Independent Auditor's Report

The Plan Administrator
Valley Queen Company Stock Profit Sharing Plan and Trust
Milbank, South Dakota

Opinion

We have audited the financial statements of Valley Queen Company Stock Profit Sharing Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Valley Queen Company Stock Profit Sharing Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Valley Queen Company Stock Profit Sharing Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Valley Queen Company Stock Profit Sharing Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Valley Queen Company Stock Profit Sharing Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Valley Queen Company Stock Profit Sharing Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the Valley Queen Company Stock Profit Sharing Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering qualified employees of Valley Queen Cheese Factory, Inc. (the Company). The Company established the Plan effective January 1, 2017. The Plan has been established as an eligible individual account plan under Section 407(d)(3) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan.

Eligibility

Employees who are eighteen years of age or older and have completed 30 days of employment are eligible to participate in the Plan. An employee must complete 1,000 hours of service during the Plan year and be employed on December 31 to be eligible for an allocation of the discretionary profit-sharing contribution. Employees covered by a collective bargaining agreement or who are nonresident aliens are excluded from Plan participation.

Entry Date

Employees may enter the Plan on the first day of the calendar month coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

The Company can provide a discretionary profit-sharing contribution to the Plan which is allocated to participants based on their eligible compensation. During the year ended December 31, 2024, the Company approved a discretionary contribution of \$2,015,562. The contribution will be funded in 2025 with cash and the Company's common stock.

The Plan does not allow employee or rollover contributions.

Participant Accounts

Each participant's account is credited with allocations of the Company's discretionary profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Valley Queen Company Stock Profit Sharing Plan and Trust

Notes to Financial Statements
December 31, 2024 and 2023

Investments

To the extent directed by the Plan Fiduciary, the Trustee may invest up to 100% of the fair market value of the assets of the Plan in qualifying employer securities, as defined by ERISA. All of the cash or Company securities contributed to the Plan will be held in a trust maintained by the Trustee. Investment of the assets of the Trust is the responsibility of the Trustee. Participants do not have the ability to direct the investment of their accounts.

Vesting

Vesting in the Company's contribution portion of participant accounts is based on years of continuous service as follows:

Participant's Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

At December 31, 2024 and 2023, there was \$62,599 and \$45,529 of forfeited non-vested accounts. Forfeitures of terminated participants will first be used to restore forfeited amounts of re-employed participants. Any remaining amounts will be reallocated as additional contributions. They may also be used to pay reasonable Plan expenses. During the year ended December 31, 2024, \$62,599 of forfeited non-vested accounts will be utilized to pay for administrative expenses.

Payment of Benefits

A participant is entitled to benefits based on the occurrence of the following events:

- a. On termination of service due to disability, retirement or termination of employment, a participant may receive the value of the vested interest in their account.
- b. Upon the attainment of age 60, a participant may receive an in-service distribution of up to 20% of their vested account value.
- c. Upon the attainment of age 72, if a participant owns more than 5% of the Company, they are required to take a distribution no later than April 1st of the following calendar year.

The payment shall be in the form of a lump sum as provided in the Plan document. A terminated participant with a balance of less than \$1,000 may be automatically paid out by the Plan upon the Plan's next valuation date. Any terminated participant with a balance between \$1,000 and \$5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. A terminated participant, with an account balance in excess of \$5,000 who has not consented to a distribution will have the balance in their account transferred via a trustee-to-trustee transfer to another qualified plan sponsored by the Plan Sponsor.

Voting Rights

Full and fractional shares of stock in the trust shall be voted by the Trustee following the Plan Administrator's instructions.

A participant shall not have the right to direct the Trustee as to the exercise of voting rights with respect to any trust fund investments.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Valley Queen Company Stock Profit Sharing Plan and Trust

Notes to Financial Statements
December 31, 2024 and 2023

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through September 25, 2025, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments as of December 31, 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Net Assets		
Plan sponsor common stock		
Number of shares	26,819	25,381
Cost	\$ 11,757,605	\$ 10,782,857
Fair value	\$ 19,123,556	\$ 16,462,546
Plan sponsor preferred stock		
Number of shares	21,199	21,199
Cost	\$ 741,965	\$ 741,965
Fair value	\$ 741,965	\$ 741,965

In 2024, the Plan received 1,438 shares of stock as partial payment of the prior year employer contribution receivable.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market deposit accounts – Valued at carrying value, which approximates fair value, based on the amount of net contributions plus any investment earnings allocated to the account.

Common stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal and recent stock sales, if any. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including discounts for lack of control and lack of marketability.

Preferred Stock - The fair value of the Company preferred stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with the initial transaction. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including certain discounts.

The valuation process involves Plan management’s selection of an independent appraiser on an annual basis. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management review in detail, discuss, and approve. The results of this process are documented in the minutes of the Board of Directors.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total

Note 5 - Tax Status

The Plan adopted a pre-approved plan document sponsored by First Bank & Trust, which received an opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock. In addition, contributions to the Plan will be made in the form of either cash or Company common stock. During the year ended December 31, 2024, the Plan received \$397,151 in dividends from the Company. These transactions would be related party and party in interest transactions. In addition, the Plan invests in a money market deposit account managed by First Bank & Trust, the trustee as defined by the Plan. During the year ended December 31, 2024, the Plan received \$42,888 in interest income. As described in Note 2, the Plan has the ability to pay certain expenses related to Plan operations to various service providers. These transactions would be exempt party in interest transaction under ERISA.

Note 7 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8 - Transfers to Valley Queen Cheese Factory, Inc. 401(k) Profit Sharing Plan

As described in Note 1, terminated participants with accounts in excess of \$5,000 who have not consented to a distribution will have their accounts rolled via a trustee-to-trustee transfer to another qualified plan sponsored by the Plan Sponsor. During the year ended December 31, 2024, \$53,551 of account balances for terminated participants were transferred to the Valley Queen Cheese Factory, Inc. 401(k) Profit Sharing Plan and \$9,085 of these amounts were transferred from the Valley Queen Cheese Factory, Inc. 401(k) Profit Sharing Plan for employees that were rehired.
