Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KPMG LLP**

(2) EIN: **13-5565207**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		50000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒

Independent Auditors' Report

To the Plan Participants and Plan Administrator
General Dynamics Retirement Plan (Commercial):

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of General Dynamics Retirement Plan (Commercial) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information

to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PLAN (COMMERCIAL)**

Notes to Financial Statements

December 31, 2024 and 2023

(1) Plan Description

The following description of the General Dynamics Retirement Plan (Commercial) (the Plan) provides only general information. Participants should refer to the Plan Documents for a more complete description of the Plan's provisions.

(a) General

The Plan is a noncontributory defined benefit plan covering certain employees of General Dynamics Corporation (the Company, the Plan Sponsor or the Plan Administrator) who are employed at those locations not engaged in government contracting activities. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan participates in the General Dynamics Corporation Group Retirement Trust (the Master Trust) along with certain other plans also sponsored by the Company.

(b) Pension Benefits

The Plan provides varying types of benefits under multiple benefit structures as defined in the sub-plans of the Plan Documents.

The Plan is closed to all new employees hired on or after January 30, 2012. Employees who were in the Plan are grandfathered and will continue to follow the Plan provisions prior to the closure. Effective December 31, 2021, benefits ceased to accrue.

(c) Transfer of AxleTech Business Unit

Effective December 31, 2023, the AxleTech International business unit (AxleTech) participating in the Plan was transferred to the General Dynamics Retirement Plan (Government) (the Government Plan). All participants associated with AxleTech became eligible to participate in the Government Plan as of January 1, 2024. As a result of the transfer, the required funding and the amount transferred to the Government Plan from the Plan as of December 31, 2023, was \$28,255,565.

(d) Transfer of Freeman Coal Salaried

Effective December 31, 2024, the population participating in the Plan under the Freeman Coal Salaried benefit structure was transferred to the Government Plan. All participants associated with the Freeman Coal Salaried population under the Plan became eligible to participate in the Government Plan as of January 1, 2025. As a result of the transfer, the required funding and the amount transferred from the Plan to the Government Plan as of December 31, 2024, was \$24,794,069.

In connection with this transfer, effective December 31, 2024, the obligation related to the transferred participants was also transferred from the Plan to the Government Plan. The Plan's independent consulting actuary's estimate of the related obligation as calculated under ASC 960 was \$27,355,819.

**GENERAL DYNAMICS RETIREMENT
PLAN (COMMERCIAL)**

Notes to Financial Statements

December 31, 2024 and 2023

(e) *Transfer Due to Merger*

Effective December 31, 2024, the Eagle Alliance Employee Pension Plan (the Eagle Alliance Plan) was merged into the Plan and all of the net assets and obligations of the Eagle Alliance Plan in the amounts of \$40,291,558 and \$43,843,554, respectively, were transferred to the Plan.

(f) *Group Annuity Contract*

During 2024, the Plan purchased group annuity contracts to fund and assume the benefits for certain small dollar retirees and beneficiaries receiving a monthly benefit under the Plan as of June 1, 2024. A corresponding amount of \$3,114,678 in Plan assets were transferred to the annuity providers to purchase the group annuity contracts. The Plan's independent consulting actuary's estimate of the related obligation as calculated under ASC 960 was \$3,268,645.

(g) *Risks and Uncertainties*

The Plan invests in the Master Trust which invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks, as well as the risks associated with global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimations and assumptions in the near term would be material to the financial statements.

(2) *Summary of Accounting Policies*

(a) *Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) *Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

(c) *Investment Valuation and Income Recognition*

The Plan's investment is reported at fair value. Fair value is the price that would be received by the Plan to sell an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction

between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The Plan's sole investment is its interest in the Master Trust.

Purchases and sales of investments are recorded on the trade date. Investment income consists of dividend income, interest income and net appreciation in the fair value of investments. Dividends are recognized on the ex-dividend date. Interest income is recorded on an accrual basis. Net appreciation includes the gains or losses on investments bought and sold as well as held during the year.

(d) *Payment of Benefits*

Benefits are recorded when paid.

(e) *Administrative Expenses*

The Company administers the Plan, and administrative costs are paid by the Company or the Plan. Premiums paid to the Pension Benefit Guaranty Corporation (the PBGC), a U.S. government agency, Trustee fees and administrative costs paid by the Plan are reflected in the financial statements as administrative expenses of the Plan. There were certain other administrative costs paid by the Company for the year ended December 31, 2024. These costs were primarily related to professional service fees.

(3) Actuarial Assumptions for Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's independent consulting actuary and is the amount resulting from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the benefit structure for which the retiree or active employee is eligible for in accordance with the Plan Documents. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The principal assumptions used in the determination of the present value of accumulated plan benefits as of December 31, 2024 and 2023, were as follows:

- Expected long-term rate of return on plan assets – 4.50% and 6.21%, compounded annually for the Commercial Trust and Eagle Alliance Trust, respectively, as of 2024 and 4.50%, compounded annually, as of 2023, respectively
- Mortality basis – RP-2014 total employee and healthy annuitant mortality tables with generational projection from the base year 2014 using Aon U.S. Endemic Mortality Improvement Scale (2024) for December 31, 2024 and RP-2014 total employee and healthy annuitant mortality tables with

GENERAL DYNAMICS RETIREMENT PLAN (COMMERCIAL)

December 31, 2024 and 2023

generational projection from the base year 2014 using Aon U.S. Endemic Mortality Improvement Scale (2023) for December 31, 2023

- Retirements – rates from age 55 through age 70. A rate of 2.5% was used for participants eligible to retire prior to age 55
- Withdrawals – graduated rates based on age

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(4) Funding Policy

The funding policy of the Plan is to fund the defined benefit retirement plan in a manner that optimizes the tax deductibility and contract recovery of contributions, considered within the Company's capital deployment framework. The Company may make discretionary contributions in addition to the required contributions to the Plan to provide not only for benefits attributed to service to date, but also for benefits to be earned in the future. Such contribution amounts must at least meet or exceed the minimum funding requirements under ERISA as determined by the Plan's actuary. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2024.

(5) Trustee Certified Information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investment in the Master Trust at fair value as of December 31, 2024 and 2023 and the participation in net income of the Master Trust for the year ended December 31, 2024 that are disclosed in the accompanying financial statements and ERISA-required supplemental schedule and related Notes 5 and 6 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by The Northern Trust Company (the Trustee).

The assets of the Plan are combined with the assets of other retirement plans of the Company into the Master Trust for investment purposes. Each participating retirement plan has a divided interest in the Master Trust. BlackRock Financial Management, Inc. serves as the investment advisor of the Master Trust. The assets of the Master Trust are managed by independent investment management firms. The Trustee holds the assets of the Master Trust. The value shown in the accompanying financial statements represents the Plan's interest in the reported assets of the Master Trust. Investment income is allocated daily to each plan based on its interest in the market value of the underlying investments in the Master Trust.

(6) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the assets or liabilities;
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Valued at the closing price reported on the active market in which the individual securities are traded (Level 1).

Interest bearing cash: The fair value of interest bearing cash balances and overnight deposit accounts have been determined based upon the deposit account balance, with no discounts for credit quality or liquidity restrictions or at the net asset value as provided by the fund managers (Level 2).

Units of collective trusts: The fair values of these private investment securities are determined using the net asset value as provided by the fund managers (Level 2). Investments are redeemable daily at net asset value, and there are no significant restrictions on redemptions.

Hedge funds, real estate investment trust and limited partnership: The fair values of these private investment securities are determined using the net asset value as provided by the fund managers, which is a practical expedient for fair value.

GENERAL DYNAMICS RETIREMENT PLAN (COMMERCIAL)

Notes to Financial Statements

December 31, 2024 and 2023

- (a) As the sole investor in the BlackRock Multi-Strategy Fund of Funds, Plan management requested to liquidate its investment in the fund during 2019. Due to redemption restrictions of the underlying investments of the fund, limitations were put into effect causing the fund to be liquidated over time providing for payments of such request as cash became available. Final liquidation of the fund is expected to occur during 2025.
- (b) During 2022, Plan management requested to liquidate its investments in the remaining hedge funds, the real estate limited partnership, and the real estate investment trust. With the exception of one hedge fund that was liquidated during 2024, due to redemption restrictions of the underlying investments of the funds, limitations were put into effect causing the funds to be liquidated over time providing for payments of such requests as cash becomes available. Final liquidation of the remaining hedge funds is expected to occur during 2025. Final liquidation of the real estate limited partnership and the real estate investment trust is expected to occur in 2028.

(7) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated October 20, 2017, that the Plan is qualified, and the Master Trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code (the IRC). Although the Plan has been amended subsequent to the date of the latest determination from the IRS, the Plan Sponsor and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits in progress for any tax periods. Under the applicable IRS statute of limitations, the Plan is no longer open to income tax examinations for years prior to 2021.

(8) Plan Termination

The Plan was established by the Company with the intention that it shall be operated indefinitely and that contributions to the Plan shall continue for an indefinite period. Although it has not expressed any intention to do so, the Company reserves the right at any time to terminate the Plan. In the event of termination, participants become fully vested and the Master Trust investments will be used to pay benefits to those who are eligible according to an orderly procedure as prescribed by ERISA, its related regulations and the Plan Documents, generally to provide the following benefits in the order indicated:

- Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All non-vested benefits.

The PBGC insures benefits under the Plan if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivors' benefits. However,

GENERAL DYNAMICS RETIREMENT PLAN (COMMERCIAL)

Notes to Financial Statements

December 31, 2024 and 2023

the PBGC does not guarantee all types of benefits under covered plans. The amount of benefit protection is subject to certain limitations. The PBGC guarantees vested benefits at the level in effect on the date of plan termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

(9) Related Party and Party-in-Interest Transactions

Investments in certain collective funds held in the Master Trust are managed by Northern Trust Investments, Inc., an affiliate of the Trustee, in the amounts of \$2,795,388,711 and \$3,479,494,074, as of December 31, 2024 and 2023, respectively. An investment in a hedge fund in the Master Trust is managed by BlackRock Financial Management, Inc., in the amounts of \$864,450 and \$871,056 as of December 31, 2024 and 2023, respectively. Investments in certain collective funds held in the Master Trust are managed by BlackRock Institutional Trust Company, N.A., an affiliate of BlackRock Financial Management, Inc., in the amounts of \$3,254,485,210 and \$4,012,418,343 as of December 31, 2024 and 2023, respectively. These transactions qualify as related party transactions. There were also fees paid to BlackRock Financial Management, Inc. and The Northern Trust Company from the Master Trust and the Plan that qualify as related party transactions. The Master Trust also holds investment funds issued by certain investment managers which also qualify as exempt party-in-interest investments. Fees paid to other service providers also qualify as exempt party-in-interest transactions.

(10) Master Trust Investments Presentation

The statement of net assets available for benefits presents Investments in Master Trust as a single line item at fair value, while Form 5500 Schedule H reports both assets held within the Master Trust and certain assets reported as held outside of the Master Trust. Although these assets are collectively invested with other Master Trust assets, the Plan holds a direct and divided interest in them, and, as permitted by the Department of Labor, Plan management has elected to present these specific assets separately in the Form 5500 as of December 31, 2024. In the financial statements, these assets remain included in the "Investments in Master Trust at fair value" line item, but they are also listed individually on the supplemental schedule of assets (held at year end) as Plan assets to reflect the Plan's direct and divided ownership interest.

(11) Subsequent Events

Plan management evaluated subsequent events and transactions that occurred after December 31, 2024 through September 26, 2025, which is the date the financial statements were available to be issued.

During February 2025, the Plan Sponsor revised the investment mix under the automatic de-risking asset allocation strategy under the General Dynamics Investment Policy of the Plan to better reflect the projected strategies and future needs of the Plan. As a result, the investment mix for the Commercial Trust portion of the Plan was moved to 10% return-seeking investments and 90% fixed-income investments. Due to the shift in investment mix, the expected long-term rate of return on plan assets used to calculate the present value of accumulated plan benefits was estimated to increase resulting in an estimated decrease in the present value of accumulated benefits by approximately \$100,200,000.

Duration 15.5	5.24%
Duration 20.5	5.22%
Duration 25.5	5.18%
Duration 30.5	5.17%

Retirement

The retirement decrement assumptions for active participants are summarized in Exhibit A. The weighted average retirement age is 63. All terminated vested members are assumed to retire at age 65 or immediately, if over age 65.

No retirement rates are assumed after December 31, 2021 for members at the Material Service Salaried segment of the Discontinued segments. Members eligible to retire on December 31, 2021 are assumed to retire immediately.

For at-risk calculations, participants who are eligible to retire within the next 10 years are assumed to retire immediately upon eligibility. The at-risk assumption for the assumed form of payment is the normal form of payment. This form of payment results in the highest present value.

Mortality

Base Table:

Pri-2012 total employee and nondisabled annuitant tables

Projection:

Mortality rates are generational, projected from the base year 2012 using 2024 Adjusted Scale MP-2021

Withdrawal

The withdrawal decrement assumptions are summarized in Exhibit B.

No withdrawal rates are assumed after December 31, 2021 for members at the Material Service Salaried segment of the Discontinued segments. Members not eligible to retire on December 31, 2021 are assumed to terminate immediately.

2024 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Disability

The disability decrement assumptions are summarized in Exhibit C. Mortality following disability assumed to be in accordance with table provided in IRS Revenue Ruling if qualified as disabled under Title II of Social Security Act, otherwise regular mortality is assumed.

Decrement Timing

Decrements are assumed to apply as of the beginning of the year.

Members on Leave or Layoff

Members on leave or layoff whose leave or layoff is assumed to be temporary are treated as active for valuation purposes.

For members whose leave or layoff is assumed to be permanent, no rates of withdrawal, disability or retirement are assumed. A member on leave due to long term disability is assumed to retire when first eligible. Otherwise, a member on leave is treated as terminated for valuation purposes and assumed to retire at normal retirement age. If a member on layoff is expected to become eligible for retirement prior to the end of their layoff period for severance, they are assumed to retire when first eligible. Otherwise, they are assumed to terminate at the end of their layoff period for severance and subsequently retire at normal retirement age.

Probabilities Related to Spouse Option

For members covered by a benefit structure with a pre-retirement surviving spouse option, it is assumed that 65% of male members and 45% of female members are assumed to be married; husbands are assumed to be two years older than wives.

Benefit and Compensation Limits

Projected benefits are restricted to allow for the section 401(a)(17) limitations and the individual defined benefit plan limitation as specified in section 415 of the Internal Revenue Code. The maximum dollar limits in effect on the date of valuation are assumed to continue without change.

Accumulated Employee Contributions

Accumulated employee contributions are credited with interest at the applicable rate, as specified in section 411 of the Internal Revenue Code. The interest rate in effect on the date of valuation is assumed to continue without change.

Cost of Living Adjustments

For members covered by the Gulfstream Pension benefit structure, benefits in pay status increase at the lesser of CPI-U or 3.0% per year. The CPI-U is assumed to equal 2.2%.

Reemployment

There is no allowance made for potential reinstatement of terminated members upon reemployment.

2024 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Future Layoffs and Plant Shutdowns

There is no explicit assumption for the incidence of future layoffs or plant shutdowns. Accordingly, there is no allowance made for potential increases in liabilities resulting from these events.

Employee Transfers

Certain salaried employees who transfer between segments remain subject to the terms of the salaried benefit structure that the employee was covered by for benefit accruals prior to the transfer. This statement of actuarial assumptions does not include the applicable assumptions pertaining to all such benefit structures. The assumptions for rates of postretirement cash out option and cost of living adjustments pertaining to each such benefit structure are described in the statement of actuarial assumptions contained in the actuarial valuation report associated with such benefit structure.

Valuation of Plan Assets

The value of plan assets is used to calculate contribution requirements under ERISA. The value of plan assets is determined by recognizing asset gains and losses over a period of three years. Asset gains and losses are defined as the difference between the expected return on the market value of assets, using a return assumption not to exceed the third segment rate, and the actual return on the market value of assets. This gain or loss is recognized over a period of three years at 33% per year, beginning in the current year. The value of plan assets must be within 10% of the market value of assets.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2022 Plan Year	7.50%
	The applicable third segment rate limitation is 5.92%.
2023 Plan Year	6.64%
	The applicable third segment rate limitation is 5.74%.
2024 Plan Year	4.50%
	The applicable third segment rate limitation is 5.59%.

Expenses

Assumed expenses included in target normal cost are estimated as 0.18% of the market value of assets plus \$4,010,000 plus PBGC premiums.

Actuarial Cost Method

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method.

Valuation Date

The valuation date is January 1, 2024.

Rationale for Assumptions

For each economic and demographic assumption that has a significant effect on the measurement, and that the actuary has determined does not significantly conflict with what, in the actuary's professional judgement, is reasonable for the purpose of the measurement, the information and analysis used to support this determination are documented in the 2023 GDC Pension OPEB Experience Dashboard, 2014-2020 GDC Experience Study Report dated December 10, 2021, and subsequent communications between Aon and General Dynamics. General Dynamics approved the assumptions in December 2023.

Actuarial Assumptions and Methods

Discussion of Actuarial Assumptions and Methods

For the funding valuation, the allowable interest rates and mortality tables available to measure plan liabilities are prescribed by IRC section 412. Aon provided guidance with respect to the alternative interest rate and mortality table options, and it is our belief that the options prescribed by General Dynamics Corporation are appropriate for funding purposes. It is our belief that all other actuarial assumptions used for the funding valuation represent reasonable expectations of anticipated plan experience. The actuarial cost and amortization methods used are prescribed by IRC section 412. While the method used to value assets is prescribed by General Dynamics Corporation, Aon provided guidance with respect to the use of this method, and it is our belief that the method is appropriate for funding purposes.

Calculation of Normal Costs and Liabilities

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method. The funding target under IRC section 430 is calculated as the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year, based on current service and current pay. The target normal cost is the present value of all benefits expected to accrue or be earned under the plan during the plan year, including any increase in benefits earned in prior plan years attributable to compensation increases in the current plan year, plus certain trust expenses.

Under this method, benefits are estimated at each decrement age using service and earnings as of the valuation date. The present value of these estimated benefits using the ERISA assumptions is the ERISA funding target. The target normal cost is the present value of the benefits earned during the year.

For calculating the actuarial present value of vested benefits, benefits at each decrement age are determined in the same manner but are then multiplied by each participant's vesting percentage as of the valuation date. The present value of these estimated vested benefits is determined without recognition of any benefit for which a participant will become entitled only through the advancement in service or age while actively employed. In addition, certain ancillary benefits have been treated as vested consistent with PBGC premium regulations.

General Dynamics Retirement Plan (Commercial)

2024 Schedule SB, Line 22 – Description of Weighted Average Retirement Age

The weighted average retirement age reported in Line 22 has been computed in the following manner:

Various benefit structures within the General Dynamics Retirement Plan (Commercial) provide for early retirement upon the attainment of specified age and service requirements. A set of assumed retirement rates is associated with each of these benefit structures, and are summarized on the following page of this attachment. The average assumed retirement age is determined for each benefit structure by applying the assumed retirement rate at each age to the percentage of members who have not yet been expected to retire. This produces for each eligible age the percentage of members who are expected to retire at that age. These percentages are then used as weights to determine the average assumed retirement age. The average retirement ages are then weighted in proportion to the total funding target (disregarding prescribed at-risk assumptions) for each benefit structure as compared to the plan as a whole. This produces a weighted average retirement age for the plan as a whole.

Retirement

The retirement decrement assumptions for active participants are summarized in Exhibit A. The weighted average retirement age is 63. All terminated vested members are assumed to retire at age 65 or immediately, if over age 65.

No retirement rates are assumed after December 31, 2021 for members at the Material Service Salaried segment of the Discontinued segments. Members eligible to retire on December 31, 2021 are assumed to retire immediately.

For at-risk calculations, participants who are eligible to retire within the next 10 years are assumed to retire immediately upon eligibility. The at-risk assumption for the assumed form of payment is the normal form of payment. This form of payment results in the highest present value.

Mortality

Base Table:

Pri-2012 total employee and nondisabled annuitant tables

Projection:

Mortality rates are generational, projected from the base year 2012 using 2024 Adjusted Scale MP-2021

Withdrawal

The withdrawal decrement assumptions are summarized in Exhibit B.

No withdrawal rates are assumed after December 31, 2021 for members at the Material Service Salaried segment of the Discontinued segments. Members not eligible to retire on December 31, 2021 are assumed to terminate immediately.

