Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **ERNST & YOUNG LLP**

(2) EIN: **34-6565596**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X

Report of Independent Auditors

The Investment Committee and Plan Administration Committee
CSX Pension Plan

Opinion

We have audited the financial statements of CSX Pension Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

CSX PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1. Description of Plan

General: The CSX Pension Plan (the “Plan”) is a noncontributory defined benefit pension plan sponsored by CSX Corporation (the “Plan Sponsor” or “CSX”). It covers certain employees of CSX and its subsidiaries (collectively, the “Company”), provides for retirement, death and disability benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Benefits and Vesting: Benefits for employees hired or promoted from a contract position before January 1, 2003 are based on service and employees’ compensation subject to pension benefits using the average of the highest 60 consecutive months of pay preceding the valuation date. These participants are eligible for monthly benefit payments upon the following conditions:

- Normal retirement at age of 65;
- Early retirement with 10 years of vesting service at age 55; or
- Early retirement with 10 years of vesting service at age 50 (in the case of transferred Sea-Land members who were hired by Sea-Land Corporation prior to January 1, 1986).

For employees hired between 2003 and 2019, benefits are determined based on a cash balance formula, which provides benefits by utilizing interest and pay credits based upon age, service and compensation. These participants are eligible for monthly benefit payments at retirement, as long as the participant has reached the age of 65, or, if the participant leaves the Company prior to retirement, at any age as long as the vesting requirements have been met.

Employees participating in the plan prior to January 1, 2008, become vested after five years of service. Employees who enter the plan after January 1, 2008, become vested after three years

Funding Requirements: Qualified pension plan obligations are funded in accordance with prescribed regulatory requirements and with an objective of meeting minimum funding requirements necessary to avoid restrictions on flexibility of plan operation and benefit payments. The Company’s contributions fund both normal pension costs on a current basis as well as the amortization of any funding shortfall over a seven year period. For the 2024 and 2023 plan years, the minimum required contribution was zero, as determined under ERISA. The Company did not make any discretionary contributions in 2024 and 2023.

Plan Termination: Should the Plan terminate at some future time, the Plan provides for the payment of benefits in a prescribed order of priority based on the participants’ claims to the assets. Retired participants, surviving spouses who are receiving pensions and participants whose age and service would permit retirement under the Plan have first claim to Plan assets. The remaining assets, if any, would be available to pay benefits to other participants. If Plan assets are insufficient to pay benefits at Plan termination, the Pension Benefit Guaranty Corporation (“PBGC”), a U.S. Government agency, may provide benefit payments.

Generally, the PBGC guarantees most vested normal age and early retirement benefits, as well as certain survivor benefits, but does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

NOTE 1. Description of Plan, *continued*

Information about the Plan agreement, the vesting and benefit provisions and the PBGC's benefit guarantee is contained in the CSX Pension Plan document ("Plan document") and the Company's publication, *Summary Plan Description*. Copies of these publications are available from the Company's Pension Center and they can be reached at 1-866-279-7297.

Plan Closure: Effective January 1, 2020, the plan was closed to new participants. This change did not result in a material impact to the pension plan balances as the active participants will continue to accrue benefits.

NOTE 2. Summary of Significant Accounting Policies

Basis of Presentation: The financial statements have been prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles. All dollar amounts are reported in thousands unless otherwise noted. Where applicable, prior year information has been reclassified to conform to current presentation.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments and Income Recognition: The CSX Corporation Master Pension Trust ("Master Trust") (see Note 4) holds all investments of the Plan and the Merged UTU and Greenbrier Pension Plan, a similar plan for certain union employees. The Master Trust investments are valued as disclosed in Note 7. All securities transactions of the Master Trust are recorded as of the trade date. Interest and dividends are recorded when earned and on the ex-dividend date, respectively. Purchases and sales are recorded on a trade date basis. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Derivative Financial Instruments: The Master Trust, through activities of certain investment managers, uses derivative financial instruments in connection with its normal trading activities in an effort to improve investment returns, manage exposure to fluctuations in interest rates or otherwise manage risk. A derivative financial instrument is a security or contractual agreement that derives its value from some other security, commodity, currency or index. The Master Trust is invested in derivative financial instruments consisting primarily of futures contracts. The change in fair value of derivative financial instruments is included in the net gain from investment in Master Trust.

