INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Trinity Valley School Tax Sheltered Group Annuity Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Trinity Valley School Tax Sheltered Group Annuity Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Trinity Valley School Tax Sheltered Group Annuity Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Trinity Valley School Tax Sheltered Group Annuity Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Trinity Valley School Tax Sheltered Group Annuity Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Trinity Valley School Tax Sheltered Group Annuity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Trinity Valley School Tax Sheltered Group Annuity Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 ("supplemental schedule") is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Trinity Valley School Tax Sheltered Group Annuity Plan (the "Plan") provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution savings plan sponsored by Trinity Valley School (the "School", "Employer", or "Plan Sponsor") pursuant to Section 403(b) and related provisions of the Internal Revenue Code (IRC), was established effective January 1, 1979, and most recently amended effective January 1, 2020. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of termination of employment, death, disability or as an in-service withdrawal. The Plan covers all eligible employees of the School upon employment and is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA).

Effective March 27, 2020, the Plan Sponsor administratively implemented certain provisions of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") related to participant loans and coronavirus-related distributions. These provisions were operationally applied during the applicable relief period but have not been formally incorporated into the Plan as of December 31, 2024. The Plan Sponsor intends to adopt a formal amendment by the December 31, 2026 deadline in accordance with Internal Revenue Service (IRS) guidance.

An expansion of the Setting Every Community Up for Retirement Enhancement Act of 2019 ("SECURE 2.0") was signed into law on December 29, 2022, as part of the Consolidated Appropriations Act of 2023. The effective dates of the various provisions under SECURE 2.0 span from 2023 through 2026. During the 2024 Plan year, the Plan Sponsor administratively implemented certain optional provisions of SECURE 2.0, including the provision increasing the involuntary cash-out limit for terminated participants from \$5,000 to \$7,000, as well as all mandatory provisions of SECURE 2.0 that were effective during the year. As of December 31, 2024, the Plan has not yet been formally amended to reflect these changes. The Plan Sponsor intends to adopt a formal plan amendment incorporating these provisions prior to December 31, 2026, in accordance with IRS guidance.

Plan administration

The School is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The School has delegated certain responsibilities for the operation and administration of the Plan. Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), as asset custodians and as agent for TIAA Trust, N.A., together with Empower Annuity Insurance Company of America, as an asset custodian, and Empower Trust Company, LLC, as trustee (collectively, the "Custodians and Trustee") are responsible for the custody and management of the Plan's assets. An affiliate of the Custodians and Trustee is responsible for maintaining participant accounts and transactions related to participant initiated activity.

1. DESCRIPTION OF THE PLAN (continued)

Eligibility

Eligible employees may begin making elective salary deferral contributions on the first day of employment. All employees of the School are eligible to participate in the Plan except employees who normally work less than 20 hours per week and student employees.

Participant accounts

Each participant's account is credited with the participant's contributions or rollovers and allocations of Employer contributions and Plan earnings, and charged with Plan losses and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan documents. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant contributions

Participants may elect to contribute through payroll deduction amounts up to 100% of their annual compensation, as defined by the plan documents, on a tax-deferred basis or Roth basis, up to a maximum amount allowed by the IRC. Participants who have attained age 50 before the end of the Plan year were eligible to defer an additional \$7,500 for 2024 as catch-up contributions. Participants who have attained 15 years of service to the School or other qualified institution are eligible to make additional catch up contributions of \$3,000 in any year, up to a lifetime maximum of \$15,000. Participants may also contribute amounts representing distributions from other qualified employer-sponsored retirement plans (rollovers). Participants direct the investment of all their contributions into various investment options offered by the Plan.

Employer contribution

The School makes a matching contribution of 100% of each participant's elective deferral provided that the participant's elective deferral is equal to at least 3% of their eligible compensation, as defined by the plan documents, subject to limitations based on years of service. Employees employed for a special purpose and for a limited duration are not eligible to receive Employer matching contributions.

Eligible Employer matching contributions are limited based on years of service:

<u>Years of Service</u>	<u>Percentage</u>
Less than 10	up to 5.50%
10 - 14	up to 6.00%
15 or more	up to 7.00%

Years of service are based on anniversary years in which the participant completes 1,000 hours of service.

1. DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Notes receivable from participants

Notes receivable from participants ("participant loans") are issued directly from participants' account balances and are reported as notes receivable from participants in the statements of net assets available for benefits. Participant loans may not exceed 50% of the participant's vested balance up to the maximum of \$50,000 and participants may only have a maximum of three loans outstanding at any time. Participant loan terms range from one to five years for general purpose loans and extend up to ten years for principal residence loans and are secured by the remaining vested balance in the participant's account. Participant loans bear a reasonable rate of interest fixed at the time of issuance. For the year ended December 31, 2024, interest rates on outstanding participant loans range from 4.25% to 9.50%, and the notes mature at various dates through October 2029.

Payment of benefits

Distributions and withdrawals are payable to participants upon retirement, termination of employment, disability, death, financial hardship, or as an in-service withdrawal. Balances of \$1,000 or less upon termination will be distributed in a lump-sum payment directly to the participant. Balances greater than \$1,000 but equal to or less than \$5,000 upon termination will be rolled over to an individual retirement account designated by the plan administrator if the participant has not requested a distribution. If the account balance is over \$5,000 upon termination, the participant can elect a distribution paid in the form of a lump-sum cash payment equal to the value of the participant's vested interest in his or her account, partial payment, installment payments, an annuity contract, or postpone payment to a later date and remain in the Plan.

Upon attaining the age of 59 ½ the participant may, while still employed by the School, request a withdrawal from their account balance. Hardship and qualified reservist distributions are permitted under limited circumstances as described in the plan documents.

Administrative expenses

Administrative expenses are generally paid by the School, but may, at the discretion of the plan administrator, be paid by the Plan. Transaction fees for certain participant initiated activity are charged to the specific account of the participant initiating any such transaction. The Plan is not required to reimburse the School for expenses paid on its behalf.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and changes therein, and disclosure of contingent liabilities. Actual results could differ from these estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 4). Contract value represents contributions made under a contract, plus interest, less participant withdrawals, and administrative expenses (Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on sale on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are recorded as deemed distributions based upon the terms of the plan documents.

Trinity Valley School Tax Sheltered Group Annuity Plan
Notes to Financial Statements
December 31, 2024 and 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contributions and contributions receivable

Contributions from participants are recorded by the Plan based on the date the contributions have been separated from a participant's pay by the Employer, which is the pay date. Employer contributions are recorded in the year they are earned and to coincide with the year in which the School records the contribution in its general ledger. The Plan records receivables for contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Rollover contributions from participants are recorded based on the date the rollover contributions are received by TIAA and CREF.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Administrative expenses are recorded when incurred.

Other income

TIAA assesses an annual plan servicing fee of 0.21% (21 basis points) of plan assets, deducted quarterly from participant accounts, to cover recordkeeping and administrative services. If the plan generates more revenue than TIAA's required amount, the excess is deposited into the Plan's Revenue Credit Account (RCA). RCA funds may be used to pay reasonable and necessary plan expenses as defined by ERISA or credited back to participants. For the year ended December 31, 2024, the Plan earned \$14,896 of plan servicing credits that were deposited into the RCA, and \$34,250 of plan expenses were paid from the RCA. The RCA balance was \$3,757 and \$22,482 as of December 31, 2024 and 2023, respectively.

Subsequent events

The Plan has evaluated subsequent events through September 23, 2025, the date the financial statements were available for issuance. No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS AND TRUSTEE (UNAUDITED)

The plan administrator, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of ERISA. Accordingly, the Custodians and Trustee (Note 1), determined to be qualified institutions by the plan administrator have certified to the completeness and accuracy of:

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS AND TRUSTEE (UNAUDITED) (continued)

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023;
- Net appreciation in fair value of investments, dividends and interest, other income as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024; and,
- Investments and notes receivable from participants reflected on the schedule of assets (held at end of year) as of December 31, 2024 ("supplemental schedule").

Accordingly, as requested by the Plan administrator, the Plan's independent auditor performed no audit procedures on the certified information other than to agree the certified information to the related information included in the Plan's financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Mutual funds: Mutual funds are valued at the net asset value of shares (units) held by the Plan at year-end which is determined and published and is the basis for current transactions. The mutual funds held by the Plan are deemed to have readily determinable fair values and are classified within level 1 of the fair value hierarchy.

Pooled Separate Account: The TIAA Real Estate (REA) pooled separate account consists of underlying investments in real estate properties and real-estate related investments. Units held in the separate account are accumulation units and calculate the contract owner's interest. Such units are valued daily to reflect investment performance and the prorated daily deduction for expense charges. The number of units credited to a participant's account is determined by dividing the dollar amount of the transaction by the unit value the next time value is computed. Units are valued any day the New York Stock Exchange is open for business and may be accessed by plan sponsors and participants via the TIAA website. The pooled separate account is classified within Level 1 of the fair value hierarchy.

TIAA Variable Annuities consist of CREF Accounts and TIAA Access Accounts:

- CREF Variable Annuities consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation Linked Bond, Social Choice and Money Market accounts. The fair values of accumulation units held by the Plan in CREF Variable Annuities are primarily valued using market quotations or prices obtained from independent pricing sources. CREF Variable Annuities are deemed actively traded, and thus are classified within level 1 of the fair value hierarchy. Data for values are available daily to plan administrators and client investors on TIAA's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's value and the values of individual underlying holdings. Underlying holdings include mutual funds and are primarily valued using market quotations or prices obtained from independent pricing sources.
- TIAA Access Accounts are variable annuity products that are funded through TIAA Separate Account VA-3, a separate investment account of TIAA. VA-3 invests in proprietary and non-proprietary mutual funds through various sub-accounts. The fair values of sub-account units held by the Plan in TIAA Access Accounts are calculated daily by the issuer and the underlying investments are generally valued using market quotations obtained from independent pricing sources. Data for values are available daily to plan administrators and client investors on TIAA's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's value and the values of individual underlying holdings. TIAA Access Accounts are classified within level 1 of the fair value hierarchy.

4. FAIR VALUE MEASUREMENTS (continued)

Empower Variable Annuity Accounts: Prices and unit values for Variable Annuity investment options are calculated daily by the annuity provider according to the methods described in the annuity contract. The initial pricing input is the quoted price obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The formula-calculated unit value is then compared to an accounting-driven unit value the following morning. The accounting unit value is determined in a manner similar to a mutual fund NAV calculation: dividing the net assets by the number of units outstanding. The Empower Variable Annuity accounts are classified within level 2 of the fair value hierarchy.

Fixed Annuity Contracts - TIAA Traditional Annuities: The Plan's investments in the TIAA Traditional Annuities and TIAA Stable Value Fund are reported by TIAA at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. TIAA Traditional Annuities are segregated into non-fully benefit-responsive and fully benefit-responsive categories. The Plan's investments in the non-fully benefit-responsive contracts are presented as level 3 fair value investments in the fair value hierarchy. The fully benefit-responsive contracts are not categorized within the fair value hierarchy (see Note 5) as they are measured at contract value. The Plan purchased and sold investments in non-fully benefit-responsive contracts of \$147,443 and \$165,507, respectively, during the year ended December 31, 2024. Transfers into and out of non-fully benefit-responsive contracts totaled \$38,998 and \$2,109, respectively, during the year ended December 31, 2024.

Empower Fixed Annuity Accounts: The Plan's investments in fixed annuities offered by the Empower are reported by Empower at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. The fully benefit-responsive contracts are not categorized within the fair value hierarchy (see Note 6) as they are measured at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. GUARANTEED ANNUITY CONTRACTS WITH TIAA AND CREF

The Plan invests in investment contracts through the TIAA Traditional Annuity and TIAA Stable Value Fund. The TIAA Traditional Annuity and the TIAA Stable Value Fund are guaranteed fixed annuity contracts available as investment options to Plan participants.

The TIAA Traditional Annuity is offered through a variety of contract types, including the Retirement Annuity (RA), Group Retirement Annuity (GRA), Group Supplemental Retirement Annuity (GSRA), Retirement Choice (RC), and Retirement Choice Plus (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

The TIAA Stable Value Fund, GSRA, and RCP contracts (collectively, FBRICs) are considered fully benefit-responsive investment contracts. The RA, GRA, and RC contracts are considered non-fully benefit-responsive investment contracts.

The FBRICs, which are fully and unconditionally guaranteed by TIAA, meet the fully benefit-responsive investment contract criteria and are reported at contract value. Contract value represents accumulated cash contributions and transfers in made under the contract, plus interest credited to the contracts, less participant withdrawals and transfers out. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investments at contract value.

5. GUARANTEED ANNUITY CONTRACTS WITH TIAA AND CREF (continued)

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a minimum specified rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. Contract interest rates can never be less than 0.00%.

Contributions to the TIAA Stable Value Fund are deposited into a non-unitized, separate account. The contract provides a guaranteed minimum rate of interest between 1% and 3%. Although the liability to provide contract guarantees and accumulations is backed by the assets in the separate account, any amount to be credited above the minimum guaranteed rate is determined by TIAA.

When a participant's accumulation in the FBRICs is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) of the IRC or the failure to qualify for exemption from federal income taxes under section 501(a) of the IRC; (2) amendments to the plan documents (including complete or partial Plan termination or merger with another plan); (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) premature termination of the contracts; (5) failure to meet any required or prohibited transaction exemption under ERISA; (6) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer or would limit the ability of the Plan to transact at contract value with participants. There are no known events that permit TIAA, the issuer, to terminate the contracts with the Plan and settle at an amount different from contract value.

Total FBRICs held by TIAA and CREF as of December 31, were as follows:

	2024	2023
TIAA Traditional Benefit-Responsive Funds	\$ 1,352,850	\$ 1,644,086
Stable Value Fund	158,455	144,682
	\$ 1,511,305	\$ 1,788,768

6. GUARANTEED INVESTMENT CONTRACTS WITH EMPOWER

The Plan invests in several guaranteed investment contracts (the "Investment Contracts") with Empower Insurance Annuity Company of America ("Empower") which are available as an investment option to Plan participants. Empower maintains contributions made under the Investment Contracts in a general account, commingled its general assets.

The Investment Contracts, which are fully and unconditionally guaranteed by Empower, meet the fully benefit-responsive investment contract criteria and are reported at contract value. Contract value, as reported to the Plan by Empower represents accumulated cash contributions and transfers in made under the contract, plus interest credited to the contracts, less participant withdrawals and transfers out. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. The contract value of the Investment Contracts totaled \$183,463 and \$182,125 as of December 31, 2024 and 2023, respectively.

There are no reserves against contract value for credit risk of Empower or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed by the issuer on a quarterly basis for resetting.

The contracts allow either party to terminate the contracts with at least 60 days advanced written notice to the other party.

Certain events limit the ability of the Plan to transact at contract value with Empower. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) of the IRC or the failure to qualify for exemption from federal income taxes under section 501(a) of the IRC; (2) amendments to the plan documents (including complete or partial Plan termination or merger with another plan); (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) premature termination of the contracts; (5) failure to meet any required or prohibited transaction exemption under ERISA.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with Empower or would limit the ability of the Plan to transact at contract value with participants. There are no known events that permit Empower to terminate the contracts with the Plan and settle at an amount different from contract value.

7. TAX STATUS

The Plan has adopted a 403(b) Volume Submitter Plan (the "volume submitter plan") sponsored by Carroll Consultants LTD. The IRS has issued an opinion letter dated March 31, 2017, stating that the volume submitter plan is designed in accordance with the applicable sections of the IRC and is appropriate for use by employers for the benefit of their employees. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. PLAN TERMINATION

Although the School has not expressed any intent to do so, the School has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

ERISA defines a party-in-interest similarly to the definition of a related party under U.S. GAAP, except that ERISA's definition is broader and includes all entities and individuals that provide services to the Plan; however, these entities may not necessarily be related parties. Management did not identify any related parties to the Plan that were not also considered to be parties-in-interest. The Plan did not enter into any material related party transactions during the Plan year related to compensation arrangements, expense allowances, or similar items.

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain fund level fees incurred by the funds in which the Plan invests for such services as investment management, shareholder services, and sub-transfer agency fees are paid through fund level revenue sharing arrangements. These fees reduce fund earnings thereby impacting Plan revenue applied to participants' accounts.

The Custodians and Trustee retain as compensation for services provided to the Plan, any interest on amounts earned while certain transactions are pending. This applies to both contributions and distributions. Earnings are at institutional money market rates.

Certain Plan investments are issued and managed by the Custodians and Trustee. Transactions in these funds are considered party-in-interest transactions under ERISA regulations. Such transactions are permitted under provisions of the Plan and are specifically exempt from prohibition of party-in-interest transactions under ERISA.