2024 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Disability

The disability decrement assumptions are summarized in Exhibit C. Mortality following disability assumed to be in accordance with table provided in IRS Revenue Ruling if qualified as disabled under Title II of Social Security Act, otherwise regular mortality is assumed.

Decrement Timing

Decrements are assumed to apply as of the beginning of the year.

Members on Leave or Layoff

Members on leave or layoff whose leave or layoff is assumed to be temporary are treated as active for valuation purposes.

For members whose leave or layoff is assumed to be permanent, no rates of withdrawal, disability or retirement are assumed. A member on leave due to long term disability is assumed to retire when first eligible. Otherwise, a member on leave is treated as terminated for valuation purposes and assumed to retire at normal retirement age. If a member on layoff is expected to become eligible for retirement prior to the end of their layoff period for severance, they are assumed to retire when first eligible. Otherwise, they are assumed to terminate at the end of their layoff period for severance and subsequently retire at normal retirement age.

Probabilities Related to Spouse Option

For members covered by a benefit structure with a pre-retirement surviving spouse option, it is assumed that 65% of male members and 45% of female members are assumed to be married; husbands are assumed to be two years older than wives.

Benefit and Compensation Limits

Projected benefits are restricted to allow for the section 401(a)(17) limitations and the individual defined benefit plan limitation as specified in section 415 of the Internal Revenue Code. The maximum dollar limits in effect on the date of valuation are assumed to continue without change.

Accumulated Employee Contributions

Accumulated employee contributions are credited with interest at the applicable rate, as specified in section 411 of the Internal Revenue Code. The interest rate in effect on the date of valuation is assumed to continue without change.

Cost of Living Adjustments

For members covered by the Gulfstream Pension benefit structure, benefits in pay status increase at the lesser of CPI-U or 3.0% per year. The CPI-U is assumed to equal 2.2%.

Reemployment

There is no allowance made for potential reinstatement of terminated members upon reemployment.

2024 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Future Layoffs and Plant Shutdowns

There is no explicit assumption for the incidence of future layoffs or plant shutdowns. Accordingly, there is no allowance made for potential increases in liabilities resulting from these events.

Employee Transfers

Certain salaried employees who transfer between segments remain subject to the terms of the salaried benefit structure that the employee was covered by for benefit accruals prior to the transfer. This statement of actuarial assumptions does not include the applicable assumptions pertaining to all such benefit structures. The assumptions for rates of postretirement cash out option and cost of living adjustments pertaining to each such benefit structure are described in the statement of actuarial assumptions contained in the actuarial valuation report associated with such benefit structure.

Valuation of Plan Assets

The value of plan assets is used to calculate contribution requirements under ERISA. The value of plan assets is determined by recognizing asset gains and losses over a period of three years. Asset gains and losses are defined as the difference between the expected return on the market value of assets, using a return assumption not to exceed the third segment rate, and the actual return on the market value of assets. This gain or loss is recognized over a period of three years at 33% per year, beginning in the current year. The value of plan assets must be within 10% of the market value of assets.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2022 Plan Year	7.50%
	The applicable third segment rate limitation is 5.92%.
2023 Plan Year	6.64%
	The applicable third segment rate limitation is 5.74%.
2024 Plan Year	4.50%
	The applicable third segment rate limitation is 5.59%.

Expenses

Assumed expenses included in target normal cost are estimated as 0.18% of the market value of assets plus \$4,010,000 plus PBGC premiums.

Actuarial Cost Method

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method.

Valuation Date

The valuation date is January 1, 2024.

Rationale for Assumptions

For each economic and demographic assumption that has a significant effect on the measurement, and that the actuary has determined does not significantly conflict with what, in the actuary's professional judgement, is reasonable for the purpose of the measurement, the information and analysis used to support this determination are documented in the 2023 GDC Pension OPEB Experience Dashboard, 2014-2020 GDC Experience Study Report dated December 10, 2021, and subsequent communications between Aon and General Dynamics. General Dynamics approved the assumptions in December 2023.

Actuarial Assumptions and Methods

Discussion of Actuarial Assumptions and Methods

For the funding valuation, the allowable interest rates and mortality tables available to measure plan liabilities are prescribed by IRC section 412. Aon provided guidance with respect to the alternative interest rate and mortality table options, and it is our belief that the options prescribed by General Dynamics Corporation are appropriate for funding purposes. It is our belief that all other actuarial assumptions used for the funding valuation represent reasonable expectations of anticipated plan experience. The actuarial cost and amortization methods used are prescribed by IRC section 412. While the method used to value assets is prescribed by General Dynamics Corporation, Aon provided guidance with respect to the use of this method, and it is our belief that the method is appropriate for funding purposes.

Calculation of Normal Costs and Liabilities

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method. The funding target under IRC section 430 is calculated as the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year, based on current service and current pay. The target normal cost is the present value of all benefits expected to accrue or be earned under the plan during the plan year, including any increase in benefits earned in prior plan years attributable to compensation increases in the current plan year, plus certain trust expenses.

Under this method, benefits are estimated at each decrement age using service and earnings as of the valuation date. The present value of these estimated benefits using the ERISA assumptions is the ERISA funding target. The target normal cost is the present value of the benefits earned during the year.

For calculating the actuarial present value of vested benefits, benefits at each decrement age are determined in the same manner but are then multiplied by each participant's vesting percentage as of the valuation date. The present value of these estimated vested benefits is determined without recognition of any benefit for which a participant will become entitled only through the advancement in service or age while actively employed. In addition, certain ancillary benefits have been treated as vested consistent with PBGC premium regulations.

Eligibility

Certain salaried employees at segments of General Dynamics Corporation covered by this benefit structure who have completed one year of service. Salaried employees covered by a collective bargaining agreement may only be covered if specifically provided in such agreement.

Closure to New Hires Date

January 1, 2007.

Normal Retirement Date

Age 65.

Early Retirement Date

Between ages 55 and 65. Benefits payable under final average pay formula also require completion of 10 years of continuous service.

Normal Retirement Pension

Final Average Pay Formula

A monthly pension as shown below:

- i. For Corporate officers: 1-1/3% of final average pay per year of plan membership service. Plan membership service is limited to 40 years for service earned prior to January 1, 2005. Plan membership service is frozen as of December 31, 2018, or the date they are named as an officer, if later, but not later than March 31, 2019.
- ii. For all other members: 1-1/3% of final average pay per year of plan membership service. Plan membership service is limited to 40 years for service earned prior to January 1, 2005. Plan membership service is frozen as of March 31, 2019.

Final average pay equals the average of the highest consecutive 60 monthly base rates of pay (including 100% of incentive compensation) received during last 120 months of plan membership. For Corporate officers, final average pay is frozen as of December 31, 2018, or the date they are named as an officer, if later, but not later than December 31, 2021. For all other members, final average pay is frozen as of December 31, 2021.

Career Average Pay Formula

A monthly pension for certain individuals who were members or salaried employees as of June 30, 1990, equal to the benefit accrued to date plus:

1.75% of earnings up to \$1,950, plus 2% of the excess per year of service up to a maximum of 35 years; plus 2% of earnings per year of service in excess of 35 years.

Earnings include 50% of incentive compensation.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Commercial Salaried Benefit Structure

For Corporate officers, no additional benefits accrue under this benefit structure after December 31, 2018, or the date they are named as an officer, if later, but not later than March 31, 2019. For all other members, no additional benefits accrue under this benefit structure after March 31, 2019.

Minimum Benefit Formula

A monthly pension of \$26.00 multiplied by the period, in years and months, during which benefits were accrued under this benefit structure including, if the member joined within two months of his first becoming eligible, that additional period during which he would have accrued benefits but for the age and/or service requirements for eligibility to enter this benefit structure, plus 150% of the benefit attributable to employee contributions to any prior plan.

For Corporate officers, no additional benefits accrue under this benefit structure after December 31, 2018, or the date they are named as an officer, if later, but not later than March 31, 2019. For all other members, no additional benefits accrue under this benefit structure after March 31, 2019.

Early Retirement Pension

Final Average Pay Formula

The benefit accrued to date of early retirement under the final average pay formula (or under the minimum benefit formula, if greater), either (i) with no reduction, if benefits commence at or after age 62 or (ii) reduced by 2-1/2% for each year between age 62 and the date of commencement of benefits, if benefits commence prior to age 62.

Career Average Pay Formula

The benefit accrued to date of early retirement under the career average pay formula (or under the minimum benefit formula, if greater), with no reduction if the sum of a member's age and service (his "points") equals or exceeds the required number of points at each age as specified below:

Attained Age Last Birthday	Required Points	Attained Age Last Birthday	Required Points
55	85	60	80
56	84	61	76
57	83	62	72
58	82	63	68
59	81	64	69

If these point requirements are not met, the accrued benefit will be payable either (i) commencing at normal retirement date or (ii) commencing immediately and reduced by the lesser of (1) 2-1/2% times the number of points by which age plus service are less than those required, or (2) 2-1/2% for each year between age 65 and the date of commencement of benefits.

In addition, if the early retirement benefit is payable under the career average pay formula and commences prior to age 62, a temporary monthly supplemental benefit is payable between early retirement date and age 62, or earlier death, equal to \$1.50 per year of service as a member between October 1, 1956, and the date of retirement. No additional benefit accrues after June 30, 1990. This temporary benefit is reduced by the same factor as for the accrued benefit above, if applicable.

Benefit Provisions of Commercial Salaried Benefit Structure

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are the 10 year certain and life annuity; 50% and 100% contingent annuities; and level income at 62 and 65 options.

Employee Contributions

No employee contributions are required on or after January 1, 1982.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65 on an actuarial equivalent basis if early retirement requirements are satisfied; in no event is an amount less than the member's own contributions with regular interest returned.

Death Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 100% contingent annuitant option.

Death After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.

Pension Enhancement

Certain members employed prior to January 1, 1999, and retiring from active service will be entitled to a pension enhancement benefit of \$94 per month, prorated for less than 10 years of continuous service at retirement, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

If a member was employed prior to January 1, 1999, and terminates with a deferred vested benefit, the pension enhancement benefit will be reduced by the ratio of the member's years of service at termination to the years of service he would have had at age 65.

Employee Transfers

Certain salaried employees who transfer between segments before January 1, 2005 remain subject to the terms of the salaried benefit structure that the employee was covered by prior to the transfer for benefit accruals prior to January 1, 2005. This summary of benefit provisions does not describe all such benefit structures. The benefit provisions pertaining to each such benefit structure are described in the summary of benefit provisions contained in the actuarial valuation report associated with such benefit structure.

All members who are receiving benefits as of December 1 are automatically entitled to a cost of living adjustment each subsequent April 1, related to the change in the Consumer Price Index for Urban Consumers for the calendar year immediately preceding such April 1, up to a maximum of 3%.

This increase applies to the base portion of the December 31, 2003 accrued benefit until age 62 and the total December 31, 2003 accrued benefit after age 62. Increases in the excess portion of the benefit are limited to the cumulative increase in Social Security benefits that have occurred since the later of the member's 62nd birthday or retirement date.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Gulfstream Technologies Salaried Benefit Structure

Early Retirement Pension

The benefit accrued to date of early retirement payable as the greater of (i) and (ii) as follows:

- i. The final average pay formula benefit multiplied by the appropriate factor from the following table:

Age When Benefit Commences	Early Retirement Factor	Age When Benefit Commences	Early Retirement Factor
50	51%	55	70%
51	54	56	75
52	58	57	80
53	61	58	86
54	65	59	93
		60 & Over	100

- ii. The split benefit formula benefit for service accrued after December 31, 2003 multiplied by the appropriate factor from the table shown in (i) above plus the split benefit formula benefit for service accrued prior to January 1, 2004 reduced by 6% for each year between age 60 and the date of commencement of benefits.

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are 10 and 15 year certain and life annuities; 50% and 100% contingent annuities; and level income at 62 and 65 options.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65, reduced for early commencement, and is payable as the greater of (i) and (ii) as follows:

- i. For a final average pay formula benefit, if the member had 20 or more years of continuous service, the reduction for early commencement is the same as for early retirement pension, otherwise the benefit equals the final average pay formula benefit multiplied by the appropriate factor from the following table:

Age When Benefit Commences	Early Retirement Factor	Age When Benefit Commences	Early Retirement Factor
55	51%	60	70%
56	54	61	75
57	58	62	80
58	61	63	86
59	65	64	93
		65 & Over	100

- ii. For the split benefit formula benefit, for service accrued after December 31, 2003 multiplied by the appropriate factor from the table shown in (i) above if the member had less than 20 years of continuous service or reduced the same as for early retirement pension if the member had 20 or more years of continuous service, plus the split benefit formula benefit for service accrued prior to January 1, 2004 multiplied by the appropriate factor from the following table:

Benefit Provisions of Resources Salaried Benefit Structure

Benefit Structure Document

Retirement Plan for the Resources Group Salaried Employees.

Effective Date

January 1, 1968.

Eligibility

Salaried employees of Freeman Energy Corporation and Freeman United Coal Mining Company who have completed one year of service. Salaried employees covered by a collective bargaining agreement may only be covered if specifically provided in such agreement.

Closure to New Hires Date

January 1, 2007.

Normal Retirement Date

Age 65.

Early Retirement Date

Between ages 55 and 65. Benefits payable under final average pay formula also require completion of 10 years of continuous service.

Normal Retirement Pension

Final Average Pay Formula

A monthly pension of 1-1/3% of final average pay per year of plan membership service. Plan membership service is limited to 40 years for service earned prior to January 1, 2005.

Final average pay equals the average of the highest consecutive 60 monthly base rates of pay (including 100% of incentive compensation) received during last 120 months of plan membership.

Career Average Pay Formula

A monthly pension for certain individuals who were members or salaried employees as of June 30, 1990, equal to the benefit accrued to date plus:

1.75% of earnings up to \$1,950, plus 2% of the excess per year of service up to a maximum of 35 years; plus 2% of earnings per year of service in excess of 35 years.

Earnings include 50% of incentive compensation.

Minimum Benefit Formula

A monthly pension of \$26.00 multiplied by the period, in years and months, during which benefits were accrued under this benefit structure including, if the member joined within two months of his first becoming eligible, that additional period during which he would have accrued benefits but for the age and/or service requirements for eligibility to enter this benefit structure.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Resources Salaried Benefit Structure

Early Retirement Pension

Final Average Pay Formula

The benefit accrued to date of early retirement under the final average pay formula (or under the minimum benefit formula, if greater), either (i) with no reduction, if benefits commence at or after age 62 or (ii) reduced by 2-1/2% for each year between age 62 and the date of commencement of benefits, if benefits commence prior to age 62.

Career Average Pay Formula

The benefit accrued to date of early retirement under the career average pay formula (or under the minimum benefit formula, if greater), with no reduction if the sum of a member's age and service (his "points") equals or exceeds the required number of points at each age as specified below:

Attained Age Last Birthday	Required Points	Attained Age Last Birthday	Required Points
55	85	60	80
56	84	61	76
57	83	62	72
58	82	63	68
59	81	64	69

If these point requirements are not met, the accrued benefit will be payable either (i) commencing at normal retirement date or (ii) commencing immediately and reduced by the lesser of (1) 2-1/2% times the number of points by which age plus service are less than those required, or (2) 2-1/2% for each year between age 65 and the date of commencement of benefits.

In addition, if the early retirement benefit is payable under the career average pay formula and commences prior to age 62, a temporary monthly supplemental benefit is payable between early retirement date and age 62, or earlier death, equal to \$1.50 per year of service as a member between January 1, 1968, and the date of retirement. No additional benefit accrues after June 30, 1990. This temporary benefit is reduced by the same factor as for the accrued benefit above, if applicable.

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are the 10 year certain and life annuity; 50% and 100% contingent annuities; and level income at 62 and 65 options.

Employee Contributions

No employee contributions are required on or after January 1, 1982.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65 on an actuarial equivalent basis, if early retirement requirements are satisfied; in no event is an amount less than the member's own contributions with regular interest returned.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Resources Salaried Benefit Structure

Death Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 100% contingent annuitant option.

Death After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.

Pension Enhancement

Certain members employed prior to January 1, 1999, and retiring from active service will be entitled to a pension enhancement benefit of \$94 per month, prorated for less than 10 years of continuous service at retirement, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

If a member was employed prior to January 1, 1999, and terminates with a deferred vested benefit, the pension enhancement benefit will be reduced by the ratio of the member's years of service at termination to the years of service he would have had at age 65.

Employee Transfers

Certain salaried employees who transfer between segments before January 1, 2005 remain subject to the terms of the salaried benefit structure that the employee was covered by prior to the transfer for benefit accruals prior to January 1, 2005. A brief summary of the provisions of the benefit structures follows.

Effective Date

Varies by benefit structure.

Eligibility

All non-IMCO former employees covered by the OTS Garland Salaried benefit structure and all other employees covered by the applicable benefit structure at the date operations were discontinued or the business was sold.

Service

Credited service is frozen at the date operations were discontinued or the business was sold. Service with a successor employer may be considered as continuous service for purposes of determining eligibility for benefits under the applicable benefit structure.

Normal Retirement Date

Age 65. The later of age 65 or the fifth anniversary of initial plan membership for members covered by the Marine Handling benefit structure.

Early Retirement Date

Between ages 55 and 65. Benefits payable under final average pay formula of the Commercial Salaried benefit structure or benefits payable under the Local 134, Marine Handling, Ward Stone, Quincy Hourly or Quincy Technical Design benefit structures also require completion of 10 years of continuous service (five years for benefits payable under the Resources Hourly or Lincoln Quarry benefit structures).

Disability Retirement Date

Ten years of continuous service. Also must be between age 45 and 65 for members covered by Indian Point at Resources Hourly, Lincoln Quarry, Marine Handling and Ward Stone benefit structures. Not applicable for members covered by the Commercial Salaried, OTS Garland Salaried or ATC Hourly benefit structures.

Normal Retirement Pension

A monthly pension equal to the accrued benefit based on salary, service and benefit levels in effect at the date operations were discontinued or the business was sold.

Early Retirement Pension

A member retiring early will be entitled to the full accrued benefit without reduction if certain age and service conditions are met; otherwise, a reduced benefit will be payable. The early retirement reduction varies by benefit structure.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Discontinued Benefit Structures

Disability Retirement Pension

Generally, accrued normal retirement benefit.

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are 5 and 10 year certain and life annuities; 50%, 66-2/3%, 75% and 100% contingent annuities with and without pop-up feature; 50% joint and survivor annuity; and level income at 62 and 65 options. Available optional forms vary by benefit structure.

Employee Contributions

No employee contributions are required on or after January 1, 1982.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65 on an actuarial equivalent basis (same basis as for early retirement pension for members covered by the OTS Garland Salaried benefit structure) if early retirement requirements are satisfied; in no event is an amount less than the member's own contributions with regular interest returned.

Death Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 50% (100% for members covered by salaried benefit structures) contingent annuitant option.

Death After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.

Pension Enhancement

Certain members covered by the Resources Salaried and Commercial Salaried benefit structures will be entitled to a pension enhancement benefit of \$94 per month, prorated for less than 10 years of continuous service, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

If a member terminates with a deferred vested benefit, the pension enhancement benefit will be reduced by the ratio of the member's years of service at termination to the years of service he would have had at age 65.

Employee Transfers

Certain salaried employees who transfer between segments before January 1, 2005 remain subject to the terms of the salaried benefit structure that the employee was covered by prior to the transfer for benefit accruals prior to January 1, 2005. This summary of benefit provisions does not describe all such benefit structures. The benefit provisions pertaining to each such benefit structure are described in the summary of benefit provisions contained in the actuarial valuation report associated with such benefit structure.

Coordination of Benefits

Prior to December 31, 2016, benefits accrued after June 30, 1994 at Convair were provided by this plan. On and after December 31, 2016, all benefits accrued at Convair will be provided by the General Dynamics Retirement Plan (Government).

Special Provisions

Pursuant to the sale of Material Service Corporation effective June 16, 2006, the following special provisions apply to eligible members at MSC Operations:

- Each MSC member will accrue continuous service during employment with MSC Operations, but not after December 31, 2021.
- The calculation of final average pay for each MSC member will recognize future salary changes during employment with MSC Operations, but not after December 31, 2021.
- If an MSC member is laid off prior to January 1, 2008, the member is awarded an additional three years of plan membership and final average pay will be determined assuming the salary rate at layoff continues during the additional three years of plan membership.

General Dynamics Retirement Plan (Commercial)

2024 Schedule SB, Line 22 – Description of Weighted Average Retirement Age

The weighted average retirement age reported in Line 22 has been computed in the following manner:

Various benefit structures within the General Dynamics Retirement Plan (Commercial) provide for early retirement upon the attainment of specified age and service requirements. A set of assumed retirement rates is associated with each of these benefit structures, and are summarized on the following page of this attachment. The average assumed retirement age is determined for each benefit structure by applying the assumed retirement rate at each age to the percentage of members who have not yet been expected to retire. This produces for each eligible age the percentage of members who are expected to retire at that age. These percentages are then used as weights to determine the average assumed retirement age. The average retirement ages are then weighted in proportion to the total funding target (disregarding prescribed at-risk assumptions) for each benefit structure as compared to the plan as a whole. This produces a weighted average retirement age for the plan as a whole.

Benefit Structure Document

General Dynamics Salaried Retirement Plan—Corporate Legacy Provisions.

Effective Date

October 1, 1956.

Eligibility

Certain salaried employees at segments of General Dynamics Corporation covered by this benefit structure who have completed one year of service. Salaried employees covered by a collective bargaining agreement may only be covered if specifically provided in such agreement.

Closure to New Hires Date

January 1, 2007.

Normal Retirement Date

Age 65.

Early Retirement Date

Between ages 55 and 65. Benefits payable under final average pay formula also require completion of 10 years of continuous service.

Normal Retirement Pension

Final Average Pay Formula

A monthly pension as shown below:

- i. For Corporate officers: 1-1/3% of final average pay per year of plan membership service. Plan membership service is limited to 40 years for service earned prior to January 1, 2005. Plan membership service is frozen as of December 31, 2018, or the date they are named as an officer, if later, but not later than March 31, 2019.
- ii. For all other members: 1-1/3% of final average pay per year of plan membership service. Plan membership service is limited to 40 years for service earned prior to January 1, 2005. Plan membership service is frozen as of March 31, 2019.

Final average pay equals the average of the highest consecutive 60 monthly base rates of pay (including 100% of incentive compensation) received during last 120 months of plan membership. For Corporate officers, final average pay is frozen as of December 31, 2018, or the date they are named as an officer, if later, but not later than December 31, 2021. For all other members, final average pay is frozen as of December 31, 2021.

Career Average Pay Formula

A monthly pension for certain individuals who were members or salaried employees as of June 30, 1990, equal to the benefit accrued to date plus:

1.75% of earnings up to \$1,950, plus 2% of the excess per year of service up to a maximum of 35 years; plus 2% of earnings per year of service in excess of 35 years.

Earnings include 50% of incentive compensation.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Commercial Salaried Benefit Structure

For Corporate officers, no additional benefits accrue under this benefit structure after December 31, 2018, or the date they are named as an officer, if later, but not later than March 31, 2019. For all other members, no additional benefits accrue under this benefit structure after March 31, 2019.

Minimum Benefit Formula

A monthly pension of \$26.00 multiplied by the period, in years and months, during which benefits were accrued under this benefit structure including, if the member joined within two months of his first becoming eligible, that additional period during which he would have accrued benefits but for the age and/or service requirements for eligibility to enter this benefit structure, plus 150% of the benefit attributable to employee contributions to any prior plan.

For Corporate officers, no additional benefits accrue under this benefit structure after December 31, 2018, or the date they are named as an officer, if later, but not later than March 31, 2019. For all other members, no additional benefits accrue under this benefit structure after March 31, 2019.

Early Retirement Pension

Final Average Pay Formula

The benefit accrued to date of early retirement under the final average pay formula (or under the minimum benefit formula, if greater), either (i) with no reduction, if benefits commence at or after age 62 or (ii) reduced by 2-1/2% for each year between age 62 and the date of commencement of benefits, if benefits commence prior to age 62.

Career Average Pay Formula

The benefit accrued to date of early retirement under the career average pay formula (or under the minimum benefit formula, if greater), with no reduction if the sum of a member's age and service (his "points") equals or exceeds the required number of points at each age as specified below:

Attained Age Last Birthday	Required Points	Attained Age Last Birthday	Required Points
55	85	60	80
56	84	61	76
57	83	62	72
58	82	63	68
59	81	64	69

If these point requirements are not met, the accrued benefit will be payable either (i) commencing at normal retirement date or (ii) commencing immediately and reduced by the lesser of (1) 2-1/2% times the number of points by which age plus service are less than those required, or (2) 2-1/2% for each year between age 65 and the date of commencement of benefits.

In addition, if the early retirement benefit is payable under the career average pay formula and commences prior to age 62, a temporary monthly supplemental benefit is payable between early retirement date and age 62, or earlier death, equal to \$1.50 per year of service as a member between October 1, 1956, and the date of retirement. No additional benefit accrues after June 30, 1990. This temporary benefit is reduced by the same factor as for the accrued benefit above, if applicable.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Commercial Salaried Benefit Structure

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are the 10 year certain and life annuity; 50% and 100% contingent annuities; and level income at 62 and 65 options.

Employee Contributions

No employee contributions are required on or after January 1, 1982.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65 on an actuarial equivalent basis if early retirement requirements are satisfied; in no event is an amount less than the member's own contributions with regular interest returned.

Death Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 100% contingent annuitant option.

Death After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.

Pension Enhancement

Certain members employed prior to January 1, 1999, and retiring from active service will be entitled to a pension enhancement benefit of \$94 per month, prorated for less than 10 years of continuous service at retirement, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

If a member was employed prior to January 1, 1999, and terminates with a deferred vested benefit, the pension enhancement benefit will be reduced by the ratio of the member's years of service at termination to the years of service he would have had at age 65.

Employee Transfers

Certain salaried employees who transfer between segments before January 1, 2005 remain subject to the terms of the salaried benefit structure that the employee was covered by prior to the transfer for benefit accruals prior to January 1, 2005. This summary of benefit provisions does not describe all such benefit structures. The benefit provisions pertaining to each such benefit structure are described in the summary of benefit provisions contained in the actuarial valuation report associated with such benefit structure.

Benefit Provisions of Resources Salaried Benefit Structure

Benefit Structure Document

Retirement Plan for the Resources Group Salaried Employees.

Effective Date

January 1, 1968.

Eligibility

Salaried employees of Freeman Energy Corporation and Freeman United Coal Mining Company who have completed one year of service. Salaried employees covered by a collective bargaining agreement may only be covered if specifically provided in such agreement.

Closure to New Hires Date

January 1, 2007.

Normal Retirement Date

Age 65.

Early Retirement Date

Between ages 55 and 65. Benefits payable under final average pay formula also require completion of 10 years of continuous service.

Normal Retirement Pension

Final Average Pay Formula

A monthly pension of 1-1/3% of final average pay per year of plan membership service. Plan membership service is limited to 40 years for service earned prior to January 1, 2005.

Final average pay equals the average of the highest consecutive 60 monthly base rates of pay (including 100% of incentive compensation) received during last 120 months of plan membership.

Career Average Pay Formula

A monthly pension for certain individuals who were members or salaried employees as of June 30, 1990, equal to the benefit accrued to date plus:

1.75% of earnings up to \$1,950, plus 2% of the excess per year of service up to a maximum of 35 years; plus 2% of earnings per year of service in excess of 35 years.

Earnings include 50% of incentive compensation.

Minimum Benefit Formula

A monthly pension of \$26.00 multiplied by the period, in years and months, during which benefits were accrued under this benefit structure including, if the member joined within two months of his first becoming eligible, that additional period during which he would have accrued benefits but for the age and/or service requirements for eligibility to enter this benefit structure.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Resources Salaried Benefit Structure

Early Retirement Pension

Final Average Pay Formula

The benefit accrued to date of early retirement under the final average pay formula (or under the minimum benefit formula, if greater), either (i) with no reduction, if benefits commence at or after age 62 or (ii) reduced by 2-1/2% for each year between age 62 and the date of commencement of benefits, if benefits commence prior to age 62.

Career Average Pay Formula

The benefit accrued to date of early retirement under the career average pay formula (or under the minimum benefit formula, if greater), with no reduction if the sum of a member's age and service (his "points") equals or exceeds the required number of points at each age as specified below:

Attained Age Last Birthday	Required Points	Attained Age Last Birthday	Required Points
55	85	60	80
56	84	61	76
57	83	62	72
58	82	63	68
59	81	64	69

If these point requirements are not met, the accrued benefit will be payable either (i) commencing at normal retirement date or (ii) commencing immediately and reduced by the lesser of (1) 2-1/2% times the number of points by which age plus service are less than those required, or (2) 2-1/2% for each year between age 65 and the date of commencement of benefits.

In addition, if the early retirement benefit is payable under the career average pay formula and commences prior to age 62, a temporary monthly supplemental benefit is payable between early retirement date and age 62, or earlier death, equal to \$1.50 per year of service as a member between January 1, 1968, and the date of retirement. No additional benefit accrues after June 30, 1990. This temporary benefit is reduced by the same factor as for the accrued benefit above, if applicable.

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are the 10 year certain and life annuity; 50% and 100% contingent annuities; and level income at 62 and 65 options.

Employee Contributions

No employee contributions are required on or after January 1, 1982.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65 on an actuarial equivalent basis, if early retirement requirements are satisfied; in no event is an amount less than the member's own contributions with regular interest returned.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Resources Salaried Benefit Structure

Death Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 100% contingent annuitant option.

Death After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.

Pension Enhancement

Certain members employed prior to January 1, 1999, and retiring from active service will be entitled to a pension enhancement benefit of \$94 per month, prorated for less than 10 years of continuous service at retirement, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

If a member was employed prior to January 1, 1999, and terminates with a deferred vested benefit, the pension enhancement benefit will be reduced by the ratio of the member's years of service at termination to the years of service he would have had at age 65.

Employee Transfers

Certain salaried employees who transfer between segments before January 1, 2005 remain subject to the terms of the salaried benefit structure that the employee was covered by prior to the transfer for benefit accruals prior to January 1, 2005. A brief summary of the provisions of the benefit structures follows.

Effective Date

Varies by benefit structure.

Eligibility

All non-IMCO former employees covered by the OTS Garland Salaried benefit structure and all other employees covered by the applicable benefit structure at the date operations were discontinued or the business was sold.

Service

Credited service is frozen at the date operations were discontinued or the business was sold. Service with a successor employer may be considered as continuous service for purposes of determining eligibility for benefits under the applicable benefit structure.

Normal Retirement Date

Age 65. The later of age 65 or the fifth anniversary of initial plan membership for members covered by the Marine Handling benefit structure.

Early Retirement Date

Between ages 55 and 65. Benefits payable under final average pay formula of the Commercial Salaried benefit structure or benefits payable under the Local 134, Marine Handling, Ward Stone, Quincy Hourly or Quincy Technical Design benefit structures also require completion of 10 years of continuous service (five years for benefits payable under the Resources Hourly or Lincoln Quarry benefit structures).

Disability Retirement Date

Ten years of continuous service. Also must be between age 45 and 65 for members covered by Indian Point at Resources Hourly, Lincoln Quarry, Marine Handling and Ward Stone benefit structures. Not applicable for members covered by the Commercial Salaried, OTS Garland Salaried or ATC Hourly benefit structures.

Normal Retirement Pension

A monthly pension equal to the accrued benefit based on salary, service and benefit levels in effect at the date operations were discontinued or the business was sold.

Early Retirement Pension

A member retiring early will be entitled to the full accrued benefit without reduction if certain age and service conditions are met; otherwise, a reduced benefit will be payable. The early retirement reduction varies by benefit structure.

2024 Schedule SB, Part V – Summary of Plan Provisions

Benefit Provisions of Discontinued Benefit Structures

Disability Retirement Pension

Generally, accrued normal retirement benefit.

Available Forms of Payment

Normal form of payment is a single life annuity. Optional forms of payment also available on an actuarial equivalent basis are 5 and 10 year certain and life annuities; 50%, 66-2/3%, 75% and 100% contingent annuities with and without pop-up feature; 50% joint and survivor annuity; and level income at 62 and 65 options. Available optional forms vary by benefit structure.

Employee Contributions

No employee contributions are required on or after January 1, 1982.

Termination

If terminating employment after completion of five years of continuous service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65 on an actuarial equivalent basis (same basis as for early retirement pension for members covered by the OTS Garland Salaried benefit structure) if early retirement requirements are satisfied; in no event is an amount less than the member's own contributions with regular interest returned.

Death Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 50% (100% for members covered by salaried benefit structures) contingent annuitant option.

Death After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.

Pension Enhancement

Certain members covered by the Resources Salaried and Commercial Salaried benefit structures will be entitled to a pension enhancement benefit of \$94 per month, prorated for less than 10 years of continuous service, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

If a member terminates with a deferred vested benefit, the pension enhancement benefit will be reduced by the ratio of the member's years of service at termination to the years of service he would have had at age 65.

Employee Transfers

Certain salaried employees who transfer between segments before January 1, 2005 remain subject to the terms of the salaried benefit structure that the employee was covered by prior to the transfer for benefit accruals prior to January 1, 2005. This summary of benefit provisions does not describe all such benefit structures. General Dynamics Retirement Plan (Commercial)

2024 Schedule SB, Line 24 – Change in Actuarial Assumptions

Changes in the following non-prescribed actuarial assumptions were made to better reflect anticipated experience under the plan:

- A change in the assumption related to assumed expenses payable from the trust from 0.12% of the market value of assets plus \$2,500,000 plus PBGC premiums to 0.18% of the market value of assets plus \$4,010,000 plus PBGC premiums.
- A change in the assumption related to the expected return on assets from 6.64% compounded annually to 4.50% compounded annually effective January 1, 2024.
