INDEPENDENT AUDITOR'S REPORT

Trustees and Plan Administrator
Philadelphia Federal Credit Union Defined Benefit Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Philadelphia Federal Credit Union Defined Benefit Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Philadelphia Federal Credit Union Defined Benefit Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Philadelphia Federal Credit Union Defined Benefit Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Philadelphia Federal Credit Union Defined Benefit Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit Section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted accounting standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Philadelphia Federal Credit Union Defined Benefit Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Philadelphia Federal Credit Union Defined Benefit Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024 and reportable transactions for the year ended December 31 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following description of the Philadelphia Federal Credit Union (the Employer) Defined Benefit Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of Philadelphia Federal Credit Union who have completed six months of service, attained age 20 or older and are not a leased employee or paid by commissions only. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Employer's Plan Trustees, which is a committee of management of the Employer. The Plan Trustees have overall responsibility for the operation and administration of the Plan. The Plan Trustees determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Pension Benefits

The Plan provides the following types of benefits: normal retirement, early retirement, late retirement, death, and disability. The normal retirement benefit is a monthly benefit for life, equal to a percentage of average compensation elected by the Employer, payable upon completing a specified number of years of service and attaining the normal retirement age. Benefits are reduced proportionately for potential years of service less than the minimum service specified by the Employer. The Plan permits early retirement and the retirement benefit at that time is based upon the normal retirement benefit reduced proportionately by the actual years of service to the potential years of service. If the participant elects to commence their retirement benefit prior to their normal retirement date, the amount of the benefit is actuarially adjusted to reflect the earlier starting date. A late retirement benefit is the actuarially increased equivalent of the normal retirement benefit. Participants who have attained normal retirement age may elect an in-service benefit payment. A participating employee who severs their employment for any reason other than retirement, death, or disability is entitled to a monthly income for life commencing at normal retirement age, which is equal to their vested accrued benefit, or they may elect to receive in a lump-sum the present value of the entire vested portion of their accrued benefit at any time prior to eligibility for early or normal retirement. All participants have partial vesting in years two through five of credited service and are 100% vested after six years of credited service. On the date a participant's payments commence, if married, such benefit is paid in the form of a joint and survivor annuity, unless otherwise elected. The forfeited amount will be used to reduce the amount the employer is required to contribute to the Plan.

Death and Disability Benefits

If an unmarried participant dies, no death benefit will be payable to any beneficiary under the Plan. If a married participant with vested benefits dies on or after early retirement age and was still employed at the time of their death, the surviving spouse would receive one-half of the benefit that would be payable as if the participant retired with an immediate joint and survivor annuity. If a married participant with vested benefits dies before early retirement age and was still employed at the time of their death, the surviving spouse would receive one-half of the benefit that would be payable as if the participant has retired and elected a qualified joint and survivor annuity. Active employees who become totally disabled before retirement age will be considered 100% vested in the accrued monthly benefit and benefits can begin when early retirement age is reached.

1. DESCRIPTION OF PLAN (Continued)

Funding Policy

The Employer is required to make contributions determined on the basis of the level percentage of future pay required to fund the expected benefits at retirement from the age of the employee upon joining the Plan to the employee's retirement age which meet or exceed the annual ERISA minimum funding requirements. The Employer's contributions for 2024 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Vesting

After completion of six years of services, participants are 100% vested and eligible for deferred vested pension benefits, payable on their normal retirement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Accordingly, actual results could differ from those estimates.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Trustees determine the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Philadelphia Federal Credit Union Defined Benefit Plan and Trust
Notes to Financial Statements
Year Ended December 31, 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions

Contributions from the Employer are made to the Plan based upon actuarially determined amounts required to fund accrued pension costs and minimum funding requirements required by ERISA and the Plan instrument.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Administrative expenses include certain recordkeeping fees paid by the Plan. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan's management has evaluated subsequent events through September 5, 2025, the date on which the financial statements were available to be issued.

3. INFORMATION CERTIFIED OR PROVIDED BY MATRIX TRUST COMPANY AND CMFG LIFE INSURANCE COMPANY

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Matrix Trust Company (Matrix), a custodian of the Plan and CMFG Life Insurance Company (CMFG), a custodian of the Plan, and furnished to the Plan Administrator.

The Plan Administrator has obtained certifications from CMFG that the information provided to the Plan Administrator by CMFG related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and the supplemental schedule related to the following asset:

	<u>2024</u>	<u>2023</u>
Investment contract with insurance company	\$16,031,029	\$18,114,936

Philadelphia Federal Credit Union Defined Benefit Plan and Trust
Notes to Financial Statements
Year Ended December 31, 2024

3. INFORMATION CERTIFIED OR PROVIDED BY MATRIX TRUST COMPANY AND CMFG LIFE INSURANCE COMPANY (Continued)

CMFG also certified to the completeness and accuracy of \$341,440 of net appreciation in the fair value of investments for the year ended December 31, 2024.

