REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees of the Savings Plan for Employees and Partners of PwC

Opinion

We have audited the financial statements of the Savings Plan for Employees and Partners of PwC (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedules required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of delinquent participant contributions for the year ended December 31, 2024, and schedules of assets (held at end of year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or

to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Savings Plan for Employees and Partners of PwC

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - PLAN DESCRIPTION

The Savings Plan for Employees and Partners of PwC (formerly known as the Savings Plan for Employees and Partners of PricewaterhouseCoopers LLP) (the Plan) is a defined contribution plan pursuant to Internal Revenue Code (IRC) Section 401(k) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). New employees of PricewaterhouseCoopers LLP and its affiliates where provided for by the Plan (collectively, the Firm, PwC or Plan Administrator) that elect to participate in the Plan are admitted at the time the eligibility requirements are met.

The Bank of New York Mellon Corporation served as the Plan's custodian through June 30, 2024. Effective July 1, 2024, State Street Bank assumed the role of custodian. Alight Solutions LLC performs the recordkeeping and investment services. The Administrative Committee, appointed by the Board of Trustees, acts as the Plan Administrator. A portion of the Plan's assets are held in the PwC Defined Contribution Investment Trust by the State Street Bank, the custodian.

The following is a summary of the major provisions of the Plan. Participants should refer to the amended plan agreement for more complete information.

Participation

Employees and Partners who have attained the age of 21 are eligible to participate in the Plan the first day of the second month after the month of hire or admission to the Firm. However, if no election is made by the last business day of the second month following the month of hire or admission to the Firm, the eligible employee or Partner will be enrolled automatically effective the first day of the third month following the month of hire.

Contributions

The Firm makes participant contributions using funds withheld from the compensation of participants. Participants (who are not Partners) can make an election to voluntarily defer up to 100% of eligible compensation (within annual Internal Revenue Service (IRS) limits). Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. As of January 1, 2023, participants can make Roth contributions at such rate that is not less than one percent nor more than 100% of the net compensation. If participation is a result of automatic enrollment, contributions for employees will begin at 4% of eligible compensation and, if the participant makes no further election, contributions will increase by 1% of eligible compensation each subsequent July 1 until contributions equal 6% of eligible compensation. Automatically enrolled participants have their contributions invested in a designated lifetime moderate fund until changed by the participant. The Firm's matching contribution is equal to 25% on up to 6% of eligible compensation deferred. Partners make an annual election amount (within annual IRS limits) that can consist of basic pre-tax and after-tax contributions.

Participants' Accounts

Each participant's account is credited with the participant's voluntary contribution, the Firm's matching contribution, and an allocation of the Plan's earnings or losses attributable to the investments in the participant's account. After a participant terminates employment with the Firm, the participant's account is charged an annual maintenance fee for a portion of the administrative expenses paid by the Firm for the preceding 12 months. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings or losses thereon. A participant becomes fully vested in the Firm's matching contribution at the earliest of (a) the date of the

Savings Plan for Employees and Partners of PwC
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2024 and 2023

participant's death if the participant dies while employed with the Firm, (b) the one-year anniversary date after the participant incurs total disability, as defined, provided the participant was an employee immediately prior to incurring such a disability, or (c) the participant's retirement date, as defined.

Except as described above, the vesting in the Firm's matching contributions is as follows:

Years of Vesting Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 or more years	100%

Notes Receivable From Participants

Active participants may apply for a participant loan in amounts limited by the Plan. Participant loans are secured by the participant's non-forfeitable interest in his or her account, as defined. Participant loans are available at a minimum amount of \$500 and cannot exceed the lesser of 50% of the employee's vested interest in the Plan at the time the loan is granted or \$50,000, subject to certain other restrictions, as defined. Interest on loans is charged at rates determined by the Plan Administrator and range from 0.12% to 9.50% for loans outstanding at December 31, 2024 and 2023. The interest rate charged for newly issued notes is prime +1%. No more than two loans may be outstanding from a participant's account at any one time. The terms are not to exceed five years from the effective date of the loan, excluding primary residence loans with terms not to exceed 30 years from the effective date of the loan. Principal and interest is paid ratably through monthly or semi-monthly employee payroll deductions and partner distributions.

