Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **WARREN AVERETT LLC**

(2) EIN: **45-4084437**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITORS' REPORT

To the Benefits Administrative Committee of
Chick-fil-A, Inc. Defined Benefit Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Chick-fil-A, Inc. Defined Benefit Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAS, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings and certain internal control related matters that we identified during the audits.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DEFINED BENEFIT PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

1. PLAN DESCRIPTION

The following description of the Chick-fil-A, Inc. Defined Benefit Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more information.

General

The Plan is a defined benefit multiple employer pension plan covering eligible employees of Chick-fil-A, Inc. (the Company) and certain affiliated companies, as defined by the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Eligible employees become a participant in the Plan on the first entry date on or after reaching age 21 and completion of one "Year of Service" with an employer. The entry dates are January 1st and July 1st. Benefits begin at normal retirement (the later of age 65 or fifth anniversary of initial participation) and are based on the average annual compensation for the five highest consecutive years of employment and years of benefit service. The Plan permits retirement at ages 55 – 64 with ten years of participation service at a reduced monthly amount. Prior to January 1, 2023, there was no early retirement reduction for participants who retire from active employment after attaining age 62 and completing 20 years of benefit service. Effective January 1, 2023, the Plan was amended to reduce the qualification age for an unreduced Early Retirement Benefit from age 62 to age 55. If employees terminate prior to attaining five years of vesting service, they forfeit the right to receive any pension benefits.

Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly or in annual installments, not to exceed 20 years. Where a single-life pension has been elected, benefits are paid in monthly amounts for the remainder of the participant's life. Where a joint and survivor pension has been elected, benefits are paid until the later of the participant's or survivor's death.

Death and Disability Benefits

If an active employee dies prior to retirement, a death benefit equal to the present value of their accrued benefit is paid to the employee's beneficiary. Employees who become totally and permanently disabled prior to normal retirement age are entitled to receive monthly retirement income beginning on their normal retirement date equal to their accrued benefit as of the termination date.

Administrative Expenses

With the exception of trustee and investment management fees, substantially all costs of administering the Plan are paid by the Company. These costs include legal, actuarial, accounting and administrative fees.

Administration

The Company, which serves as the Plan Administrator, has sole responsibility for administration of the Plan. Those services are provided without charge to the Plan. The Chick-fil-A, Inc. Benefits

CHICK-FIL-A, INC.
DEFINED BENEFIT PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS

Administrative Committee (the BAC) provides for the general administration of the Plan. The Chick-fil-A, Inc. Investment Committee establishes and carries out the investment policies of the Plan. The Board of Directors (the Board) delegates full authority to amend the Plan to the BAC.

The Plan's assets are managed by a professional investment manager appointed by the Chick-fil-A, Inc. Investment Committee.

Vesting

The Plan provides that participants are fully vested after five years of service.

Income Tax Status

The Plan obtained a determination letter dated September 8, 2013, in which the Internal Revenue Service (IRS) stated that the Plan and related trust qualifies in accordance with the applicable regulations of the Internal Revenue Code (IRC) as a tax-exempt entity. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and operated in compliance with IRC requirements and the Plan and trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate uncertain tax positions taken by the Plan. The Plan Administrator is not aware of any uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions, including the IRS. The Plan is not currently under IRS examination for any Plan years.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with GAAP.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is reported on the dividend payment date. Interest income is reported on the accrual basis of accounting. Net appreciation/depreciation in fair value of investments represents the change in fair value during the year, including realized gains (losses) on investments sold during the year.

Management fees and operating expenses charged to the Plan for mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

CHICK-FIL-A, INC.
DEFINED BENEFIT PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

Risks and Uncertainties

The Plan's investments include funds which invest in various types of investment securities within various companies and markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's financial statements and supplemental schedules.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of investment valuation.

Fair Value of Financial Instruments

The Plan investments are stated at fair value. In addition, the management of the Plan believes that the carrying amount of receivables is a reasonable approximation of the fair value due to the short-term nature of these instruments.

Payments of Benefits

Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

CHICK-FIL-A, INC.
DEFINED BENEFIT PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

- Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are observable as of the reporting date. These inputs include quoted prices for similar assets in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies (Mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds (CCT): Valued at the NAV of units of the CCTs. The NAV, as provided by the custodian of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair market value of the underlying investments held by the fund less its liabilities. There are no redemption restrictions or unfunded commitments.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Limited partnerships: The Plan's interest in limited partnerships are valued at fair value at the NAV as reported by the limited partnership on the valuation date. The fair value, is ordinarily the value determined by the respective investment managers, in accordance with procedures established by the Board based on the fund's offering documents. Valuations may be subject to estimates and are net of management and performance incentive fees or allocations payable as required by the offering documents. If the investment manager determines that the most recent value reported does not represent fair value, a fair value determination is made under procedures established by and under the general supervision of the Board. Because of the inherent uncertainty in valuation, the estimated values may differ from the values that would have been used had a ready market for the securities existed, and the differences could be material. Redemption frequency is monthly to annually with a redemption notice period as outlined within the respective partnership agreement. Redemption restrictions usually require a five-day written notice.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net asset available for benefits.

