## Independent Auditor's Report

**To the Retirement Committee  
Retirement Plan for Employees of UniSea, Inc.  
Redmond, Washington**

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Retirement Plan for Employees of UniSea, Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

[clarknuber.com](http://clarknuber.com)

- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matter - Supplemental Schedules Required by ERISA**

The supplementary information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplementary information agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Notes to Financial Statements For the Years Ended December 31, 2024 and 2023

---

#### Note 1 - Description of the Plan

The following description of the Retirement Plan for Employees of UniSea, Inc. (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan is a noncontributory defined benefit pension plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Participating Employers include UniSea, Inc. (the Company), a branch of Fishking Processors, Inc. (formerly, UniSea Foods, Inc.) and Dutch Harbor Seafoods, Ltd (DHSF) (collectively, the Sponsor).

On February 15, 2015, the Board of Directors of the Company voted to amend the Plan and to freeze it effective February 15, 2015 (the Freeze Date). No additional employees will become plan participants after the Freeze Date and no participant's service or compensation earned on or after February 15, 2015, will be taken into account for purposes of determining a participant's monthly accrued benefit. All participants with at least five years of service on the Freeze Date shall be fully vested in their monthly accrued benefits as of such date. Contributions from the Sponsor will continue based on minimum amounts required to be funded under provisions of the Internal Revenue Code (IRC) and ERISA.

As of August 31, 1998, the Company sold all of the outstanding common stock of UniSea Foods, Inc. to Fishking Processors, Inc., a majority-owned subsidiary of Nippon Suisan (U.S.A), Inc. Both the Company and Nippon Suisan (U.S.A.), Inc. are wholly-owned by Nippon Suisan Kaisha, Ltd., a Japanese corporation. The employees of UniSea Foods, Inc. continue as participants in the Plan. Employer contributions to be made after August 31, 1998 relating to these employees will be paid by UniSea Foods, Inc. Effective December 31, 1999, benefit accruals of the Plan pertaining to the employees of UniSea Foods, Inc. were frozen. UniSea Foods, Inc. employees will not earn any additional benefits under the Plan for services rendered subsequent to the effective date, and their current accrued benefits will not be adjusted for any changes in compensation subsequent to that date. Active employees of UniSea Foods, Inc. on or after December 31, 1999, with credited benefits will be 100% vested in their earned benefits.

**Plan Administration** - The Plan is administered by the Retirement Committee of the Company.

**Funding Policy** - The Sponsor's funding policy is to make contributions under the Plan that meet or exceed the minimum funding standards of ERISA and the IRC. Contributions to the Plan by the Sponsor are based on an actuarial determination. Minimum funding requirements of ERISA were met for the years ended December 31, 2024 and 2023.

**Benefits** - The Plan provides for pension benefit payments to participants as set forth in the plan document based on their monthly salaries while employed by the Sponsor prior to the Freeze Date. At the time of plan amendments effective February 15, 2015, plan participants were fully vested in benefits attributable to the Sponsor's contributions if they had attained five years of service or reached age 65. Upon attaining age 59½, retirement, disability, or death, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime. Participants may defer payment of their benefit until a later date. If an active participant dies after having completed five years of service, the beneficiary is entitled to a death benefit equivalent to the present value of accrued retirement income at the time of death.

### Notes to Financial Statements For the Years Ended December 31, 2024 and 2023

#### Note 2 - Summary of Accounting Policies

**Basis of Accounting** - The financial statements have been prepared on the accrual basis of accounting.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits** - Benefits are recorded when paid.

**Administrative Expenses** - Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Certain investment related expenses are charged directly against the fund's investment performance and, therefore, are not separately disclosed in the accompanying financial statements.

**Subsequent Events** - The Plan's management has evaluated subsequent events through September 14, 2025, the date on which the Plan's financial statements were available to be issued.

#### Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by participants. Accumulated benefits include benefits expected to be paid to retired or terminated participants or their beneficiaries and to present participants or their beneficiaries. Benefits for active, retired, or terminated employees or their beneficiaries are based on salaries and credited service through the Freeze Date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the Freeze Date.

