or greater than 50 and the participant meets special status, as defined in the Plan, the participant is entitled to the greater of an enhanced 9% pay credit or the Plan's traditional formula. The excess of the traditional-benefits formula over the cash balance formula can be distributed in the form of an annuity or a lump sum. Grandfathered participants may also be eligible for reduced monthly benefits in the event of early retirement or disability.

Rule of 45

The Rule of 45 is defined as the sum of a participant's years of service and age as of July 1, 2003. If the sum is equal to or greater than 45 and the participant meets special status, as defined in the Plan, the participant is entitled to an enhanced 9% pay credit.

Pay credits for the Health and Nutrition employees are age-weighted and range from 3% to 16%.

Benefits payable under all circumstances - retirement, death, disability and termination of employment are included to the extent they are deemed attributable to employee service rendered to the valuation date.

An employee who elects to receive a distribution before or after age 65 will have their distribution reduced or increased by the lesser of the calculation under the Plan Document or the actuarial equivalent of the dollar limitation computed utilizing a 5% interest rate and the applicable mortality table as defined by the Plan.

In addition to retirement benefits, the Plan provides disability benefits and preretirement, spousal death benefits.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Evonik Cyro, LLC Benefits

Former participants of the Evonik Cyro, LLC Employees' Retirement Plan receive the following benefits.

Normal Retirement Benefit

The annual pension benefit is available at the normal retirement date, age 65, and is an amount equal to the sum of (a), (b) and (c) but not less than (d):

- (a) For service, as defined, prior to January 1, 1984, the greater of:
 - (i) The pension accrued under the Career Pay Formula under the American Cyanamid Company Retirement Plan (Cyanamid Plan) (before the 1985 amendment) for service prior to 1984
 - or
 - (ii) $[(1\% \times \text{earnings, as defined, as of September 1, 1983, not in excess of } \$35,700) + (1.25\% \times \text{earnings as of September 1, 1983, in excess of } \$35,700)]$ multiplied by years of service, as defined, prior to 1984
- (b) For each year of service from January 1, 1984, through December 31, 1988: $(1.25\% \times \text{earnings not in excess of the Social Security tax wage base, as defined in the American Cyanamid Company Retirement Plan}) + (1.5\% \times \text{earnings in excess of the Social Security tax wage base, as defined in the American Cyanamid Company Retirement Plan})$
- (c) For each year of service beginning after December 31, 1988: $1.25\% \times \text{earnings}$
- (d) $[(1.67\% \times \text{final average earnings}) \times (\text{years of service})]$ minus $[1.67\% \times \text{primary Social Security benefit} \times (\text{years of service})]$ (Maximum of 30 years) However, in no event shall the Social Security offset exceed 50% of the Social Security benefit.

For service prior to January 1, 1994, earnings shall be as defined in the Cyanamid Plan.

The normal retirement age under the Plan is 65. The normal form of payment for a married participant with an eligible spouse is a 50% joint-and-survivor annuity. The normal form of payment for other participants is a life annuity. As alternatives to the normal form of payments participants may receive their benefits as a pop-up annuity option or another option actuarially equivalent to the options offered by the Plan.

All benefits and pay for any calendar year may not exceed the maximum limitations for each year as defined in the Internal Revenue Code.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Cyro Early Retirement Benefit

A participant may elect the early retirement payment, provided that they are at least 55 years of age. If benefits are payable to a participant on an early retirement date, they shall be reduced as follows:

- (a) For participants with less than 20 years of service (vested under the Rule of 65) less 3% for each year (.25% for each month) by which the benefit commences prior to age 65.
- (b) For participants with 20 or more years of service (vested under the Rule of 65) less 3% for each year (.25% for each month) by which the benefit commences prior to age 62, with no reduction after age 62.
- (c) For participants with less than 20 years of service (vested under the 5-year rule) – actuarially reduced for each month by which the benefit commences prior to age 65.

The Rule of 65 is defined as the sum of a participant's years of service and age. If the sum is equal to or greater than 65, the participant is entitled to a more beneficial benefit than under the five-year rule.

Early Retirement Benefit

Cytec Plastics, LLC employees participate in the Plan. Service for these employees shall be accounted for only for purposes of satisfying eligibility for the Rule of 65 and the Disability Rule of 65 and for purposes of calculating any reduction for early commencement of an early retirement benefit or deferred vested benefit, and not for purposes of benefit accrual.

If the participant was a union employee of Cytec Plastics, LLC immediately before the acquisition and became an employee of the Company, such participant's normal retirement benefit shall be equal to 1.33% of the participant's compensation for each year of service and portion thereof beginning on the date of acquisition.

Retirement Benefits for Certain Union Employees of the Piscataway Location

Former participants of the Evonik Degussa Hourly Retirement Plan receive the following benefits.

The monthly retirement income benefit for each participant is determined as follows:

- (a) Piscataway maintenance employees: Effective April 1, 2003, \$40.00 per month for each year of service.
- (b) For locations no longer in existence: The Plan currently covers only retired participants, beneficiaries and former employees with deferred vested benefits. All benefits are determined based on Plan provisions in effect at the participant's termination.

DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Retirement Benefits for Certain Union Employees of the Piscataway Location (Continued)

The normal form of payment for a married participant with an eligible spouse is a 50% joint-and-survivor annuity. The normal form of payment for other participants is a life annuity with 5- or 10-year annuities depending on the location in which they worked. As alternatives to the normal form of payments, participants may receive their benefits as a joint-and-survivor annuity, with various percentages of the benefit continuing to a survivor, as well as certain life options with a 5-, 10-, or 15-year guarantee depending on the location of employment.

Evonik Goldschmidt Benefits

Former participants of the Pension Plan for Certain Union Employees of Evonik Goldschmidt receive the following benefits.

Normal Retirement Benefit

The Plan provides that a participant who retires on their normal or postponed retirement date receives a monthly benefit equal to 1/12 of the greatest of (a) or (b) below:

- (a) The participant's annual accrued benefit on March 5, 2005; or,
- (b) For each Plan year during which an employee has participated and completed at least 350 hours of service, 1.35% of the participant's earnings (not counting certain specified earnings) multiplied by years of participation.

The maximum annual benefit for any participant cannot exceed (1) the participant's accrued benefit as of December 31, 1984, when aggregated with the participant's accrued benefit under all other defined-benefit plans maintained by the Company or affiliated groups, or (2) the lesser of (i) \$195,000 or (ii) 100% of the average annual compensation over the three consecutive years with the greatest aggregate compensation.

