Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of O'Neil Industries, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of O'Neil Industries, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of O'Neil Industries, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about O'Neil Industries, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of O'Neil Industries, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about O'Neil Industries, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

O'NEIL INDUSTRIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN

The following description of the O'Neil Industries, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

O'Neil Industries, Inc. and its subsidiaries (the Company) established the Plan effective January 1, 1994. The Plan has been amended through the years to comply with tax legislation and was most recently restated effective January 1, 2021, and last amended effective January 1, 2025. The Plan is a noncontributory, defined contribution plan intended to constitute an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC).

The Plan covers all nonunion salaried and office hourly employees of the Company who have completed the eligibility requirements including the completion of 500 hours of service. An eligible employee will begin participation on the first day of each Plan year following the completion of the eligibility requirements. Effective January 1, 2024, an eligible employee that has completed 1,000 hours of service during the Plan year in which they were hired will begin participation on the first day of that Plan year. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of ERISA, as amended. The Plan is administered by a Plan committee comprised of the Company's Chief Executive Officer, the Company's Chief Financial Officer, and a member of the Company's Board of Directors who is not employed by the Company. TI-Trust, Inc. is the Plan's trustee.

The Plan purchased Company common stock using the proceeds of a note payable to the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated common stock (Allocated) and
- (b) common stock not yet allocated to employees (Unallocated).

Effective August 29, 2024, a 100-for-1 stock split occurred within the ESOP. In a 100:1 split, each existing share is divided into 100 new shares, reducing the price per share proportionally while maintaining the total value of the investment.

O'NEIL INDUSTRIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions

The Company is obligated to make annual contributions to the Plan at least equal to the annual payments of principal and interest due under the 2021 loan. Once the loan is repaid, Company contributions become discretionary as determined by the Plan committee. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contributions may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock, released by the trustee from the unallocated account, and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. Participants are 100% vested in their accounts after completion of five years of service (three years of service for participants with an hour of service after 2008), including years of service prior to Plan participation. Participants with less years of service are 0% vested except in the event of the participant's death, total disability, or attainment of age 65 (with five or more years of service) while employed with the Company, in which case they are 100% vested.

**O'NEIL INDUSTRIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Voting Rights

Generally, the Plan committee will direct the trustee in how to vote shares of Company stock that are allocated to participants' account, as well as those that are held in any suspense account. However, participants have the right to direct the trustee in how to vote shares of Company stock that are allocated to their plan accounts, to the extent the vote relates to the approval or disapproval of any corporate merger or consolidation, recapitalization, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as the Secretary of the Treasury may prescribe in regulations. The trustee votes the unallocated shares in the same proportion as allocated shares are voted by participants.

Put Option

Under the federal income tax regulations, the Company stock that is distributed to participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The put option is offered during two 60-day periods, the first in the year following the share distribution and the second in the year following. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify have the option to receive a distribution or transfer the portion of their ESOP account that is covered by the election to the O'Neil Industries, Inc. Incentive Savings Plan, to an IRA, or to another qualified retirement plan.

O'NEIL INDUSTRIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

No distributions from the Plan are made until a participant retires, dies, or otherwise terminates employment with the Company. Effective January 1, 2024, an active participant who has attained the age of 65, and is not otherwise eligible for diversification, may request up to a 25% distribution of their account. Distributions can be made in cash or in the form of O'Neil Industries, Inc. common shares plus cash for any fractional shares. During the year ended December 31, 2024, distributions were made both in cash and in the form of O'Neil Industries, Inc. common shares. The Plan is allowed to purchase shares from terminated participants who did not request a distribution. These funds are placed in a segregated cash account until such time that the participant requests a distribution. Distributions prior to age 59½ are generally subject to a 10% federal excise tax on the taxable amount. No distributions are made until after the last day of the Plan year in which a distribution request is made. Participants who elect to receive a distribution of stock have a limited right to require the Company to repurchase that stock.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated participants' nonvested shares are allocated to participants' accounts after a five-year break in service. Such allocated forfeitures during the year ended December 31, 2024 were \$84,105, prior to the stock split. Forfeitures of \$32 were reinstated to participant accounts during the year ended December 31, 2024. The remaining balance of forfeitures as of December 31, 2024 and 2023 was \$70,922 and \$139,870, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

**O'NEIL INDUSTRIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The shares of Company common stock and the money market fund are valued at estimated fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Substantially all of the expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

The Plan's initial investment in Company securities consisted of 11,240 shares of the outstanding common stock of O'Neil Industries, Inc. The shares were acquired on January 1, 1994 for \$548 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. The estimated fair market value, as determined by independent appraisal as of December 31, 2024 and 2023 was \$164.30 and \$14,526, before the 100:1 stock split, respectively per share.

During 2024, 2,933 shares were released and allocated to participants.

The Plan's investments at December 31 are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
O'Neil Industries, Inc. Common Shares: Number of Shares	318,924	71,530	3,241	745

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Common Stock – The fair value of the Company common stock held by the Plan is valued at fair value based on an independent third-party appraisal performed by a business appraiser selected by the Plan's trustee. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Money Market Fund – Valued at a stable \$1.00 net asset value (NAV) per unit held, which is the value at which the fund is traded and approximates fair value of the underlying investments.

For the year ended December 31, 2024, there were no transfers into or out of the Plan's level 3 assets.

NOTE 5 NOTES PAYABLE

On September 15, 2021, the Plan entered into a \$8,009,527 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The Plan has a note payable related to the purchase of Company stock on December 31 as follows:

NOTE 5 NOTES PAYABLE (CONTINUED)

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan's loan and related Plan contributions for the next five years are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2025	\$ 226,801
2026	230,725
2027	234,717
2028	238,488
2029	242,903
Thereafter	<u>5,632,055</u>
Total	<u><u>\$ 6,805,689</u></u>

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Stock Ownership Committee shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account, to the extent it determines such a sale to be necessary, in order to repay the loan. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company, by a letter dated November 14, 2014, that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 8 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company common shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. The Plan held 390,454 and 3,986 shares of Company common stock at December 31, 2024 and 2023, respectively when accounting for the 100:1 stock split. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