CSX PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 2. Summary of Significant Accounting Policies, *continued*

The Master Trust is exposed to risks from unfavorable changes in interest rates or market values of the securities underlying the derivative financial instruments. The counterparties to the derivative instruments also expose the Master Trust to credit risk in the event of nonperformance. However, the Master Trust minimizes its exposure to credit loss by requiring settlement with the counterparties as frequently as daily and/or requiring settlement based upon pre-established dollar amount limits to those counterparties.

The primary risk managed by using future contracts is the price risk associated with investments. These contracts are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into such a contract on behalf of the Plan, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as "variation margin" and are recorded on a daily basis by The Northern Trust Company (the "Trustee"), the trustee for the Master Trust, as a realized gain or loss equal to the difference in the value of the contract between daily closing prices. See Note 4, Investment in Master Trust.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for employees hired before January 1, 2003 are based on employees' compensation subject to pension benefits using the average of the highest 60 consecutive months of pay preceding the valuation date. For employees hired on or after January 1, 2003, but prior to December 31, 2019, benefits are determined based on a cash balance formula, which provides benefits by utilizing interest and pay credits based upon age, service and compensation. Benefits payable under all circumstances - retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

NOTE 3. Accumulated Plan Benefits

The *Plan Accounting – Defined Benefit Pension Plans Topic* in the ASC permits companies to disclose actuarial present value of accumulated plan benefits as of the end of the previous year. The Company retained an actuarial firm to perform such analysis as of December 31, 2023, as participant data for year-end 2024 was not yet available. The accumulated plan benefits result from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants. These adjustments reflect the time value of money (through discounts for interest) and the probability of payment (resulting from death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits information as of December 31, 2023 is as follows:

<i>(Dollars in Thousands)</i>	December 31, 2023
Actuarial present value of accumulated plan benefits:	
Vested benefits:

NOTE 3. Accumulated Plan Benefits, *continued*

The changes in the accumulated plan benefits information for the year ended December 31, 2023 are as follows:

<i>(Dollars in Thousands)</i>	<u>2023</u>
Actuarial present value of accumulated plan benefits at January 1, 2023	\$ 1,730,151
Increase (decrease) during the year attributed to:	
Interest accumulation	111,520
Benefits paid	(158,580)
Change in actuarial assumptions	—
Other changes	39,063
Net decrease	<u>(7,997)</u>
Actuarial present value of accumulated plan benefits at December 31, 2023	<u>\$ 1,722,154</u>

The discount rate used to measure the present value of accumulated plan benefits was 6.75% as of December 31, 2023 and December 31, 2022. Other changes represents the normal operation of the plan and consists primarily of the increase due to ongoing benefit accruals and items of plan experience not associated with plan asset performance.

The Plan utilizes the standard unit credit cost method to determine the accumulated plan benefits as required by the *Plan Accounting – Defined Benefit Pension Plans Topic* in the ASC. Under this method, the calculated liability is based upon the benefit accrued from the date of entry in the Plan to the date of the valuation. Demographic assumptions are applied to determine the projected benefit payouts, which are discounted with the selected rate to the valuation date.

Disability Pri. 2012 Fully Generational Disabled Mortality Table, projected from 2012 base tables with Scale MP-2021.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumptions used to estimate the Plan's obligation were evaluated based on all available information through the date the financial statements are available to be issued. Therefore, the Plan's obligation reflects the mortality and retirement conditions existing as of the date the obligation is presented in the financial statements.

NOTE 4. Investment in Master Trust

During 2020, the Company migrated to an outsourced investment management strategy to manage the pension plan assets. The CSX Investment Committee (the "Investment Committee"), whose members are selected by the Executive Vice President and Chief Financial Officer, is responsible for setting policy and oversight of investment management. The Investment Committee and investment manager utilize an investment asset allocation strategy that is monitored on an ongoing basis and updated periodically in consideration of plan or employee changes, or changing market conditions. Periodic studies provide extensive modeling of asset investment return in conjunction with projected plan liabilities and seek to evaluate how to maximize return within the constraints of acceptable risk. All investments of the Master Trust are held by the Trustee.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

NOTE 4. Investment in Master Trust, *continued*

The Master Trust also has investments in derivatives. The 2024 plan year derivative activity consisted of \$594.3 million and \$667.9 million in purchases and sales, respectively, of primarily futures contracts. In comparison, the 2023 plan year derivative activity consisted of \$489.6 million and \$469.3 million in purchases and sales, respectively, of primarily futures contracts. These contracts were related to U.S. Treasury bills and U.S. Treasury notes in both years. The derivative balance includes cash collateral payables of \$546 thousand for the plan year ending December 31, 2024. In comparison, the derivative balance for plan year ending December 31, 2023 includes cash collateral receivables of \$361 thousand.