⁽¹⁾ The investment objective of the limited partnerships are as follows:

- Key Trends 15 Fund (held in 2023) has an objective to generate absolute returns with a dual primary focus on capital preservation combined with generating a consistent return. The investment manager seeks to achieve the fund's objective primarily by investing in liquid global futures markets, trading futures on equity indices, rates, bonds, commodities and currencies. Redemption restrictions is usually a five-day written notice.

- Crabel Fund SPC Ltd engages in the speculative trading of various commodity interests (future contracts, interbank currency contracts, forward contracts and swap contracts), securities, debt instruments and other financial instruments on exchanges and markets located in the United States and abroad.
- CFM IS Trends Fund's investment objective is to achieve long-term capital appreciation through returns that seek to be uncorrelated with traditional asset classes.

4. CERTIFICATION FROM TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and the ERISA-required supplemental schedules, including investments held as of December 31, 2024 and 2023, and net appreciation/depreciation in fair value of investments, interest and dividend income for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for the Hatteras Fund.

5. DERIVATIVE INSTRUMENTS

Derivative financial instruments are used primarily to rebalance the fixed income/equity allocation of the Plan's portfolio and to hedge interest rate and credit spread liability risk. Certain fixed income investment managers are permitted to use select, specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures as substitutes for certain types of fixed income securities. Use of derivatives instruments for purposes of speculation is prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the Plan's related assets.

Futures Contracts

The Plan enters into futures contracts in the normal course of its investing activities to manage market risk associated with the Plan's equity and fixed income investments, including associated currency exposures, and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal, as they are traded on organized exchanges and settled daily.

Upon entering into a futures contract, the Plan is required to deposit either in cash or securities an amount, the initial margin, equal to a certain percentage of the nominal value of the contract. Subsequent payments of variation margin are made or received by the Plan each day, depending on the daily fluctuations in the value of the contract. As of December 31, 2024 and 2023, cash held at the broker was \$21.4 million and \$222,000, respectively. Subsequent payments are then made or received by the Plan, depending on the daily fluctuation in the value of the underlying contracts. Changes in fair value are accounted for as net appreciation/depreciation in fair value of investments.

The following table identifies the fair value amounts of derivative instruments included in the statements of net assets available for benefits as derivative contracts as of December 31, 2024

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based on employee's compensation during the five highest consecutive years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement and death – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the valuation as of December 31, 2023, include (1) assumed investment return of 7% per year, (2) retirement based on Plan sponsor's estimates ranging from age 55-75, (3) assumed mortality rate based on Pri-2012 separate mortality tables

projected using MP-2021 projection scale, and (4) lump-sum conversion assumption updated as of December 31, 2023, based on the IRS 2024 applicable mortality table for 417(e) and a ten-year projection of implied forward IRC Section 417(e) segment rate as of September 2023, rounded to the nearest 25 basis points (4.50%, 5.75%, 5.25%). This was updated from the lump-sum conversion assumption as of December 31, 2022, based on the IRS 2023 applicable mortality table for 417(e) and a ten-year projection of implied forward IRC Section 417(e) segment rate as of September 2022, rounded to the nearest 25 basis points (3.75%, 5.25%, 4.00%). In addition, effective January 1, 2024, the Plan was amended to provide that individuals employed at the Dwarf House Group, LLC restaurant location in Hapeville, Georgia, and the Virginia Avenue Catering and Delivery location (the Hapeville Locations) will become participants in the Plan on the later of January 1, 2024, or the first January 1st or July 1st on or immediately following their satisfaction of the Plan's eligibility requirements. Participants were granted partial service credit for past service at the Hapeville Locations. This amendment resulted in an increase in the accumulated plan benefit obligation of approximately \$480,000.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

7. FUNDING POLICY

The Company's funding policy is to contribute at least the amount sufficient to meet the minimum funding requirements of ERISA and may include additional accelerated contributions. Employer contributions for the years ended December 31, 2024 and 2023, were in accordance with the minimum funding requirements of ERISA and also include discretionary, accelerated contributions.