The normal form of payment for a married participant with an eligible spouse is a 50% joint-and-survivor annuity. The normal form of payment for other participants is a life annuity. As alternatives to the normal form of payments, participants may receive their benefits as a joint-and-survivor annuity, with various percentages of the benefit continuing to a survivor, as well as certain life options with a 10-year guarantee.

Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Disability Benefits

Disability benefits are available to participants who have completed 15 or more years of service. All locations have a six-month, total disability waiting period.

The Plan provides for full crediting of vesting and benefit service for participants who become totally and permanently disabled.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Death Benefits

Death benefits are payable for married, vested participants who die prior to benefit commencement provided the participant was eligible for Plan benefits and the benefits have not commenced.

Retirement Date

Participants' normal retirement date shall be the first day of the month coinciding with or following their 65th birthday.

A participant may retire on the first day of any month coincident with or following their 55th birthday. The pension will be reduced, unless 30 years of vesting service have been completed, if the participant elects to receive the pension benefits before reaching age 62.

A participant who terminates employment with the Company, after having completed at least 30 years of vesting service and before reaching age 62, will be entitled to a full, monthly benefit for life with no reduction for early commencement of benefits.

Vesting

Vesting is generally based on years of service measured from the date of employment commencement until the participant's severance from service, with 12 months of service equal to one full year of service. A participant is fully vested generally upon obtaining the earlier of three years of service or the age of 65. Participants withdrawing for reasons other than retirement, death, or disability will forfeit the nonvested portion of the accrued benefit.

Retirement Date

A participant's normal retirement date shall be the first day of the month coinciding with, or following, their 65th birthday.

A participant may retire on the first day of any month coincident with, or following, their 55th birthday. The participant will generally receive the actuarial equivalent of the cash balance account.

For the Rule-of-50 participants under the prior formula, benefits are calculated under the normal retirement allowance based on compensation and benefit service as of the early retirement date with an actuarial reduction of benefits for participants retiring before age 62.

Rule-of-50 participants not under the prior formula benefits will have their benefits actuarially reduced if they retire before attaining the age of 65.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interest in Master Trust

The Master Trust currently consists of certain assets of the Plan. The interest in the Master Trust represents the Plan's proportionate share of assets held in the Master Trust. The assets of the Master Trust consist of common/collective funds, futures contracts, pooled separate accounts, mutual funds, and fixed income securities along with accrued interest and other payables.

Investments are valued at fair market value. The fair value of marketable securities is based on quotations obtained from national securities exchanges. Where marketable securities are not listed on an exchange, quotations are obtained from the trustees.

The Plan accounts for securities transactions on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The gain or loss recognized on the sale of securities is based on the average cost of securities.

Investment Income

The Plan's interest in the Master Trust net investment income, as reflected in the statements of changes in net assets available for plan benefits, represents the Plan's proportionate share of the net investment income from the Master Trust. The Plan's net investment income from the Master Trust includes interest and dividend income and net appreciation in the fair value of investments, which also includes net gains (losses) realized upon disposition of investments and net unrealized appreciation (depreciation) of investments. The investment income is allocated to the participating plans based upon the relationship of their accumulated daily balances in the investment pool to the total investment of the Master Trust.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan Document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net additions to net assets presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated its subsequent events and transactions occurring after December 31, 2024, through September 17, 2025, the date the financial statements were available to be issued.

NOTE 3 INFORMATION CERTIFIED BY THE QUALIFIED INSTITUTIONS

Empower Annuity Insurance Company of America and Empower Trust Company, LLC, the qualified institutions of the Plan, have supplied the Plan administrator with certifications as to the completeness and accuracy of investments as of December 31, 2024 and 2023, in the accompanying financial statements and ERISA-required supplemental schedule. Prudential Retirement Insurance Company, the custodian, and Prudential Bank & Trust, the trustee of the Plan for the period January 1, 2023 through April 1, 2023 and Empower Annuity Insurance Company of America and Empower Trust Company, LLC, the custodians of the plan for the period April 2, 2023 through December 31, 2024, have supplied the Plan administrator with certifications as to the completeness and accuracy of investment income for these periods.

AXA Equitable Life Insurance Company – Immediate Participation Guarantee Funds as of December 31, 2024 and 2023 and related income for the years ended December 31, 2024 and 2023 are not certified.

Persuant to certain reinsurance and administration agreements entered into between Empower Annuity Insurance Company of America (formerly Great-West Life & Annuity Insurance Company and Prudential Financial, Inc. (Prudential) which includes Prudential Retirement Insurance Company and Prudential Bank & Trust), Prudential has appointed Empower as Prudential's administrative agent and attorney-in-fact to perform all necessary administrative service for the group variable annuity contracts and the funding agreements issued by Prudential.

NOTE 4 FAIR VALUE MEASUREMENTS

Fair value measurements establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies used as of December 31, 2024.

Common/Collective Trusts and Pooled Separate Accounts: Valued at the net asset value (NAV) of units of a bank collective trust or a pooled separate account. NAV is a readily determinable fair value and is the basis for current transactions. (Level 2 inputs)

Registered Investment Companies/Mutual Funds/Money Market: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. (Level 1 inputs)

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Fixed Income: Valued at the daily closing price as reported by the fund. (Level 2 inputs)

Insurance Contracts: Funds placed with AXA Equitable Life Insurance Company (AXA Equitable) are invested in interest-bearing accounts and are stated at fair value. The account provides for stable, competitive interest rates based on current market conditions through investments in fixed income securities having short-to-intermediate maturities.

Futures Contracts: Valued at the closing price on the exchange for each specified contract. (Level 2 inputs)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the assets in the Master Trust at fair value as of December 31, 2024 and 2023:

2024				
	Level 1	Level 2	Level 3	Total

NOTE 5 FUTURES CONTRACTS

The Plan is party to derivative financial instruments in accordance with the investment strategy, including futures contracts, that may give rise to varying degrees of off-balance-sheet market and credit risk. The credit risk associated with these instruments are controlled through the evaluation and continual monitoring of the creditworthiness of the counter parties. In the event that a counter party fails to meet the terms of a contract or agreement, the Plan's exposure should be limited to the currency rate differential or futures contract differential. Market risk arises from the potential for changes in value of financial instruments resulting from fluctuations in interest and exchange rates and in prices of debt and equity securities. The investment managers generally limit the Plan's market risk by holding or purchasing offsetting positions.

The estimated fair value of the futures contracts were gross assets of \$80,110 and \$1,963,689 at December 31, 2024 and 2023, respectfully.

Any gains or losses recognized on futures contracts are recognized in current year investment income. For the years ended December 31, 2024 and 2023, the amount of loss recognized as master trust investments income in the statement of changes in net assets available for benefits attributable to future contracts was \$615,688 and \$865,053, respectively.

NOTE 6 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired, disabled, or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 6 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated Plan benefits is determined by an actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial cost method used is the unit-credit method.

The significant actuarial assumptions used in the valuation of accumulated Plan benefits as of January 1, 2024 and 2023, were (a) an assumed discount rate of 5.16% and 5.50% in 2024 and 2023, respectively, (b) retirement-age assumptions (age-specific rates from age 55), and (c) life expectancy of participants under the healthy mortality assumption using the Pri-2012 mortality tables for male and female employees and annuitants projected generationally from 2012 using scale MP-2021. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 7 FUNDING POLICY

The Company's funding policy is to make annual contributions to the Plan in amounts that are sufficient to comply with, at a minimum, the funding requirements of ERISA. The Company's contributions for each of the years ended December 31, 2024 and 2023, was \$28,000,000, which exceeded the minimum funding requirements for each year.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 8 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire in that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 8 PLAN TERMINATION (CONTINUED)

- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to applicable limitations (discussed below).
- (c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age-retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

For Plan terminations occurring during 2024, the ceiling was \$7,108 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants, or for those who receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Benefit improvements attributable to Plan amendments effective within five years of Plan termination are not fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter, dated January 27, 2021, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and the related trust is tax-exempt. The Plan Administrator and management of the Company believe that the Plan, as subsequently amended, conforms to ERISA requirements and continues to qualify as tax-exempt under the IRC. Accordingly, no provision has been made for federal income taxes.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 9 TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions and completed an audit from the Internal Revenue Service for the 2019 Plan year. As of the date of these financial statements, the matter has been completed and closed without findings. There has been no correspondence from the Internal Revenue Service other than the result of this audit.

NOTE 10 RISKS AND UNCERTAINTIES

The assets of the Plan are invested in financial instruments that are liquid, readily tradable, and subject to fluctuations in fair value. General market and economic conditions have a significant impact on the Plan's investment performance. Investments are subject to risk conditions of the individual fund objectives, equity market fluctuations, interest rates, economic conditions, and world affairs. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 11 PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of funds managed by Empower Annuity Insurance Company and Empower Trust Company, the qualified institutions of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Compensation Increases

For purposes of determining the Target Normal Cost and the additional Funding Target for maximum deductible contribution purposes, an age-graded salary scale is assumed, averaging 3.5% per annum based on the current non-Hourly active population. The rates are shown below by age.

Attained Age	Salary Scale
under 30	6.5%
30 – 34	6.0%
35 – 39	5.0%
40 – 44	4.5%
45 – 49	4.0%
50 – 59	3.0%

Future Increases in Social Security

Social security benefits are assumed to increase in the future due to increases in the national average wage index of 3.00% per year compounded annually and due to increases in the cost of living of 3.00% per year compounded annually.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Plan Compensation

Compensation assumed paid in the current year beginning on the valuation date equals the annualized plan compensation paid in the prior year increased by 3.5%.

Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

For disabled lives, the PPA prescribed table under Revenue Ruling 96-7 was used.

For ASC 960 purposes, the healthy mortality assumption is the Pri-2012 mortality tables for male and female employees and annuitants projected generationally from 2012 using scale MP-2021.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Form of Payment

Cash Balance and Rule of 50 Participants

80% of retiring employees are assumed to elect a lump sum. 80% of employees who terminate prior to reaching retirement eligibility age are assumed to elect a lump sum.

If the participant is grandfathered under the Rule of 50 provisions, the lump sum payable is the greater of the present value of the grandfathered benefit and the cash balance account. In all other cases, the lump sum payable to the participant is the cash balance account.

Legacy Oil Additives Formula

80% of retiring employees are assumed to elect a lump sum. 100% of employees who terminate prior to reaching retirement eligibility age are assumed to elect a lump sum.

Legacy Cyro Formula

50% of retiring employees are assumed to elect a lump sum. 75% of employees who terminate prior to reaching retirement eligibility age are assumed to elect a lump sum. The remainder are assumed to elect annuities in the following optional forms:

- All single participants are assumed to elect life annuities. For married participants, 70% are assumed to elect life annuities, while the remaining 30% are assumed to elect 50% joint and survivor annuities.
- Current inactive Cyro participants are assumed to defer commencement to age 61.

Legacy Hourly Formula

50% of retiring employees are assumed to elect a lump sum. 75% of employees who terminate prior to reaching retirement eligibility age are assumed to elect a lump sum. The remainder are assumed to elect the normal form.

Benefits not Included in Valuation

We believe that we have reflected all significant Plan provisions in this valuation.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favourable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated

by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyse the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions

Liabilities for funding are based on prescribed changes in discount rate and mortality:

- The long-term interest crediting rate beginning in 2024 for cash balance accounts was decreased from 4.50% to 3.91%, reflecting Evonik's long-term assumption that the interest crediting rate is equal to the discount rate for IAS 19 accounting purposes as of the most recent year-end measurement date less 125 basis points

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2021 plan year, discounted using the effective interest rate for the 2021 plan year.
Tax Policy	The actuarial valuation performed for the plan year ending December 31, 2024 is used to determine the maximum deductible contribution for the tax year ending December 31, 2024.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Rates of increase in Compensation	An age-graded salary scale is used, ranging from 6.5% to 2.5%, with an average of 3.5%. The 3.5% weighted average consists of a 2.5% inflation assumption, an approximate 0.5% increase in productivity, and an age-based merit component averaging 0.5% for the group as a whole. Based on measurement-specific factors including the industry (chemicals), geography, and Evonik’s compensation practices, Evonik believes the age-graded salary scale is appropriate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Evonik elected to adopt the Society of Actuaries 2003 combined termination rate table for the Salaried portions of the Salaried Plan, based on the 2016 experience study recommendations. This table provides a good fit to the actual historical termination patterns as well as to expected future experience. These rates were reevaluated during the 2021 experience study and determined to still be an accurate representation of actual experience.
Disability	At FY11 disclosure, the incidence of disability was increased for the pension plans to align with the OPEB LTD assumption selected by Evonik. These rates, which are 125% of the 1985 Watson Wyatt Class I disability table, continue to be used. These rates were reevaluated during the 2021 experience study and determined to still be an accurate representation of actual experience.
Retirement	Evonik based its retirement rates on a 2016 experience study; these rates range from 5% at age 55 to 100% at age 70, for all portions of the Salaried Plan. These retirement rates result in an average retirement age of approximately 62, which we believe to be reasonable when compared to other pension plans with similar design characteristics. These rates were reevaluated during the 2021 experience study and determined to still be an accurate representation of actual experience.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit
The assumed commencement age for the various legacy groups takes into consideration the early retirement subsidy applicable to the group.

Form of payment

The percentage of retiring participants assumed to take lump sums is based on observed experience over the period 2015-2020 as disclosed in the 2021 experience study.

Percent married

The assumed percentage married is based on the most recent U.S. census data available.

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

INDEPENDENT AUDITORS' REPORT

Participants and Plan Administrator
Evonik Corporation Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Evonik Corporation Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, the related statement of accumulated plan benefits as of December 31, 2023 and the related statement of changes in accumulated plan benefits for the year ended December 31, 2023 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to, or derived from, the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Evonik Corporation Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Evonik Corporation Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4j—Schedule Reportable Transactions and Schedule H, Line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to, or derived from, the certified investment information, including their form and content, are presented in conformity with the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA.
- The information in the supplemental schedules related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN

General

The Evonik Corporation Retirement Plan (Plan), formerly known as the Evonik Degussa Corporation Retirement Plan, was established by Evonik Corporation (Company or Sponsor) on January 1, 1971, as a noncontributory, defined-benefit pension plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Evonik Corporation Administrative and Investment Committees (Plan Administrator). The Plan covers all eligible employees of the Company. The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan Document for more complete information. The Plan holds a 100% interest in a Master Trust, which contains investments that all relate to the Plan, as well as minor investments in two insurance contracts.

Eligibility

All employees who were hired, rehired, localized or would have otherwise been eligible to participate in the Plan on or after April 1, 2008, are not allowed to enter into the Plan due to an amendment. This amendment has no impact on the actuarial assumptions for employees in the Plan before April 1, 2008. Employees who were not eligible before April 1, 2008, but would have subsequently become eligible, are not allowed to participate in the Plan. Employees who were hired before April 1, 2008, to work for an affiliated company who subsequently adopted the Plan are not eligible to participate in the Plan. In addition, employees who were hired before April 1, 2008, and transfer within, or among, one U.S. affiliated company to another are not eligible to participate in the Plan.

If an employee was hired before April 1, 2008, they became a participant of the Plan if they were employed (i) on a basis in which they were scheduled to work at least 28 hours of service in a week and were not seasonal or temporary employees (regular full-time employee) or (ii) were not regular full-time employees and had been credited with at least 1,000 hours of service for the 12-consecutive-month period commencing with the employee's first hour of service, or had been credited with at least 1,000 hours of service for any Plan year beginning after their first hour of service; and were not covered by a collective bargaining agreement unless inclusion is provided for in the agreement, were not covered by a pension plan maintained by an affiliated company outside of the United States, and were not an employee who transferred from a non-U.S. affiliated company and were not localized in the United States.

Plan Benefits

Participants employed on or after July 1, 2003, receive a pay credit for each payroll period equal to 6% of eligible compensation, as defined by the Plan. In addition to the pay credit, participants receive an interest credit determined each year by the annual rate of interest on 30-year Treasury securities for September of the prior Plan year.

Effective July 1, 2003, under the cash balance formula, a participant's retirement benefit shall be equal to the sum of the opening cash balance account, cash balance credit for each pay period after the amendment date, and interest credits. Cash-balance participants may receive benefits in the form of a life annuity, a joint-and-survivor annuity, a period-certain annuity, or in a lump sum up to their vested interest.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Benefits (Continued)

Under the Plan's traditional formula, the annual retirement benefit payable at the normal retirement date shall be equal to the sum of: (a) 1.1% of the highest consecutive five-year average compensation, as defined by the Plan, times the amount of benefit service up to a maximum of 40 years, plus (b) 0.5% of such highest consecutive average compensation in excess of covered compensation times the amount of benefit service to a maximum of 35 years, minus the annual benefit payable under any prior plan. Years of benefit service are credited under the elapsed-time method. Covered compensation is generally the average of the Social Security taxable wage base over a 35-year period.

Employees who are currently receiving benefits and are rehired after March 31, 2008, will not be eligible to accrue additional benefits under the Rules of 45 and 50. Benefits accrued before the date of rehire will be paid under the Rules of 45 and 50. The employees will be eligible to accrue additional benefits under the cash-balance formula.

Participants who were hired, or last rehired, by RohMax USA, Inc., or RohMax USA, LP, prior to January 1, 2007, have their benefits determined under the provisions set forth in the RohMax plan document in effect immediately prior to the merger into the Plan.

Participants who were hired, or last rehired, by Stockhausen Louisiana, LLC, prior to April 1, 2006, have their benefits determined under the provisions set forth in the Stockhausen Louisiana, LLC, plan document in effect immediately prior to July 1, 2003.

The Plan was amended, effective January 1, 2012, to modify the provisions regarding lump-sum distributions options and lump-sum-related recovery of benefit provisions.

The Plan was amended, effective December 31, 2013, to align the Plan Document and Plan operation with regard to the calculation of the final average earnings for the period beginning January 1, 2004 and ending June 30, 2009. In addition, a new formula was adopted for the Cyro portion of the salaried plan to be compared to the current formulas for determining the highest benefit applicable at commencement.

Effective as of December 31, 2014, the Silbond Plan was merged into the Plan. With respect to Plan participants who were participants in the Silbond Plan on December 31, 2014, their benefits shall continue to be determined under the provisions set forth in the Silbond Plan as it existed prior to the December 31, 2014, merger into this Plan.

Effective December 31, 2015, 900 participants were transferred from the Plan to the Evonik Corporation 401(k) Savings Plan. For each payroll period, if an eligible participant was receiving either a 6% or 9% special cash-balance credit under the Plan as of December 31, 2015, then the Plan shall credit such eligible participants' Evonik Retirement Accounts with an amount of Evonik Retirement Contributions equal to either 6% or 9% of the participant's compensation.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Benefits (Continued)

The Plan was amended to freeze benefit accruals for those in only the cash-balance formula (pay credits frozen) effective December 31, 2015, and for those in a legacy formula effective December 31, 2024.

Effective as of December 31, 2016, the SEIU F&O Plan was merged into the Plan. With respect to Plan participants who were participants in the SEIU F&O Plan on December 31, 2016, their benefits shall continue to be determined under the provisions set forth in the SEIU F&O Plan as it existed prior to the December 31, 2016, merger into this Plan.

Rule of 50

The Rule of 50 is defined as the sum of a participant's years of service and age as of July 1, 2003. If the sum is equal to or greater than 50 and the participant meets special status, as defined in the Plan, the participant is entitled to the greater of an enhanced 9% pay credit or the Plan's traditional formula. The excess of the traditional-benefits formula over the cash balance formula can be distributed in the form of an annuity or a lump sum. Grandfathered participants may also be eligible for reduced monthly benefits in the event of early retirement or disability.

Rule of 45

The Rule of 45 is defined as the sum of a participant's years of service and age as of July 1, 2003. If the sum is equal to or greater than 45 and the participant meets special status, as defined in the Plan, the participant is entitled to an enhanced 9% pay credit.

Pay credits for the Health and Nutrition employees are age-weighted and range from 3% to 16%.

Benefits payable under all circumstances - retirement, death, disability and termination of employment are included to the extent they are deemed attributable to employee service rendered to the valuation date.

An employee who elects to receive a distribution before or after age 65 will have their distribution reduced or increased by the lesser of the calculation under the Plan Document or the actuarial equivalent of the dollar limitation computed utilizing a 5% interest rate and the applicable mortality table as defined by the Plan.

In addition to retirement benefits, the Plan provides disability benefits and preretirement, spousal death benefits.

Evonik Cyro, LLC Benefits

Former participants of the Evonik Cyro, LLC Employees' Retirement Plan receive the following benefits.

Normal Retirement Benefit

The annual pension benefit is available at the normal retirement date, age 65, and is an amount equal to the sum of (a), (b) and (c) but not less than (d):

- (a) For service, as defined, prior to January 1, 1984, the greater of:
 - (i) The pension accrued under the Career Pay Formula under the American Cyanamid Company Retirement Plan (Cyanamid Plan) (before the 1985 amendment) for service prior to 1984
 - or
 - (ii) $[(1\% \times \text{earnings, as defined, as of September 1, 1983, not in excess of } \$35,700) + (1.25\% \times \text{earnings as of September 1, 1983, in excess of } \$35,700)]$ multiplied by years of service, as defined, prior to 1984
- (b) For each year of service from January 1, 1984, through December 31, 1988: $(1.25\% \times \text{earnings not in excess of the Social Security tax wage base, as defined in the American Cyanamid Company Retirement Plan}) + (1.5\% \times \text{earnings in excess of the Social Security tax wage base, as defined in the American Cyanamid Company Retirement Plan})$
- (c) For each year of service beginning after December 31, 1988: $1.25\% \times \text{earnings}$
- (d) $[(1.67\% \times \text{final average earnings}) \times (\text{years of service})]$ minus $[1.67\% \times \text{primary Social Security benefit} \times (\text{years of service})]$ (Maximum of 30 years) However, in no event shall the Social Security offset exceed 50% of the Social Security benefit.

For service prior to January 1, 1994, earnings shall be as defined in the Cyanamid Plan.

The normal retirement age under the Plan is 65. The normal form of payment for a married participant with an eligible spouse is a 50% joint-and-survivor annuity. The normal form of payment for other participants is a life annuity. As alternatives to the normal form of payments participants may receive their benefits as a pop-up annuity option or another option actuarially equivalent to the options offered by the Plan.

All benefits and pay for any calendar year may not exceed the maximum limitations for each year as defined in the Internal Revenue Code.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Cyro Early Retirement Benefit

A participant may elect the early retirement payment, provided that they are at least 55 years of age. If benefits are payable to a participant on an early retirement date, they shall be reduced as follows:

- (a) For participants with less than 20 years of service (vested under the Rule of 65) less 3% for each year (.25% for each month) by which the benefit commences prior to age 65.
- (b) For participants with 20 or more years of service (vested under the Rule of 65) less 3% for each year (.25% for each month) by which the benefit commences prior to age 62, with no reduction after age 62.
- (c) For participants with less than 20 years of service (vested under the 5-year rule) – actuarially reduced for each month by which the benefit commences prior to age 65.

The Rule of 65 is defined as the sum of a participant's years of service and age. If the sum is equal to or greater than 65, the participant is entitled to a more beneficial benefit than under the five-year rule.

Early Retirement Benefit

Cytec Plastics, LLC employees participate in the Plan. Service for these employees shall be accounted for only for purposes of satisfying eligibility for the Rule of 65 and the Disability Rule of 65 and for purposes of calculating any reduction for early commencement of an early retirement benefit or deferred vested benefit, and not for purposes of benefit accrual.

If the participant was a union employee of Cytec Plastics, LLC immediately before the acquisition and became an employee of the Company, such participant's normal retirement benefit shall be equal to 1.33% of the participant's compensation for each year of service and portion thereof beginning on the date of acquisition.

Retirement Benefits for Certain Union Employees of the Piscataway Location

Former participants of the Evonik Degussa Hourly Retirement Plan receive the following benefits.

The monthly retirement income benefit for each participant is determined as follows:

- (a) Piscataway maintenance employees: Effective April 1, 2003, \$40.00 per month for each year of service.
- (b) For locations no longer in existence: The Plan currently covers only retired participants, beneficiaries and former employees with deferred vested benefits. All benefits are determined based on Plan provisions in effect at the participant's termination.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Retirement Benefits for Certain Union Employees of the Piscataway Location (Continued)

The normal form of payment for a married participant with an eligible spouse is a 50% joint-and-survivor annuity. The normal form of payment for other participants is a life annuity with 5- or 10-year annuities depending on the location in which they worked. As alternatives to the normal form of payments, participants may receive their benefits as a joint-and-survivor annuity, with various percentages of the benefit continuing to a survivor, as well as certain life options with a 5-, 10-, or 15-year guarantee depending on the location of employment.

Evonik Goldschmidt Benefits

Former participants of the Pension Plan for Certain Union Employees of Evonik Goldschmidt receive the following benefits.

Normal Retirement Benefit

The Plan provides that a participant who retires on their normal or postponed retirement date receives a monthly benefit equal to 1/12 of the greatest of (a) or (b) below:

- (a) The participant's annual accrued benefit on March 5, 2005; or,
- (b) For each Plan year during which an employee has participated and completed at least 350 hours of service, 1.35% of the participant's earnings (not counting certain specified earnings) multiplied by years of participation.

The maximum annual benefit for any participant cannot exceed (1) the participant's accrued benefit as of December 31, 1984, when aggregated with the participant's accrued benefit under all other defined-benefit plans maintained by the Company or affiliated groups, or (2) the lesser of (i) \$195,000 or (ii) 100% of the average annual compensation over the three consecutive years with the greatest aggregate compensation.

The normal form of payment for a married participant with an eligible spouse is a 50% joint-and-survivor annuity. The normal form of payment for other participants is a life annuity. As alternatives to the normal form of payments, participants may receive their benefits as a joint-and-survivor annuity, with various percentages of the benefit continuing to a survivor, as well as certain life options with a 10-year guarantee.

Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Disability Benefits

Disability benefits are available to participants who have completed 15 or more years of service. All locations have a six-month, total disability waiting period.

The Plan provides for full crediting of vesting and benefit service for participants who become totally and permanently disabled.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Death Benefits

Death benefits are payable for married, vested participants who die prior to benefit commencement provided the participant was eligible for Plan benefits and the benefits have not commenced.

Retirement Date

Participants' normal retirement date shall be the first day of the month coinciding with or following their 65th birthday.

A participant may retire on the first day of any month coincident with or following their 55th birthday. The pension will be reduced, unless 30 years of vesting service have been completed, if the participant elects to receive the pension benefits before reaching age 62.

A participant who terminates employment with the Company, after having completed at least 30 years of vesting service and before reaching age 62, will be entitled to a full, monthly benefit for life with no reduction for early commencement of benefits.

Vesting

Vesting is generally based on years of service measured from the date of employment commencement until the participant's severance from service, with 12 months of service equal to one full year of service. A participant is fully vested generally upon obtaining the earlier of three years of service or the age of 65. Participants withdrawing for reasons other than retirement, death, or disability will forfeit the nonvested portion of the accrued benefit.

Retirement Date

A participant's normal retirement date shall be the first day of the month coinciding with, or following, their 65th birthday.

A participant may retire on the first day of any month coincident with, or following, their 55th birthday. The participant will generally receive the actuarial equivalent of the cash balance account.

For the Rule-of-50 participants under the prior formula, benefits are calculated under the normal retirement allowance based on compensation and benefit service as of the early retirement date with an actuarial reduction of benefits for participants retiring before age 62.

Rule-of-50 participants not under the prior formula benefits will have their benefits actuarially reduced if they retire before attaining the age of 65.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interest in Master Trust

The Master Trust currently consists of certain assets of the Plan. The interest in the Master Trust represents the Plan's proportionate share of assets held in the Master Trust. The assets of the Master Trust consist of common/collective funds, futures contracts, pooled separate accounts, mutual funds, and fixed income securities along with accrued interest and other payables.

Investments are valued at fair market value. The fair value of marketable securities is based on quotations obtained from national securities exchanges. Where marketable securities are not listed on an exchange, quotations are obtained from the trustees.

The Plan accounts for securities transactions on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The gain or loss recognized on the sale of securities is based on the average cost of securities.

Investment Income

The Plan's interest in the Master Trust net investment income, as reflected in the statements of changes in net assets available for plan benefits, represents the Plan's proportionate share of the net investment income from the Master Trust. The Plan's net investment income from the Master Trust includes interest and dividend income and net appreciation in the fair value of investments, which also includes net gains (losses) realized upon disposition of investments and net unrealized appreciation (depreciation) of investments. The investment income is allocated to the participating plans based upon the relationship of their accumulated daily balances in the investment pool to the total investment of the Master Trust.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan Document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net additions to net assets presented in the accompanying statements of changes in net assets available for benefits.

NOTE 4 FAIR VALUE MEASUREMENTS

Fair value measurements establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies used as of December 31, 2024.

Common/Collective Trusts and Pooled Separate Accounts: Valued at the net asset value (NAV) of units of a bank collective trust or a pooled separate account. NAV is a readily determinable fair value and is the basis for current transactions. (Level 2 inputs)

Registered Investment Companies/Mutual Funds/Money Market: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. (Level 1 inputs)

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Fixed Income: Valued at the daily closing price as reported by the fund. (Level 2 inputs)

Insurance Contracts: Funds placed with AXA Equitable Life Insurance Company (AXA Equitable) are invested in interest-bearing accounts and are stated at fair value. The account provides for stable, competitive interest rates based on current market conditions through investments in fixed income securities having short-to-intermediate maturities.

Futures Contracts: Valued at the closing price on the exchange for each specified contract. (Level 2 inputs)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the assets in the Master Trust at fair value as of December 31, 2024 and 2023:

2024				
	Level 1	Level 2	Level 3	Total

NOTE 5 FUTURES CONTRACTS

The Plan is party to derivative financial instruments in accordance with the investment strategy, including futures contracts, that may give rise to varying degrees of off-balance-sheet market and credit risk. The credit risk associated with these instruments are controlled through the evaluation and continual monitoring of the creditworthiness of the counter parties. In the event that a counter party fails to meet the terms of a contract or agreement, the Plan's exposure should be limited to the currency rate differential or futures contract differential. Market risk arises from the potential for changes in value of financial instruments resulting from fluctuations in interest and exchange rates and in prices of debt and equity securities. The investment managers generally limit the Plan's market risk by holding or purchasing offsetting positions.

The estimated fair value of the futures contracts were gross assets of \$80,110 and \$1,963,689 at December 31, 2024 and 2023, respectfully.

Any gains or losses recognized on futures contracts are recognized in current year investment income. For the years ended December 31, 2024 and 2023, the amount of loss recognized as master trust investments income in the statement of changes in net assets available for benefits attributable to future contracts was \$615,688 and \$865,053, respectively.

NOTE 6 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired, disabled, or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 6 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated Plan benefits is determined by an actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial cost method used is the unit-credit method.

The significant actuarial assumptions used in the valuation of accumulated Plan benefits as of January 1, 2024 and 2023, were (a) an assumed discount rate of 5.16% and 5.50% in 2024 and 2023, respectively, (b) retirement-age assumptions (age-specific rates from age 55), and (c) life expectancy of participants under the healthy mortality assumption using the Pri-2012 mortality tables for male and female employees and annuitants projected generationally from 2012 using scale MP-2021. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 7 FUNDING POLICY

The Company's funding policy is to make annual contributions to the Plan in amounts that are sufficient to comply with, at a minimum, the funding requirements of ERISA. The Company's contributions for each of the years ended December 31, 2024 and 2023, was \$28,000,000, which exceeded the minimum funding requirements for each year.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 8 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire in that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 8 PLAN TERMINATION (CONTINUED)

- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to applicable limitations (discussed below).
- (c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age-retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

For Plan terminations occurring during 2024, the ceiling was \$7,108 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants, or for those who receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Benefit improvements attributable to Plan amendments effective within five years of Plan termination are not fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter, dated January 27, 2021, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and the related trust is tax-exempt. The Plan Administrator and management of the Company believe that the Plan, as subsequently amended, conforms to ERISA requirements and continues to qualify as tax-exempt under the IRC. Accordingly, no provision has been made for federal income taxes.