Investment income and expenses are allocated to each plan in a pro-rata fashion based on the Plan's average daily investment balances. Investment income for the Master Trust for 2024 and 2023 was as follows:

<i>(Dollars in Thousands)</i>	For the Year Ended December 31,	
	2024	2023
Net appreciation on fair value of investments in Master Trust	\$ 13,584	\$ 279,814

Investment gain from the Master Trust	\$ 93,115	\$ 339,431
Plan's investment gain in Master Trust	\$ 89,440	\$ 326,126
Plan's percentage of investment gain for the Master Trust	96 %	96 %

NOTE 5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS"), dated September 8, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is tax-exempt. Subsequent to this determination by the IRS, the Plan was amended and restated. Qualified plans are required to operate in conformity with the Code to maintain their qualified status. Management believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, remains qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan. A tax liability is recognized if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 7. Fair Value Measurements

The *Financial Instruments Topic* in the ASC requires disclosures about fair value of financial instruments. Also, the *Fair Value Measurements and Disclosures Topic* in the ASC clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Various inputs are considered when determining the value of the Plan's investments. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. These inputs are summarized in the three broad levels listed below.

- Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments)

The valuation methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

CSX PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 7. Fair Value Measurements, *continued*

Following is a description of the valuation methodologies used for Plan assets measured at fair value.

Assets in the fair value hierarchy

- *Common stock (Level 1)*: Valued at the closing price reported on the active market on which the individual securities are traded on the last day of the Plan year.
- *Mutual funds (Level 1)*: Valued at the net asset value (“NAV”) of shares held by the Master Trust at year end based on quoted market prices determined in an active market.
- *Cash and cash equivalents (Level 1)*: Includes cash and short term investments with an original maturity of three months or less. The carrying value of cash and cash equivalents on the last day of the Plan year approximates fair value.
- *Corporate bonds, derivatives, government securities, and asset-backed securities (Level 2)*: Valued using price evaluations reflecting the bid and/or ask sides of the market for an investment as of the last day of the Plan year. Asset-backed securities include commercial mortgage-backed securities and collateralized mortgage obligations.

Assets measured at net asset value practical expedient

- *Commingled and common collective trust funds*: This class consists of private funds that invest in corporate equity and debt securities, government securities and various short-term debt instruments and are measured at net asset value practical expedient to estimate the fair value of the investments. The net asset value of the investments is determined by reference to the fair value of the underlying securities at year-end, which are valued primarily through the use of directly or indirectly observable inputs. These funds have redemption restrictions that require advanced notice of up to 45 days. See Note 4 for a description and the investment objectives of the commingled and common collective trust funds held.
- *Partnerships*: The private equity partnerships are valued using the NAV practical expedient which is based on the fair market values associated with the underlying investments at year end. These funds have varying redemption restrictions, but most require advanced notice of at least 15 business days.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the assets disclosed in Note 4, Investment in Master Trust.

NOTE 8. Related Party Transactions

The Trustee routinely invests assets in its own Collective Short-Term Investment Fund. During 2024 and 2023, the Master Trust earned interest of \$20.2 million and \$5.4 million for transactions with this fund, respectively, a portion of which is allocated to the Plan based upon the Plan's pro-rata share in the net assets of the Master Trust and is included in net gain from investment in Master Trust in the Statements of Changes in Net Assets Available for Benefits.

NOTE 9. Subsequent Events

The Plan considers events or transactions that occur after the date of the Statement of Net Assets Available for Benefits, but before the financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through September 22, 2025, the date these financial statements were available to be issued. The Company has determined that there are no material events that would require disclosure in the Plan's financial statements through this date.

Actuarial Assumptions and Methods

Interest Rates	Based on segment rates with a four-month lookback (as of September 2023), each adjusted as needed to fall within the 25-year average interest rate corridor and reflecting ARPA provisions
1st Segment Rate	4.75%
2nd Segment Rate	4.87%
3rd Segment Rate	5.59%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2023), without regard to interest rate stabilization:
1st Segment Rate	3.62%
2nd Segment Rate	4.46%
3rd Segment Rate	4.52%
Salary Increases	
Minimum Funding Target Normal Cost	See Table 1
Maximum Tax Expected Benefit Increase	See Table 1
Cash Balance Interest Crediting Rate	3.75%
Social Security Wage Base Increases	2.75%
Social Security COLA Increases	2.25%
Optional Payment Form Election Percentage	Traditional benefits - 35% of participants are assumed to elect a 50% joint and survivor annuity, 45% of participants are assumed to elect a 100% joint and survivor annuity, and 20% of participants are assumed to elect a life annuity. Cash Balance benefits - 40% of participants are assumed to elect an immediate lump sum, 10% elect to defer the lump sum one year, 10% elect to defer the lump sum two years, and 40% elect to defer the lump sum to age 60.

