Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

To the Plan Administrator
Retirement Plan for Employees
of Reckitt Benckiser LLC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Retirement Plan for Employees of Reckitt Benckiser LLC (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institutions or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institutions or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator
Retirement Plan for Employees
of Reckitt Benckiser LLC

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

To the Plan Administrator
Retirement Plan for Employees
of Reckitt Benckiser LLC

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Retirement Plan for Employees of Reckitt Benckiser LLC (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all full-time nonunion employees of Reckitt Benckiser LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2010, the Plan was frozen to all new entrants. All new hires on January 1, 2010 and thereafter now participate in an amended Savings Investment Plan for Employees of Reckitt Benckiser LLC, with a 4 percent profit-sharing component in addition to any savings contributions that they elect along with the Company's matching contribution, as defined by the savings plan provisions. Active participants in the Plan with a new hire date no later than December 31, 2009 accrued service credits with the appropriate contribution percentages under the current plan provisions through January 1, 2017.

Effective January 1, 2017, all participants do not accrue service credits. All participants on January 1, 2017 and thereafter accrue transitional credits in the savings plan through December 31, 2021. Beginning on January 1, 2022, those participants previously receiving the transitional credits were eligible to participate in a profit-sharing contribution in the savings plan which is equal to 4 percent of eligible compensation.

Cash Balance Plan

As of January 1, 1996, the Company converted its prior defined benefit pension plans (except for the Reckitt Benckiser Retirement Plan for Union Employees) to a cash balance plan. The account balances of all participants were credited with the value of benefits that were already earned.

As the Plan represents a cash balance plan, it required that each month the Company credited an amount equal to a percentage of participant's eligible salary to their plan account. The percentage applied to a participant's eligible salary was based on the years of service that had been rendered to the Company. Eligible salary for plan purposes included a participant's base pay, incentive bonus payments, sales bonuses and commission, overtime, shift differentials, and lump-sum merit increases. Excluded from this amount was severance and any other amounts being deferred under Reckitt Benckiser's Deferred Compensation Plan. The definition of eligible salary under the Plan may further be limited by certain rules governing pension plans.

The Company's service credits to a participant's plan account were based on eligible salary, as defined above, and years of service, as stated in the following table, through December 31, 2016. Effective January 1, 2017, all participants do not accrue service credits:

| Years of Service | Company Credits (Percentage of Pay) |
|------------------|--|
| Less than 5 | 4.00 % |
| 5 through 9 | 5.00 |
| 10 through 14 | 6.00 |
| 15 through 19 | 7.00 |
| 20 through 24 | 9.00 |
| 25 or more | 12.00 |

In addition to the service credits, the Company will also credit participants' plan account balances with monthly interest. The interest rate for each calendar year will equal the rate for one-year Treasury bills on January 1 plus 1 percent. The interest rate in any year will not be lower than 5 percent. Although the Plan is frozen, active participants are still receiving interest credits.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Pension Benefits

The normal retirement benefit is a monthly amount payable for life; however, participants have the option to select other methods of payment. The monthly benefit is based on the participant's earnings (as defined in the Plan) and years of service. Survivorship benefits of 50 percent joint annuity are available if certain criteria are met. Provisions are also made for early retirement, disability prior to retirement, and death benefits.

Contributions and Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. In 2024 and 2023, minimum funding requirements of \$3,594,124 and \$5,605,062, respectively, were fully offset by over-funding balances.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Russel Investments Trust Company or its affiliates. Russel Investments Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of the Plan's interest in the Master Trust is equal to the proportionate share of assets allocated to the Plan. The Plan owns a 100 percent interest in the Master Trust. The investments held by the Master Trust consist of common/collective trust funds and an immediate participation guarantee contract. These investments are held at fair value. See Note 5 for additional information on investment fair value methodology.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

See Note 5 for further discussion of fair value measurements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