The actuarial present value of accumulated benefits, as determined by Milliman Inc., the Plan's independent consulting actuarial firm, is the amount that results from applying actuarial assumptions to adjust the accumulated benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement charges) between the valuation date and the expected date of payment. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

#### Note 3 - Continued

Accumulated plan benefits and net assets available for benefits as of December 31, 2023 was as follows:

Actuarial present value of accumulated plan benefits-	
Vested benefits:	
Retired participants or beneficiaries currently receiving benefits	\$ 8,538,443
Active or terminated employees not currently receiving benefits	<u>21,040,272</u>
<b>Actuarial Present Value of Accumulated Plan Benefits at December 31, 2023</b>	<b><u><u>\$ 29,578,715</u></u></b>

Changes in accumulated plan benefits from the prior year were as follows:

Actuarial present value of accumulated plan benefits at December 31, 2022	\$ 30,690,149
Increase (decrease) attributable to-	
Reduction in discount period	1,288,949
Actuarial gain	(89,538)
Benefit payments	(2,002,984)
Change in actuarial assumptions	<u>(307,861)</u>
Net decrease	<u>(1,111,434)</u>
<b>Actuarial Present Value of Accumulated Plan Benefits at December 31, 2023</b>	<b><u><u>\$ 29,578,715</u></u></b>

The significant actuarial assumptions used in the valuation as of December 31, 2023 are as follows:

Interest Rates - 4.46% per year (adopted December 31, 2023).

Mortality Basis - Pri-2012 Mortality Tables, then projected forward using MP-2021 on a generational basis, with sex-distinct Employee rates before benefit commencement and retiree rates after benefit commencement.

Retirement Age - Ranging from age 55 to 72 (weighted average retirement age for active participants is 62).

The interest rate used to discount the obligation as of December 31, 2023 was 4.46% (4.34% at December 31, 2022). Other actuarial assumption changes include 1) changing the lump sum interest rate to 5.55% from 5.30% to reflect current statutory effective interest rates for benefits expected to be distributed in a lump sum.

These actuarial assumptions are based on the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**Note 4 - Fair Value Measurements**

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than the quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that are significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan’s management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Pooled Separate Accounts - Valued at the net asset value (NAV) provided by Principal Life Insurance Company (Principal). The NAV is based on the fair value of the underlying investments less its liabilities. These pooled separate accounts trade on a regular basis, have published prices that the Plan can obtain at any time and are valued based on this published price.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31:

	Fair Value Measurements as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ 26,612,887	\$ -	\$ -	\$ 26,612,887

#### Note 5 - Certified Information

Certain information in the accompanying financial statements and supplementary information related to investments held as of December 31, 2024 and 2023, and investment income or loss for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company, a qualified institution. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

#### Note 6 - Plan Termination

Although it has not expressed any intent to do so, the participating employers have the right to terminate the Plan. Upon complete or partial termination of the Plan, retirement income accrued by affected participants will be nonforfeitable to the extent funded. The assets of the Plan will be allocated to those affected participants to the extent and in the order of preference set forth in Section 4044 of ERISA. Any assets remaining after the allocation and after satisfaction of all liabilities of the Plan with respect to the participants will be returned to the participating employers. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable statutory limitations. Should the Plan terminate, the level of benefits guaranteed by the PBGC and the Plan's net assets at the date of the termination would determine the amount of available benefits.

#### Note 7 - Risks and Uncertainties

Plan assets are invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

#### **Note 8 - Income Tax Status**

The Plan obtained its latest determination letter on September 16, 2020, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

#### **Note 9 - Party-in-Interest Transactions**

Certain Plan investments are managed by Principal and its affiliates. Principal is the trustee for the Plan and, therefore, transactions with such investments are party-in-interest transactions. The Plan pays certain expenses related to plan operations to various service providers. These transactions are party-in-interest transactions.

#### **Note 10 - Concentrations of Credit Risk**

Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of the LDI Long Duration and LDI Intermediate Duration pooled separate accounts issued by Principal. These investment represent approximately 94% and 89% of total plan investments at December 31, 2024 and 2023, respectively. The Plan's management seeks to limit its credit exposure by working with high credit quality institutions.