Disability Rates

See Table 4

Decrement Timing

Middle of year decrements, with 100% retirement occurring at beginning of year

Surviving Spouse Benefit

It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior four six-month periods, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2022 Plan Year

The applicable third segment rate limitation is 5.92%.

2023 Plan Year

The applicable third segment rate limitation is 5.74%.

Trust Expenses Included in Target Normal Cost

Based on the average of the prior year's actual plan administrative expenses (excluding PBGC premiums) plus the estimated PBGC premiums for the current year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The retirement age developed is based on an employee who fulfilled the minimum age requirement for early retirement eligibility and whose age at hire is equal to the average age at hire of active employees included in the valuation and is calculated in accordance with the following formula which generally assumes employees terminate at the middle of the year.

15

Σ

$$t=0 \quad ({}_t p_{55}) * (q^r_{55+t}) * (55 + t + \frac{1}{2})$$

15

Σ

$$t=0 \quad ({}_t p_{55}) * (q^r_{55+t})$$

The $\frac{1}{2}$ in the formula shown above is not used for $t = 15$. In the formula shown above ${}_t p_{55}$ is calculated using all of the decrements, and q^r_{55+t} represents the sum of the applicable retirement decrements. Following are the retirement rates.

Surviving Spouse Benefit

It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior four six-month periods, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V — Summary of Plan Provisions

Summary of Plan Provisions

Traditional Benefit

Effective Date	January 1, 1982. As amended and restated January 1, 2016.
Participation	All full-time, non-contract employees of a participating employer become participants on the first of the month coincident with or next following date of hire.
Transportation Plan	CSX Transportation Inc. Pension Plan
SL Service Prior Plans	Retirement Plan for Employees of Sea-Land Corporation (1969 Plan), Retirement Plan for Employees of Waterman Steamship Corporation (Waterman Plan), Sea-Land Corporation Retirement Plan (1965 Plan).
Conrail Plan	Supplemental Pension Plan of Consolidated Rail Corporation
Normal Retirement	
Eligibility	Age 65
Benefit Amount	A monthly amount equal to the greater of (A), (B) or (C): (A) An offset benefit formula integrated with railroad Retirement Board benefits and Social Security benefits equal to (i) less (ii) less (iii): (i) Gross Pension: 1.5% of monthly Average Compensation multiplied by full and fractional years of Credited Service (ii) Tier I Offset: 60% of the participant's Tier I Railroad Retirement benefit plus 40% of the participant's Social Security benefit multiplied by a fraction equal to Credited Service divided by current service under the system (from later of year following age 21 or January 1, 1951). (iii) Tier II Offset: 60% of the participant's Tier II Railroad Retirement benefit based on compensation and Credited Service while covered by the Railroad Retirement System.

Schedule SB Attachment (Form 5500) —2024 Plan Year

CSX Pension Plan

EIN: 62-1051971 PN: 005

Traditional Benefit

Normal Retirement

Benefit Amount

(B) \$6.50 for each full and fractional year of credited Service up to 10 years.

(C) The accrued pension under the Conrail Plan as of August 1, 1999.

SL Prior Benefit Amount

Participants may not receive a benefit smaller than that accrued as of December 31, 1988, under the terms of the prior plans. The prior monthly offset benefit is equal to (A) less (B):

(A) 1 $\frac{3}{4}$ % of final average compensation (over five years) multiplied by full and fractional years of credited service up to 40 years

(B) $\frac{3}{4}$ % of Social Security benefit multiplied by full and fractional years of credited service up to 40 years.

For participants that have reached age 59 as of January 1, 1989, the minimum benefit is computed reflecting all years of credited service and compensation.

Early Retirement

Eligibility

Attainment of age 55 and completion of 10 years of Service (age 50 for certain SL Service prior plans).

Benefit Amount

The accrued normal retirement gross benefit is reduced 1/360th for each month retirement precedes age 60. The offsets are reduced for early commencement in accordance with the respective Railroad Retirement or Social Security system. In addition, the offsets are not applied to the monthly benefit payable until earliest eligibility for system benefits is reached.

