Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

The Plan Administrator of the TTX Company Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of TTX Company Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's

Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analyses and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

TTX Company Pension Plan

Notes to Financial Statements

1. Description of Plan

The following brief description of the TTX Company Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a noncontributory defined benefit pension plan sponsored by TTX Company (the "Company" or "we") covering all salaried employees except Field Maintenance Operations employees below the supervisor level. The Plan is closed to new participants as of December 31, 2019. Active participants as of September 1, 2020 who were hired before January 1, 2020, were provided an option to become a Retirement Choice Participant, or to remain active and continue to accrue benefits in the Pension Plan. Retirement Choice Participants are those Participants who were actively employed and chose to have their Pension benefit accruals frozen as of December 31, 2020, with no further benefit accruals after that date, and instead receive annual non-elective Company contributions under the TTX Company Thrift Plan for years beginning January 1, 2021. Employees hired on or after January 1, 2020, are not eligible to participate in the Plan, and instead receive annual non-elective Company contributions under the TTX Company Thrift Plan for years beginning January 1, 2021.

Participants are eligible for normal monthly retirement benefit payments the first month after age 65. For retirees, an unreduced benefit is available at age 62, or at age 60 with 30 years of benefit service. Participants are eligible for early retirement with reduced benefits at age 60, or age 55 if certain requirements are met. Benefit payments are based on average earnings, defined as the average of the 60 consecutive highest-paid months of the participant's 120 months of earnings immediately preceding the participant's retirement, or for Retirement Choice participants the average of the 60 consecutive highest-paid months of the participant's 120 months of earnings immediately preceding December 31, 2020, multiplied by 12. Monthly benefit payments are equal to 1/12 of the sum of:

- (a) 0.6% of the participant's average earnings multiplied by the participant's years of benefit service; and
- (b) 0.75% of the excess, if any, of the participant's average earnings minus the average Railroad Retirement Tier II taxable wage base for 35 calendar years ending with the year the participant attains normal retirement age for Railroad Retirement purposes. For Retirement Choice Participants, 0.75% of the excess, if any, of the participant's average earnings minus the average Railroad Retirement Tier II taxable wage base for 35 calendar years ending with the Plan Year that ends on December 31, 2020.

Participants vest after completing five years of vesting service or upon reaching age 60. The normal form of benefit payment is a life annuity for single participants or a joint and 50% survivor annuity for married participants. Optional forms of benefit payments include a lump-sum or other forms of monthly payment. Disability retirement benefits, death benefits, and deferred vested benefits are also provided by the Plan.

Effective January 1, 2023, the Plan was amended to provide a grandfathered lump sum basis for participants retiring on or after reaching age 59.5 with at least 10 years of benefit service and enhanced Qualified Joint and Survivor and Qualified Optional Survivor annuity options that are equivalent to the grandfathered lump sum amount. The Plan was also amended to allow participants to receive a one-time in-service distribution on or after reaching age 59.5 with 10 years of benefit service. The effect of Plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. The amendment increased the benefit obligation by \$1.3 million.

TTX Company Pension Plan

Notes to Financial Statements

The Pension and Benefits Committee of TTX Company (the "Committee") administers the Plan. Investment managers have been granted discretionary authority concerning purchases and sales of investments in the Plan in accordance with general investment guidelines established by the Committee, who approves any trades.

Principal Bank (Principal) was the Trustee of the Plan as of December 31, 2024 and 2023 and for the years ended December 31, 2024 and 2023.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; and the actuarial present value of accumulated benefits at the date of the financial statements. Actual results may differ from those estimates.

Investments Valuation

The Plan's investments as of December 31, 2024 and 2023 are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for more information.

Investment Transactions and Income Recognition

Investment purchases and sales transactions are accounted for on a trade date basis. Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. See Note 6 for more information.

Benefit Payments

The Plan accounts for benefits when paid. For purposes of reporting on Form 5500, benefits are recorded in the period such amounts are authorized to be paid to participants. Such treatment may result in a difference between the Plan's Form 5500 and the accompanying financial statements. There was no such difference in 2024 or 2023.