## Appendix A – Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded and accounted for. Annual contributions and accounting expense are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

### Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

The actuarial cost method used for determining the Plan Sponsor's FASB ASC Topic 715 accounting requirements is the Projected Unit Credit method, as required by FASB. Under this method, a projected benefit is determined at each active participant's assumed retirement age assuming future compensation increases. The Plan's Normal Cost is the sum of the present value of the portion of each active participant's projected benefit attributable to the current year of service. The Plan's accrued liability is the sum of (a) the present value of the portion of each active participant's projected benefit attributable to all prior years of service plus (b) the present value of each inactive participant's benefits.

### Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22 (adopted January 1, 2009). Under this method, the Actuarial Value of Assets equals the Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Market Value of Assets. The Market Value of Assets is equal to the Fair Value of Assets as of the valuation date plus the discounted value of employer contributions made after the valuation date. These contributions are discounted to the valuation date using the Effective Interest Rate for the prior plan year. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 4.46% per year, 4.34% for 2023, and 3.40% for 2022) or the applicable statutory interest rate for the year.

The Market-Related Value of Assets used for determining the Plan Sponsor's FASB ASC Topic 715 accounting requirements is equal to the Fair Value of Assets (without inclusion of any receivable contributions).

### PBGC Variable-Rate Premium Method

The standard method is used for the PBGC variable-rate premium calculation (adopted January 1, 2014).

## **Amortization Method**

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

For FASB ASC Topic 715 accounting purposes, cumulative unrecognized net gains or losses (excluding asset gains or losses not yet reflected in the Market-Related Value of Assets) in excess of 10% of the greater of (a) the Market-Related Value of Assets and (b) the Projected Benefit Obligation are amortized over the average future service of active participants.

## **Changes in Actuarial Methods Since Prior Valuation**

None.

## Appendix B – Summary of Actuarial Assumptions

### ECONOMIC ASSUMPTIONS

#### Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	4.75%	3.62%	5.01%
Segment 2 (5–20 years)	4.87%	4.46%	5.13%
Segment 3 (20+ years)	5.59%	4.52%	5.15%
Effective Interest Rate	5.01%	4.38%	5.12%

**ERISA minimum funding:** 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate floor and applicable segment rate stabilization corridor consistent with IRS requirements.

**Maximum deductible:** 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect the segment rate floor or segment rate stabilization consistent with IRS requirements.

**PBGC premium:** Spot segment rates for the month preceding the valuation date. The standard method is used for the PBGC variable-rate premium calculation consistent with PBGC requirements.

**FASB ASC Topic 715:** 5.29% per year established on the December 31, 2023 measurement date (adopted December 31, 2023). This discount rate represents the theoretical rate at which the liabilities could be settled in the bond market as of the measurement date. It is based on the Milliman Bond Matching Model as described in the actuary's letter dated January 10, 2024.

**FASB ASC Topic 960:** 4.46% per year (adopted January 1, 2024). This represents the expected long-term geometric mean return on assets based on the Plan's investment policy, including target asset allocation, and the actuary's capital market expectations.

#### Lump-Sum Interest Rates

**ERISA minimum funding and maximum deductible:** Same as funding segment rates described above (adopted January 1, 2010).

**FASB ASC Topics 715:** 5.30% per year established on the December 31, 2023 measurement date (adopted December 31, 2023). This represents the statutory effective interest rates for benefits expected to be distributed in a lump sum as of the measurement date.

**FASB ASC Topics 960:** 5.30% per year (adopted January 1, 2024). This represents the current statutory effective interest rate for benefits expected to be distributed in a lump sum.

## Asset Returns

**ERISA minimum funding and maximum deductible:** 4.46% per year (adopted January 1, 2024). This represents the expected long-term geometric mean return on assets based on the Plan's investment policy, including target asset allocation, and the actuary's capital market expectations.

**FASB ASC Topic 715:** 4.77% per year (adopted December 31, 2023). This represents the expected long-term arithmetic mean return on assets based on the Plan's investment policy, including target asset allocation, and the Plan Sponsor's capital market expectations.

## Compensation Increases

Not applicable. (Benefit accruals are frozen.)

## Inflation (CPI)

2.30% per year (adopted January 1, 2015). This is based on the actuary's capital market expectations.

## Postretirement Benefit Increases

None. (The Plan does not provide for automatic postretirement benefit increases.)

## Maximum Benefit and Annual Compensation Limitation Increases

Not applicable. (Benefit accruals are frozen.)