Retirement Plan for Employees of Sea-Land Corporation (1969 Plan), Retirement Plan for Employees of Waterman Steamship Corporation (Waterman Plan), Sea-Land Corporation Retirement Plan (1965 Plan).

Schedule SB Attachment (Form 5500) —2024 Plan Year

CSX Pension Plan

EIN: 62-1051971 PN: 005

Traditional Benefit

Late Retirement

Eligibility

Attainment of any age beyond age 65.

Benefit Amount

The normal retirement benefit accrued as of the late retirement date reflecting additional Credited Service and Compensation, or the normal retirement benefit actuarially increased for later commencement.

Deferred Retirement

Instead of beginning benefit payments immediately at retirement (early, normal, or late), a participant may defer commencement to as late as age 70. At actual commencement may elect to receive a lump sum equal to the missed payments without interest or have the retirement benefit actuarially increased.

If death occurs during the deferral period, the surviving spouse may reelect payment choices, or if no surviving spouse the lump sum is paid to estate.

Disability Retirement

Eligibility

Total and permanent disability before February 1, 2003 that results in benefit eligibility under the company sponsored disability plan.

Benefit Amount

The pension accrued as of the normal retirement date commencing at the normal retirement date. Disabled employees will continue to earn Service and Credited Service until disability ceases or retirement at age 65.

Deferred Vested Retirement

Eligibility

Five years of Service.

Benefit Amount

The normal retirement benefit calculated as of the termination date is payable at the normal retirement date. The participant may elect to receive a reduced benefit as early as age 55 (or age 50 for certain former SL Service Prior Plan members) if eligible for early retirement based on Service at termination.

If the vested participant terminates after reaching age 50 and completing 20 years of Credited Service, the reduced benefit is computed in accordance with the early retirement provisions.

Schedule SB Attachment (Form 5500) —2024 Plan Year

CSX Pension Plan

EIN: 62-1051971 PN: 005

Traditional Benefit

Deferred Vested Retirement

Benefit Amount Otherwise, the normal retirement benefit is reduced 0.5% for each month that commencement precedes age 65.

In no case will the benefit payable be reduced below the December 31, 1990, benefit payable under the terms of the plan at that time.

Surviving Spouse Benefit

Eligibility Five years of Service prior to date of death, survived by an eligible spouse.

Benefit Amount The spouse receives a monthly benefit equal to 50% of the pension which would have been otherwise payable had the participant separated on the date of death (or actual termination if earlier). Reduced payments may commence on the earliest possible retirement date available as if the participant had survived.

If in active employment at time of death, the benefit is provided under the early retirement provisions regardless of age or service.

Optional Spouse's Pension

Eligibility Attainment of age 55 with at least 10 years of Service and married for at least 30 days.

Benefit Amount Instead of the surviving spouse benefit described above, a participant may elect for 100% of the otherwise payable pension to continue to the surviving spouse. The benefit is reduced for the form of payment and for each month of preretirement coverage as shown below:

Age During Months of Coverage	Applicable Percentage
55 - 59	1/24th of 1%
60 - 64	1/16th of 1%
65+	1/12th of 1%

Traditional Benefit

Transferred Employees

Between Employers

If an employee transfers from an Affiliated Employer, normal retirement benefit is determined reflecting all Credited Service and Compensation as if always a member of the Plan offset by any other accrued qualified plan benefits.

From Railroad Retirement System

If a member is transferred to a position not covered by the Railroad Retirement System, the Plan provides an additional benefit to compensate for any Railroad Retirement benefits that may be forfeited:

- If less than 60 months of Railroad Service and not vested in their Tier II annuity, but subsequently earns 60 months of service with the company, the pension will increase by the Tier II annuity that could have been earned. This pension supplement commences at age 62 after reflecting the Plan's Tier II offset.
- If more than 60 months of Railroad Service, the pension will increase for the excess of the estimated Tier II annuity reflecting all years of service over the actual Tier II annuity payable, further reduced by the value of savings in Railroad Retirement taxes.

This pension supplement, after reflecting the Plan's Tier II offset, commences at the date the reduction for Railroad Retirement benefits becomes effective.

- If more than 25 years of Railroad Service and would have earned 30 years if not for the transfer, then an additional pension supplement is provided between age 60 and 62. It is equal to the Tier I and Tier II annuities that would have been payable during this period. The pension supplement shall reflect the appropriate Plan offsets.

