INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Systems Engineering, Inc. Employee Stock Ownership Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Systems Engineering, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Systems Engineering, Inc. Employee Stock Ownership Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Notes 4 and 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Systems Engineering, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Systems Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Systems Engineering, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Systems Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SYSTEMS ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Systems Engineering, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the plan provisions.

General - Systems Engineering, Inc. (the Plan Sponsor, or Company) established the Plan effective January 1, 2007. The Plan is a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Administrative Committee comprising of one or more individuals appointed by the Company's Board of Directors. The trust department of an independent third-party bank is the Plan's Trustee.

In March 2008, the Plan purchased 1,000,000 shares representing 100% of the Company's stock immediately after redemption of the stock by the Company's former stockholders. The Plan acquired the common stock in exchange for notes payable to the Company totaling \$4,940,000 and holds the common stock in a trust established under the Plan. The Company has since contributed an additional 18,469 shares of common stock. Sponsor common stock outstanding, net of cumulative repurchases of 128,379 shares of common stock in settlement of distributions to participants, totals 890,090 shares at December 31, 2024.

As the Plan made each payment of principal and interest on the notes payable, an appropriate percentage of stock was be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The borrowing was collateralized by the unallocated shares of common stock. The note was paid in full and remaining unreleased shares were released from collateral and allocated to participants in 2023.

Shares vest ratably after two years of service, with full vesting upon six years of service.

Eligibility - Employees of the Company who have attained age 19 and completed at least one year of service are generally eligible to participate in the Plan. A year of service is defined as 1,000 hours of service. Participants who do not have at least 1,000 hours of service during a Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions - The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term note payable. The Company may also make additional discretionary contributions. Employees are not permitted to make contributions.

Voting rights - The Administrative Committee typically will decide how shares of the Company common stock held by the Plan will be voted by the Trustee. In certain situations, the participants have the right to decide how shares of the Company common stock allocated to their accounts will be voted. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

1. DESCRIPTION OF PLAN, CONTINUED

Participant accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of unallocated shares of the Company's common stock released by the Trustee, and any forfeitures of terminated participants' non-vested balances, Company discretionary contributions, Company distributions, and Plan earnings. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting - If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service after two years of service and are 100% vested after six years of service. Upon death, disability, or normal retirement age, the participant will become fully vested in their account balance.

Payment of benefits - Distributions are made in cash, or in stock with a simultaneous put back to the Company in exchange for cash. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan.

Balances of \$75,000 or less are paid in a lump sum. For participants with balances of at least \$75,000, distributions on account of death, disability, or retirement are made in five annual cash installments beginning in the Plan year following the event, until their balance falls below \$75,000, at which point it will be distributed as a lump sum. Distributions for other separations from service and in service distributions are made in nine annual cash installments beginning in the Plan year following the event.

Each installment is equal to the value of the participant's account at the time of the distribution divided by the remaining number of installments to be paid; provided that, in the case of a participant with an account having a fair market value in excess of \$1,415,000, distribution of the participant's account will be made over one additional year (up to five years) for each \$280,000 or fraction thereof by which such account balance exceeds \$1,415,000.

In service distributions are permitted provided the participant has attained age 60 and is 100% vested in his or her accounts. Participants may elect to defer payment of their benefits until a later date if the value of the vested benefit is greater than \$5,000.

Put option - Under Federal income tax regulations, Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the most recent appraised value of the stock. The Company can pay for the purchase with interest over a period not exceeding five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. DESCRIPTION OF PLAN, CONTINUED

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of Company shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may receive a cash distribution or have the balance transferred to the Sponsor's 401(k) plan.

Forfeitures - Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation of all Plan participants eligible to receive an allocation during the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants totaled \$105,066 at December 31, 2024.

Administration of plan assets - The trustee of the Plan holds the Plan's assets, which consist primarily of Company common shares. Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income, if any. The trustee also administers the payment of interest and principal on the note payable, which is reimbursed to the trustee through contributions as determined by the Company. The trustee makes distributions to participants. Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. Administrative expenses for the trustee's fees are paid directly by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates - The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition - The shares of Company common stock and other investments are reported at fair value. The shares of Company common stock are valued at estimated fair value, which is determined by annual independent appraisals. The per share market value at December 31, 2024 and 2023, was \$56.60 and \$50.62, respectively. See Note 4 for a discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments - Benefit payments are recorded when paid.

Subsequent events - The Plan has evaluated events, if any, that have occurred subsequent to December 31, 2024, through August 7, 2025, the date the financial statements were available to be issued, and included information in the notes to the financial statements related to any identifiable events, if necessary.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

3. INVESTMENT IN THE PLAN SPONSOR COMPANY STOCK

The Plan's non-participant directed investments in common shares of the Plan Sponsor at December 31 are as follows:

	<u>2024</u>	<u>2023</u>
Number of shares of common stock	<u>890,090</u>	<u>890,090</u>
Cost	<u>\$ 5,008,184</u>	<u>5,008,184</u>
Estimated fair value	<u>\$ 50,379,094</u>	<u>40,056,356</u>

4. FAIR VALUE MEASUREMENTS

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

4. FAIR VALUE MEASUREMENTS, CONTINUED

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Plan sponsor common stock: Value is determined based on an independent appraisal. The appraisal was based on a combination of earnings, book value and the financial condition of the Company. The Plan administrator, under the supervision of the Company's Board of Directors, determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2024 and 2023:

	<u>Total</u>	Fair value measurements at reporting date using:		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
December 31, 2024				
Plan Sponsor common stock	\$ 50,379,094	-	-	50,379,094
Corporate bonds	<u>381,780</u>	<u>381,780</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 50,760,874</u>	<u>381,780</u>	<u>-</u>	<u>50,379,094</u>
December 31, 2023				
Plan Sponsor common stock	\$ 45,056,356	-	-	45,056,356
Corporate bonds	<u>381,931</u>	<u>381,931</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 45,438,287</u>	<u>381,931</u>	<u>-</u>	<u>45,056,356</u>

NOTES TO FINANCIAL STATEMENTS, CONTINUED

4. FAIR VALUE MEASUREMENTS, CONTINUED

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	\$ 45,056,356
Unrealized appreciation in fair value of shares, net of realized gain	<u>5,322,738</u>
Balance, end of year	<u>\$ 50,379,094</u>

The Plan Sponsor common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>
Income	EBITDA Net income Weighted average cost of capital Discount rates Discount for lack of marketability
Market	Public comparables Enterprise value EBITDA multiple Discount for lack of marketability

The valuation process involves the selection of an appraiser by the Trustee. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Plan management reviews the draft versions of the report and has opportunity to ask questions but the Trustee ultimately is responsible for the final review and approval of the valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

5. NOTE PAYABLE TO PLAN SPONSOR

In 2008, the Plan entered into a note payable agreement with the Plan Sponsor in connection with the acquisition of the shares of the Plan Sponsor's common stock. In 2015, the Plan refinanced this note payable. The note bore interest at a rate of 4%. The Plan made payments in accordance with the note terms, and the note was paid in full during the year ended December 31, 2023.

6. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the trustee to pay all liabilities and expenses of the ESOP and to sell shares of the financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company may pay some of the Plan's expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

8. TAX STATUS

The Plan has adopted a non-standardized pre-approved plan for which the Internal Revenue Service has issued an opinion letter dated June 30, 2020, covering the qualification of the Plan under the appropriate sections of the Internal Revenue Code. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code, and therefore the Plan is qualified and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

9. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

10. CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2024 and 2023, and interest, dividends, and net appreciation in fair value of investments for the year ended December 31, 2024, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Spinnaker Trust, the trustee of the Plan.