## Administrative Expenses

An allowance of \$50,000 for administrative expenses has been included in the Normal Cost, reflecting the actual administrative expenses paid from the Plan's trust during the previous year (adopted January 1, 2009 and updated annually).

## DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary's judgment and continued review of experience.

### Mortality

**ERISA minimum funding, maximum deductible, and PBGC premium:** The mortality assumption is based on IRS and PBGC regulations (adopted January 1, 2008 and updated annually).

Non-Annuitant and Annuitant Mortality Tables, sex-distinct, as prescribed by IRC Section 430(h)(3)(A) for IRS funding requirements.

**FASB ASC Topics 715 and 960:** The mortality assumption is based on the Pri-2012 and MP-2021 tables published by the Society of Actuaries (adopted January 1, 2022). This represents the most current mortality experience published by the Society of Actuaries as of the valuation date.

Pri-2012 Mortality Tables projected forward using Scale MP-2021 on a generational basis, with sex-distinct Employee rates before benefit commencement, Retiree rates after benefit commencement, and Contingent Survivor rates for current and future survivors.

## Lump-Sum Mortality Basis

**ERISA minimum funding, maximum deductible, and PBGC premium:** Statutory lump-sum mortality table for the current year projected to the decrement date using Adjusted Scale MP-2021 on a generational basis (adopted January 1, 2008 and updated annually).

**FASB ASC Topics 715 and 960:** Statutory lump-sum mortality table for the current year projected to the decrement date using Adjusted Scale MP-2021 on a generational basis (adopted January 1, 2008 and updated annually).

## Retirement

The retirement assumption for active participants is based on the actuary's 2023 demographic experience study. Annual rates are shown below for active participants who are eligible to retire (adopted January 1, 2024).

Age	Retirement Rate
55 – 63	8.0%
64	15.0
65	25.0
66 – 71	30.0
72+	100.0

The retirement assumption for terminated vested participants is based on the actuary's 2023 demographic experience study. Annual rates are shown below for terminated vested participants who are eligible to retire (adopted January 1, 2024).

Age	Retirement Rate
55 – 58	2.0%
59 – 63	8.0
64 – 71	25.0
72+	100.0

## Termination

The termination assumption is based on the actuary's 2017 demographic experience study. Annual rates are shown below\* (adopted January 1, 2018).

Service	Termination Rate
0	24.0%
1	22.0
2	20.0
3	18.0
4	17.0
5	16.0
6	15.0
7	14.0
8	13.0
9	12.0
10	11.0
11	10.5
12	10.0
13	9.5
14	9.0
15+	8.0

\* Seasonal employees are assumed to be active as long as they complete 1,000 hours per year.

## Disability

Not applicable. (The Plan does not provide any special benefits for termination due to disability.)

## Decrement Timing

Decrements are assumed to occur at the beginning of the year.

## Form of Payment

The form of payment assumptions are as follows (adopted January 1, 2024):

- 90% of active participants are assumed to elect a lump-sum distribution upon retirement at all ages.
- 10% of active participants are assumed to elect a life annuity at all ages.
- 85% of terminated vested participants are assumed to elect a lump sum distribution upon retirement prior age 72.
- 15% of terminated vested participants are assumed to elect a single life annuity upon retirement prior to age 72.
- Terminated vested participants who retire on or after age 72 are assumed to elect a single life annuity.

(All optional forms are actuarially equivalent to the Plan's normal form of payment.)

## Marital Characteristics

**For participants not in pay status:** 100% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be three years older than females.

**For participants in pay status:** Actual birth dates of spouses are included in the census data, where relevant.

**For beneficiaries:** Actual birth dates are included in the census data, where relevant.

## Benefits Not Valued

All plan benefits are valued.

## Special Data Adjustments

None.

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Employer Contributions for Prior Plan Year**

The employer contributions for the prior plan year ending December 31, 2024 were paid or are payable on the dates and in the amounts shown below. The prior plan year's Effective Interest Rate of 5.01% per year is used to discount contributions back to January 1, 2024. Contributions (or portions of contributions) made after the due date for a quarterly required contribution are penalized an additional 5% per year during the late period. Contributions made solely to avoid the application of benefit restrictions cannot be considered in determining excess contributions.