Traditional Benefit

Section 415 Limit

The plan's maximum benefit is limited by IRC Section 415 as specified by the Tax Reform Act of 1986. The limit is indexed upward each year for active participants. The limit is actuarially decreased for early commencement.

Section 401(a)(17) Limit

Considered compensation is limited by the Pension Protection Act of 1987 to \$150,000 (indexed). In no event will the benefit provided be less than the accrued benefit as of December 31, 1993, plus benefit based on future service from that date (extended wear-away).

Normal Form of Benefit

Married

Unreduced 50% contingent annuity with spouse as beneficiary.

Single

Single Life annuity.

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis.

- 50%, 75%, or 100% contingent annuity.
- Nonelective immediate lump sum payment if less than \$5,000.

Simplified adjustment factors are provided for conversions with a spousal beneficiary.

Source of Contributions

The company pays the entire ongoing cost of the Plan.

Definitions

Compensation	Monthly base pay, plus salary reductions under IRC Section 401(k) and IRC Section 125, plus bonus and incentive payments for services rendered, plus deferred compensation. Excludes overtime pay and other forms of compensation. Includes employer match and profit sharing contributions to CSXtra prior to May 1, 2010.
Average Compensation	The average monthly Compensation over 60 consecutive months of Credited Service that produces the highest average.
Service	Includes all employment from date of hire, subject to breaks in service. One month is earned if a single day is worked during a calendar month.
Credited Service	Included all service from date of hire (date of participation prior to January 1, 1989), excluding any period while not an employee. Several groups that have been merged into this plan have special provisions regarding prior employment treated as Credited Service.
Social Security Benefit	Old-age or disability insurance benefit payable at retirement under the Social Security Act in effect at the time of retirement or earlier separation. Estimated based on actual earnings available, prior earnings regressed using National Average Wages, and zero future earnings.

Cash Balance Formula

Effective Date Plan participants on or after January 1, 2003, including transfers from contract positions or affiliated employers are covered by the cash balance formula. As amended and restated January 1, 2016.

Benefit An actuarial equivalent annuity of the participant's cash balance account is payable at termination or retirement.

The account balance is based on accumulated Pay Credits and Interest Credits added at the end of each month.

Cash Balance Pay Credit For Active employees at the end of the month, equal to a percentage of pay based on Age plus Credited Service Points as of the end of the prior month as shown below:

Points	Pay Credit for Compensation Up To Social Security/ Tier 1 Taxable Wage Base	Pay Credit for Compensation In Excess of Social Security/ Tier 1 Taxable Wage Base
0-44	4.0%	8.0%
45-54	5.0%	9.0%
55-64	6.0%	10.0%
65-75	7.0%	11.0%
75-79	8.0%	12.0%
80 or more	10.0%	14.0%

Interest Credit For all accounts prior to commencement, an interest credit is added equal to one-twelve of the 10-year Treasury Constant Maturities (minimum annual rate of 3.66% applies) times the account balance at the end of the preceding month.

Cash Balance Formula

Eligibility	The vesting and retirement eligibility are the same as in the traditional pension except that effective January 1, 2008, the Vesting requirement is three years of service. Disability benefits are not different than Vesting.
Death Benefit	The entire account balance is payable at death prior to commencement. The surviving spouse may elect an equivalent single life annuity; other beneficiaries are paid a single lump sum.
Definitions	All definitions are generally the same as in the traditional pension, except that Credited Service includes prior contract service periods.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The retirement age developed is based on an employee who fulfilled the minimum age requirement for early retirement eligibility and whose age at hire is equal to the average age at hire of active employees included in the valuation and is calculated in accordance with the following formula which generally assumes employees terminate at the middle of the year.

15

Σ

$$t=0 \quad ({}_t p_{55}) * (q^r_{55+t}) * (55 + t + \frac{1}{2})$$

15

Σ

$$t=0 \quad ({}_t p_{55}) * (q^r_{55+t})$$

The $\frac{1}{2}$ in the formula shown above is not used for $t = 15$. In the formula shown above ${}_t p_{55}$ is calculated using all of the decrements, and q^r_{55+t} represents the sum of the applicable retirement decrements. Following are the retirement rates.