Administrative Expenses

The Company pays all administrative fees and expenses of the Plan. These amounts include accounting, actuarial, compliance, legal, Trustee, plan-level investment advisory services and Pension Benefit Guaranty Corporation ("PBGC") premiums.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are future benefits expected to be paid pursuant to the Plan's provisions and attributable to the service employees have rendered to the date of the actuarial valuation. Accumulated plan benefits include amounts payable to (a) retired or terminated employees or their spousal beneficiaries, (b) spousal beneficiaries of employees who have died, and (c) active employees or their spousal beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary using the unit credit actuarial cost method, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through

TTX Company Pension Plan

Notes to Financial Statements

discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant assumptions used in the actuarial valuations as of December 31, 2023, include: (a) discount rate and an assumed rate of return on assets of 6.75%, (b) retirement at ages between 55 and 65, with a weighted average retirement age of 60.5, (c) an assumed life expectancy based on the Pri-2012 mortality tables projected generationally from 2012 using Scale MP-2021, and (d) an estimate for the 30-year Treasury rate of 3.0%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated Plan benefits presented in the accompanying financial statements are presented using beginning of year benefit information date. The actuarial present value of accumulated Plan benefits below is measured as of January 1, 2024, which is a proxy for December 31, 2023. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated Plan benefits as of December 31, 2023, was as follows:

Vested accumulated benefits		
Active employees	\$	45,818,279
Participants with deferred benefits		12,426,441
Participants receiving benefits		4,131,543
Total vested accumulated benefits		<u>62,376,263</u>
Non-vested accumulated benefits		4,042,775
Total accumulated benefits	\$	<u>66,419,038</u>

Changes in the present value of accumulated Plan benefits for the year ended December 31, 2023, were as follows:

Beginning of year	\$	64,724,989
Changes during the year attributable to:		
Benefits accumulated		5,472,704
Actuarial gains		(1,022,264)
Decrease in the discount period		4,493,866
Benefits paid		(7,243,808)
Assumption changes		(6,449)
Total changes		<u>1,694,049</u>
End of year	\$	<u>66,419,038</u>

4. Funding Policy

It is the Company's policy to make contributions to the Plan sufficient to meet the minimum funding requirements of applicable laws and regulations plus such additional amounts as we deem appropriate. We were not required to and did not make any contributions in 2024 and 2023.

5. Plan Termination

Although the Company has not expressed any intention to do so, we have the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

If the Plan were to terminate, the net assets of the Plan would be allocated, as prescribed by ERISA, to provide the following benefits in the order indicated:

- (a) Annuity benefits to former employees or their beneficiaries that have been receiving benefits for at least three years, or to employees eligible to retire at the beginning of that three-year period that would have been receiving benefits if they had retired with the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- (b) Other vested benefits insured by the PBGC up to the applicable limitations.
- (c) All other vested benefits not insured by the PBGC.
- (d) All non-vested benefits.

If the Plan were to terminate for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan did not have sufficient assets, we would be required to contribute to the Plan an amount, which together with Plan assets, should satisfy all benefits accumulated to the date of the Plan termination. However, a participant's ability to request payment other than in the Plan's normal form (life annuity for single participants or a joint and 50% survivor annuity for married participants) may be restricted.

Certain benefits under the Plan are insured by the PBGC if the Plan were to terminate as a result of the bankruptcy or near bankruptcy of the Company. The PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination; however, there is a statutory ceiling on the guaranteed amount.

Whether all participants would be paid their accumulated plan benefits should the Plan terminate would depend on the priority of those benefits as described in the Plan, on the sufficiency of the Plan's net assets to provide those benefits, and on the level of benefits guaranteed by the PBGC.

6. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are classified according to a three-level hierarchy based on management's judgment about the reliability of the inputs used in the fair value measurement. Level 1 inputs are quoted prices available in active markets for identical assets or liabilities. Level 2 inputs are observable, either directly or indirectly, and include quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 3 inputs are unobservable, meaning they are not supported by data outside the reporting entity. Fair value measurements classified as Level 3 typically rely on the use of pricing models and discounted cash flow methodologies where significant management judgment is required. The fair value measurement level within the fair value hierarchy is determined by the lowest level of any input that is significant to the fair value measurement. The valuation techniques used strive to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Cash equivalents: Interest bearing cash reported within investments at fair value includes money market accounts that are valued at their cost plus interest on a daily basis, which approximates fair value. Short-term investments represent securities with original maturities of one year or less.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth the fair value of the Plan's investments, which are all Level 1 inputs, at December 31:

	2024	2023
Cash and cash equivalents	\$ 2,009,519	\$ 3,024,633
Bond mutual funds	49,609,229	51,949,362
Domestic equity mutual funds	40,969,582	39,083,841
Global equity mutual funds	13,006,725	12,931,941
Total investments at fair value	<u>\$ 105,595,055</u>	<u>\$ 106,989,777</u>

7. Certified Investment Information

All investment information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including the investments at fair value, investment related receivables and investment income (loss) information of the Plan as of and for the years ended December 31, 2024 and 2023, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee. Such certification excludes the level of investments. See Note 1 for more details.

Notes to Financial Statements

8. Tax Status

The Plan has a determination letter, dated October 16, 2015, from the Internal Revenue Service stating that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and tax counsel believe that the Plan continues to be designed and is operating in compliance with the applicable requirements of the Internal Revenue Code.

We have analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require the recognition of a liability or disclosure in the financial statements. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2021.

9. Risks and Uncertainties

The actuarial present value of accumulated plan benefits is estimated using certain assumptions pertaining to interest rates, inflation rates, employee demographics and annual compensation increases, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these assumptions in the near term could be material to the financial statements.

The Plan invests in a combination of mutual funds and other investment securities. Where Plan investments are exposed to various risks such as interest rate, economic, market, credit, currency, and political, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

10. Exempt Party-in-Interest Transactions

The Committee as administrator of the Plan, and Principal Bank, as Trustee of the Plan, are considered related parties-in-interest.

The Plan invests in shares of mutual funds managed by an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rule.

11. Subsequent Events

All subsequent events have been evaluated through September 25, 2025, the date the financial statements were available to be issued.

65	100%
Weighted average retirement age	60.5

Terminated vested participants are assumed to retire at age 62.

Form of payment

95% of active participants are assumed to elect a lump sum form of payment and 5% are assumed to elect the normal annuity form of payment (Qualified Joint and Survivor annuity).

90% of terminated vested participants are assumed to elect a lump sum form of payment and 10% are assumed to elect the normal annuity form of payment.

Lump sums reflect the most valuable of the following bases:

- 1994 GAR (50% male, 50% female) mortality table and an interest rate 50 basis points less than the assumed 30-year Treasury rate, or
- Projected IRS-prescribed mortality and interest rates for lump sum distributions
- If eligible, the grandfathered basis described below.

Effective January 1, 2023, participants who retire under the Pension Plan after age 59.5 with at least 10 years of benefit service are eligible for a grandfathered lump sum basis which is determined as the most favorable lump sum basis under the plan for any determination month following the date the participant reached age 59.5 with at least 10 years of service, or, for those participants who attained age 59.5 with at least 10 years of service by December 31,

Participants who are eligible for the grandfathered lump sum basis under the Pension Plan are also eligible for an enhanced Qualified Joint and Survivor annuity that is the larger of the amount determined using the plan's regular actuarial equivalence basis or the grandfathered lump sum basis. The enhanced Qualified Joint and Survivor annuity is estimated for each individual based on the average expected increase to their benefit between the ages of 60 and 65.

Percent married	70% of males; 55% of females. Used to value pre-retirement surviving spouse benefits and in determining the normal form of payment.
Spouse age	Wife one year younger than husband

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the dates that are 12 and 24 months preceding the valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan trustee and the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates may have been made if data were not available. The data was not adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which active participants retire by age are shown below.

Percentage retiring during the year	
Attained Age	Rate
55	7%
56	7%
57	7%
58	7%
59	7%
60	30%
61	30%
62	30%
63	20%
64	20%
65	100%
Weighted average retirement age	60.5

Terminated vested participants are assumed to retire at age 62.

Form of payment

95% of active participants are assumed to elect a lump sum form of payment and 5% are assumed to elect the normal annuity form of payment (Qualified Joint and Survivor annuity).

90% of terminated vested participants are assumed to elect a lump sum form of payment and 10% are assumed to elect the normal annuity form of payment.

Lump sums reflect the most valuable of the following bases:

- 1994 GAR (50% male, 50% female) mortality table and an interest rate 50 basis points less than the assumed 30-year Treasury rate, or
- Projected IRS-prescribed mortality and interest rates for lump sum distributions
- If eligible, the grandfathered basis described below.