8. PARTY-IN-INTEREST TRANSACTIONS

Goldman Sachs Asset Management Company (Goldman Sachs) assumes the role as investment manager of the Plan. The Plan paid fees to Goldman Sachs in 2024 and 2023; therefore, these transactions qualify as party-in-interest. Fees paid to Goldman Sachs Asset Management Company were approximately \$974,215 in 2024 and \$1,005,774 in 2023. In addition, trustee fees in the amount of \$137,357 and \$95,635 were paid to Bank of New York Mellon/BNY Mellon, N.A., for the years ended December 31, 2024 and 2023, respectively.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (1) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (2) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) – (a U.S. governmental agency) up to applicable limitations.
- (3) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (4) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 29, 2025, which is the date the financial statements were available to be issued, and has determined that there are no subsequent events that require disclosure under FASB ASC 855, *Subsequent Events*.

EIN: 58-0941582 / PN: 334
2024 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Assumptions Rationale

Valuation Interest Rates Funding	The interest rate assumption used is prescribed by IRC Section 430(h) subject to specified elections by the plan sponsor.
Mortality Funding	The mortality assumption is prescribed by IRC section 430(h) subject to specified elections by the plan sponsor.
Salary Scale	This assumption is set considering underlying inflation and historical salary increases and reflects Chick-fil-A's best estimate of future salary increases.
Termination	Termination rates are based on the plan sponsor's historical experience and expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.
Retirement	Retirement rates are based on the plan sponsor's historical experience and expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Marital Status and Spouse Age Difference	This assumption is based on the plan sponsor's historical experience and expectations for future marriage patterns and spousal age differences. This assumption is not expected to generate material actuarial gains or losses.
Lump Sum Conversion	This assumption is set based on the best long-term estimate of lump sum conversion based on IRS methodologies.
Payment Form and Commencement Timing	This assumption is based on the plan sponsor's historical experience and best expectations given the plan provisions.
Expected Return on Assets	This assumption is based on Chick-fil-A's long-term earnings expectations for existing plan assets considering the underlying asset mix.

2024 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding Purposes

Actuarial Cost Method

The actuarial cost method is the Unit Credit Actuarial Cost Method.

Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the actuarial value of plan assets.

The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year.

Asset Valuation Method

The asset valuation method used as of January 1, 2024 is the average asset value as modified by the Worker, Retiree, and Employer Recovery Act of 2008 and described in IRS Notice 2009-22. The average asset value is an annual average of the market value of assets over the prior 24 months. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in Section 420 of the Internal Revenue Code. The asset value includes contributions receivable for the prior plan year, discounted as applicable.

A characteristic of this asset valuation method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than market.

Changes in Actuarial Method Since Prior Valuation

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Chick-fil-A, Inc. Defined Benefit Pension Plan
EIN: 58-0941582 / PN: 334
2024 Schedule SB - Information for Each Individual Employer

As of January 1, 2024, the Chick-fil-A, Inc. Defined Benefit Pension Plan is a multiple-employer plan with three employers:

1. Chick-fil-A*: Chick-fil-A, Inc., CFA Servco, Inc., Chick-fil-A Supply, LLC and Bay Center Foods, LLC
2. Dwarf House*: Dwarf House Group, LLC
3. Trilith: Trilith Development, LLC and Trilith Outdoors, LLC

Chick-fil-A made an election to fund the Plan in accordance with IRC Section 413(c)(4)(A); the Plan is funded as if each employer were maintaining a separate plan.

*Chick-fil-A, Inc. acquired Truett's Group, LLC (formerly Dwarf House Group LLC) effective November 1, 2024. Therefore, the Chick-fil-A employer will include employees of Truett's Group, LLC and there will no longer be a Dwarf House employer starting November 1, 2024.

Minimum Benefit

The greater of the following:

a) the participant's accrued benefit at 12/31/88; or

b) the participant's accrued benefit at 12/31/93; or

c) \$240 per year

Early Retirement Date

A participant may retire on the first day of any month following the later of age 55 or the tenth anniversary of initial participation in the plan.

Early Retirement Benefit

A participant's early retirement benefit is the projected normal retirement benefit (using projected service with current earnings) reduced by the ratio of credited service at termination to total possible service at normal retirement. Benefits are reduced by 1/30 for the first five years and 1/15 for each of the next five years that they begin prior to normal retirement.

Unreduced Early Retirement Benefit

Unreduced early retirement benefits are payable to participants who retire from active employment after attaining age 55 and completing 20 years of benefit service. Lump sum benefits for these participants are calculated as if they attained age 65 as of their early commencement date.
