## INDEPENDENT AUDITOR'S REPORT

Plan Trustees  
BCER Engineering, Inc. 401(k) Retirement Plan

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BCER Engineering, Inc. 401(k) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audits of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other Matter – Supplemental Schedule Required by ERISA**

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **NOTES TO FINANCIAL STATEMENTS**

### **NOTE 1 – DESCRIPTION OF THE PLAN**

The following description of the BCER Engineering, Inc. 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

#### General

The Plan is a defined-contribution plan established by BCER Engineering, Inc. (the “Company”, “Plan Sponsor”, or “Employer”) to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (“IRC”) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

#### Administration

The Trustees are responsible for the oversight of the Plan. The Trustees also determine the appropriateness of the Plan’s investment offerings and monitor investment performance. The Company has appointed a Plan administrator to manage the operation and administration of the Plan. The Company has contracted with Principal Life Insurance Company to act as the custodian and third-party administrator affiliated with the Plan to process and maintain the records of participant data.

#### Eligibility

Employees are eligible to participate in the Plan and receive matching contributions the first day of the month following their hire date and attainment of age 21.

#### Participant Contributions

Each year, participants may contribute up to the maximum percentage allowed by law of pretax annual compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make Roth deferral contributions up to the maximum allowed by law. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated target date investment nearest the participant’s estimated retirement date until changed by the participant. Further, each February 15<sup>th</sup> (previously March 1<sup>st</sup>), automatically enrolled participants’ deferral rates are increased by 1%, up to a maximum of 10%. Effective November 1, 2025, the Plan was amended to increase the maximum to 20%.

Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation.

Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans (rollover). Such contributions are deposited in the appropriate investment funds in accordance with the participant’s direction and the Plan’s provisions.

### NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

#### Employer Contributions

The Company may make discretionary matching contributions to the Plan. For the years ended December 31, 2024 and 2023, the Company matched 20% of the amount that a participant contributed to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

#### Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings and losses and administrative expenses. Plan earnings and losses are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit which can be provided by the participant's vested account.

#### Investment Options

Participants must direct their salary deferral contributions to selected investments, as made available and determined by the Trustees. Any Employer contributions are invested in the same manner as the participant's contributions. Participants may change their investment options at any time throughout the year via the Principal website.

#### Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after one year of credited service as detailed below. Participants are also fully vested in all Company contributions plus actual earnings thereon if they are employees upon their normal retirement age, they reach early retirement age, they die while an employee, or they terminate employment with the Company due to a total and permanent disability as defined in the Plan.

Matching contributions vest as follows:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Fewer than 1	0%
1 or more	100%

### **NOTE 1 – DESCRIPTION OF THE PLAN (Continued)**

#### Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50 percent of the participant's vested account balance or \$50,000, reduced by any outstanding loan balance, if any, during the one-year period ending on the day before the new loan is made. A participant may be granted one loan during any one-year period and only one loan may be outstanding at a time. The maximum loan term is five years. The loans are secured by the balance in the participant's account. Rates are based on a formula of the U.S. Prime Rate plus one percent and are reset upon changes to the U.S. Prime Rate. Principal and interest is paid ratably over the term of the loan through biweekly payroll deductions. At termination of employment, any outstanding balance is due. At December 31, 2024, outstanding loans bore interest ranging from 5.00% to 9.50% and mature through 2029. At December 31, 2023, outstanding loans bore interest ranging from 4.25% to 5.00%.

#### Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or various annuity options. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Generally, participants may not make withdrawals from their accounts prior to retirement, except in the event of disability, death, termination of employment, or notice of hardship, without being subject to certain restrictions and penalties. The Plan allows for an automatic lump sum distribution of participant vested account balances that do not exceed \$5,000. If the vested amount of a participant's account exceeds \$5,000, the participant must consent to any distribution of the account balance.

#### Forfeited Accounts

Forfeited non-vested accounts may first be used to pay Plan expenses. Any remaining forfeitures are used to reduce Employer contributions. If any forfeitures still remain, they are allocated to all employees eligible to participate as of December 31<sup>st</sup> based on a percentage of the participant's pay to the pay of all participants. Forfeited amounts are maintained for five years until the participant has a five-year break in service and loses the right to restore the forfeited amounts. At December 31, 2024 and 2023, forfeited nonvested accounts were \$0. During the year ended December 31, 2024, \$2,720 of forfeitures were used to offset Employer contributions and \$5 were used to offset administrative expenses.

### **NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES**

#### Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

# **BCER ENGINEERING, INC. 401(K) RETIREMENT PLAN**

## **NOTES TO FINANCIAL STATEMENTS**

---

### **NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

#### Investment Valuation and Income Recognition

Investments are reported at fair value unless reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. See Notes 5 and 6 for discussion of investments measured at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investment bought and sold, as well as held during the year.

Management fees charged to the Plan for investments are based on assets invested and are deducted on a daily basis. Management fees are reflected as a reduction of investment return for such investments.

#### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded. There were no deemed distributions during the year ended December 31, 2024.

#### Payment of Benefits

Benefit payments to participants are recorded when paid.

#### Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other fees are charged directly to the participant's account and are included in administrative expenses.

# **BCER ENGINEERING, INC. 401(K) RETIREMENT PLAN**

## **NOTES TO FINANCIAL STATEMENTS**

---

### **NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### Uncertain Tax Positions

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS or the DOL. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2024 and 2023, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or asset, or disclosure, in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### Subsequent Events

The Plan has evaluated subsequent events through August 28, 2025, the date the financial statements were made available to be issued and has determined that there are no subsequent events that require disclosure.

### **NOTE 3 – CERTIFIED INFORMATION**

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company (the custodian of the Plan).