Schedule SB, Part V — Summary of Plan Provisions

Summary of Plan Provisions

Traditional Benefit

Effective Date	January 1, 1982. As amended and restated January 1, 2016.
Participation	All full-time, non-contract employees of a participating employer become participants on the first of the month coincident with or next following date of hire.
Transportation Plan	CSX Transportation Inc. Pension Plan
SL Service Prior Plans	Retirement Plan for Employees of Sea-Land Corporation (1969 Plan), Retirement Plan for Employees of Waterman Steamship Corporation (Waterman Plan), Sea-Land Corporation Retirement Plan (1965 Plan).
Conrail Plan	Supplemental Pension Plan of Consolidated Rail Corporation
Normal Retirement	
Eligibility	Age 65
Benefit Amount	A monthly amount equal to the greater of (A), (B) or (C): (A) An offset benefit formula integrated with railroad Retirement Board benefits and Social Security benefits equal to (i) less (ii) less (iii): (i) Gross Pension: 1.5% of monthly Average Compensation multiplied by full and fractional years of Credited Service (ii) Tier I Offset: 60% of the participant's Tier I Railroad Retirement benefit plus 40% of the participant's Social Security benefit multiplied by a fraction equal to Credited Service divided by current service under the system (from later of year following age 21 or January 1, 1951). (iii) Tier II Offset: 60% of the participant's Tier II Railroad Retirement benefit based on compensation and Credited Service while covered by the Railroad Retirement System.

Schedule SB Attachment (Form 5500) —2024 Plan Year

EIN: 62-1051971 PN: 005

Traditional Benefit

Normal Retirement

- Benefit Amount
- (B) \$6.50 for each full and fractional year of credited Service up to 10 years.
 - (C) The accrued pension under the Conrail Plan as of August 1, 1999.

SL Prior Benefit Amount

Participants may not receive a benefit smaller than that accrued as of December 31, 1988, under the terms of the prior plans. The prior monthly offset benefit is equal to (A) less (B):

(A) 1 $\frac{3}{4}$ % of final average compensation (over five years) multiplied by full and fractional years of credited service up to 40 years

(B) $\frac{3}{4}$ % of Social Security benefit multiplied by full and fractional years of credited service up to 40 years.

For participants that have reached age 59 as of January 1, 1989, the minimum benefit is computed reflecting all years of credited service and compensation.

Early Retirement

Eligibility Attainment of age 55 and completion of 10 years of Service (age 50 for certain SL Service prior plans).

Benefit Amount

The accrued normal retirement gross benefit is reduced 1/360th for each month retirement precedes age 60. The offsets are reduced for early commencement in accordance with the respective Railroad Retirement or Social Security system. In addition, the offsets are not applied to the monthly benefit payable until earliest eligibility for system benefits is reached.

Retirement Plan for Employees of Sea-Land Corporation (1969 Plan), Retirement Plan for Employees of Waterman Steamship Corporation (Waterman Plan), Sea-Land Corporation Retirement Plan (1965 Plan).

CSX Pension Plan

EIN: 62-1051971 PN: 005

Traditional Benefit

Late Retirement

Eligibility

Attainment of any age beyond age 65.

Benefit Amount

The normal retirement benefit accrued as of the late retirement date reflecting additional Credited Service and Compensation, or the normal retirement benefit actuarially increased for later commencement.

Deferred Retirement

Instead of beginning benefit payments immediately at retirement (early, normal, or late), a participant may defer commencement to as late as age 70. At actual commencement may elect to receive a lump sum equal to the missed payments without interest or have the retirement benefit actuarially increased.

If death occurs during the deferral period, the surviving spouse may reelect payment choices, or if no surviving spouse the lump sum is paid to estate.

Disability Retirement

Eligibility

Total and permanent disability before February 1, 2003 that results in benefit eligibility under the company sponsored disability plan.

Benefit Amount

The pension accrued as of the normal retirement date commencing at the normal retirement date. Disabled employees will continue to earn Service and Credited Service until disability ceases or retirement at age 65.

Deferred Vested Retirement

Eligibility

Five years of Service.

Benefit Amount

The normal retirement benefit calculated as of the termination date is payable at the normal retirement date. The participant may elect to receive a reduced benefit as early as age 55 (or age 50 for certain former SL Service Prior Plan members) if eligible for early retirement based on Service at termination.

If the vested participant terminates after reaching age 50 and completing 20 years of Credited Service, the reduced benefit is computed in accordance with the early retirement provisions.

CSX Pension Plan

EIN: 62-1051971 PN: 005

Traditional Benefit

Deferred Vested Retirement

Benefit Amount Otherwise, the normal retirement benefit is reduced 0.5% for each month that commencement precedes age 65.