Effective January 1, 2023, participants who retire under the Pension Plan after age 59.5 with at least 10 years of benefit service are eligible for a grandfathered lump sum basis which is determined as the most favorable lump sum basis under the plan for any determination month following the date the participant reached age 59.5 with at least 10 years of service, or, for those participants who attained age 59.5 with at least 10 years of service by December 31,

2022, the most favorable lump sum basis under the plan for any determination month on or after January 2022.

Participants who are eligible for the grandfathered lump sum basis under the Pension Plan are also eligible for an enhanced Qualified Joint and Survivor annuity that is the larger of the amount determined using the plan's regular actuarial equivalence basis or the grandfathered lump sum basis. The enhanced Qualified Joint and Survivor annuity is estimated for each individual based on the average expected increase to their benefit between the ages of 60 and 65.

Percent married	70% of males; 55% of females. Used to value pre-retirement surviving spouse benefits and in determining the normal form of payment.
Spouse age	Wife one year younger than husband
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the dates that are 12 and 24 months preceding the valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan trustee and the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates may have been made if data were not available. The data was not adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Interest rates

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

30-year Treasury rate

The long-term estimate of this rate is based on a combination of current conditions and future economic expectations.

Plan

TTX Company Pension Plan

Effective Date and Most Recent Amendment

The plan was last restated January 1, 2020. The most recent amendment reflected in the valuation, which was effective January 1, 2023, amended the plan to (1) provide a grandfathered lump sum basis for participants retiring on or after reaching age 59.5 with at least 10 years of benefit service and enhanced Qualified Joint and Survivor and Qualified Optional Survivor annuity options that are equivalent to the grandfathered lump sum amount, and (2) allow participants to receive a one-time in-service distribution on or after reaching age 59.5 with 10 years of benefit service.

Plan Year

The 12-month period ending December 31.

Covered Employees

All employees hired prior to January 1, 2020 working 1,000 or more hours per year. The plan is closed to new hires, rehires and transfers effective January 1, 2020.

Plan Participation

Salaried employees hired prior to January 1, 2020, provided they are not covered by a collectively bargained pension plan. The plan is closed to new hires, rehires and transfers effective January 1, 2020.

Credited Service

Years and months of service under the Railroad Retirement Act, provided no duplication of benefits will occur.

Vesting Service

One year for each 1,000-hour plan year of employment.

Monthly Earnings

Gross monthly compensation including bonuses, overtime payments, and tax deferred contributions, but excluding commissions and special compensation.

Average Monthly Earnings

The average of the highest 60 consecutive calendar months of Monthly Earnings during the 120-month period preceding retirement or termination.

Railroad Retirement Covered Compensation

The average of the Tier II taxable wage bases for Railroad Retirement for the 35 calendar years ending with the year an individual attains Railroad Retirement normal retirement age.

Maximum on Benefits and Pay

Pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Benefits paid out of the plan are also restricted by limits in the Internal Revenue Code.

Normal Retirement

Eligibility: First of month after age 65. An unreduced benefit is available at age 62 or age 60 with 30 years of Credited Service.

Benefit: 0.6% of Average Monthly Earnings multiplied by Credited Service plus 0.75% of the excess, if any, of Average Monthly Earnings over Railroad Retirement Covered Compensation multiplied by Credited Service up to 35 years.

For participants that opted out of the plan as part of the choice offered in 2020, their pension plan benefit is frozen as of December 31, 2020.

Late Retirement

Eligibility: Retirement after age 65.

Benefit: Normal Retirement Benefit determined as of actual retirement date.

Early Retirement

Eligibility: First of month after the later of age 55 with at least 10 years of Credited Service and five years of Vesting Service or age 60.

Benefit: Normal Retirement Benefit determined as of early retirement date, reduced as follows: for participants with at least 30 years of Credited Service, 3.33% for each year of payment before age 60; for participants with less than 30 years of Credited Service but whose age added to years of Credited Service is at least 80, 3.33% for each year of payment before age 62; for participants with less than 30 years of Credited Service and whose age added to years of Credited Service is less than 80, 6.67% for each year of payment before age 62.

In-Service Retirement Benefit

Eligibility: Effective January 1, 2023, the first of the month after age 59.5 with at least 10 years of benefit service and who have not previously received an in-service distribution.

Benefit: accrued benefit actuarially reduced for early commencement.

Disability Benefit

Eligibility: Disability as determined by the Pension Committee after completing five years of Credited Service.

Benefit: Normal Retirement Benefit commencing at age 65 and determined assuming constant Monthly Earnings and accrual of Credited Service during period of disability.

Vested Benefits Upon Termination of Credited Service

Eligibility: Termination for reasons other than death or retirement after completing five years of Vesting Service.

Termination Benefit: Normal Retirement Benefit determined as of termination date. Reduced benefit payable at later of age 55 with at least 10 years of Credited Service or age 60. Normal retirement benefit is reduced by 6.67% for the first five years of payment prior to age 65 and 3.33% for each subsequent year.

Death Benefits for Participants in Active Credited Service

Eligibility: Death after completing five years of Vesting Service or attaining age 60 while actively employed.

Plan Name: TTX Company Pension Plan

SCHEDULE SB ATTACHMENTS

Benefit: 50% of the Normal Retirement Benefit as of the date of death. A minimum benefit is payable to participants who die after age 50 with 15 years of Credited Service or after age 60. The minimum benefit is equal to 0.5% of Average Monthly Earnings times service.

Normal Form

Benefits will be paid in the form of a life annuity if the participant has no eligible spouse as of the date payments begin. Otherwise, retirement benefits are paid in the form of a qualified 50% joint and survivor annuity.

Optional Forms of Retirement Income in Lieu of Normal Form

Optional forms of payment include lump sum, 10-year certain and life, 5-year certain and life, 75% joint and survivor, and 100% joint and survivor.

The lump sum is determined as the largest lump sum produced by using one of the following three sets of actuarial equivalence assumptions:

1. The Plan Mortality Table (1994 GAR (50% Male, 50% Female)) and the average of the Plan Interest Rates (30-year Treasury rates) for the six months ending with and including the third month prior to the date of retirement minus 0.5%; or
2. The Plan Mortality Table (1994 GAR (50% Male, 50% Female)) and the Plan Interest Rate (30-year Treasury rate) in effect for the third month prior to the date of retirement; or
3. The Applicable Mortality Table in effect for the date of retirement and the Applicable Interest Rate in effect for the third month prior to the date of retirement, under IRS Code Section 417(e)(3).

Grandfathered lump sum basis: Effective January 1, 2023, for participants retiring on or after reaching age 59.5 with at least 10 years of benefit service, the lump sum is determined using the most valuable lump sum basis determined under the plan (as described above) for any determination month after the month that the participant reached age 59.5 with at least 10 years of benefit service. For participants that attained age 59.5 with at least 10 years of benefit service by December 31, 2022, the lump sum is determined using the most valuable lump sum basis on or after January 1, 2022.

Participants who are eligible for the grandfathered lump sum basis are also eligible for enhanced Qualified 50% Joint and Survivor and Qualified 75% Optional Survivor annuity options that are the greater of the amount determined using the plan's regular actuarial equivalence basis or the grandfathered lump sum basis.

Plan

TTX Company Pension Plan

Effective Date and Most Recent Amendment

The plan was last restated January 1, 2020. The most recent amendment reflected in the valuation, which was effective January 1, 2023, amended the plan to (1) provide a grandfathered lump sum basis for participants retiring on or after reaching age 59.5 with at least 10 years of benefit service and enhanced Qualified Joint and Survivor and Qualified Optional Survivor annuity options that are equivalent to the grandfathered lump sum amount, and (2) allow participants to receive a one-time in-service distribution on or after reaching age 59.5 with 10 years of benefit service.

Plan Year

The 12-month period ending December 31.

Covered Employees

All employees hired prior to January 1, 2020 working 1,000 or more hours per year. The plan is closed to new hires, rehires and transfers effective January 1, 2020.

Plan Participation

Salaried employees hired prior to January 1, 2020, provided they are not covered by a collectively bargained pension plan. The plan is closed to new hires, rehires and transfers effective January 1, 2020.

Credited Service

Years and months of service under the Railroad Retirement Act, provided no duplication of benefits will occur.

Vesting Service

One year for each 1,000-hour plan year of employment.

Monthly Earnings

Gross monthly compensation including bonuses, overtime payments, and tax deferred contributions, but excluding commissions and special compensation.

Average Monthly Earnings

The average of the highest 60 consecutive calendar months of Monthly Earnings during the 120-month period preceding retirement or termination.

Railroad Retirement Covered Compensation

The average of the Tier II taxable wage bases for Railroad Retirement for the 35 calendar years ending with the year an individual attains Railroad Retirement normal retirement age.

Maximum on Benefits and Pay

Pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Benefits paid out of the plan are also restricted by limits in the Internal Revenue Code.