EVONIK CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 9 TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions and completed an audit from the Internal Revenue Service for the 2019 Plan year. As of the date of these financial statements, the matter has been completed and closed without findings. There has been no correspondence from the Internal Revenue Service other than the result of this audit.

NOTE 10 RISKS AND UNCERTAINTIES

The assets of the Plan are invested in financial instruments that are liquid, readily tradable, and subject to fluctuations in fair value. General market and economic conditions have a significant impact on the Plan's investment performance. Investments are subject to risk conditions of the individual fund objectives, equity market fluctuations, interest rates, economic conditions, and world affairs. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 11 PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of funds managed by Empower Annuity Insurance Company and Empower Trust Company, the qualified institutions of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Schedule SB, Part V Summary of Plan Provisions

A. Evonik Corporation Provisions

Effective Date and Most Recent Amendment

Originally effective January 1, 1971. The Plan was most recently restated effective January 1, 2020 and amended effective December 15, 2023.

Plan Year

The twelve-month period ending December 31.

Eligibility

Stockhausen Louisiana LLC employees hired or last rehired on or after April 1, 2006, are covered under the cash balance formula of the Salaried Plan. Oil Additives employees hired or last rehired on or after January 1, 2007, are covered under the cash balance formula of the Salaried Plan.

Effective April 1, 2008, participation is closed to all employees hired, rehired or localized on or after April 1, 2008.

Normal Retirement Benefit

Eligibility: Age 65

- (a) Cash Balance Account - The cash balance account is equal to the sum of opening cash balance amount, if any, pay credits and interest credits.
- (i) Opening cash balance amount - for participants prior to 1/1/2003, is equal to the lump sum value of the prior formula benefit, reflecting early retirement subsidies for participants who would become retirement eligible by 12/31/2003. For Midwest Lysine participants, the opening balance at 8/1/2003 is equal to 3% of base pay times a maximum of 3 years of service.
- (ii) Pay credits – are credited for -Huls and Creanova employees at a rate of 6% of pensionable pay except for *Rule of 45 and Rule of 50 participants* who are credited with 9% of pensionable pay. A Rule of 45 participant is a participant whose age plus vesting service is at least 45 as of 12/31/2003. Pay credits for Health & Nutrition employees are age-weighted and range from 3% to 16%. All others are credited at 6%.

Plan Name:	Evonik Corporation Retirement Plan
EIN / PN:	63-0673043/001
Plan Sponsor:	Evonik Corporation
Valuation Date:	January 1, 2024

SCHEDULE SB ATTACHMENTS

Pay credits cease after December 31, 2015, except for Rule of 50 participants.

- (iii) Interest credits – are granted quarterly based on the account balance at the end of the prior quarter and on an interest rate that when compounded is equal to 30-year treasury security rate for September of the prior plan year.
- (iv) Cash balance account recalculation. Participants who are employed as of 12/31/2003 and who became participants prior to 2003 will receive a special one-time recalculation of their cash balance accounts.

As of 12/31/2003 the cash balance account value for such participants is the greater of the value prior to the recalculation and the lump sum value of the prior plan formula, reflecting early retirement subsidies for participants who are retirement eligible as of 12/31/2003.

The normal retirement benefit is the actuarial equivalent of the cash balance account.

(b) Integration with the Prior Formula

Rule of 50 Participant

Participant whose age plus vesting service is at least 50 as of 12/31/2003 and who has attained 5 years of vesting service by 12/31/2003.

Rule of 50 participants are entitled to the greater of the cash balance formula benefit or the prior formula benefit on an ongoing basis. The 12/31/2003 prior formula accrued benefit is protected for all participants who participated in the prior formula. For these participants covered by the prior formula, their overall minimum benefit is the 12/31/2003 prior formula benefit plus pay and interest credits earned towards the cash balance account on or after January 1, 2004.

If a participant's accrued benefit under the prior formula, for *Rule of 50 participants*, or the protected accrued benefit for other participants exceeds the actuarially equivalent age-65 annuity of the cash balance account value, the participant is entitled to the excess amount payable as a residual annuity. The residual annuity may be taken in any optional form with the exception of a lump sum distribution.

In any case, a *Rule of 50 participant* is entitled to receive a distribution under the terms of the prior formula.

Plan Name:	Evonik Corporation Retirement Plan
EIN / PN:	63-0673043/001
Plan Sponsor:	Evonik Corporation
Valuation Date:	January 1, 2024

SCHEDULE SB ATTACHMENTS

The prior formula benefit applicable to Rule of 50 participants is an annual benefit equal to

- (i) 1.1% times the highest consecutive five year average compensation multiplied by benefit service (maximum 40 years).

Plus

- (ii) 0.5% times the highest consecutive five-year average compensation in excess of Covered Compensation, multiplied by benefit service (maximum 35 years).

Minus

- (i) annual benefit payable under any Prior Plan.

For former Creanova Inc., Rohm America Inc. and Siventio Inc. participants, the above benefit is not less than the accrued benefit as of December 31, 1999 under the applicable Prior Plan.

For former employees, the above benefit is not less than the accrued benefit as of December 31, 1999 under the Prior Plan adjusted to straight life annuity.

Benefit accruals will cease effective December 31, 2024, except for certain LTD participants.

Early Retirement Benefit

Eligibility: Age 55 and 5 years of service.

The actuarial equivalent of the cash balance account. For Rule of 50 participants, the prior formula benefit is calculated as normal retirement allowance based on compensation and benefit service as of early retirement date with a reduction based on the age at benefit commencement date as follows:

Age	Factor
62 or older	100%
61	95
60	90
59	84
58	78
57	71
56	64
55	56

Disability Benefit

Eligibility: Total and permanent disability.

Plan Name: Evonik Corporation Retirement Plan
EIN / PN: 63-0673043/001
Plan Sponsor: Evonik Corporation
Valuation Date: January 1, 2024

SCHEDULE SB ATTACHMENTS

Disabled prior to January 29, 2015: Benefit commencing at age 65 determined assuming salary continuation to age 65 at the same rate as when disability occurred and benefit service projected to age 65.

Disabled after January 29, 2015 and before January 1, 2016: Benefit commencing at age 65 determined assuming salary continuation to January 1, 2025 at the same rate as when disability occurred and benefit service projected to January 1, 2025.

