## Independent Auditor's Report

To the Plan Committee and Participants  
Wohlsen Construction Company  
Employee Stock Ownership Plan  
Lancaster, Pennsylvania

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of Wohlsen Construction Company Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets (deficit) available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets (deficit) available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

## **Auditor's Responsibilities for the Audit of the Financial Statements (continued)**

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**Other Matter - Supplemental Schedules Required by ERISA (continued)**

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# **Wohlsen Construction Company Employee Stock Ownership Plan**

---

Notes to Financial Statements

December 31, 2024 and 2023

## **Note 1 - Description of Plan**

The following description of the Wohlsen Construction Company Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

### **General**

Wohlsen Construction Company (the Company) established the Plan effective as of December 1, 2019. As of October 20, 2023, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an administrative committee. A third-party provider is the Plan's trustee.

Full-time employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they work at least 1,000 hours during such plan year and are age 21 or older and are not leased or covered by a collective bargaining agreement. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year. Employees may enter the Plan on January 1 or July 1 after such requirements are met.

Prior to October 20, 2023, the Plan owned 32% of all available common shares of the Company. On October 20, 2023, the Plan purchased all remaining available common shares of the Company (681,320 shares) with a loan from the Company in the amount of \$20,000,000 (see Note 5). The Plan purchased Company common stock using the proceeds of the note and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of stock and is not guaranteed by the Company. The Lender has no rights against shares of stock once they are allocated to plan participants under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the years then ended, present separately the assets and liabilities, and changes therein, pertaining to:

- A. The accounts of employees with vested rights in allocated common stock (allocated), and
- B. Common stock not yet allocated to employees (unallocated).

### **Contributions**

The Company may contribute a discretionary contribution, to be determined each year. The contribution may be in Company common stock or in cash. The discretionary contribution totaled \$-0- and \$500,000 for the years ended December 31, 2024 and 2023, respectively. In addition, the Company is required to make annual contributions in an amount sufficient to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions are subject to certain IRS limitations.

## Note 1 - Description of Plan (continued)

### Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the Company's contribution and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year or who terminated service during the year due to normal retirement, death, or disability will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio the participant's account balance bears to the sum of all participants' account balances.

### Vesting

Vesting is determined on a graded scale starting at 20% after two years of credited service and increasing 20% per year for each additional year of credited service until attaining 100% vesting after six years of credited service, based on the following vesting schedule:

Years of Service	Vesting Percentage
Less than 2	0 %
2	20
3	40
4	60
5	80
6	100

### Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or if none, his or her legal representatives), becomes disabled, or otherwise terminates employment with the Company. Terminated employees with a vested account balance may not receive their distribution until the sixth year following the year of termination or they reach early retirement age, die, or become disabled. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share.

Under the provisions of the Plan, the Company is obligated to repurchase shares that have been distributed under the terms of the Plan.

Upon termination of employment, if a participant's vested interest in their account exceeds \$7,000 (\$5,000 prior to January 1, 2024), no distribution shall be made to the participant before they reach the age of normal retirement or receipt of consent to pay out by the participant and their spouse, if applicable. If the participant's vested balance does not exceed \$7,000 (\$5,000 prior to January 1, 2024), the vested account balance is paid out in the form of a lump-sum distribution. In the event of a mandatory distribution greater than \$1,000, the distribution will be paid in the form of a direct rollover to an individual retirement arrangement designated if the participant does not elect a direct rollover or lump-sum distribution.

### **Note 1 - Description of Plan (continued)**

#### **Forfeited Accounts**

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 and 2023 totaled \$23,756 and \$22,585, respectively.

#### **Put Option**

Under federal income tax regulations, the employer stock that is held by the Plan and its participants, and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

#### **Diversification**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who have attained age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

#### **Voting Rights**

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of the plan participants and beneficiaries.

### **Note 2 - Summary of Significant Accounting Policies**

#### **Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

#### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements

December 31, 2024 and 2023

### **Note 2 - Summary of Significant Accounting Policies (continued)**

#### **Use of Estimates (continued)**

The financial statements include Wohlsen Construction Company common stock whose value has been estimated by the trustees with the assistance of an independent valuation specialist in the absence of readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed and the difference could be material.

#### **Investment Valuation and Income Recognition**

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

#### **Payment of Benefits**

Benefits are recorded when paid.

#### **Administrative Expenses**

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company.

### **Note 3 - Information Certified and Provided by the Argent Institutional Trust Company and Fulton Bank, N.A.**

Certain information in the accompanying financial statements, including interest bearing cash and accrued interest and dividend income held at December 31, 2024, and interest and dividends for the period April 5, 2024 to December 31, 2024, was obtained by management and agreed to, or derived from, information certified as complete and accurate by Argent Institutional Trust Company, the current custodian of the Plan.

Certain information in the accompanying financial statements, including non-interest bearing cash and accrued interest and dividend income held at December 31, 2023, and interest and dividends for the period January 1, 2024 to April 4, 2024 and for the year ended December 31, 2023, was obtained by management and agreed to, or derived from, information certified as complete and accurate by Fulton Bank, N.A., the former custodian of the Plan.

#### **Note 4 - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023, outside of the changes noted below.

Interest-bearing cash is valued at the net asset value (NAV) of shares held by the Plan at year-end.

The fair value of the Wohlsen Construction Company common stock held by the Plan is valued at fair value based upon an independent appraisal. For 2024, the appraisal was based upon one commonly accepted market approach to valuation (the discounted future benefits methodology). The appraiser took into account the financial condition of the Company, and the results of operations of the Company, among other factors.

For 2023, the appraisal was based upon two commonly accepted market approaches to valuation (the guideline public company methodology and the discounted future benefits methodology). The appraiser took into account the general economic outlook and the outlook for the construction industry, the financial condition of the Company, and the results of operations of the Company, among other factors.

### Note 4 - Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<b>Fair Value Measurements at December 31, 2024</b>				
	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
Common stock of the Company	\$ -	\$ -	\$ 30,990,000	\$ 30,990,000
Interest bearing cash	785,393	-	-	785,393
	<u>\$ 785,393</u>	<u>\$ -</u>	<u>\$ 30,990,000</u>	<u>\$ 31,775,393</u>
<b>Fair Value Measurements at December 31, 2023</b>				
Common stock of the Company	\$ -	\$ -	\$ 19,780,000	\$ 19,780,000

### Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. The Plan purchased -0- and 681,320 shares valued at \$-0- and \$20,000,000 of the Plan's Level 3 assets for the years ended December 31, 2024 and 2023, respectively.

### Note 4 - Fair Value Measurements (continued)

#### Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	December 31, 2024	December 31, 2023		
Common stock of the Company	\$ 30,990,000	\$ 19,780,000	Discounted cash flow, and net tangible asset value, market based approach company guideline	Projection of future cash flows

### Note 5 - Note Payable

On October 20, 2023, the Plan entered into an agreement to purchase 681,320 shares of Wohlsen Construction Company common stock from the Company at a purchase price of \$20,000,000. The purchase is subject to a promissory note and is payable in thirty annual principal and interest payments of \$1,180,175, commencing in 2023. The note bears interest at 4.46%.

Under the terms of the Plan, unallocated shares are collateral for the note payable. As principal and interest portions of the note payable are paid, a proportionate number of shares are released to the Plan for allocation to the participants. During the years ended December 31, 2024 and 2023, 22,711 shares were released to the participants.

Note payable consists of the following at December 31:

	2024	2023
Note payable to Wohlsen Construction Company; payments are payable annually to the Company in 30 equal principal and interest installments of \$1,180,175, with interest at 4.46% on the unpaid balance; and collateralized by the unallocated shares of stock; matures December 2052	<u>\$ 18,662,819</u>	<u>\$ 18,995,782</u>

Future maturities of the note payable are as follows for the five subsequent years ending December 31 and thereafter:

2025	\$ 347,813
2026	363,325
2027	379,530
2028	396,457
2029	414,139
Thereafter	16,761,555

Notes to Financial Statements

December 31, 2024 and 2023

### **Note 6 - Tax Status**

The IRS has determined and informed the Company by a letter dated September 21, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and; therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **Note 7 - Administration of Plan Assets**

The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income, and makes distributions to participants.

Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Company.

### **Note 8 - Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company contribution portion of their account. Upon termination of the Plan, the Board of Directors shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of the encumbered stock held in the loan suspense account, if any, to the extent that such sale is necessary in order to pay any outstanding loans.

### **Note 9 - Floor Price Protection**

Distributions of stock are subject to a mandatory put to the Company. For participants who are in pay status as a result of their separation from service with the Company as a result of normal retirement, disability, or death, the put option price is the greater of the current appraised value as of the plan year immediately preceding the distribution or the floor price, subject to a price protection agreement. For all other participants, the put option price is the current appraised value.

For distributions of stock under the price protection agreement, fair value is guaranteed by the Company at the floor price. The price protection agreement expires October 20, 2028 or the date the note payable is paid in full or forgiven. As of December 31, 2024 and 2023, the current appraised values were \$30.99 and \$19.78 per share, respectively. The floor price for the same periods was \$73.28 and \$67.21, respectively. Out of 1,000,000 outstanding shares, 237,614 and 271,163 shares are subject to the price protection, respectively.

December 31, 2024 and 2023

### **Note 10 - Risks and Uncertainties**

The Plan invests primarily in the Company's common stock which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets (deficit) available for benefits.

The Plan also maintains cash in a bank deposit account which, at times, may exceed federally insured limits. The Plan has not experienced any losses in the account. The Plan believes it is not exposed to any significant credit risk on cash.

### **Note 11 - Related Party and Party-In-Interest Transactions**

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. The Plan also has a number of service providers. Such providers are parties-in-interest under ERISA.

Participant balances are maintained and managed by Principal Life Insurance Company, the recordkeeper, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services amounted to \$43,263 and \$37,368 for the years ended December 31, 2024 and 2023, respectively.

As of December 31, 2024 and 2023, the Plan held 364,102 and 341,391 allocated shares of Wohlsen Construction Company common stock, respectively.

### **Note 12 - Subsequent Events**

Plan management has evaluated subsequent events through September 29, 2025. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2024 were noted.
