The Mosser Group Employee Stock Ownership Plan and Trust  
Fremont, Ohio

**Opinion**

We have audited the accompanying financial statements of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Mosser Group Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Mosser Group Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

---

An Independent Member of the BDO Alliance USA

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, and the supplemental Schedule H, line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

**Note 1 – Description of the Plan**

The following description of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, as amended and restated, is a defined contribution plan covering substantially all nonunion full-time employees of WMOG, Inc. (the Plan Sponsor and Administrator) and its participating subsidiaries (collectively, the Company). An employee becomes a participant upon completion of 1,000 hours of service in the first year of employment, retroactive to the date of employment. If 1,000 hours of service are not completed in the first year, participation begins retroactively to January 1 in the year the requirement is met. Participants are not required or permitted to make contributions to the Plan. A participant who is employed by the Company on the last day of the Plan year and is credited with at least 1,000 hours of service is entitled to share in the allocation of Company discretionary contributions and participant forfeitures for that Plan year, except as otherwise discussed in the Plan document. The Plan, which became a leveraged ESOP during 2021, is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The main purpose of the ESOP is to hold shares of the Company and allocate benefits to participants. During 2021, the Plan purchased additional shares of Company common stock using the proceeds of a Company loan, and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of thirty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated common stock (Allocated) and;
2. Common stock not yet allocated to employees (Unallocated).

**Note 1 – Description of the Plan (continued)**

Participant Accounts

Eligible participant's accounts are credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, and forfeiture of terminated non-vested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation, or at an equal dollar amount per participant. Participant accounts are also credited with Company contributions as defined in the Plan document, and with an allocation of Plan earnings (losses) based on the individual participant account balances.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

The Company may otherwise make contributions in cash or stock, solely at the discretion of and as determined annually by the Board of Directors. In 2024 and 2023, the Company made a discretionary cash contribution of \$522,675 and \$558,977, respectively. In addition, as part of The Mosser Group Employee Savings Plan and Trust, the Company made safe harbor matching contributions of \$403,843 and \$357,950 in 2024 and 2023, respectively. As permitted by the Plan documents, these safe harbor matching contributions were designated by the Plan Sponsor to be made to and held by this Plan.

Company contributions are invested by the custodian, as defined in the Plan document, in the common stock of WMOG, Inc. or in other prudent investments as the trustee deems appropriate. None of the investments of the Plan are participant directed.

Payment of Benefits

Upon retirement, disability, or death, the Plan provides for distributions to be made in a single distribution at an elected date.

Benefits payable to terminated participants are based on the participant's vested account balance and are payable after five consecutive one-year breaks in service, except where as defined in the Plan document, using substantially the same methods as outlined above.

Under the provisions of the Plan, the Company has the right of first refusal to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

Vesting

Participant account balances relating to Company contributions, excluding the safe harbor matching Company contributions, are fully vested after three years of credited service. Participants are immediately vested in the safe harbor matching Company contributions that are made related to participant deferrals in The Mosser Group Employee Savings Plan and Trust.

Forfeitures

Forfeitures of terminated participants' nonvested account balances are reallocated to the remaining participants after a one-year break in service.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, a participant may diversify up to 50% of shares not previously diversified, as discussed in the Plan document. Participants who elect to diversify have their funds transferred to The Mosser Group Employee Savings Plan and Trust for participant direction.

Voting Rights

Company securities held by the Trust shall be voted by the trustee at the direction of the Plan Administrator. Each participant and/or beneficiary is entitled to direct the voting of any Company securities allocated to his or her account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of the Company. With respect to the unallocated Company securities, and in all other instances, the trustee shall exercise the voting rights.

Put Option

Under Federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market or subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts become fully vested.

Administrative Expenses

The Company has the option to pay certain expenses necessary to operate and administer the Plan. Fees are paid by the Company for audit and other administrative expenses. Fees are paid to parties-in-interest.

**Note 2 – Summary of Accounting Policies**

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used.

The valuation process involves the ESOP trustee's selection of an independent appraiser. The appraised fair value of WMOG, Inc. stock is determined annually by this independent appraiser using a weighted average of the income approach, market approach and the asset-based approach. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and the fair value of the Company assets and liabilities. Plan management has concluded that a market participant would also recognize a slight discount for lack of marketability.