Payment of Benefits

Withdrawals and payment of benefits are paid from the participant's account as of the applicable valuation date. Benefits are payable upon retirement, death or other termination of employment. The benefit payable to a participant that does not exceed \$1,000 shall be involuntarily distributed upon retirement, death or termination of employment. Certain in-service benefit withdrawals are also permitted.

Forfeited Accounts

Forfeited non-vested accounts were approximately \$4,896,092 and \$3,622,000 as of December 31, 2024 and 2023, respectively. These accounts will be used to reduce future employer contributions and pay Plan expenses. Amounts used to reduce employer contributions during the during the years ended December 31, 2024 and 2023 were approximately \$10,100,000 and \$6,040,000, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Savings Plan for Employees and Partners of PwC
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2024 and 2023

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investment funds of the Plan are participant-directed. Certain Plan assets are held in the PwC Defined Contribution Trust along with the firm's Wealth Builder Defined Contribution Plans. The Plan's own specific trust assets based on participant direction. The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts (see Note 5), which are reported at contract value. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract plus interest credited less participant withdrawals and fees. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable from participants are recorded as distributions when determined to be uncollectible.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of the Plan (except for investment management fees and participant transaction fees) are paid by the Firm are not included in the financial statements, as provided by the plan agreement.

Subsequent Events

Management has evaluated subsequent events for potential disclosure in, or adjustment to, the financial statements through September 30, 2025, the date the accompanying financial statements were available to be issued.

NOTE 3 - INTEREST IN MASTER TRUST

A portion of the Plan's investments are in a Master Trust which was established for purposes of investment of the assets of this Plan and other Firm-sponsored defined contribution Plans. Each participating Plan has a divided interest in the Master Trust.

Savings Plan for Employees and Partners of PwC
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2024 and 2023

Although the assets are commingled in the Master Trust, the recordkeeper maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the respective plans. The net investment income (loss) of the investment assets is allocated by the recordkeeper to each participating plan based on the relationship of the interest of each plan to the total of the Master Trust. The stable value fund of the group trust was formed and funded in May 2023.

The following table presents the net assets of the Master Trust and the Plan's interest in the net assets of the Master trust as of December 31, 2024:

NOTE 4 - FAIR VALUE OF INVESTMENTS

According to authoritative guidance for accounting for fair value measurements of financial assets and liabilities that are recognized or disclosed at fair value on a recurring basis, the definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (that is, an exit price). The exit price is based on the amount that the holder of the asset or liability would receive or need to pay in an actual transaction at the measurement date. In some circumstances, the entry and exit price may be the same; however, they are conceptually different.

Savings Plan for Employees and Partners of PwC
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2024 and 2023

The authoritative guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include.

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If an asset or a liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets, including master trust investments, measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2024 and 2023.

- Registered investment companies - Mutual funds valued at the quoted net asset value (NAV) of shares held by the Plan at year end. These investments have quoted prices that are readily available and are traded in active markets.
- Collective trust funds - Valued at the NAV as a practical expedient to fair value of participation units held by the Plan. The NAV of these units is determined by the custodian based on current fair values of the underlying investments in the respective trust funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) The strategy of the domestic equity securities is to approximate the risk and return of an index of a specific financial market, such as the Russell 2000 Growth Index or the Standard & Poor's (S&P) 500 index. To achieve this strategy, a replication technique is used which generally seeks to hold each index constituent in its proportional index weight.
- (b) The strategy of the U.S. government debt securities and other short-term investments is to approximate the overall performance of an index of a specific financial market, such as the Barclay's Capital Short Term Government Bond Index, the Barclay's Capital Long Term Government Bond Index, and the Barclay's Capital U.S. Treasury Inflation-Protected Securities Index.
- (c) The strategy of the international equity securities is to provide investment results that approximate the overall performance of an index of a specific financial market, such as the Morgan Stanley All Country World Index (MSCI ACWI) Ex-US Index and the Morgan Stanley Europe, Australasia, and Far East (MSCI EAFE) Index.
- (d) The strategy of the Lifetime moderate funds is to provide investment results that approximate the risk and return of a volatile index consisting of global equities, bonds, and traditional inflation hedges such as commodities and TIPS.

