INDEPENDENT AUDITOR'S REPORT

Plan Administrator
Lumbermen's, Inc. Employee Stock
Ownership and Savings Plan
Grand Rapids, Michigan

Opinion

We have audited the financial statements of Lumbermen's Inc. Employee Stock Ownership and Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 4, investments amounting to \$102,009,435 and \$94,170,369 as of December 31, 2024 and 2023, respectively, have been reported at estimated fair values as determined by independent appraisals, which have been reviewed and approved by Plan management. These amounts represent 87% of net assets available for benefits as of December 31, 2024 and 2023. Our opinion is not modified with respect to this matter.

(Continued)

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

(Continued)

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i — Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The supplemental Schedule H, line 4i — Schedule of Assets (Held at End of Year), as of December 31, 2024 that accompanies the financial statements does not disclose the historical cost of certain nonparticipant-directed plan assets held by the trustee. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Our opinion on the ERISA-required supplemental schedules is not modified with respect to this matter.

LUMBERMEN'S, INC.
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – GENERAL DESCRIPTION OF THE PLAN

The following description of the Lumbermen's Employee Stock Ownership and Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was originally established on March 31, 1969 and was last restated on January 1, 2022. It is a defined contribution plan and leveraged employee stock ownership plan ("ESOP") covering nearly all employees of Lumbermen's, Inc. ("Company"). Covered employees with 90 days of service with the Company are eligible to make elective contributions on the first of each month after reaching the age of 20. Participants become eligible to receive employer contributions after reaching the age of 20 and employer ESOP contributions after obtaining at least 1,000 hours of service and must be employed at year end. The entry date for all employer contributions is the first day of the month following the fulfillment of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan purchased Company common stock shares using the proceeds of a bank borrowing guaranteed by the Company, as well as by using proceeds from Company borrowings funded through an internal note payable agreement (Note 3). The borrowings are to be repaid over a period of 20 years. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations.

The internally funded Company borrowings are collateralized by the unallocated shares purchased using proceeds from each note payable agreement. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024 present separately the assets and liabilities and changes therein pertaining to a) the accounts of employees with vested rights in allocated stock (allocated) and b) stock not yet allocated to employees (unallocated) and held as collateral.

Contributions: Participants can make voluntary salary or wage deferral contributions of his or her eligible compensation, within the maximum allowed by the Internal Revenue Service. Employees can also designate their contributions as Roth contributions. Participants are automatically enrolled at 5% upon becoming eligible to participate in the Plan and they may elect to change or discontinue deferrals at any time. Unless a participant who is enrolled in the Plan affirmatively elects otherwise, the participant's elective deferral percentage will increase by 1% each year on January 1st until the percentage reaches 10% of compensation. Subsequent to the year ended December 31, 2024, the Plan was amended effective April 7, 2025, modify the automatic contribution features. The default automatic enrollment contribution rate was increased from 5% to 6%, and the maximum automatic contribution escalation threshold was raised from 10% to 12%.

Each Plan year the Company will contribute employer ESOP contributions to the Plan in an amount equal to the principal and interest payments due on the note payable agreement (Note 3). The required contributions made to the Plan for the year ended December 31, 2024 by the Company were used to pay principal and interest on the note payable agreement for the release of shares. The corresponding shares released were allocated to participant accounts. The Company must also contribute to the ESOP no less than 8% of the participating compensation of ESOP participants. Employer contributions in the amount of \$2,000,000 were contributed to the Plan in 2024 towards the percentage of compensation threshold. The Company may also make discretionary employer ESOP, non-elective, qualified matching and matching contributions in addition to the percentage of compensation threshold as determined by the Board of Directors of the Plan Sponsor.

NOTE 1 – GENERAL DESCRIPTION OF THE PLAN (Continued)

Plan Termination: Although there is no intent to do so, the Plan can be terminated by the Plan sponsor at any time. In the event the Plan terminates, all accounts shall become 100% vested and the accrued benefits in an employee's individual account will be distributed in accordance with the terms of the Plan agreement.

Participant Accounts: Each participant's account is credited with the participant's own contribution and an allocation of the amount of a) discretionary employer contributions and employer ESOP contributions, b) Plan earnings or losses and c) administrative expenses. Allocations of employer ESOP contributions released from the unallocated accounts are based on a participant's eligible compensation relative to total eligible compensation for those eligible participants employed on the last day of the Plan year. Allocations of Plan earnings or losses and administrative expenses are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants: The Plan provides that participants can borrow funds against his or her account balance, excluding their ESOP account and cash surrender value of life insurance balance. The amount of a loan is limited to the lesser of \$50,000 or 50% of the vested interest in the participant's account. The minimum amount of the loan is \$500.

Retirement, Death and Disability: A participant employed by the Company is entitled to 100% of his or her respective employer contributions account balance upon retirement, death or total disability.

Vesting: Participants are immediately vested in their voluntary contributions, discretionary employer non-elective contributions, discretionary employer qualified matching contributions, rollover contributions, transfers and any income or loss thereon.

Vesting in the Company's ESOP contributions plus earnings thereon is based upon years of service, as defined by the Plan. Participants become 100% vested after five years of credited service with graduated vesting of 20% per year beginning after one year of credited service.

Vesting in the Company's discretionary matching contributions plus earnings thereon is based upon years of service, as defined by the Plan. Participants become 100% vested after six years of credited service with graduated vesting of 20% per year beginning after two years of credited service.

Forfeitures: The non-vested portion of terminated participants accounts plus earnings thereon are forfeited and can be used by the Plan to offset the restoration of previously forfeited participant accounts with any amount in excess considered additional employer contributions to the Plan. At December 31, 2024 and 2023, there were \$3,760 and \$2,992, respectively, available as future additional employer contributions to the Plan. The Plan did not use forfeitures to reduce employer matching contributions during the year ended December 31, 2024.

Benefit Payments: Upon termination of service or the participant's death, disability or retirement, a participant may elect to receive a lump-sum payment or direct transfer to another eligible plan equal to the value of his or her vested account.

NOTE 1 – GENERAL DESCRIPTION OF THE PLAN (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year and thereafter, the percentage changes to 50%. Participants who elect to diversify receive a distribution of shares of common stock.

Segregation of ESOP Accounts: Upon termination of service, if a participant elects to defer distribution or fails to elect distribution of the participant's ESOP Account when first eligible to elect distribution, then the Company stock in the participant's ESOP account shall be segregated from the other assets of the trust for investment purposes as of the end of the Plan Year in which the Participant first becomes eligible to request a distribution, and thereafter pending distribution. A participant's segregated Company stock is exchanged for cash from the active ESOP participants' accounts. A participant's segregated account may then be invested into various investment options including mutual funds and investment contracts.

Put Option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is not a market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Expenses: Professional fees for the audit of the Plan were paid by the Company. Administrative expenses of the Plan are paid by the Plan through Company contributions to the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term in the estimated fair value of the Plan's investment in Company common stock.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan provides for various investment options including Company common stock, mutual funds, investment contracts and life insurance. The investments are exposed to various risks, such as interest rate, market, liquidity and credit risks as well as the risks associated with global events. Due to the level of risk associated with investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Investment Valuation, Income Recognition: The Plan's investments other than fully benefit responsive investment contracts are reported at fair value as further described in Note 4. As further described in Note 5, contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

ESOP Accounting: The ESOP shares as of December 31, 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Shares allocated	66,616	72,552
Unallocated shares	<u>13,937</u>	<u>14,866</u>
Total ESOP shares	<u>80,553</u>	<u>87,418</u>

During the year ended December 31, 2024, 929 shares were released from unallocated to allocated for principal and interest payments made on the note payable agreement. During the year ended December 31, 2024, 6,866 shares were distributed in-kind to ESOP participants who either elected to receive a distribution or elected to diversify their ESOP investments under the provisions of the ESOP Plan. The Company repurchased these shares and subsequently retired them.

Interest Expense: Interest expense on the note payable agreements is recorded when incurred.

Payment of Benefits: Benefit payments are recorded when paid.

NOTE 3 – NOTES PAYABLE

The Plan entered into a promissory note effective on January 1, 2020 with the Company which effectively consolidated the existing ESOP loans into a new loan agreement in the amount of \$5,967,613. The Plan pledged and granted the Company a security interest of 18,582 shares of common stock. Payments are due in annual installments of \$478,857, including interest at 5.00% beginning December 31, 2020. The note matures on December 31, 2039. At December 31, 2024 and 2023, the outstanding balance was \$4,970,369 and \$5,189,738, respectively.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs.

The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments and derivative instruments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted market prices on nationally recognized securities exchanges (level 1 inputs).

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each pooled separate account provides for daily redemptions by the Plan, limited to one transfer per thirty-day periods, with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

(Continued)

LUMBERMEN'S, INC.
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. The collective trusts provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. The fund invests in investment contracts issued by life insurance companies, banks and other financial institutions with the objective of preserving principal investment while earning a level of interest income that is consistent with the principal preservation.

Company common stock: Investments in Lumbermen's, Inc. common stock is estimated annually, as of the financial statement date, based upon the results of an independent third party appraisal performed by a business appraiser selected and engaged by the Plan trustee who is accredited by the American Society of Appraisers. The appraisals are performed using a combination of the income approach using the discounted cash flows method and the market approach based upon valuation multiples of guideline public companies (Level 3 inputs). Under the discounted cash flow method, projections are based on an estimate of expected cash flow generated by the Company. The estimate was determined based upon past performance, future expectations, projections prepared by management, and discussions with management. The value of the enterprise was calculated by discounting the estimated cash flow with an appropriate discount rate. For the market approach, valuation multiples were used from an analysis of guideline public companies. The valuation multiples were examined, adjusted, and applied to the Company's projected results. Multiples of projected EBITDA (Earnings Before Interest, Taxes, Depreciation, and Amortization) and sales were used. The estimated fair value derived in the 2024 and 2023 appraisals reflected a weighting of 50% using the income approach and 50% using the market approach.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

During the year ended December 31, 2024, there were no purchases, issuances, or transfers of the Plan's Level 3 assets.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 5 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds a fully benefit-responsive traditional investment contract in the form of the Principal Fixed Income Guaranteed Option with Principal Life Insurance Company ("Principal") at December 31, 2024 and 2023. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract provides stability of principal and provides a specified interest rate that is guaranteed to the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The crediting interest rate is determined on a pooled basis and stated as an effective annual rate based on a formula agreed upon with the issuer. Such interest rates are reset semi-annually, and it may not be less than 1%. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract. Certain events may limit the ability of the Plan to currently transact at contract value with the issuer and may result in a deferral of the payment at contract value for up to 12 months. Such events include but may not be limited to the following: (1) removal of a group of participants from plan coverage as a result of temporary absence, change in position or other occurrence qualifying as a temporary break in service under the Plan; (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, (3) cessation of an employment relationship resulting from a reorganization, merger, layoff, or the sale or discontinuance of all or any part of the Plan sponsor's business; (4) removal from the Plan of one or more groups or classifications of participants; (5) partial or complete plan termination; or (6) plan disqualification. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 5 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (Continued)

The group annuity contract does not permit the insurance company to terminate the agreement prior to the maturity date. The Plan may be required to give a 12-month notice before terminating the contract to receive full contract value at the time of termination.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Professional fees for the audit of the Plan were paid by the Company. Administrative expenses of the Plan are paid by the Plan through Company contributions to the Plan. Investment management fees are paid for by the Plan to investment managers who qualify as parties-in-interest. These investment management fees are reflected in the financial statement as a reduction of the return on the Plan's investments. The Plan's investments in certain pooled separate accounts, collective investment trusts, and an investment contract at December 31, 2024 and 2023, are considered to be party-in-interest investments, as the managers and/or issuers of these investments are affiliates of Principal Trust Company, the custodian of certain investments held by the Plan. The Plan also holds shares of Lumbermen's, Inc. common stock, which is a related party investment. The Plan has entered into a note payable agreement with the Company (Note 3). The Plan's notes receivable from participants are also considered party-in-interest transactions.

Company contributions for the year ended December 31, 2024 were \$2,478,857. Principal and interest payments were made by the Plan on the note payable agreement (Note 3).

NOTE 7 – TAX STATUS OF THE PLAN

The Internal Revenue Service has determined and informed the Company by a letter dated September 20, 2022 that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC").

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8 – SUBSEQUENT EVENTS

Management has performed an analysis of the activities and transactions subsequent to December 31, 2024 to determine the need for any adjustments to or disclosure within the financial statements for the year ended December 31, 2024. Management has performed their analysis through September 30, 2025, which was the date that the financial statements were available to be issued and has determined that there are no subsequent events to disclose.