Disabled January 1, 2016 or later: If Rule of 50, benefit commencing at age 65 determined assuming salary continuation to January 1, 2025 at the same rate as when disability occurred and benefit service projected to January 1, 2025. If not Rule of 50, frozen accrued benefit as of January 1, 2016.

Vested Benefits Upon Termination of Service

Eligibility: 3 years cliff vesting

The actuarial equivalent of the cash balance account. For Rule of 50 Participants, the prior formula benefit is computed as a normal retirement allowance based on compensation and service as of date of termination. This benefit is payable immediately as a lump sum for the portion accrued to December 31, 1997 (for non-Creanova participants), or entirely as an annuity payable without reduction commencing at age 65, or at any time after age 55, reduced for early commencement.

Former Creanova participants with an accrued benefit as of January 1, 2000, will utilize the same early retirement factors as in the Early Retirement section above. Other Rule of 50 participants will have their benefit reduced as follows:

Age	Factor
65	100%
64	92.8
63	85.6
62	78.4
61	71.2
60	64.0
59	60.4
58	56.8
57	53.2
56	49.6
55	46.0

Pre-Retirement Death Benefits

Eligibility: Death of a married active employee who is vested or a married inactive employee who has terminated with entitlement of a vested allowance which has not commenced.

Plan Name: Evonik Corporation Retirement Plan
EIN / PN: 63-0673043/001
Plan Sponsor: Evonik Corporation
Valuation Date: January 1, 2024

SCHEDULE SB ATTACHMENTS

The actuarial equivalent of the cash balance account. For participants covered by the prior benefit formula, benefit payable to the spouse for his/her lifetime only, equal to 50% of the allowance payable to the member assuming the 50% joint and survivor option had been elected, payable with appropriate reduction on the earliest date on which the member could have elected to commence payment.

Death of a single active employee who is vested results in payment of the cash balance account to a beneficiary.

Normal Form of Benefit

Life annuity for single participants.

Reduced 50% joint and survivor annuity for married participants.

Optional Forms of Retirement Income in Lieu of Normal Form

- (a) Life annuity.
- (b) Joint and survivor (50%, 66-2/3%, 75% or 100%) annuity.
- (c) Certain and life annuity (5, 10, 15, or 20 years certain).
- (d) Lump sum distribution (automatic form of payment if the present value of the benefit is less than \$1,000). The lump sum amount was limited to the value of the cash balance account for commencements prior to January 1, 2012. Effective January 1, 2012, Rule of 50 participants may elect an unrestricted lump sum distribution. Effective November 1, 2017, all participants may receive an unrestricted lump sum.

Changes in Plan Provisions since Last Actuarial Valuation

Effective January 1, 2024, plan compensation includes the portion of salary continuation paid during short-term disability or parental leave.

C. Oil Additives

Effective Date and Most Recent Amendment

The plan was originally effective August 1, 1999. Merged into the Evonik Corporation Retirement Plan, most recently restated effective January 1, 2020 and amended effective December 15, 2023.

Plan Year

The twelve-month period ending December 31.

Eligibility

Employees hired or last rehired prior to January 1, 2007 at Oil Additives are eligible after one year of service. Service with Rohm & Haas is credited for eligibility, vesting and benefit purposes for Oil Additives employees who transferred from Rohm & Haas as of 6/30/1998. Additionally, employees who were participants in the Rohm & Haas plan as of July 31, 1999 are automatically vested. Other employees become vested after five years of service.

Normal Retirement Benefit

Eligibility: Attainment of age 65.

Annual benefit calculated as follows:

(a) General Rule:

- (1) 1.5% of Basic Earnings Rate minus 0.35% of Final Average Compensation multiplied by Years of Benefit Service up to a maximum of 44 years; plus
- (2) 0.75% of Basic Earnings Rate multiplied by Years of Benefit Service in excess of 44 years.

Basic Earnings Rate is the annual average of the 36 highest consecutive months of compensation out of the final 120 months. Final Average Compensation is the minimum of Basic Earnings Rate and Social Security Covered Compensation.

(b) Special Rule:

If a participant has attained age 50 and has at least 5 Years of Service and is either a salaried Participant or a Participant employed at the Company's Houston Plant covered under the OCAW collective bargaining agreement, the annual payment will not be less than the amount calculated by multiplying 1.2% of the Basic Earnings Rate by the Years of Benefit Service.

Normal Retirement Benefit

Normal Retirement Date (NRD): first of month coinciding with or next following the attainment age 65.

Benefit Formula: The sum of (i), (ii) and (iii), but to a minimum of (iv) and (v)

- (i) *For Service Prior to January 1, 1984*: The larger of:
 - The pension accrued under the career pay formula of the Plan (before the 1985 amendment) for service prior to 1984, or
 - 1% of that portion of the annual earnings rate as of September 1, 1983 not in excess of \$35,700, plus 1.25% of the excess multiplied by the number of years of pension service prior to 1984.
- (ii) *For Service from January 1, 1984 through December 31, 1988*: 1.25% of annual earnings not in excess of the Social Security wage base plus 1.5% of the excess for each year of pension service from 1984 through 1988.
- (iii) *For Future Service from January 1, 1989*: 1.25% of annual earnings for each year of pension service after 1988.
- (iv) *Final Pay Minimum Benefit*: 1.67% of average annual earnings multiplied by the number of years of pension service, minus 1.67% of the Social Security old-age benefit multiplied by the number of years of pension service (maximum of 30 years).
- (v) *Final Pay Benefit*: 1.2525% of average annual earnings multiplied by the number of years of pension service.

Except for opt-out participants, benefit accruals will cease effective December 31, 2024.

Early Retirement Benefit

Eligibility: Retire before NRD and following attainment of age 55, provided that the sum of age in years at retirement and service in years at termination totals at least 65.

Benefit: Monthly pension benefit determined as of early retirement date, subject to reduction as follows:

- (i) For participants with vested rights whose age in years and service in years totals at least 65, a reduction at the rate of 3% for each year of early retirement prior to age 65 for participants with less than 20 years of service at retirement, and for each year of early retirement prior to age 62 for participants with at least 20 years of service at retirement. No reduction is made for participants who retire at age 62 or thereafter with 20 or more years of service. If the benefit was determined in accordance with the final pay minimum benefit, then the Social Security benefit is reduced by 6- 2/3% for each year that commencement precedes age 65 and 3-1/3% for each year preceding age 60.
- (ii) For participants with vested rights where age in years and service in years total less than 65, an actuarial reduction. An actuarial reduction also applies to the Final Pay Benefit.