The actuarial valuation was completed using the beginning of the year method. Therefore, the accumulated plan benefits as of December 31, 2024 are presented from information provided by the actuary as of January 1, 2024.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2024 and 2023 are summarized as follows:

| | January 1, 2024 | January 1, 2023 |
|------------------------|---|---|
| Actuarial cost method | Unit Credit Method | Unit Credit Method |
| Assumed rate of return | 5.40 percent per annum | 5.90 percent per annum |
| Mortality basis | Pri-2012 Total Dataset Mortality Table, projected generationally with Scale MP-2021 | Pri-2012 Total Dataset Mortality Table, projected generationally with Scale MP-2021 |
| Incident of retirement | Age graded rates, with 100% leaving at age 70 | Age graded rates, with 100% leaving at age 70 |

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 16, 2025, which is the date the financial statements were available to be issued.

Notes to Financial Statements

December 31, 2024 and 2023

Note 3 - Certified Information

The trustee of the Master Trust, Russell Investments Trust Company (the "Trustee"), holds the Plan's investments, other than one immediate participation guarantee contract described below, and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year, other than the immediate participation guarantee contract, are based solely on information certified by the Trustee.

An immediate participation guarantee contract issued by Equitable Holdings, Inc. totaling \$13,083 as of December 31, 2023 and related investment losses of \$2,463 for the year ended December 31, 2023 were not certified. As of December 31, 2024, the contract value was \$0, and there were no associated gains or losses recognized for the year ended December 31, 2024.

Note 4 - Interest in Master Trust

The majority of the Plan's assets are held in the Reckitt Benckiser LLC General Pension Master Trust (the "Master Trust"), which is wholly owned by the Plan.

At December 31, 2024 and 2023, the Plan's interest in the Master Trust was as follows:

| | 2024 | 2023 |
|--|-----------------------|-----------------------|
| Common/collective trust funds | \$ 248,315,177 | \$ 265,768,504 |
| Immediate participation guarantee contract | 4,531 | 10,069 |
| Total investment in the Master Trust | 248,319,708 | 265,778,573 |
| Receivables from securities sold | 2,454,594 | 1,566,097 |
| Total plan interest in the Master Trust | <u>\$ 250,774,302</u> | <u>\$ 267,344,670</u> |

The Plan's interest in the Master Trust's income for the years ended December 31, 2024 and 2023 was as follows:

| | 2024 | 2023 |
|---|---------------------|----------------------|
| Net realized and unrealized income on investments | \$ 1,666,438 | \$ 21,323,942 |
| Dividend and interest income | 139 | 1,975 |
| Total plan interest in income of the Master Trust | <u>\$ 1,666,577</u> | <u>\$ 21,325,917</u> |

Note 5 - Investments

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust/Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Note 5 - Investments (Continued)

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust/Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following methodologies have been used to value the Plan's investments:

Common/Collective Trust Funds

The common/collective trust funds are valued at net asset value per share (NAV) or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Immediate Participation Guarantee Contract

This investment is valued at various contract costs, which represent contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Active market inputs utilized to value this contract are not readily determinable; thus, this investment is considered to be a Level 2 investment.

The following table presents information about the Plan's net assets held outside of the Master Trust at December 31, 2023. The Plan did not hold any net assets outside of the Master Trust at December 31, 2024:

| | Asset Held Outside the Master Trust Measured at Fair Value at December 31, 2023 | | | |
|--|--|---------|-----------|---------|
| | Investments (at Fair Value) | Level 1 | Level 2 | Level 3 |
| Immediate participation guarantee contract | \$ 13,083 | \$ - | \$ 13,083 | \$ - |

There were no unfunded commitments or redemption restrictions on the investment described above.