## Appendix C – Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

### Definitions

**Accrued Benefit:** A monthly benefit equal to 2% of a participant's average monthly compensation, multiplied by years of benefit service (up to a maximum of 15 years).

**Actuarially Equivalent:** Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants. For purposes other than determining lump-sum amounts, actuarially equivalent factors are based on the 1984 Unisex Pension Mortality Table (with ages set back three years for joint annuitants) and a 6% interest rate. For purposes of determining lump-sum amounts, actuarially equivalent factors are based on the applicable mortality table in effect under IRC Section 417(e)(3) for the plan year of distribution and the statutory three-tier segment interest rates in effect for the second month prior to the month of distribution (i.e., monthly stability period with a two-month lookback period).

**Average Monthly Compensation:** The average monthly compensation during the highest five consecutive years of the employee's earnings prior to the applicable benefit accrual freeze date. Plan compensation is restricted to the statutory compensation limit.

**Benefit Service:** A plan year during which an employee has at least 1,000 hours of service.

For UniSea, Inc., no service after February 15, 2015 is recognized for benefit accrual purposes.

For UniSea Foods (K&P Seafood), no service after December 31, 1999 is recognized for benefit accrual purposes.

For Dutch Harbor Seafoods, Ltd., a year of service was credited for 2001 based upon 800 hours of service.

### Employers:

Frozen: UniSea, Inc.

Frozen: UniSea Foods (K&P Seafood).

Terminated: Dutch Harbor Seafoods, Ltd.

**Plan Effective Date:** January 1, 1985, as amended through January 1, 2024.

**Plan Year:** The 12-month period beginning January 1 and ending December 31.

**Vesting Service:** A plan year during which an employee has at least 1,000 hours of service.

### Eligibility for Participation

Prior to February 15, 2015, an eligible employee became an active participant on the later of January 1, 1985 or the first day of the month coinciding with or next following attainment of age 18; and completion of a 12-month period in which 1,000 hours of service were completed.

## Normal Retirement

**Normal Retirement Date:** The first day of the month on or following the attainment of age 65.

Normal Retirement Benefit: The Accrued Benefit.

## Early Retirement

**Early Retirement Date:** The first day of any month on or following completion of five years of service.

**Early Retirement Benefit:** The Accrued Benefit, reduced by 1/180 for each of the first 60 months and by 1/360 for each of the next 60 months and actuarially thereafter for the period in which the Early Retirement Date precedes the Normal Retirement Date.

## Late Retirement

**Late Retirement Date:** The first day of the month following the date of termination of service if it occurs after the Normal Retirement Date.

**Late Retirement Benefit:** The greater of (i) the Accrued Benefit determined as of the Late Retirement Date, or (ii) the Accrued Benefit determined as of the Normal Retirement Date (or the first day of any plan year following the Normal Retirement Date), and actuarially increased to the Late Retirement Date.

## Vested Termination

**Vested Percent:** 100% following completion of five years of service. Full vesting if employed at age 65 (or later). For UniSea Foods (K&P Seafood), 100% vesting as of December 31, 1999, due to benefit freeze. For Dutch Harbor Seafoods, Ltd., 100% vesting during 2001, due to partial plan termination.

**Vested Termination Benefit:** For vested participants, the Accrued Benefit deferred to the Normal Retirement Date (or a reduced benefit as of any Early Retirement Date).

## Death Benefit

**Death Benefit Eligibility:** Surviving spouses of participants who die before commencement of payments.

**Preretirement Death Benefit:** 100% of the benefit that would have been payable had the deceased participant instead retired the day before his or her death with the joint and 100% survivor annuity in effect.

## Disability Retirement

Disability retirement is determined in the same manner as for early retirement, except that service may be adjusted to include a period of disability.

## Forms of Payment

**Normal Forms:** Life annuity if not married, actuarially equivalent joint and 50% survivor annuity if married.

**Optional Forms:** Life annuity; actuarially equivalent life annuity with 10 years certain; actuarially equivalent joint and 50%, 75%, or 100% survivor annuity (with spouse); lump-sum distribution (available at any age).

Shortfall Amortization

The amount needed to amortize the Funding Shortfall to the Applicable Funding Target for the plan year beginning January 1, 2024 is determined below. The Funding Shortfall is amortized in fifteen level payments using the interest rates for determining the Applicable Funding Target for the current plan year.

