INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator

PrimeWay Federal Credit Union Employees' Defined Benefit Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of the PrimeWay Federal Credit Union Employees' Defined Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matters – Supplemental Schedules Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2024 (Schedule H, line 4i) and Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PRIMEWAY FEDERAL CREDIT UNION EMPLOYEES' DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 1 – Description of the Plan

General

PrimeWay Federal Credit Union Employees' Defined Benefit Plan (the Plan) was established by PrimeWay Federal Credit Union (the Credit Union) on May 1, 1959. The Plan is a defined benefit plan with a previous cash balance feature. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Administration

The Credit Union is the Plan Sponsor and named Plan Administrator. The Plan Administrator is responsible for oversight of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and fees, and reports to the Plan's Investment Committee. The Plan's Trustee, Investment Custodian, and recordkeeper is Standard Insurance Company. The Investment Custodian holds all of the Plan's assets and executes all of the Plan's transactions. The Company has also retained Standard for actuarial services.

Eligibility

Employees were eligible to participate in the Plan after attaining the age of 21 and completing one year of service. Effective May 31, 2012, the plan was amended and restated from a cash balance plan to a more traditional defined benefit plan. Effective January 31, 2014, the Plan was amended to freeze service credit provided to fully vested and active participants and provide that employee hired and rehired after the effective date, may not enter the Plan. Since January 31, 2014, there have been no new participants to the Plan. Effective November 1, 2021, the Plan froze all benefit accruals. The Plan is subject to the provisions of the Employee Retirement Securities Act of 1974 (ERISA).

Benefits

Normal Retirement Benefits: The amount of monthly retirement benefit to be provided for each Participant who retires on the participant's normal retirement date shall be equal to the participant's accrued benefit. A participant's accrued benefit is based on a retirement benefit formula equal to 45% of such participant's average monthly compensation. For participants who are projected to have earned less than 25 years of service as of their normal retirement age, the percentage above shall be reduced by 1/25 for each such year of service less than 25. However, in no event shall a participant's retirement benefit be less than the greater of (i) amount earned under the prior cash balance benefit formula as of May 31, 2012, with continuing interest credits or (ii) January 1, 1993, grandfathered traditional benefit. For purposes of (i) the cash balance benefit is the projected cash balance at Normal Retirement Age equal to the greater of (a) the participant's January 1, 2000, cash balance amount increased annually with 6% interest credits with no further contribution credits or (b) a participant's January 1, 2000, cash balance amount increased with both an annual 12% of pay contribution credit (until May 31, 2012) and annual interest credits equal to the 30-year Treasury rate for the November immediately prior to the beginning of the Plan year. The resulting projected cash balance account is multiplied by 1% to obtain the normal retirement benefit.

Early Retirement Benefits: A participant may elect to retire on an early retirement date at any time after 15 years of service in total, and attainment of age 55. In the event that a participant makes such an election, such participant shall be entitled to receive an early retirement benefit equal to the participant's vested accrued benefit

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

payable at the participant's normal retirement date. If a participant so elects, such participant may receive payment of an early retirement benefits equaling the actuarial equivalent of the participant's vested accrued benefit.

Termination Benefits: A terminating participant may be entitled to receive a vested monthly benefit starting on their normal retirement date. The amount of this benefit will be equal to the normal retirement benefit earned on the basis of service to date, multiplied by the vested percentage based on the Plan document.

Death Benefits: In the event of a participating employee's death before retirement, the participant's beneficiary will receive a monthly life income equal in value to the accrued retirement benefit.

Disability Benefits: If a participant becomes totally and permanently disabled while an Employee prior to Normal Retirement Age, the participant will be treated under the Plan during the continuance of the total and permanent disability as though they were still employed at the same regular rate of compensation, and with the same regular number of hours of service as an eligible employee per Plan year, as at the time of the occurrence of their total and permanent disability until the earlier of (1) attainment of Normal Retirement Age, (2) the participant receives a distribution allowed under the Plan, or (3) the participant's death. Should the participant cease to be totally and permanently disabled before attaining the earlier of the events described in (1), (2) or (3) herein (and not immediately thereafter resume Service) the participant shall be treated as if they had terminated service as an employee on the date they ceased to be totally and permanently disabled. Upon subsequent attainment of Normal Retirement Age, the participant shall be entitled to a retirement benefit under the same conditions as in the case of any other Participant.

Vesting

Vesting in the plan is based on the amendment to freeze the plan and all employees are 100% vested. Employees may elect to receive the value of their accumulated benefits by one of several options (lump-sum, life annuity, life annuity with certain terms, and qualified joint and survivor annuity). The benefit cannot be paid over a period longer than the life expectancy of the participant or the joint life expectancy of the participant and the participant's beneficiary. If a participant terminates employment and their vested balance in the Plan is less than \$7,000, then a lump-sum distribution will be made without the participant's consent.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting. Income from investments is recorded when it is earned. Expenses are recorded in the accounting period in which they are incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results may differ from those estimates.

PRIMEWAY FEDERAL CREDIT UNION EMPLOYEES' DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and the Investment Custodian. See Note 6 for discussion of fair value measurements.