The following tables present information about the Plan's assets held within the Master Trust at fair value as of December 31, 2024 and 2023:

| | Assets Held Within the Master Trust Measured at Fair Value at December 31, 2024 | | | |
|--|--|---------|----------|---------|

Note 6 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the years ended January 1, 2024 and 2023, the most recent actuarial valuations, are as follows:

| | 2024 | 2023 |
|--|-----------------------|-----------------------|
| Actuarial present value of accumulated plan benefits - Vested benefits: | | |
| Participants currently receiving benefit payments | \$ 111,995,851 | \$ 105,370,437 |
| Terminated vested participants | 125,136,434 | 109,642,922 |
| Active participants | <u>36,833,068</u> | <u>36,065,591</u> |
| Total actuarial present value of accumulated plan benefits | <u>\$ 273,965,353</u> | <u>\$ 251,078,950</u> |

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2024 is as follows:

| | |
|--|-----------------------|
| Actuarial present value of accumulated plan benefits - Beginning of year | \$ 251,078,950 |
| Increase (decrease) during the year attributable to: | |
| Benefits accumulated | 1,433,332 |
| Benefits paid | (15,063,782) |
| Interest due to the decrease in the discount period | 14,375,645 |
| Changes in actuarial assumptions | <u>22,141,208</u> |
| Net increase | <u>22,886,403</u> |
| Actuarial present value of accumulated plan benefits - End of year | <u>\$ 273,965,353</u> |

The changes in actuarial assumptions line item above primarily results from a decrease in the assumed discount rate from 5.90 to 5.40 percent. This discount rate is based on the expected long-term return on plan assets.

Note 7 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA.

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Funding assumptions selection and rationale

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under the applicable provisions of the Internal Revenue Code and associated regulations.

Actuarial standards of practice ("ASOPs") 27 and 35 ask the actuary to disclose the information and analysis used to support the actuary's determination that non-prescribed assumptions are reasonable for the purpose of the measurement. The non-prescribed assumptions having a significant impact on the measurement of the Funding Target are the frequency of optional forms of payment, retirement rates and withdrawal rates. We perform periodic experience studies to assess the reasonableness of the retirement rates, termination rates, and the optional form elections assumed in our valuation. We review these studies with the plan sponsor and set these rates based on the analysis and our discussions. We monitor these assumptions annually through gain/loss analyses.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, in accordance with ASOP 51, an assessment of risks for the plan was performed.

Retirement Plan for Employees of Reckitt Benckiser LLC

EIN / PN: 16-1095651 / 005

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Current terminated vested participants are assumed to commence receiving benefits in accordance with the following schedule:

| Current Age | Commencement Age |
|--------------|--------------------------------|
| Under age 65 | Age 65 |
| Over age 65* | Age 70 or current age if older |

*Prior Salaried Plan TVs are valued with an actuarially increased benefit and Cash Balance Plan TVs continue to receive Interest Credits.

These rates are based on a May 2012 study of Reckitt retirement experience from 2007-2011. A study of retirement experience from 2014-2018 resulted in no change to the rates.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

| | Actuary's Assumption | Third Segment Rate | Reflecting Limit |
|----------------------|----------------------|--------------------|------------------|
| 2023 Expected Return | 6.40% | 5.74% | 5.74% |
| 2022 Expected Return | 5.80% | 5.92% | 5.80% |

The actuary's expected rate of return is based on the plan's asset allocation as of the valuation date and forward-looking expected rates of return by asset category provided by the plan's investment consultant. We assumed allocations of 18% equities, 79% bonds and 3% real estate, consistent with sponsors current policy as stated on the latest Annual Funding Notice.