1. Applicable Funding Target	\$28,237,819
2. Actuarial Value of Assets less Prefunding Balance	31,804,435
3. Funding Shortfall [(1) - (2), but not < \$0]	n/a
4. Amortization factor	n/a
5. Shortfall Amortization for current plan year [(3) ÷ (4)]	Exempt

## CHANGES IN ACTUARIAL ASSUMPTIONS SINCE PRIOR VALUATION

**Interest rates for ERISA minimum funding:** Effective January 1, 2024, the interest rates used to determine the minimum funding requirements were updated based on the applicable 24-month average segment rates with a four-month lookback from the valuation date, adjusted to reflect the segment rate floor and applicable segment rate stabilization corridor. The interest rates were updated to comply with IRS requirements, and they reflect the amendments under Section 9706 of the American Rescue Plan Act of 2021 (ARPA).

**Interest rates for maximum deductible:** Effective January 1, 2024, the interest rates used for maximum deductible purposes were updated as noted above, but not adjusted to reflect the segment rate floor or applicable segment rate stabilization corridor. The interest rates were updated to comply with IRS requirements.

**Interest rates for PBGC premium:** Effective January 1, 2024, the interest rates used for PBGC variable-rate premium purposes were updated to the spot segment rates in effect for the month preceding the valuation date. The interest rates were updated to comply with PBGC requirements.

**Interest rate for FASB ASC Topic 715:** The FASB ASC Topic 715 discount rate was changed to 5.29% per year effective December 31, 2023. This discount rate was changed to reflect interest rates currently available on high-quality fixed income investments on each respective effective date.

**Interest rate for FASB ASC Topic 960:** Effective January 1, 2024, the FASB ASC Topic 960 interest rate was changed from 4.34% to 4.46% per year. The interest rate was changed to better reflect anticipated future asset experience.

**Lump-sum interest rate for ERISA minimum funding, maximum deductible, and PBGC premium:** Effective January 1, 2024, the lump-sum interest basis was updated to the applicable interest rates used for these purposes as noted above. The lump-sum interest rate basis was updated to comply with IRS and PBGC requirements.

**Lump-sum interest rate for FASB ASC Topics 715:** The lump-sum interest rate was changed to 5.30% per year effective December 31, 2023. This lump-sum interest rate was changed to reflect the statutory effective interest rate for benefits expected to be distributed in a lump sum as of each respective effective date.

**Lump-sum interest rate for FASB ASC Topics 960:** Effective January 1, 2024, the lump-sum interest rate was changed from 5.55% to 5.30% per year. The lump-sum interest rate was changed to reflect the current statutory effective interest rate for benefits expected to be distributed in a lump sum.

**Asset return for funding:** Effective January 1, 2024, the asset return assumption for funding purposes was changed from 4.34% to 4.46% per year. The asset return assumption was changed to better reflect anticipated future asset experience.

**Asset return for FASB ASC Topic 715:** Effective December 31, 2023, the FASB ASC Topic 715 asset return rate was changed from 4.64% to 4.77% per year. The asset return rate was updated to reflect changes in the Plan Sponsor's long-term investment strategy.

**Mortality for ERISA minimum funding, maximum deductible, and PBGC premium:** Effective January 1, 2024, the mortality table was updated as prescribed by IRC Section 430(h)(3)(A). The mortality assumption was updated to comply with IRS and PBGC requirements.

**Lump-sum mortality basis for ERISA minimum funding, maximum deductible, PBGC premium, FASB ASC Topic 715, and FASB ASC Topic 960:** Effective December 31, 2023 for FASB Topic 715 and January 1, 2024 for all other bases, the lump-sum mortality basis was updated to the statutory lump-sum mortality table for the current year. The lump-sum mortality basis was updated to comply with IRS and PBGC requirements.

**Administrative expenses:** Effective January 1, 2024, the administrative expense load was updated to reflect actual administrative expenses paid from the Plan's trust during the previous year.

**Retirement Rates:** Effective January 1, 2024, the assumed rates of retirement for active and terminated vested participants were updated to better reflect recent and anticipated experience.

**Form of Payment:** Effective January 1, 2024, the assumed form of payment election for active and terminated vested participants was updated to better reflect recent and anticipated experience.