Mutual funds represent investments with various investment managers. Fair value is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at net asset value.

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

**Note 2 – Summary of Accounting Policies (continued)**

Investment Valuation and Income Recognition (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, an estimate of the fair market value of WMOG, Inc. stock, which is determined annually by an independent appraiser, is used by management in the preparation of the Plan's financial statements. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued.

**Note 3 – Administration of Plan Assets**

The Plan's assets, which consist principally of the Company's common stock as of December 31, 2024 and 2023, are held by the named trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received and makes distributions to participants. The trustee administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company acts as Plan Administrator utilizing Blue Ridge ESOP Associates for professional recordkeeping services.

**Note 4 – Fair Value Measurements**

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investments at Fair Value as of December 31, 2024

**Note 6 – Loan Payable**

The Plan entered into a \$7,500,000 term loan agreement with the Company. The proceeds of the loan were used to purchase additional shares of Company common stock. All unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over 30 years in annual installments of \$328,972, including interest at an annual rate of 1.86%.

The following is a schedule of approximate future minimum principal payments on the above loan.

	Amount
2025	\$ 200,000
2026	204,000
2027	208,000
2028	211,000
2029	215,000
Thereafter	5,896,000
Total	\$ 6,934,000

**Note 7 – Related-Party Transactions and Party-In-Interest Transactions**

As described previously, the Plan invests primarily in the Company’s common stock. In addition, the Plan has a loan with the Company which is paid in annual installments.

The Company paid substantially all Plan expenses. The Company and service providers are parties-in-interest under ERISA.

**Note 8 – Restrictions on Net Assets**

Certain mutual fund companies have implemented market timing restrictions designed to protect the long-term investors in the mutual fund. These restrictions limit the number of exchanges an investor can initiate within a given period of time, and certain funds may charge a redemption fee.

**Note 9 – Income Tax Status**

The Internal Revenue Service ruled on June 30, 2020 that the Non-Standardized Pre-Approved ESOP Plan, upon which the Plan is based, qualifies under Section 401 of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

**THE MOSSER GROUP**  
**EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**  
**NOTES TO FINANCIAL STATEMENTS**  
**Years Ended December 31, 2024 and 2023**

---

**Note 9 – Income Tax Status (continued)**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 10 – Risks and Uncertainties**

The Plan investments consist primarily of the Company's common stock, as well as other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The investment in the common stock exposes the additional risk of valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and certain investment securities, it is at least reasonably possible that changes in the values of the common stock and other investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Mosser Group Employee Stock Ownership Plan and Trust  
Fremont, Ohio

**Opinion**

We have audited the accompanying financial statements of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Mosser Group Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Mosser Group Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

---

An Independent Member of the BDO Alliance USA

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, and the supplemental Schedule H, line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

**Note 1 – Description of the Plan**

The following description of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, as amended and restated, is a defined contribution plan covering substantially all nonunion full-time employees of WMOG, Inc. (the Plan Sponsor and Administrator) and its participating subsidiaries (collectively, the Company). An employee becomes a participant upon completion of 1,000 hours of service in the first year of employment, retroactive to the date of employment. If 1,000 hours of service are not completed in the first year, participation begins retroactively to January 1 in the year the requirement is met. Participants are not required or permitted to make contributions to the Plan. A participant who is employed by the Company on the last day of the Plan year and is credited with at least 1,000 hours of service is entitled to share in the allocation of Company discretionary contributions and participant forfeitures for that Plan year, except as otherwise discussed in the Plan document. The Plan, which became a leveraged ESOP during 2021, is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The main purpose of the ESOP is to hold shares of the Company and allocate benefits to participants. During 2021, the Plan purchased additional shares of Company common stock using the proceeds of a Company loan, and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of thirty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated common stock (Allocated) and;
2. Common stock not yet allocated to employees (Unallocated).