NOTE 5 - STABLE VALUE FUND

In May 2023, the Group Trust was formed and added the PwC Stable Value Fund (the Fund), a unitized custom fund that is comprised of security-backed, synthetic contracts with Metropolitan-Life, VOYA, Citi-Bank N.A., RGA Reinsurance and Pacific LifeCorp (the Synthetics) and the Morgan Stanley Liquidity Funds Treasury. The purpose of the Fund is to provide a stated rate of return that insulates participants' accounts from daily fluctuations in the market.

Synthetic guaranteed investment contracts (GICs) are issued by an insurance company or bank and backed by a portfolio of underlying bonds that are owned by the Plan. These assets underlying the wrap contract are maintained separately from the contract issuer's general assets. The wrapper contracts are obligated to provide an interest rate not less than zero. These contracts typically provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the net assets of the Plan, but rather are amortized, usually over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The interest crediting rate at December 31, 2024 and 2023 was 4.61% and 4.47%, respectively. The interest crediting rate resets quarterly each January, April, July and October.

These contracts are fully benefit-responsive and provide that Plan participant-initiated withdrawals permitted under a participating plan will be paid at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions plus credited interest less participant withdrawals and administrative expenses.

The total balance of the synthetic GIC contracts for the Stable Value Fund of the PwC Defined Contribution Group Trust at December 31, 2024 and 2023 is as follows:

	2024	2023
Synthetic investment contracts	\$ 663,850,605	\$ 698,533,158
Other	4,311,955	(164,175)
Cash	6,765,952	14,563,035
Total investments at contract value	\$ 674,928,512	\$ 712,932,018

In addition to certain wrap agreement and termination provisions discussed as noted below, the contracts generally provide for withdrawals associated with certain events that are not in the ordinary course of fund operations, and that the issuer determines will have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in such contracts. While each contract issuer specifies the events that may trigger such a market value adjustment, typically such events include all or a portion of the following: (i) amendments to the fund documents or fund's administration; (ii) changes to the fund's prohibition on competing investment options by participating plans or deletion of equity wash provisions; (iii) complete or partial termination of the fund or its merger with another fund; (iv) the failure of the fund or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) unless made in accordance with the withdrawal provisions of the fund, the redemption of all or a portion of the interests in the fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), or the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax-qualified defined contribution plan; (vi) any change in law, regulation, ruling, administrative or judicial position or accounting requirement, in any case applicable to the fund or participating plans; and (vii) the delivery of any communication to plan participants

designed to influence a participant not to invest in the fund. At this time, management does not believe that the occurrence of any such market value event that would limit these contract's ability to transact at contract value with participants is probable.

The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 6 - RELATED-PARTIES AND PARTIES-IN-INTEREST TRANSACTIONS

Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments. Some of the Plan's investments are managed by the custodian and therefore there are considered party-in-interest transactions. Certain employees of the Firm serve as trustee and administrators of the Plan. These employees did not receive compensation from the Plan for their services. Transactions by the Plan related to the notes receivable from participants qualify as parties-in-interest transactions, which are exempt from the prohibited transaction rules. The Firm may also pay certain administrative costs of the Plan.

NOTE 7 - INCOME TAX STATUS

The IRS has determined and informed the Firm by a letter dated December 15, 2015, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that would not more likely than not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - NONEXEMPT TRANSACTIONS

During 2024, the Plan identified \$246,685 of untimely remittances related to the 2023 Plan year. Correction for these matters have been made and amounts are not material to the Plan.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Firm has the right under the Plan to amend or discontinue the Plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment
