Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BAKER TILLY US, LLP**

(2) EIN: **30-1413443**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		3000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☒ Yes ☐ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year 0.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pension Plan for Salaried Employees of Timber Products Company and Affiliates, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 (in liquidation) and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 (in liquidation) and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Pension Plan for Salaried Employees of Timber Products Company and Affiliates' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pension Plan for Salaried Employees of Timber Products Company and Affiliates and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Salaried Employees of Timber Products Company and Affiliates' ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pension Plan for Salaried Employees of Timber Products Company and Affiliates' internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Salaried Employees of Timber Products Company and Affiliates' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter – Plan Termination

As discussed in Note 10 to the financial statements, the Pension Plan for Salaried Employees of Timber Products Company and Affiliates was terminated effective July 15, 2024. In accordance with GAAP, the Pension Plan for Salaried Employees of Timber Products Company and Affiliates changed its basis of accounting from the ongoing basis to the liquidation basis of accounting as of July 15, 2024. Our opinion is not modified with respect to this matter.

Other Matter

Supplemental Schedule Required by ERISA

The Schedule H, Line 4(j) – Schedule of Reportable Transactions (in liquidation) for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

Note 1 – Description of Plan

The following brief description of the Pension Plan for Salaried Employees of Timber Products Company and Affiliates (the Plan) provides only general information. Participants should refer to the Plan Agreement as amended for a more complete description of the Plan's provisions.

General – The Plan is a defined benefit pension plan covering substantially all permanent full-time salaried, nonunion employees of Timber Products Co. Limited Partnership and Affiliates (the Company). Affiliates are participating employers as defined in the Plan Agreement. Effective April 1, 2004, the Plan was amended such that participation in the Plan was limited to those employees with a hire date prior to April 1, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan's sponsor and serves as plan administrator.

The administration of the Plan is performed by management of the Company. USI Consulting Group is the Plan's actuary. The Company performs substantially all recordkeeping responsibilities. Principal Bank (Principal) is the trustee of the Plan's assets.

On May 28, 2024, the Board of Directors adopted a resolution to terminate the Plan effective July 15, 2024. See Note 10 for additional information regarding the Plan termination.

Payment of benefits

Pension benefits – Participants are entitled to monthly pension benefits beginning at normal retirement age (65) equivalent to 2% of monthly earnings per year of service prior to March 31, 2005. Maximum monthly earnings for Plan purposes are \$2,500 prior to January 1, 1979, \$3,500 after January 1, 1979 to December 31, 1998, and \$4,167 after December 31, 1998. The Plan permits early retirement at ages 55 to 64 with the completion of ten years of service. Pension benefits are not actuarially reduced for early retirement after age 62 for participants with ten or more years of service. The Plan also permits early retirement at ages of 62 to 64 without completion of ten years of service, but benefits will be actuarially reduced for each month by which the pension commencement date precedes the participant's 65th birthday. Participants may receive their pension benefits either in the form of a life or joint and survivor annuity or in several other optional forms as described in the Plan. Benefits become 100% vested after five years of service or attaining age 62. Participants terminating before becoming vested forfeit the right to receive any portion of their accumulated plan benefits.

Effective April 1, 2004, the Plan was amended to limit new participation in the Plan. Current participants are no longer credited with years of benefit service beginning after March 31, 2004, and if a married, vested participant dies, the surviving spouse will receive one-half of the amount due as if the participant had survived and retired on the earliest date. An active participant who becomes totally and permanently disabled after five years of service will receive a disability benefit equal to 99% of the benefits accrued to the date the disability is determined to be total and permanent. Any benefits provided by the Plan are paid from net assets available for Plan benefits.

If a participant dies after acquiring a vested right to any portion of an accumulated plan benefit, a death benefit is paid to the employee's beneficiary. Participants who are vested and become totally disabled receive annual disability benefits that are equal to 99% of the normal retirement benefits they have accumulated as of the time they become disabled.

Notes to Financial Statements

Note 2 – Summary of Accounting Policies

Liquidation basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). As discussed in Note 10 to the financial statements, the Company terminated the Plan effective July 15, 2024. As a result, the Plan changed its basis of accounting for the year ended December 31, 2024, from the ongoing basis of accounting to the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value. The Plan's trustee, Principal, certified the fair value of certain investments as of December 31, 2024 and 2023. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest and other income are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation and depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Expenses – The Plan's expenses are paid by the Plan or the Company, as specified in the plan document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are deducted from investment earnings, as disclosed in the investment prospectus, and thus are not separately disclosed in the accompanying financial statements.

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued (see Note 10).

The Plan has evaluated subsequent events through September 15, 2025, which is the date the financial statements were available to be issued.

Note 3 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries or employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on 2% of earnings for a particular year of service and are subject to a compensation limit for each year and are the sum total of years employed. Effective April 1, 2004, no additional benefits were accrued. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023, were (a) life expectancy of participants (RPH-2014 Blue Collar Table with generational improvement of 50% scale MP-2015 was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The December 31, 2023, valuation included a discount rate of 5%.

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

The actuarial present value of accumulated plan benefits as of December 31, 2023, was as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 19,821,411
Other participants	<u>2,144,049</u>
	21,965,460
Nonvested benefits	<u>13,296</u>
	21,978,756
Total actuarial present value of accumulated plan benefits	<u><u>\$ 21,978,756</u></u>

The changes in actuarial present value of accumulated plan benefits consist of the following for the year ended December 31, 2023:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 24,577,676</u>
Increase (decrease) during the year attributable to	
Benefits accumulated	(133,073)
Increase for interest	1,139,841
Benefits paid	<u>(3,605,688)</u>
Net decrease	<u>(2,598,920)</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 21,978,756</u></u>

The Plan has selected the beginning-of-year method for presenting benefit information. The actuarially determined value of accumulated plan benefits was made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

Note 4 – Funding Policy

Contributions by participants are not required or permitted by the Plan.