**NOTES TO FINANCIAL STATEMENTS**  
**Years Ended December 31, 2024 and 2023**

**Note 1 – Description of the Plan (continued)**

Participant Accounts

Eligible participant's accounts are credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, and forfeiture of terminated non-vested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation, or at an equal dollar amount per participant. Participant accounts are also credited with Company contributions as defined in the Plan document, and with an allocation of Plan earnings (losses) based on the individual participant account balances.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

The Company may otherwise make contributions in cash or stock, solely at the discretion of and as determined annually by the Board of Directors. In 2024 and 2023, the Company made a discretionary cash contribution of \$522,675 and \$558,977, respectively. In addition, as part of The Mosser Group Employee Savings Plan and Trust, the Company made safe harbor matching contributions of \$403,843 and \$357,950 in 2024 and 2023, respectively. As permitted by the Plan documents, these safe harbor matching contributions were designated by the Plan Sponsor to be made to and held by this Plan.

Company contributions are invested by the custodian, as defined in the Plan document, in the common stock of WMOG, Inc. or in other prudent investments as the trustee deems appropriate. None of the investments of the Plan are participant directed.

Payment of Benefits

Upon retirement, disability, or death, the Plan provides for distributions to be made in a single distribution at an elected date.

Benefits payable to terminated participants are based on the participant's vested account balance and are payable after five consecutive one-year breaks in service, except where as defined in the Plan document, using substantially the same methods as outlined above.

Under the provisions of the Plan, the Company has the right of first refusal to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

NOTES TO FINANCIAL STATEMENTS  
Years Ended December 31, 2024 and 2023**

**Note 1 – Description of the Plan (continued)**

Vesting

Participant account balances relating to Company contributions, excluding the safe harbor matching Company contributions, are fully vested after three years of credited service. Participants are immediately vested in the safe harbor matching Company contributions that are made related to participant deferrals in The Mosser Group Employee Savings Plan and Trust.

Forfeitures

Forfeitures of terminated participants' nonvested account balances are reallocated to the remaining participants after a one-year break in service.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, a participant may diversify up to 50% of shares not previously diversified, as discussed in the Plan document. Participants who elect to diversify have their funds transferred to The Mosser Group Employee Savings Plan and Trust for participant direction.

Voting Rights

Company securities held by the Trust shall be voted by the trustee at the direction of the Plan Administrator. Each participant and/or beneficiary is entitled to direct the voting of any Company securities allocated to his or her account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of the Company. With respect to the unallocated Company securities, and in all other instances, the trustee shall exercise the voting rights.

Put Option

Under Federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market or subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts become fully vested.

Administrative Expenses

The Company has the option to pay certain expenses necessary to operate and administer the Plan. Fees are paid by the Company for audit and other administrative expenses. Fees are paid to parties-in-interest.

**Note 2 – Summary of Accounting Policies**

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used.

The valuation process involves the ESOP trustee's selection of an independent appraiser. The appraised fair value of WMOG, Inc. stock is determined annually by this independent appraiser using a weighted average of the income approach, market approach and the asset-based approach. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and the fair value of the Company assets and liabilities. Plan management has concluded that a market participant would also recognize a slight discount for lack of marketability.

Mutual funds represent investments with various investment managers. Fair value is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at net asset value.

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

**Note 2 – Summary of Accounting Policies (continued)**

Investment Valuation and Income Recognition (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, an estimate of the fair market value of WMOG, Inc. stock, which is determined annually by an independent appraiser, is used by management in the preparation of the Plan's financial statements. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued.

**Note 3 – Administration of Plan Assets**

The Plan's assets, which consist principally of the Company's common stock as of December 31, 2024 and 2023, are held by the named trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received and makes distributions to participants. The trustee administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions as determined by the Company.

**Note 3 – Administration of Plan Assets (continued)**

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company acts as Plan Administrator utilizing Blue Ridge ESOP Associates for professional recordkeeping services.

**Note 4 – Fair Value Measurements**

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investments at Fair Value as of December 31, 2024

**Note 6 – Loan Payable**

The Plan entered into a \$7,500,000 term loan agreement with the Company. The proceeds of the loan were used to purchase additional shares of Company common stock. All unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over 30 years in annual installments of \$328,972, including interest at an annual rate of 1.86%.

The following is a schedule of approximate future minimum principal payments on the above loan.