In selecting the expected return on assets ("EROA") assumption, the actuary used economic information provided by Gallagher's Investment Consulting and Financial Risk Management practices along with an analysis of expected long term return assumptions performed by the plan sponsor's investment consultants. Gallagher's Capital Market Assumptions provide relevant expected returns, standard deviations, and correlations. Projected returns are then developed for the portfolio using the GEMS® Economic Scenario Generator from Conning & Company. This sophisticated model (disclosed below under Use of Models) uses a multifactor approach to create internally consistent, realistic economic scenarios (paths) for all asset classes that reflect the current economic environment as a starting point. Equity returns include stochastic volatility with jumps ("SVJ") to reflect extreme infrequent events; however, such scenarios do not typically impact the 5th through 95th percentiles. Corporate bond yields are generated by adding credit spreads to the corresponding zero-coupon treasury yield. The credit spread is driven by several factors, including equity returns, and also contains a shock process to allow the model to generate scenarios like the 2008 Financial Crisis. GEMS® does not, however, model specific risks such as war, pandemics, political risks, severe economic dislocations occurring with greater frequency or severity than predicted by the model, or the risk that relationships among macroeconomic variables may be different than in the past. From these scenarios, a probabilistic model of expected returns is created reflecting the duration (horizon) of investment and the approximate allocation of assets in the portfolio to various asset classes. Under current calibrations, GEMS® will tend to show higher expected returns for longer durations, and will show a greater divergence between arithmetic and geometric average returns the higher the standard deviation of portfolio return.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method (continued)

Based on the actuary's analysis, including consistency with other assumptions used in the valuation, and discussions with Gallagher's investment consultants and information supplied by the plan's investment advisors, the actuary selected a rate between the median and 55th percentile of returns generated by the GEMS® model which aligned with the expected median return analysis provided by the plan sponsor's investment consultants at the 20-year time horizon.

Summary of Changes from the January 1, 2023 Valuation

- The interest rate basis for computing funding liabilities was updated to the current rates as specified by IRS Regulations 1.430(h)(2)-1. These rates are constrained in accordance with relevant legislation.
- The mortality assumption was updated according to the projection as specified by IRS Regulation 1.430(h)(3)-1, as amended in IRS Notice 2023-73, applied on a fully generational basis.
- The lump sum mortality was updated to the Applicable IRS Mortality Table under IRS Section 417(3)(e), the Pri-2012 mortality table, projected with Scale MP-2021 as described in Appendix of IRS Notice 2023-73.
- Expected administrative expense load to Target Normal Cost was decreased from \$3,970,000 to \$2,130,000 to reflect expense information available as of the valuation date.
- The expected return on assets changed from 5.80% in 2022 to 6.40% in 2023.
- Where applicable, actuarial increase factors were updated to use the applicable mortality and interest rates prescribed by IRS Section 417(3)(e) for the 2024 plan year.
- The cash balance interest crediting rate assumption was updated from 5.72% for 2023 and 5.00% thereafter to 5.80% for 2024, 5.00% for years 2025 through 2033, 5.70% for years 2034 through 2043 and 5.00% thereafter.
- The changes in prescribed and non-prescribed assumptions between 1/1/2023 and 1/1/2024 increased the Funding Target by 1.40%.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

| Weighted Average Retirement Age = 12297.9763 / 194.1448 | | | | 63.34 |
| Rounded Weighted Average Retirement Age | | | | 63 |

Note to Column 2: The Expected Active Headcount for each age includes persons who are eligible to retire and persons who are not eligible to retire at each age.

Note to Column 3: At each age, these retirement rates are a weighted average of the rates shown in Attachment to Part V for active participants eligible to retire at the age and zero for all other active participants.

General note: The table presents values rounded to fewer significant digits than used in the calculation.

Schedule SB, Line 24 – Change in Non-Prescribed Actuarial Assumptions

Summary of Changes from the January 1, 2023 Valuation

- Expected administrative expense load to Target Normal Cost was decreased from \$3,970,000 to \$2,130,000 to reflect expense information available as of the valuation date. The decrease is mainly attributable to the decrease in the PBGC premium.
- The expected return on assets changed from 5.80% in 2022 to 6.40% in 2023.
- The above-mentioned changes had no impact on the Funding Target.
- The cash balance interest crediting rate assumption was updated from 5.72% for 2023 and 5.00% thereafter to 5.80% for 2024, 5.00% for years 2025 through 2033, 5.70% for years 2034 through 2043 and 5.00% thereafter.