The Company's funding policy is to make annual contributions to the Plan in amounts designated by a qualified actuarial consultant to be adequate to fund the Plan on a sound actuarial basis utilizing the significant actuarial assumptions described in Note 3. Effective January 1, 2008, pursuant to the requirements of the Pension Protection Act of 2006, the Plan is subject to Deficit Reduction Contribution rules, which mandate funding over a shorter time period.

There was no required minimum contribution for the plan years ended December 31, 2024 and 2023.

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

Note 5 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Collective trusts – Units held in collective trusts (CT) are valued using the NAV practical expedient of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV of a CT is calculated based on a compilation of primarily observable market information.

Investments held by the Plan contain no redemption restrictions or unfunded commitments. In addition, there are no significant restrictions on the ability to sell the investments.

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2023. The Plan did not hold assets required to be included in the fair value hierarchy as of December 31, 2024.

	Fair Value Measurements at December 31, 2023			
	Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy				
Registered investment companies	<u>\$ 1,309,938</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,309,938</u>
Investments measured at NAV (practical expedient)				<u>20,361,934</u>
Investments at fair value				<u>\$ 21,671,872</u>

Note 6 – Certified Investment Information

The following information relating to investments was obtained by management and agreed to or derived from information certified as complete and accurate by Principal, a qualified institution:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing).
- Net appreciation and depreciation in fair value of investments, interest and dividend income, and other income reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2024 (in liquidation) and 2023 (ongoing).
- Transactions reflected on the schedule of reportable transactions for the year ended December 31, 2024 (in liquidation).

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

Note 7 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 7, 2015, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9 – Transactions with Parties-in-Interest

Plan investments include shares of collective trusts managed by Principal, the trustee of the Plan, and, therefore, transactions with this entity qualify as exempt party-in-interest transactions.

Note 10 – Plan Termination

On May 28, 2024, the Board of Directors adopted a resolution to terminate the Plan effective July 15, 2024. The Plan was amended effective July 15, 2024, and all participants became 100% vested. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.

Pension Plan for Salaried Employees of Timber Products Company and Affiliates

Notes to Financial Statements

- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2024, that ceiling is \$7,108 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

The Plan distributed \$7,504,647 to participants and beneficiaries in lump-sum payments during the year ended December 31, 2024, as part of the Plan termination. On October 3, 2024, the Plan purchased annuity contracts from American United Life Insurance Company amounting to \$13,597,696 to provide benefits to the remaining Plan participants who did not elect to receive benefits in a lump-sum distribution.

Note 11 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.

Rationale: based on assumed experience

Percentage Married

85% of participants are assumed to be married with husbands assumed to be 3 years older than wives.

Optional Form Selection	Retiring participants are assumed to elect an immediate annuity in the normal form of payment. Other participants entitled to future benefits are assumed to elect the normal form of payment at age 62 if they have earned at least 10 years of Service or at age 65 if less than 10 years of Service.
Provision for Expenses	The expected non-investment related expenses are assumed to equal prior year expenses paid from plan assets for the upcoming year and were included in the Target Normal Cost for Minimum Required Contribution purposes.
Standing Elections	The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets. ASC 960-20: Market Value of Assets plus any contributions for prior plan years that will be made in this plan year.
Funding Method	Pure Unit Credit The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.
Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	Funding: No changes were made other than those to mortality and interest rates as required by law.
Justification for Changes in Actuarial Assumptions	Funding: Not Applicable

Plan Year	January 1 – December 31.
Eligibility	An eligible employee employed on January 1st enters the Plan as of that date. Eligible employees are salaried employees of the following employers: Timber Products Co. Limited Partnership, Timber Products Michigan Limited Partnership, TP Trucking LLC, and Timber Products Canada Limited Partnership. No employee shall enter after March 31, 2004 except for prior participants whose prior serviced was disregarded and then restored.

Retirement Dates

a. Normal Retirement Date	First day of the month coinciding with or following age 65.
b. Early Retirement Date	First day of the month coinciding with or following age 55 and completion of 10 years of service.
c. Age 62 Early Retirement Date	First day of the month coinciding with or following age 62 without completion of 10 or more years of service.
d. Late Retirement Date	The first day of any month coincident with or immediately following retirement after the member's normal retirement date.

Retirement Income

a. Normal	A monthly retirement income equal to 2% of monthly earnings per year of service prior to March 31, 2004.
b. Early	A monthly retirement income equal to his Accrued Benefit reduced by ½% per month by which commencement of payments precedes age 62. No reduction in benefit payment amount if age 62 at early retirement.
c. Age 62 Early	A monthly retirement income equal to his Accrued Benefit reduced actuarially for early commencement.

d. Late	A monthly retirement income payable at his late retirement date based on his years of service and earned compensation at his late retirement date.
Monthly Earnings	For service prior to January 1, 1973, monthly compensation rate as of January 1, 1973 is used. For service after January 1, 1973 all monthly compensation to date of termination is used. No compensation after March 31, 2004 shall be considered. Maximum annual earnings for plan purposes is \$30,000 prior to January 1, 1979 and \$42,000 after January 1, 1979 to December 31, 1998 and \$50,000 after December 31, 1998.