	Amount
2025	\$ 200,000
2026	204,000
2027	208,000
2028	211,000
2029	215,000
Thereafter	5,896,000
Total	\$ 6,934,000

**Note 7 – Related-Party Transactions and Party-In-Interest Transactions**

As described previously, the Plan invests primarily in the Company’s common stock. In addition, the Plan has a loan with the Company which is paid in annual installments.

The Company paid substantially all Plan expenses. The Company and service providers are parties-in-interest under ERISA.

**Note 8 – Restrictions on Net Assets**

Certain mutual fund companies have implemented market timing restrictions designed to protect the long-term investors in the mutual fund. These restrictions limit the number of exchanges an investor can initiate within a given period of time, and certain funds may charge a redemption fee.

**Note 9 – Income Tax Status**

The Internal Revenue Service ruled on June 30, 2020 that the Non-Standardized Pre-Approved ESOP Plan, upon which the Plan is based, qualifies under Section 401 of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

**EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**  
**NOTES TO FINANCIAL STATEMENTS**

---

**Note 9 – Income Tax Status (continued)**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 10 – Risks and Uncertainties**

The Plan investments consist primarily of the Company's common stock, as well as other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The investment in the common stock exposes the additional risk of valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and certain investment securities, it is at least reasonably possible that changes in the values of the common stock and other investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Mosser Group Employee Stock Ownership Plan and Trust  
Fremont, Ohio

**Opinion**

We have audited the accompanying financial statements of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Mosser Group Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Mosser Group Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

---

An Independent Member of the BDO Alliance USA

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, and the supplemental Schedule H, line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

**Note 1 – Description of the Plan**

The following description of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, as amended and restated, is a defined contribution plan covering substantially all nonunion full-time employees of WMOG, Inc. (the Plan Sponsor and Administrator) and its participating subsidiaries (collectively, the Company). An employee becomes a participant upon completion of 1,000 hours of service in the first year of employment, retroactive to the date of employment. If 1,000 hours of service are not completed in the first year, participation begins retroactively to January 1 in the year the requirement is met. Participants are not required or permitted to make contributions to the Plan. A participant who is employed by the Company on the last day of the Plan year and is credited with at least 1,000 hours of service is entitled to share in the allocation of Company discretionary contributions and participant forfeitures for that Plan year, except as otherwise discussed in the Plan document. The Plan, which became a leveraged ESOP during 2021, is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The main purpose of the ESOP is to hold shares of the Company and allocate benefits to participants. During 2021, the Plan purchased additional shares of Company common stock using the proceeds of a Company loan, and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of thirty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated common stock (Allocated) and;
2. Common stock not yet allocated to employees (Unallocated).

Participant Accounts

Eligible participant's accounts are credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, and forfeiture of terminated non-vested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation, or at an equal dollar amount per participant. Participant accounts are also credited with Company contributions as defined in the Plan document, and with an allocation of Plan earnings (losses) based on the individual participant account balances.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

The Company may otherwise make contributions in cash or stock, solely at the discretion of and as determined annually by the Board of Directors. In 2024 and 2023, the Company made a discretionary cash contribution of \$522,675 and \$558,977, respectively. In addition, as part of The Mosser Group Employee Savings Plan and Trust, the Company made safe harbor matching contributions of \$403,843 and \$357,950 in 2024 and 2023, respectively. As permitted by the Plan documents, these safe harbor matching contributions were designated by the Plan Sponsor to be made to and held by this Plan.

Company contributions are invested by the custodian, as defined in the Plan document, in the common stock of WMOG, Inc. or in other prudent investments as the trustee deems appropriate. None of the investments of the Plan are participant directed.

Payment of Benefits

Upon retirement, disability, or death, the Plan provides for distributions to be made in a single distribution at an elected date.

Benefits payable to terminated participants are based on the participant's vested account balance and are payable after five consecutive one-year breaks in service, except where as defined in the Plan document, using substantially the same methods as outlined above.

Under the provisions of the Plan, the Company has the right of first refusal to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

Vesting

Participant account balances relating to Company contributions, excluding the safe harbor matching Company contributions, are fully vested after three years of credited service. Participants are immediately vested in the safe harbor matching Company contributions that are made related to participant deferrals in The Mosser Group Employee Savings Plan and Trust.

Forfeitures

Forfeitures of terminated participants' nonvested account balances are reallocated to the remaining participants after a one-year break in service.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, a participant may diversify up to 50% of shares not previously diversified, as discussed in the Plan document. Participants who elect to diversify have their funds transferred to The Mosser Group Employee Savings Plan and Trust for participant direction.

Voting Rights

Company securities held by the Trust shall be voted by the trustee at the direction of the Plan Administrator. Each participant and/or beneficiary is entitled to direct the voting of any Company securities allocated to his or her account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of the Company. With respect to the unallocated Company securities, and in all other instances, the trustee shall exercise the voting rights.

Put Option

Under Federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market or subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts become fully vested.

Administrative Expenses

The Company has the option to pay certain expenses necessary to operate and administer the Plan. Fees are paid by the Company for audit and other administrative expenses. Fees are paid to parties-in-interest.

**Note 2 – Summary of Accounting Policies**

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used.

The valuation process involves the ESOP trustee's selection of an independent appraiser. The appraised fair value of WMOG, Inc. stock is determined annually by this independent appraiser using a weighted average of the income approach, market approach and the asset-based approach. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and the fair value of the Company assets and liabilities. Plan management has concluded that a market participant would also recognize a slight discount for lack of marketability.

Mutual funds represent investments with various investment managers. Fair value is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at net asset value.

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

**Note 2 – Summary of Accounting Policies (continued)**

Investment Valuation and Income Recognition (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, an estimate of the fair market value of WMOG, Inc. stock, which is determined annually by an independent appraiser, is used by management in the preparation of the Plan's financial statements. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued.

**Note 3 – Administration of Plan Assets**

The Plan's assets, which consist principally of the Company's common stock as of December 31, 2024 and 2023, are held by the named trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received and makes distributions to participants. The trustee administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions as determined by the Company.

**Note 3 – Administration of Plan Assets (continued)**

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company acts as Plan Administrator utilizing Blue Ridge ESOP Associates for professional recordkeeping services.

**Note 4 – Fair Value Measurements**

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investments at Fair Value as of December 31, 2024		
	Level 1	Level 3	Total

There were no Level 3 investment purchases during the years ended December 31, 2024 and 2023. There were no issuances or transfers into or out of Level 3 within the fair value hierarchy for the years ended December 31, 2024 and 2023. There were no shares of WMOG, Inc common stock redeemed by the Plan Sponsor during the years ended December 31, 2024 and 2023.

**Note 5 – Investments**

The Plan's investments in Company common stock are presented in the following tables:

	December 31, 2024

**Note 6 – Loan Payable**

The Plan entered into a \$7,500,000 term loan agreement with the Company. The proceeds of the loan were used to purchase additional shares of Company common stock. All unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over 30 years in annual installments of \$328,972, including interest at an annual rate of 1.86%.

The following is a schedule of approximate future minimum principal payments on the above loan.

	Amount
2025	\$ 200,000
2026	204,000
2027	208,000
2028	211,000
2029	215,000
Thereafter	5,896,000
Total	\$ 6,934,000

**Note 7 – Related-Party Transactions and Party-In-Interest Transactions**

As described previously, the Plan invests primarily in the Company’s common stock. In addition, the Plan has a loan with the Company which is paid in annual installments.

The Company paid substantially all Plan expenses. The Company and service providers are parties-in-interest under ERISA.

**Note 8 – Restrictions on Net Assets**

Certain mutual fund companies have implemented market timing restrictions designed to protect the long-term investors in the mutual fund. These restrictions limit the number of exchanges an investor can initiate within a given period of time, and certain funds may charge a redemption fee.

**Note 9 – Income Tax Status**

The Internal Revenue Service ruled on June 30, 2020 that the Non-Standardized Pre-Approved ESOP Plan, upon which the Plan is based, qualifies under Section 401 of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

**EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**  
**NOTES TO FINANCIAL STATEMENTS**

---

**Note 9 – Income Tax Status (continued)**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 10 – Risks and Uncertainties**

The Plan investments consist primarily of the Company's common stock, as well as other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The investment in the common stock exposes the additional risk of valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and certain investment securities, it is at least reasonably possible that changes in the values of the common stock and other investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