In no case will the benefit payable be reduced below the December 31, 1990, benefit payable under the terms of the plan at that time.

Surviving Spouse Benefit

Eligibility Five years of Service prior to date of death, survived by an eligible spouse.

Benefit Amount The spouse receives a monthly benefit equal to 50% of the pension which would have been otherwise payable had the participant separated on the date of death (or actual termination if earlier). Reduced payments may commence on the earliest possible retirement date available as if the participant had survived.

If in active employment at time of death, the benefit is provided under the early retirement provisions regardless of age or service.

Optional Spouse's Pension

Eligibility Attainment of age 55 with at least 10 years of Service and married for at least 30 days.

Benefit Amount Instead of the surviving spouse benefit described above, a participant may elect for 100% of the otherwise payable pension to continue to the surviving spouse. The benefit is reduced for the form of payment and for each month of preretirement coverage as shown below:

Age During Months of Coverage	Applicable Percentage
55 - 59	1/24th of 1%
60 - 64	1/16th of 1%
65+	1/12th of 1%

Traditional Benefit

Transferred Employees

Between Employers

If an employee transfers from an Affiliated Employer, normal retirement benefit is determined reflecting all Credited Service and Compensation as if always a member of the Plan offset by any other accrued qualified plan benefits.

From Railroad Retirement System

If a member is transferred to a position not covered by the Railroad Retirement System, the Plan provides an additional benefit to compensate for any Railroad Retirement benefits that may be forfeited:

- If less than 60 months of Railroad Service and not vested in their Tier II annuity, but subsequently earns 60 months of service with the company, the pension will increase by the Tier II annuity that could have been earned. This pension supplement commences at age 62 after reflecting the Plan's Tier II offset.
- If more than 60 months of Railroad Service, the pension will increase for the excess of the estimated Tier II annuity reflecting all years of service over the actual Tier II annuity payable, further reduced by the value of savings in Railroad Retirement taxes.

This pension supplement, after reflecting the Plan's Tier II offset, commences at the date the reduction for Railroad Retirement benefits becomes effective.

- If more than 25 years of Railroad Service and would have earned 30 years if not for the transfer, then an additional pension supplement is provided between age 60 and 62. It is equal to the Tier I and Tier II annuities that would have been payable during this period. The pension supplement shall reflect the appropriate Plan offsets.

Traditional Benefit

Section 415 Limit

The plan's maximum benefit is limited by IRC Section 415 as specified by the Tax Reform Act of 1986. The limit is indexed upward each year for active participants. The limit is actuarially decreased for early commencement.

Section 401(a)(17) Limit

Considered compensation is limited by the Pension Protection Act of 1987 to \$150,000 (indexed). In no event will the benefit provided be less than the accrued benefit as of December 31, 1993, plus benefit based on future service from that date (extended wear-away).

Normal Form of Benefit

Married

Unreduced 50% contingent annuity with spouse as beneficiary.

Single

Single Life annuity.

Optional Forms of Payment

A retiring participant may also elect other optional forms of payment on an actuarially equivalent basis.

- 50%, 75%, or 100% contingent annuity.
- Nonelective immediate lump sum payment if less than \$5,000.

Simplified adjustment factors are provided for conversions with a spousal beneficiary.

Source of Contributions

The company pays the entire ongoing cost of the Plan.

Cash Balance Formula

Effective Date Plan participants on or after January 1, 2003, including transfers from contract positions or affiliated employers are covered by the cash balance formula. As amended and restated January 1, 2016.

Benefit An actuarial equivalent annuity of the participant's cash balance account is payable at termination or retirement.

The account balance is based on accumulated Pay Credits and Interest Credits added at the end of each month.

Cash Balance Pay Credit For Active employees at the end of the month, equal to a percentage of pay based on Age plus Credited Service Points as of the end of the prior month as shown below:

Points	Pay Credit for Compensation Up To Social Security/ Tier 1 Taxable Wage Base	Pay Credit for Compensation In Excess of Social Security/ Tier 1 Taxable Wage Base
0-44	4.0%	8.0%
45-54	5.0%	9.0%
55-64	6.0%	10.0%
65-75	7.0%	11.0%
75-79	8.0%	12.0%
80 or more	10.0%	14.0%

Interest Credit For all accounts prior to commencement, an interest credit is added equal to one-twelve of the 10-year Treasury Constant Maturities (minimum annual rate of 3.66% applies) times the account balance at the end of the preceding month.