The purchase and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for the service employees have rendered. Accumulated Plan benefits expected to be paid to: (i) retired or terminated vested participants or their beneficiaries, (ii) beneficiaries of participants eligible to retire who have died, and (iii) present participants or their beneficiaries. Benefits payable under all circumstances (retirement, death, and termination of employment) are included in the computation to the extent they are considered attributable to employee service rendered at the valuation date.

The actuarial present value of accumulated Plan benefits is determined by an actuary from Standard and it is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of and for the year ended December 31, 2023 were (i) Discount rate 6.5%, (ii) Mortality; Pri-2012 Mortality table for annuitants and non-annuitants projected fully generationally using scale MP-2021, (iii) salary increases 0.00% (frozen effective November 1, 2021), and (iv) withdrawal rates based on W-70 as published in the Advanced Pension Tables.

Actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was terminated, different actuarial assumptions might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

Benefit payments to participants and beneficiaries are recorded at the time of distribution.

PRIMEWAY FEDERAL CREDIT UNION EMPLOYEES' DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 3 – Unaudited Information Certified by the Investment Custodian

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information has been certified by Benefit Trust Company, the Plan's Investment Custodian as to its completeness and accuracy and was not subjected to any auditing procedures performed by the Plan's independent auditors:

1. All investment balances reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024, and 2023,
2. All investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024, and 2023,
3. All investment-related information included in the Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the Schedule of Reportable Transactions for the year ended December 31, 2024.

Note 4 – Funding Policy and Administrative Fees

The Plan is funded by contributions made by the Credit Union. The Credit Union's funding policy is to, at a minimum, make contributions to the Plan as recommended by the Plan's actuary. No minimum contribution was required for the years ended December 31, 2024 or 2023 as recommended by the Plan's actuary. No contributions were made to the Plan for the years ended December 31, 2024 and 2023. Employees are not permitted to contribute to the Plan.

The Plan's expenses are paid either by the Plan or the Credit Union, as provided by the Plan document. Expenses that are paid directly by the Credit Union are excluded from these financial statements. Certain expenses, if any, incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation(depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Although it has not expressed any intention to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 5 – Plan Termination

In the event the Plan terminates, the rights of all participants to benefits accrued to the date of such termination or discontinuance, to the extent funded, shall be nonforfeitable. Accordingly, the net assets of the Plan will be allocated in accordance with the Plan document and as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- b. All other vested benefits (that is, vested benefits not insured by the PBGC).

PRIMEWAY FEDERAL CREDIT UNION EMPLOYEES' DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for the accumulated benefit obligation and may also depend on the financial condition of the Credit Union and the level of benefit guaranteed by the PBGC.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Pooled Separate Accounts: Pooled Separate Accounts (PSAs) are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. PSAs are valued at NAV practical expedient.

Guaranteed Contracts: The Guaranteed Interest Fund and the Guaranteed Long-Term Fund are investment contracts. The contracts are fixed investments available to qualified retirement plans. These investments provide guaranteed protection of the principal with a set rate of return. See Note 6 for crediting interest rates. The account is guaranteed by The Standard Insurance Company. Contract Value approximates the fair value of these guaranteed accounts.

- (a) In accordance with Financial Accounting Standards Board Accounting Standards Codification Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Fair Value of Investments in Entities that use NAV

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV (or its equivalent) as of December 31, 2024, and 2023:

Level 3 Fair Value Measurements

The following is a reconciliation of level 3 assets for the Plan years ending December 31, 2024, and 2023:

	Level 3 Assets	
	Years Ended	
	December 31,	December 31,

Sales	(250,110)	(61,819)
Balance, end of year	<u>\$ 7,284,780</u>	<u>\$ 7,315,229</u>

Note 7 – Investment Contract

The Plan holds investment contracts with Standard Insurance Company. The assets are invested in funds, reported as the Guaranteed Interest Fund and the Guaranteed Long-Term Fund in the Plan's accounting records. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contracts are included in the financial statements at fair value which approximates contract value. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The crediting rate for the Guaranteed Interest Fund was 3.03% for the plan years ending December 31, 2024, and 2023. The crediting rate for the Guaranteed Long-Term Fund was 3.05% as of December 31, 2024, and 2023.

Note 8 – Tax Status

The IRS has determined and informed the Plan by a letter dated March 30, 2018, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan was restated effective January 1, 2020. The Plan Administration believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan permitted provisions of SECURE Act 2.0 during the year ended December 31, 2024, and 2023. Written amendments to the Plan document to reflect these operational changes will be adopted at a later date in accordance with the deadlines to applicable laws and IRS guidelines.

PRIMEWAY FEDERAL CREDIT UNION EMPLOYEES' DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 9 – Party-in-Interest Transactions

Plan investments consist of pooled separate accounts and General Accounts managed by Standard Insurance Company. (Standard). Standard is the sponsor of the investments, and the record keeper of the Plan as defined by the Plan. During the year ended December 31, 2024, and 2023, the Plan paid expenses of approximately \$60,000 and \$45,000 respectively, to the record keeper for services rendered. Transactions involving these investments are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 10 – Risks and Uncertainties

Plan investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.
