Independent Auditor's Report

Plan Administrator
FEMA Corporation Employee Stock Ownership Plan
Portage, Michigan

Opinion

We have audited the financial statements of the FEMA Corporation Employee Stock Ownership Plan (Plan), an employee benefit Plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted accounting standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted accounting standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the FEMA Corporation Employee Stock Ownership Plan

The following description of the FEMA Corporation Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, FEMA Corporation of Michigan, Inc. (Company or FEMA).

General

The Company established the Plan effective January 1, 1998. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Argent Trust Company (Trustee) is the Plan's Trustee.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after 90 days of service. Participants who do not have at least 1,000 hours of service during such Plan year are generally not eligible for an allocation of Company contributions for such year. Employees who are covered by a collective bargaining agreement, leased employees, or student employees are not eligible to participate in the Plan.

Vesting

Participants become 20% vested after two years of credited service and earn an additional 20% with each credited year of service thereafter. After six years of credited service, a participant is 100% vested. The six-year vesting schedule is as follows:

Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

The Plan also provides for 100% vesting for participants upon death, permanent disability, or terminating after their normal retirement date.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan, which when aggregated with the Plan's dividends and interest earnings, of an amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its long-term debt, if any. The Company may also make discretionary contributions to the Plan as determined by the Company's board of directors. The contributions made to the Plan for the years ended December 31, 2024 and 2023, were \$1,650,000 and \$1,700,000, respectively. Contributions are invested in Company stock and a money market account.

**FEMA Corporation Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Participant Accounts

The Plan is a defined contribution Plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account, if any, and forfeitures of terminated participants' nonvested accounts. Forfeiture allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances, net of forfeitures and withdrawals. Dividends on FEMA common stock are allocated to participant's accounts based on participant's ending share balance to all participants' ending share balances.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Plan provides that, while the Company is an S corporation, if a distribution is made in the form of Company stock, the put option must be exercised immediately. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

Distributions due to death, disability, or retirement may commence as soon as practicable following the event. In general, distributions for other separations from service commence following a one-year break in service. Distributions generally are in the form of a lump-sum amount. However, if the vested account balance is over \$25,000, the balance generally will be distributed in five annual periodic payments. Distributions are made in cash. The Plan adopted a separate distribution policy, which allows for acceleration of participant benefit payments for terminated participants. The following are the provisions of the terminated participant distribution policy:

1. If a participant's account balance is less than \$1,000, a lump-sum distribution will be made to the participant in the year following a one-year break in service by the participant.
2. If a participant's account balance is greater than \$1,000 but less than \$500,000, if the participant consents, the participant will be paid a lump-sum distribution within one year following the participant's termination due to retirement, death, or disability, or in the year following a participant's one-year break in service in the case of a participant's termination for any other reason.
3. If the participant's account balance is \$500,000 or more, if the participant consents, the participant will be paid in a series of substantially equal annual installments, subject to certain provisions.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

**FEMA Corporation Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Forfeitures

If a participant is not fully vested on his or her termination date, the non-vested amount of the account is forfeited. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Non-vested amounts in terminated participant accounts were forfeited and re-allocated to eligible participants' accounts in 2024 and 2023. There were no unallocated forfeitures at December 31, 2024 or 2023.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the employee benefits administration committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary to repay the loan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Company's shares of common stock are valued at estimated fair value. Fair value is determined by an annual independent appraisal.

Dividend income, if any, is recorded when declared. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

**FEMA Corporation Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. The Company has historically paid the operating expenses of the Plan.

Note 3. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consists of the Company's common stock, money market funds and cash.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4. Investments

The Plan's investments are presented in the following table, which are all allocated at December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Sponsor Company common stock - number of shares	14,299	14,299
Cost	\$ 6,949,257	\$ 6,949,257
Estimated fair value	\$ 51,070,308	\$ 49,610,381

Note 5. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair-value measurement must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	December 31, 2024			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Money market fund	330,224	330,224	-	-
Investments at fair value	<u>\$ 51,400,532</u>	<u>\$ 330,224</u>	<u>\$ -</u>	<u>\$ 51,070,308</u>

Money market fund	15,051,353	15,051,353	-	-
Investments at fair value	<u>\$ 64,661,734</u>	<u>\$ 15,051,353</u>	<u>\$ -</u>	<u>\$ 49,610,381</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets, pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 or 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

**FEMA Corporation Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The fair value of Company common stock is estimated based upon an independent appraisal.

The Plan sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting principles generally accepted in the United States of America.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	FEMA Corporation of Michigan, Inc. – Common Stock
Balance, January 1, 2023	\$ 62,830,715
Total realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits	(12,089,804)
Shares distributed	<u>(1,130,530)</u>
Balance, December 31, 2023	49,610,381
Total realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits	<u>1,459,928</u>
Balance, December 31, 2024	<u>\$ 51,070,308</u>

FEM

A Corporation of Michigan, Inc. Common Shares

The significant unobservable inputs used in the fair value measurement of the Company's common shares are the weighted average cost of capital, long-term revenue growth rate, long-term pretax operating margin, discount for lack of marketability and the control premium. Isolated significant increases (decreases) in the weighted average cost of capital or the discount for lack of marketability would result in a significantly lower (higher) fair value measurement while significant increases (decreases) in any of the other inputs in isolation would result in a significantly higher (lower) fair value measurement.

Note 6. Plan Amendment

Effective December 7, 2023, the Plan was amended to allow for a transfer of assets to the FEMA Corporation of Michigan, Inc. Profit-Sharing Retirement Plan. On April 15, 2024, the Plan transferred \$13,047,734 to the FEMA Corporation of Michigan, Inc. Profit-Sharing Retirement Plan, which were properly allocated to participants.

Note 7. Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. This matter includes the following:

Valuation of FEMA Corporation Employee Stock Ownership Plan

The common stock of the Company owned by the Plan is valued at its estimated fair value as determined by annual independent appraisal. The actual fair value of the common stock can only be determined based on an ultimate sale of the Company.

Note 8. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 9. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 23, 2023, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Company provides certain administrative services at no cost to the Plan.

Note 11. Subsequent Events

Subsequent events have been evaluated through October 1, 2025, which is the date the financial statements were available to be issued.