### **NOTE 4 – FAIR VALUE MEASUREMENT**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the standard are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

# BCER ENGINEERING, INC. 401(K) RETIREMENT PLAN

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 4 – FAIR VALUE MEASUREMENT (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

#### *Registered Investment Companies (Mutual Funds)*

Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-ended registered investment companies that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

#### *Collective Investment Trusts/Pooled Separate Accounts*

Valued at the NAV of units of the fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily; however, a participant can only have one transfer out of the funds every 30 days. Were the Plan to initiate a full redemption, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. For the Principal U.S. Property pooled separate account, redemptions may be deferred up to three years due to the illiquid nature of the underlying investments. There are no unfunded commitments associated with the Principal U.S. Property pooled separate account.

**BCER ENGINEERING, INC. 401(K) RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**

---

**NOTE 4 – FAIR VALUE MEASUREMENT (Continued)**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies – mutual funds	<u>\$13,215,980</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$13,215,980</u>

## **NOTES TO FINANCIAL STATEMENTS**

### **NOTE 5 – STABLE VALUE FUND**

The Principal Stable Value Z Fund is a fund maintained by Principal Global Investors Trust Company (“Trust Company”). The Trust Company has retained Morley Capital Management to serve as investment advisor with respect to the fund, subject to the Trust Company’s supervision and review. Morley Capital Management is an indirect wholly owned subsidiary of Principal Group and is under common control within the Trust Company.

The fund primarily consists of a diversified portfolio of stable value investment contracts (“Investment Contracts”) issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The principal value of these assets is designed to remain stable regardless of stock and bond market fluctuations.

The objective of the fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive plan or participant payments.

The fund is not a deposit, obligation, guaranteed or insured by UBT or any affiliate, is not insured by the Federal Deposit Insurance Corporation (FDIC) of any other federal or state government agency. Neither the fund nor the offering of the Units has been registered under the U.S. securities laws. Therefore, investors will not have the benefit of the protections for registered securities afforded by the Securities and Exchange Commission.

This fund meets the fully benefit-responsive contract criteria and therefore is reported at contract value. Contract value is the permitted measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal Financial Group, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan’s ability to receive amounts due is dependent on the issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with Principal Investors Global Trust Company. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the Plan’s ability to transact at contract value with the contract issuer and that would also limit the ability of the Plan to transact at contract value with the participants.

# **BCER ENGINEERING, INC. 401(K) RETIREMENT PLAN**

## **NOTES TO FINANCIAL STATEMENTS**

---

### **NOTE 5 – STABLE VALUE FUND (Continued)**

The deposit annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Total interest credited to the fund for the year ended December 31, 2024 was \$11,082. The crediting rate at December 31, 2024 and 2023 was 2.73% and 2.67%, respectively. The crediting rate is reset quarterly.

Effective September 19, 2025, the fund will be closed for future investment by participants.

### **NOTE 6 – FIXED ANNUITY CONTRACT**

The Plan has entered into a fully benefit-responsive deposit annuity contract with Principal Life Insurance Company (“Insurance Company”). The Principal Guaranteed Option is a benefit-responsive investment contract with the Insurance Company. The Insurance Company maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Insurance Company is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed-upon with the Insurance Company. Such interest rate is reset semiannually on June 1<sup>st</sup> and December 1<sup>st</sup>. The interest rate was 4.85% at December 31, 2024.

The contract meets the fully benefit-responsive contract criteria and therefore is reported at contract value. Contract value is the permitted measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Empower, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no unfunded commitments for the fund. There are no restrictions on investment transfers initiated by a participant from the Principal Guaranteed Option to non-competing investment options. Investment transfers from the Principal Guaranteed Option directly to competing investment options are not allowed. Competing investment options include other guaranteed investment options, stable value, money market, or other short-term fixed income investment options with an average duration of less than 2 years. Indirect transfers from Principal Guaranteed Option to a competing investment option will be subject to an equity wash. An equity wash requires that transfers be directed to a non-competing investment option for 90 days before a subsequent transfer can be made to a competing investment option. If the Plan’s interest is terminated, payments may be made in six installments commencing six months after the notice to terminate. The Plan Sponsor may elect to pay an early termination charge, as defined, to have the interest paid in a single sum.

The Plan’s ability to receive amounts due is dependent on the issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

## **NOTES TO FINANCIAL STATEMENTS**

---

### **NOTE 6 – FIXED ANNUITY CONTRACT (Continued)**

Certain events limit the ability of the Plan to transact at contract value with Principal. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that would also limit the ability of the Plan to transact at contract value with the participants.

The deposit annuity contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

### **NOTE 7 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

Notes receivable from participants qualify as party-in-interest. Additionally, certain Plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan sponsor pays directly any other fees related to the Plan's operations. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

### **NOTE 8 – PLAN TERMINATION OR MODIFICATION**

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time, by resolution of its board of directors, and is subject to the provisions of ERISA. Upon termination of the Plan, further contributions to the Plan shall cease, and all participants who are affected by such termination shall become 100% vested. Net assets available for plan benefits would be distributed to the participants based on each participant's interest in the Plan.

### **NOTE 9 – TAX STATUS**

The Plan has adopted a non-standardized form of a volume submitter plan, sponsored by Principal Life Insurance Company. The volume submitter plan has received an opinion letter from the IRS as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed, and is being operated, in compliance with the applicable provisions of the IRC.

## **NOTES TO FINANCIAL STATEMENTS**

---

### **NOTE 10 – RISKS AND UNCERTAINTIES**

The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the risk associated with certain investments securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances, as well as the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