Normal Retirement

Eligibility: First of month after age 65. An unreduced benefit is available at age 62 or age 60 with 30 years of Credited Service.

Benefit: 0.6% of Average Monthly Earnings multiplied by Credited Service plus 0.75% of the excess, if any, of Average Monthly Earnings over Railroad Retirement Covered Compensation multiplied by Credited Service up to 35 years.

For participants that opted out of the plan as part of the choice offered in 2020, their pension plan benefit is frozen as of December 31, 2020.

Late Retirement

Eligibility: Retirement after age 65.

Benefit: Normal Retirement Benefit determined as of actual retirement date.

Early Retirement

Eligibility: First of month after the later of age 55 with at least 10 years of Credited Service and five years of Vesting Service or age 60.

Benefit: Normal Retirement Benefit determined as of early retirement date, reduced as follows: for participants with at least 30 years of Credited Service, 3.33% for each year of payment before age 60; for participants with less than 30 years of Credited Service but whose age added to years of Credited Service is at least 80, 3.33% for each year of payment before age 62; for participants with less than 30 years of Credited Service and whose age added to years of Credited Service is less than 80, 6.67% for each year of payment before age 62.

In-Service Retirement Benefit

Eligibility: Effective January 1, 2023, the first of the month after age 59.5 with at least 10 years of benefit service and who have not previously received an in-service distribution.

Benefit: accrued benefit actuarially reduced for early commencement.

Disability Benefit

Eligibility: Disability as determined by the Pension Committee after completing five years of Credited Service.

Benefit: Normal Retirement Benefit commencing at age 65 and determined assuming constant Monthly Earnings and accrual of Credited Service during period of disability.

Vested Benefits Upon Termination of Credited Service

Eligibility: Termination for reasons other than death or retirement after completing five years of Vesting Service.

Termination Benefit: Normal Retirement Benefit determined as of termination date. Reduced benefit payable at later of age 55 with at least 10 years of Credited Service or age 60. Normal retirement benefit is reduced by 6.67% for the first five years of payment prior to age 65 and 3.33% for each subsequent year.

Death Benefits for Participants in Active Credited Service

Eligibility: Death after completing five years of Vesting Service or attaining age 60 while actively employed.

Plan Name: TTX Company Pension Plan

Benefit: 50% of the Normal Retirement Benefit as of the date of death. A minimum benefit is payable to participants who die after age 50 with 15 years of Credited Service or after age 60. The minimum benefit is equal to 0.5% of Average Monthly Earnings times service.

Normal Form

Benefits will be paid in the form of a life annuity if the participant has no eligible spouse as of the date payments begin. Otherwise, retirement benefits are paid in the form of a qualified 50% joint and survivor annuity.

Optional Forms of Retirement Income in Lieu of Normal Form

Optional forms of payment include lump sum, 10-year certain and life, 5-year certain and life, 75% joint and survivor, and 100% joint and survivor.

The lump sum is determined as the largest lump sum produced by using one of the following three sets of actuarial equivalence assumptions:

1. The Plan Mortality Table (1994 GAR (50% Male, 50% Female)) and the average of the Plan Interest Rates (30-year Treasury rates) for the six months ending with and including the third month prior to the date of retirement minus 0.5%; or
2. The Plan Mortality Table (1994 GAR (50% Male, 50% Female)) and the Plan Interest Rate (30-year Treasury rate) in effect for the third month prior to the date of retirement; or
3. The Applicable Mortality Table in effect for the date of retirement and the Applicable Interest Rate in effect for the third month prior to the date of retirement, under IRS Code Section 417(e)(3).

Grandfathered lump sum basis: Effective January 1, 2023, for participants retiring on or after reaching age 59.5 with at least 10 years of benefit service, the lump sum is determined using the most valuable lump sum basis determined under the plan (as described above) for any determination month after the month that the participant reached age 59.5 with at least 10 years of benefit service. For participants that attained age 59.5 with at least 10 years of benefit service by December 31, 2022, the lump sum is determined using the most valuable lump sum basis on or after January 1, 2022.

Participants who are eligible for the grandfathered lump sum basis are also eligible for enhanced Qualified 50% Joint and Survivor and Qualified 75% Optional Survivor annuity options that are the greater of the amount determined using the plan's regular actuarial equivalence basis or the grandfathered lump sum basis.