The Plan Administrator has obtained certifications from Matrix that the information provided to the Plan Administrator by Matrix related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and the supplemental schedule related to the following assets:

	2024	2023
Shares of registered investment companies	\$92,707,411	\$81,230,619
Accrued dividend income	44,512	36,847

Matrix also certified to the completeness and accuracy of \$8,702,429 of net appreciation in the fair value of investments, and \$2,216,053 of interest and dividends related to the aforementioned assets for the year ended December 31, 2024.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the employees that have rendered service. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The Plan provides for benefits based on a percentage of the employee's average compensation and years of service. The accumulated plan benefits for active employees are based on their average compensation during 60 consecutive measuring periods included in the compensation history which produce the highest average compensation ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to the service rendered by the employee to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary. Certain assumptions are utilized to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been as of December 31, there would be no material differences.

Significant actuarial assumptions used in the valuations as of January 1, 2025 and 2024 are as follows:

Actuarial Assumptions as of January 1, 2025

- a. Mortality is based on the RP-2014 Mortality Table projected by scale MP 2021 for employees before retirement and RP-2014 mortality table projected by scale MP 2021 for annuitants after retirement.
- b. Employees are assumed to retire at age 65.
- c. Long-term expected rate of return on plan assets of 6.75%

Philadelphia Federal Credit Union Defined Benefit Plan and Trust
Notes to Financial Statements
Year Ended December 31, 2024

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

Actuarial Assumptions as of January 1, 2024

- d. Mortality is based on the RP-2014 Mortality Table projected by scale MP 2021 for employees before retirement and RP-2014 mortality table projected by scale MP 2021 for annuitants after retirement.
- e. Employees are assumed to retire at 65.
- f. Long-term expected rate of return on plan assets of 6.75%

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and factors might be applicable in determining the actuarial present value of accumulated benefit plans.

5. PENSION PROTECTION ACT

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The “At-Risk” status is referred to as the Funding Target Attainment Percentage (FTAP). A plan’s funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2024 AFTAP for the Plan is 232.85%. Because the Plan’s AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

6. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) under those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits under the Plan guaranteed by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limits (discussed below).
- c. All other vested benefits (that is, vested benefits, not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivors’ pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Credit Union and the level of benefits guaranteed by the PBGC.

7. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into an investment contract with CMFG. Employer contributions are deposited with CMFG, which maintains these contributions in an unallocated fund to which it adds interest at a rate of 2.05% for 2024 and 2.05% for 2023. The interest rate is guaranteed through 2024 but is subject to change. When changed, the new rate applies only to funds deposited from the date of change. At the direction of the Plan's administrator, a single premium to buy an annuity for a retiring employee is withdrawn by CMFG. Purchased annuities are contracts under which CMFG is obliged to pay benefits to the named employees or their beneficiaries. The premium rates for such annuities to be purchased for future and maximum administration expense charges against the fund are determined by CMFG each contract year.

8. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Investment Contract with Insurance Company

The investment contract is valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan Trustees evaluate a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, discount rate).

8. FAIR VALUE MEASUREMENTS (Continued)

Shares of Registered Investment Companies

Shares of registered investment companies are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2024 and 2023. Classifications within the fair value hierarchy table are based on the lowest level of input that is significant to the fair value measurement.

	2024			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Investment contract with insurance company	\$	\$	\$ 16,031,029	\$ 16,031,029
Shares of registered investment companies				92,707,411
Investments at fair value	\$ 92,707,411		\$ 16,031,029	\$ 108,738,440

	2023			
	Assets Measured at Fair Value			
	Level 1	Level 2	Level 3	Total
Investment contract with insurance company	\$	\$	\$ 18,114,936	\$ 18,114,936
Shares of registered investment companies				81,230,619
Investments at fair value	\$ 81,230,619		\$ 18,114,936	\$ 99,345,555

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. There were no transfers in or out of Level 3 during the year then ended.

Qualitative Information About Significant Unobservable Inputs used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2024 and 2023:

Investment contract with Insurance company – Deposit Administration Group Annuity Contract	\$ 18,114,936	Discounted cash flow	Discount rate duration Credit risk

9. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by CMFG. CMFG is a custodian as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. Fees were paid to CMFG Life Insurance Company by the Plan in the amount of approximately \$259,000 for the year ended December 31, 2024.

Certain accounting and administrative functions are performed by officers or employees of the Employer. No such officer or employee receives compensation from the Plan. In addition, the Employer pays certain outside administrative expenses of the Plan.

10. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated March 8, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023, to net assets per the Form 5500:
